A. CROFT, *Director of Public Instruction*

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

The next examination of candidates for Pleadership will be held on the 22nd, 23rd and 24th February next, in the Senate House of the Calcutta University.

The next examination of candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gauhatty and Sylhet on same days; the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership candidates will be examined *viva voce* only on the 22nd February, commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 23rd and 24th February. Two papers will be set for the Mookhtarship candidates on the 22nd February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 23rd and 24th February commencing at 10 A.M. each day.

Under no circumstances will any candidate be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovementioned).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

HENRY T. HYDE,
Secy. to the Board of Examiners for Pleadership and Mookhtarship.

NOTIFICATIONS.

JUDICIAL.

The 30th December 1891.

No. 1730.—In accordance with the provisions of sub-section (4) of section 18 of the Indian Factories Act, 1881, as amended by Act XI of 1891, the Governor-General in Council is pleased to publish for general information the following rule which His Excellency in Council proposes to make in exercise of the power conferred by clause (2), section 18 of the said Act. The draft will be taken into consideration on the expiration of two months from the date of publication of this Notification in the *Gazette of India*:—

Every occupier of a factory shall furnish to the Magistrate of the District or, if the factory is situate within the limits of a Presidency town, to the Special Inspector of Factories or other officer designated in this behalf by the Local Government, the undermentioned returns on or before the dates specified against each:—

I.—On or before the 15th July and the 15th January, respectively, a half-yearly return relating to the first and second half of each calendar year in the following form:—

Name and situation of factory.	Name of owner or occupier.	Name of manager.	Nature of industry.	Nature and amount of moving power.	Average daily number of operatives employed.				Whether the factory is worked by shifts or stoppages. If the latter, the hour and extent of daily stoppage.	Whether there is a general holiday on Sunday or on varying week days, or whether the factory has been exempted from the rule as to Sunday labour under section 5 B (1), clause (c) of the Act.	Remarks.
					Adults.		Children.				
					Male.	Female.	Male.	Female.			

N. B.—The average daily number of children is to be taken from the register of children kept in the factory.

II.—On or before the 15th January of each year an annual return in the following form regarding measurements and space :—

Name and situation of factory.	Name of occupier.	Measurements and cubical contents of each room in the factory.	Area of the floor-space of any room shown in the preceding column occupied by machinery or other fixtures.	Remarks.

III.—Before the end of each calendar month a return giving notice of all the days on which the factory will be closed during the ensuing month.

The 31st December 1891.

No. 1735.—In exercise of the power conferred by sub-section (2) of section 5 (A) of the Indian Factories Act, 1881, as amended by Act XI of 1891, the Governor-General in Council is pleased to declare that the provisions of sub-section (1) of the same section shall not apply to the Calcutta and Bombay Mints.

EDUCATION.

The 1st January 1892.

No. 1.—The Governor-General in Council has been pleased to re-appoint the Honourable Dr. Gooroo Dass Banerjee, whose tenure of office has expired by effluxion of time, to be Vice-Chancellor of the University of Calcutta.

C. J. LYALL,
Secretary to the Government of India.

The following orders, issued by the Government of India in the Revenue and Agricultural Department, are republished for general information.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

EMIGRATION.

The 28th December 1891.

No. 2684—12.—The following draft of proposed amendments of, and additions to, the rules under the Indian Emigration Act (XXI of 1883) is published under section 81 of that Act for the information of persons likely to be affected thereby, and notice is hereby given under that section that the draft will be taken into consideration by the Governor-General in Council on the 2nd February 1892.

2. Any objection or suggestion which may be made by any person with respect to the draft before that date will be received and considered by the Governor-General in Council.

Draft of proposed amendments under Schedules A and C.

(1) In Schedule A under the heading "Fire-Engines and Buckets," for the words "The number of fire-engines and fire-buckets to be carried in an emigrant ship shall be as follows," substitute the following :—"The number of fire-engines, whether worked by hand or steam, and fire-buckets to be carried in an emigrant ship shall be as follows, and in the case of fire-engines shall be exclusive of the steam-engine prescribed in Schedule C for the working of the distilling and steam-cooking apparatus."

(2) In the same schedule, for the paragraph under the heading "Pumps" substitute the following :—

"*Pumps.*—Three pumps shall be carried independently of other prescribed pumps, viz., one head pump, one stern pump drawing salt water for cleaning, washing decks, &c., and one hold pump with flexible hose for issuing fresh water on the upper deck."

(3) In Schedule C for paragraph 1, substitute the following :—"All condensers shall have a separate engine for working the circulating cold water pump; and this engine shall be worked exclusively for feeding the steam boiler, except in cases of fire breaking out on board, when it may be utilized for the extinguishing of fire in conjunction with the separate fire-engines or pumps prescribed in Schedule A."

FORESTS.

The 29th December 1891.

No. 1348*F.*—With reference to paragraph 12 of the Circular Resolution of this Department, No. 30F., dated the 29th instant, the following appointments and transfers of Forest Officers are made in the interests of the public service :—

* * * *

Mr. W. M. Green, Deputy Conservator, 3rd grade, Bengal—to Burma.

* * * *

E. C. BUCK,
Secretary to the Government of India.

The following orders, issued by the Government of India in the Military Department, are republished for general information.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, JANUARY 6, 1892.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 31st December 1891.—It is hereby notified for general information that, under Rule 64 of the Rules framed under section 138(*a*) of the Bengal Local Self-Government Act, 1885, the Lieutenant-Governor is pleased to fix Wednesday, the 16th March 1892, as the date for holding an election under section 19 of the Act in thana Jhenidah, in the district of Jessore, for the purpose of filling the vacancy in the representation of that thana on the Local Board of Jhenidah, caused by the death of Babu Srinath Sircar.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 31st December 1891.—It is hereby notified that, under section 19, Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to appoint Mr. Walter Charles Lydiard to be a member of the Serajgunge Local Board, in the district of Pubna, *vice* Mr. C. MacDonell.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 31st December 1891.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Babu Bepin Mohan Sahanavis to be a Commissioner of the Baduria Municipality, in the district of the 24-Pergunnahs, *vice* Moonshi Mushiuddin Ahmed, who has ceased to be a Commissioner under section 20 of the Act.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 31st December 1891.—It is hereby notified for general information that, in exercise of the power vested in him by section 139, clause 2 of Act III (B.C.) of 1885, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the District Board of Nuddea under clause 1 of the said section—

Bye-laws relating to roads, tanks, water-channels and cattle-pounds framed by the District Board, Nuddea, under section 139 of the Bengal Local Self-Government Act, 1885.

1. No person shall leave any cart or carriage on any public road so as to cause inconvenience and obstruction to the public traffic except for the time occupied in loading or unloading it. The penalty for infringement shall be a fine not exceeding Rs. 10.

2. No person shall without good and sufficient reason allow any moveable property to remain on any road so as to obstruct traffic on the road. The penalty for infringement shall be a fine not exceeding Rs. 20.

3. No bricks or wood or other things shall be deposited on any public road or on the sides or slopes thereof for more than a reasonable time without the permission of the officer in charge of the road. The penalty for infringement shall be a fine not exceeding Rs. 20. Penalty for continued infringement after notice shall be a fine not exceeding Rs. 5 daily.

Explanation.—Reasonable time means time required for doing a thing under the circumstances.

4. All owners and drivers of carts and other vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any public road. The penalty for infringement shall be a fine not exceeding Rs. 10.

5. No person shall expose or place any article for sale in any bazar or market in the vicinity of a public road, or collect or gather any substance there so as to interfere with the traffic of the road. The penalty for infringement shall be a fine not exceeding Rs. 10.

6. No person shall construct or place over or by the side of any side excavation or borrow-pits of any public road any culvert, platform, building, or structure of any other kind except with the written permission of the District or Local Board and in such manner as they shall direct. The penalty for infringement shall be a fine not exceeding Rs. 20. The penalty for continued infringement shall be a fine not exceeding Rs. 2 daily.

7. Whoever in possession of or having control over any trees, bamboos, shrubs, or fencings overhanging any public tank or any public road, its slopes, berms or side excavations, does not, on a requisition signed by the Chairman of the District or Local Board, cut or trim the same in such a manner as he shall be required to do in such notice, shall be liable to a fine not exceeding Rs. 50, and to a daily fine not exceeding Rs. 2, until such requisition be complied with.

8. Whoever shall tap any date or palm tree or remove fruits from any tree on any road, its slopes, berms, or side excavations without any lease or written permission previously obtained from the Chairman of the District or any Local Board having jurisdiction on such road shall be liable to a fine not exceeding Rs. 20.

9. No person shall perform any office of nature on any public road except on the slopes and berms of portions of roads passing through uninhabited tracts. The penalty for infringement shall be a fine not exceeding Rs. 5.

10. Whoever tethers any cattle as defined in Act I of 1871 passed by the Governor-General of India in Council on any road or its slopes or side drains or on any land close to the same with a view to enable it to graze on such road, its slopes, or side drains, shall be liable to a fine not exceeding Rs. 25.

11. No person shall cut any sod or grass or remove earth from any public road or slopes, berms, and side excavations thereof. The penalty for infringement shall be a fine not exceeding Rs. 10.

12. No person shall build or dig or cause to be built or dug any grave on or on the slopes, berms, or side excavations of any public road. The penalty for infringement shall be a fine not exceeding Rs. 20.

13. No person shall steep any jute, hemp, or bamboos in any roadside excavations or tank, khal, or any reservoir belonging to the District or any Local Board of the district. The penalty for infringement shall be a fine not exceeding Rs. 20.

14. Whoever encroaches on or damages any part of any road constructed or repaired at the expense of the District or Local Board by cultivating crops or in any other way shall be liable to a fine not exceeding Rs. 20.

15. Whoever, without the special permission of the District or Local Board, causes or is likely to cause any obstruction to the traffic on, or injury to, any public road by cutting the same, wholly or partially, for purposes of irrigation or drainage of any adjacent land shall be liable to a fine not exceeding Rs. 50.

16. Any person passing over or driving any animal or vehicle over a road, bridge, culvert, or canal, while in course of construction or repair, or affected by flood or otherwise rendered unfit for traffic, and closed for such traffic under the orders of the Chairman of the District Board or of any Local Board, so as to injure the same, shall be liable to a fine not exceeding Rs. 10, in addition to any compensation for the damage caused by him which may be awarded by a court of competent jurisdiction, provided that a passage is given to the traffic through another part of the road or otherwise.

Explanation.—Orders passed by the District Engineer in anticipation of the sanction of the Chairman of the District Board or any Local Board in emergent cases will have the force of orders passed by the Chairman of such Board.

17. No cart shall pass over the metalled portion of any road when by a notice of the District Board cart traffic is allowed by the *cutcha* portion and disallowed over the *pucca* portion of the road. Penalty for infringement shall be a fine not exceeding Rs. 20.

18. Whoever makes any encroachment on any public road or on slopes, berms, or side land thereof by constructing a building, wall, shed, or hut or any other structure, or by cultivating or preparing for cultivation any part thereof, shall on conviction be liable to a fine not exceeding Rs. 50, and to a further fine not exceeding Rs. 5 for every day during which offence is continued after he has been convicted of such offence.

19. Whoever throws or lays down dirt, filth, débris, or rubbish, or stacks straw, stone, or building materials of any kind on any public road or slopes and side lands thereof, so as to cause obstruction to traffic or to cause any sort of damage or inconvenience to the passengers shall be liable to a fine not exceeding Rs. 10.

20. Whoever fails to observe the rules of the road by not keeping on the left while riding or driving, or fails to carry a conspicuous light when driving in a dark night on any part of any public road passing through a village or town, or being the driver of any elephant, and being required by the rider or driver of any horse to remove such elephant to a sufficient distance from such road, shall fail to remove his elephant with reasonable promptitude, shall be liable to a fine not exceeding Rs. 20.

21. No person shall destroy or damage or cause to be destroyed or damaged wholly or partially in any manner any tree on any public road or on its slopes, berms or side lands, or remove any tree or branches thereof from any such road without written permission of the District or Local Board having jurisdiction. Penalty for infringement shall be a fine not exceeding Rs. 20.

22. No person shall block up or cause to be blocked up any opening of any culvert or bridge or any super-passage or flood-escape of any kind on any public road without the written permission of the District or Local Board having jurisdiction. Penalty for infringement shall be a fine not exceeding Rs. 50. Penalty for continued infringement shall be a fine not exceeding Rs 10 daily.

23. Whoever, without the permission of the District or Local Board having jurisdiction, widens, deepens, or otherwise damages or disfigures any drain, side excavations, or borrow-pits at the sides of any public road, shall be liable to a fine not exceeding Rs. 50.

24. Whoever destroys, damages, or removes any culvert, bridge, mile-post, boundary pillar or gabions or fence of trees belonging to District or Local Board, shall be liable to a fine not exceeding Rs. 50.

25. Whoever throws any corpse or dead body of any animal on any road, its slopes, berms or side drains shall be liable to a fine not exceeding Rs. 25.

26. Whoever collects bones on any road, its slopes, berms or side drains, thus causing nuisance to passengers, shall be liable to a fine not exceeding Rs. 20.

27. Whoever baths in any tank or reservoir or part of any river, khal, or other channel set apart by the District or Local Board under section 90 of the Local Self-Government Act for the supply of water for drinking and culinary purposes, or otherwise pollutes the water thereof, shall be liable to a fine not exceeding Rs. 20.

28. Whoever makes encroachment on any road, village or otherwise, shall be liable to a fine not exceeding Rs. 25.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th January 1892.—It is hereby notified that the members of the Jehanabad Local Board, in the district of Hooghly, having at a meeting, under section 25 of Act III (B.C.) of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased under the said section and section 29 to appoint Babu Purna Chandra Roy, Subdivisional Officer, to be the Chairman of that Local Board, *vice* Mr. Kedarnath Roy, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th January 1892.—It is hereby notified that, under section 19, clause (3) of the Bengal Local Self-Government Act III (B C.) of 1885, the Lieutenant-Governor is pleased to appoint Babu Lakhmi Chandra Barua to be a member of the District Board of Chittagong in the place of Rai Golak Chandra Chowdhury Bahadur, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th January 1892.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Utterpara Municipality, in the district of Hooghly, made at a meeting, to extend the provisions of Part IX of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th January 1892.—It is hereby notified for general information that, in exercise of the power vested in the Local Government by section 19, Act II (B. C.) of 1888, the Lieutenant-Governor has been pleased to prescribe the following rules for the election of Commissioners for the Town of Calcutta:—

1. The second election of Commissioners under Act II (B. C.) of 1888 shall take place on 15th March 1892.

2. The polling shall take place at such stations as the Chairman may determine as soon as the *wards* for which contests will take place under section 31 are known. Notice of the places fixed upon shall be given by advertisement in the Municipal Office, and in at least two daily newspapers not later than the 11th March.

3. The Commissioners of the Town of Calcutta shall appoint a polling officer to preside at each station, and as many assistant polling officers as they may think requisite, and may pay to each officer so appointed such reasonable remuneration for his services as they may think fit.

4. The Chairman shall supply to each polling officer a sufficient number of copies of so much of the list of voters revised in accordance with section 22, Act II (B. C.) of 1888, as may relate to the wards for which such polling officer is appointed to take votes, and no vote shall be received by the polling officer or his assistants, unless the name of the voter is entered in such list. The Chairman shall also furnish the polling officer with the names of the candidates for each ward as announced in accordance with section 31 of the above Act, and no vote shall be received in favour of any person other than one of such candidates.

5. All votes must be given at the poll on forms to be provided by the Chairman at the polling stations. Separate forms easily distinguishable shall be provided for each candidate, and the voter, unless he declares himself unable to write, shall write in his own hand, in the presence of the polling officer or one of his assistants, his own name, the name of the candidate for whom he votes, and the number of votes given for him. If he declares himself unable to write, the names and number shall be written at the dictation of the voter by the polling officer or one of his assistants, and such polling officer or assistant shall in that case append his own signature to the form.

6. The Chairman shall circulate to the voters of all wards for which there will be a poll under section 31 a post-card containing in English the name of the voter, the number of votes he is entitled to give, the names of the candidates for his ward, the polling station, and such other directions as the Chairman may think fit; such post-card shall be posted not less than two nor more than seven days before the date of election.

7. The post-card shall also advise the addressee to bring it with him to the poll as a help to identification, and if so brought, it shall be attached to the voting paper.

8. If a voter gives some of his votes to one candidate and others to one or more other candidates, he shall fill up a separate voting paper for each candidate for whom he votes.

9. It shall be the duty of the polling officer or one of his assistants to satisfy himself—

(1) That the name of the voter is entered in the list;
(2) That the voting paper is filled up in the manner prescribed in Rule 5;
(3) That the name of the candidate voted for corresponds with the form assigned for such candidate;
(4) That the post-card, if brought by the voter, is attached to his voting paper or one of his voting papers;
(5) That the voter has not given more votes than he is entitled to.

10. No objection shall be taken at the polling station to the name of any voter entered in the list, or to the number of votes assigned to him, but if any objection is taken to the identity of any voter, it shall be recorded on the back of the voting paper by the polling officer or his assistant.

11. If any voter gives more votes than he is entitled to, and the mistake escapes detection till after the voter has left the poll, a sufficient equal number of votes shall be deducted from each candidate voted for to bring the number of votes within the number allotted to the voter.

Illustration.—A being entitled to 6 votes gives 8 votes to X; 2 shall be deducted.

B being entitled to 4 votes gives 5 to X and 3 to Y; 3 votes shall be allowed to X and 1 to Y.

C being entitled to 7 votes gives 4 to X, 4 to Y and 3 to Z; 2 shall be allowed to X, 2 to Y and 1 to Z and 2 votes be lost.

12. The polling shall commence at 9 A. M. and close at 6 P. M., and if it cannot be finished for any ward by that hour, it shall be continued on the following day at 9 till finished.

13. The polling officer shall be entrusted with the maintenance of order at the polling station, and all voters shall, while at or near the polling station, comply with all reasonable orders issued by him for the preservation of order.

14. At the close of the poll for each ward, the polling officer shall forward to the Chairman the voting papers which have been received by him duly sealed and secured, sending the voting papers to which objections have been taken separately from those to which no objections have been taken.

15. All claims or objections preferred under section 21 shall be decided by the Chairman ward by ward, and he shall give such notice in the Municipal Office of the date of hearing for each ward as may be practicable. Such hearing shall be conducted with open doors, in order that any intending candidates or their agents may be present, and the Chairman shall hear any person present who asks to be heard before disposing of such claim or objection.

16. After the publication of the revised list under section 22, further objections to the list may be taken on the following grounds:—

(*a*) That the voter is dead or is a woman or has not attained the age of 21 years;

(*b*) That the voter is the same as another person whose name is on the list, and ought to appear only once on the list;

(*c*) That the voter, though purporting to be authorised to vote under section 24 on behalf of a Hindu joint-family, company, firm or other association of persons, is not duly authorised;

(*d*) Such objection must be in writing and must be delivered to the Chairman on or before the 14th March.

17. Such objections, as well as all objections under Rule 10 or Rule 11, shall be heard by the Chairman after the date of election, and the provisions of Rule 15 shall apply to the hearing of the objections.

18. The Chairman shall, as soon as practicable, after disposing of objections under the last preceding rule, publish at the Municipal Office and in the *Calcutta Gazette*—

(*a*) The names of all candidates elected for wards for which there was no polling as provided in section 24;

(*b*) The names of all candidates for wards for which there has been polling, together with the number of valid votes given for each candidate, and the two candidates who have obtained the majority of valid votes shall be deemed to be duly elected Commissioners.

19. Except as otherwise provided in section 23, the Chairman's decision in all matters connected with the preparation of the list of voters and the validity of votes shall be final for the purposes of the election.

20. The following penalties are imposed for breach of these rules:—

(*a*) For signing a name other than the writer's own name on a voting form under Rule 5, or for giving a name other than the voter's own name to the polling officer or assistant polling officer, a fine not exceeding Rs. 200.

(*b*) For intercepting a post-card or intentionally hindering the delivery of a post-card addressed to a voter under Rule 6, a fine not exceeding Rs. 100.

(*c*) For taking away a post-card from a voter after it has reached him, without his consent, a fine not exceeding Rs. 100.

(*d*) For refusing to obey the reasonable orders or directions of a polling officer under Rule 13, a fine not exceeding Rs. 50.

(*e*) For tampering with any voting paper after it has been duly filled up, and before the result of the election is declared under Rule 18, a fine not exceeding Rs. 200.

N.B.—The word Chairman in these rules includes any other officer delegated or appointed under section 27 or 28 of Act II (B.C.) of 1888.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 5th January 1892.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Babu Soshi Bhuson Dutt, Sub-divisional Officer, to be the Chairman of the Dainhat Municipality, in the district of Burdwan, *vice* Babu Nagendra Nath Gupta, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 5th January 1892.—It is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Burdwan Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the provisions of Parts VI and X of the Municipal Act to the said Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 5th January 1892.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following rules for the establishment and maintenance of hospitals and dispensaries by local authorities, under section 69, clause (6) of Bengal Act III of 1884, and section 138, clause (*k*) of Bengal Act III of 1885, in supersession of all existing rules under these two sections. These rules also include rules for the management of hospitals and dispensaries under Government supervision, which supersede those forming part of the Dispensary Manual, issued with the Government of Bengal notification dated the 2nd September 1886.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

RULES FOR THE MANAGEMENT OF HOSPITALS AND DISPENSARIES UNDER THE SUPERVISION OF THE GOVERNMENT OF BENGAL.

PRELIMINARY.

IN these rules—

(*a*) "Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area. It includes a Joint-Committee under section 30 and a Local Board under section 101 of Bengal Act III of 1885.

(*b*) "Local fund" means any fund under the control or management of a local authority.

CLASSIFICATION.

RULE 1.—Hospitals and dispensaries under Government supervision are divided into the following classes:—

CLASS I.—*State hospitals and dispensaries* maintained by Provincial Funds and under Government management. (The fact that an institution is possessed of endowments, or receives contributions from local funds or private subscriptions, does not remove it from this category so long as Provincial Funds are practically responsible for all the charges connected with it.)

CLASS II.—*Local Fund hospitals and dispensaries* under the control and administration of local authorities (*i.e.* District Boards, Local Boards, and Municipal Committees), or guaranteed or maintained by local funds. [The fact that such an institution is aided by private subscriptions, or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, does not remove it from this category so long as its existence is practically dependent upon local funds.]

CLASS III.—*Private hospitals and dispensaries.* This class is sub-divided into—

(A)—Institutions maintained entirely at the cost of private individuals or associations or from private endowments. [The fact that Government supplies superior inspection or registers does not remove an institution from this category.]

(B)—Institutions supported by private subscriptions or endowments, but receiving aid from Government or local funds.

CONDITIONS UNDER WHICH GOVERNMENT AID AND SUPERVISION WILL BE GIVEN.

RULE 2.—A dispensary may be opened by a local authority with the sanction, general or special, of the Commissioner, and on provision of the necessary funds in the annual budget, and it may be closed by the same authority with the same sanction. When thus opened or closed by a local authority, the fact shall be reported by the Civil Surgeon to the Inspector-General of Civil Hospitals, in order that the dispensary may be added to or struck off from the list in Class II. No dispensary in Class II in which a Government medical subordinate is employed shall, however, be closed without the sanction of Government, and in the case of a dispensary in Class III, three months' notice shall be given before the dispensary is closed. All dispensaries maintained by local authorities with public funds entrusted to them by Government are subject to all the rules hereby laid down for the management of such institutions. Whenever a dispensary under Class III is opened or closed by a private individual, the fact shall be reported by the Civil Surgeon to the Inspector-General of Civil Hospitals. If it is desired that such institution shall be brought under the supervision and inspection of Government officers, or if it receives aid in any way (other than grant of forms and registers free of cost) from Government or local funds, it shall be brought on to the Government list, but not otherwise. If brought on to the Government list, it shall be subject to these rules.

RULE 3.—Applications for grants from Government in respect of any dispensary shall be submitted to Government through the Magistrate and the Commissioner.

The Lieutenant-Governor reserves the right to withdraw Government supervision or aid in any case, or at any time, when it may seem desirable to do so.

No grant may be made by a local authority in aid of any hospital or dispensary which has not received the recognition of Government and been classified under these rules. Grants-in-aid shall be made only in accordance with these rules.

RULE 4.—A guarantee bond for the maintenance of a dispensary for a given period may, if thought necessary, be required from the intending supporters of an institution in Class III as a condition precedent to their obtaining assistance from Government in money or in any other way.

RULE 5.—The Managing Committee of every hospital or dispensary under these rules, whether in Class I, Class II, or Class III, shall submit to the Medical Department, through the Civil Surgeon of the district, such reports, returns, and accounts as may be prescribed by the Inspector-General of Civil Hospitals from time to time. Such reports, returns, and accounts shall be in such forms, and be submitted on such dates, as may be prescribed. All books, registers, and forms which may be necessary for the preparation and submission of such reports, returns, and accounts will be supplied by Government free of cost.

RULE 6.—Every institution which is recognised by Government and brought under these rules is subject to inspection and supervision by the Commissioner of the Division, by the Civil authorities of the district, by the Civil Surgeon, by the administrative officers of the Medical Department, and by any other person who may be generally or specially appointed by the Commissioner of the Division in that behalf. No charge will be made for such inspection or supervision.

RULE 7.—Government aid to a hospital or dispensary will be conditional on the observance of due economy in the management of the dispensary funds. The Inspector-General of Civil Hospitals will bring to the notice of Government any instance in which he considers that such economy is not observed, and that the Government aid should be continued or withdrawn.

RULE 8.—Every dispensary under these rules, which has accommodation for in-patients, shall admit all cases brought by the police for examination and treatment; and shall provide facilities for *post mortem* examinations being conducted in such cases. At head-quarters of sub-divisions, where a special provision of medicines is made for Government servants, these medicines shall be separately stored and dispensed to Government servants in the dispensary and by its establishment.

APPOINTMENT, PAY, LEAVE AND PENSION OF MEDICAL OFFICERS.

RULE 9.—The medical officer of every institution in Class I of these rules shall be a member of the Government service, and shall be appointed by the Inspector-General of Civil Hospitals.

The medical officer of a dispensary in Class II shall be nominated by the local authority and approved by the Inspector-General of Civil Hospitals. In the case of dispensaries situated at the head-quarters of districts or of sub-divisions, he shall be a member of the Government service, and shall in all cases possess such qualifications as may be declared to be necessary for such an appointment.

The medical officer for a dispensary in Class III shall ordinarily be appointed by the supporters of the institution in any manner they think fit; but if the dispensary receives pecuniary aid from Government, the grant of such aid may be coupled with any suitable conditions regarding the officer in charge.

RULE 10.—The conditions required in the preceding rule are, in the case of a dispensary in Class II, if the medical officer nominated is not a member of the Government service,—

(*a*) that he be a duly qualified medical man, licensed or certified by a recognised medical college or school, his license or diploma being subject to examination and approval by the Inspector-General of Civil Hospitals;

(*b*) that he be not a dismissed servant of Government, or disqualified for his duties by age, infirmity, or character; and

(*c*) that in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise, being proved against him to the satisfaction of the Medical Department, he be removed from his charge on the requisition of the Inspector-General of Civil Hospitals.

In the case of dispensaries in Class III assisted by Government funds—

(*a*) that he be not a dismissed servant of Government, or disqualified for his duties by age, infirmity, or character; and

(*b*) that in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise, being proved against any medical officer in a dispensary in class III assisted by Government funds or in class II, to the satisfaction of the Medical Department, he shall be removed from his charge on the requisition of the Inspector-General of Civil Hospitals.

RULE 11.—In the case of a hospital or dispensary situated at the head-quarters of a sub-division, the Government medical officer in charge of the sub-division will usually be in charge of the hospital or dispensary in addition to his other duties, and will receive from the managers of the dispensary an additional allowance of Rs. 10 a month if he is a Civil Hospital Assistant, or Rs. 20 a month if he is an Assistant Surgeon. It will be open to the managers, however, to obtain the services of a medical subordinate of the Government establishment of such higher rank as they may desire, on the payment by them of the full amount by which the authorised pay and allowances of such officer may exceed the amount sanctioned by Government for the medical charge of the sub-division.

RULE 12.—The Inspector-General of Civil Hospitals may at any time, for departmental or other reasons, remove or transfer any Government medical subordinate whose services have been lent to an institution in Class II or III, and may appoint another medical subordinate to succeed him. In every such case, except as hereinafter provided, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by Government

Provided that, if any officer is transferred at the request of the local authority or Managing Committee, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by the local authority or Managing Committee concerned.

RULE 13.—The pay to which a Government medical subordinate in medical charge of any dispensary is entitled is only the pay of his grade, and no allowance in excess of his authorized pay can be granted by a local authority without the consent of the Inspector-General of Civil Hospitals.

RULE 14.—A Government medical subordinate appointed to the charge of a hospital or dispensary under these rules will retain his right to pension and leave allowances under the rules of the Civil Service Regulations.

RULE 15.—All applications for leave from Government medical subordinates must be submitted, through the Managing Committee and the Civil Surgeon, to the Inspector-General of Civil Hospitals, Bengal, who alone is authorized to grant the leave and to appoint a substitute whose transit pay and travelling allowance will be paid by Government.

RULE 16.—Medical officers in charge of hospitals or dispensaries in Class II or Class III, who are not in Government service, shall be entitled to such leave as the local authority or Managing Committee may grant; provided that the leave or allowances during leave shall not exceed what would be admissible under the rules which apply to an officer paid from general revenues, and that in the case of an institution in Class II, if rules for the grant of leave have been framed by the local authority concerned, leave shall only be granted in accordance with such rules. The Local authority or Managing Committee shall appoint a *locum tenens* duly qualified under rule 9, and shall provide for any expenditure that may be incurred on account of the pay of the medical officer while on leave, and the pay and travelling allowances, if any, of his *locum tenens*.

RULE 17.—The salaries or part salaries of Government medical subordinates, including such enhanced pay as they may be entitled to on promotion, as well as the contributions towards their leave and pension allowances, which are due from a local authority or manager of a dispensary, must be paid each month, and the Magistrate of the district will be held responsible that such payments are duly made, and that steps are taken to recover their amount from the managers of the dispensary. In special cases, where on a full consideration of the entire income and expenditure of the local authority concerned, the Magistrate and the Commissioner are of opinion that it is really unable to meet the increased charge arising from the promotion of a medical subordinate, the Government will be prepared to help either by appointing an officer on lower pay, or by granting the amount due from Provincial funds.

MEDICAL STORES.

RULE 18.—The indents for medical stores for hospitals and dispensaries in Classes II and III must be drawn up by the medical officer of the institution and be checked and passed by the Civil Surgeon before the stores are purchased. Such institutions shall make their own arrangements for the supply of medicines and medical stores. Cinchona febrifuge and quinine can, however, at the option of the managing body, be obtained from the Government Quinologist direct on payment.

RULE 19.—Medical stores will be supplied to State hospitals and dispensaries from the Government Medical Store Department; but the indent must be checked and countersigned by the Civil Surgeon, and the supply will ordinarily be confined to the articles specified in the list given in Appendix B, Form XV. It will, however, be in the discretion of the Inspector-General of Civil Hospitals to sanction or disallow any demand.

RULE 20.—Medical stores to be supplied from the Medical Store Department must be indented for annually, and the annual indent must be submitted on the date fixed by the Civil Surgeon, to enable him to submit the combined indent for his district punctually on the date fixed by the Inspector-General of Civil Hospitals, Bengal.

MANAGEMENT AND SUPERVISION.

RULE 21.—The management of hospitals and dispensaries under these rules shall be vested as follows:—

If the institution is in—

(*a*) Class I—in such officer, person or persons as Government may direct.

(*b*) Class II—in the local authority which provides the major portion of the funds from which the institution is maintained, or in a Managing Committee appointed by that authority. Such Managing Committee may include persons who are not members of the local authority. The members shall be notified by the Commissioner in the *Calcutta Gazette*, and the Commissioner shall exercise in respect of the hospital or dispensary for which it is appointed such powers as may be delegated to it by the local authority.

(*c*) Class III—in a Manager or Managing Committee to be nominated by the supporters and approved by the Commissioner of the Division; provided that no Committee shall be appointed for any institution in this class, which receives no aid from Government or Local funds, unless the proprietors or chief supporters apply for such appointment.

No medical officer and no employé of the dispensary shall be eligible for appointment as a member of the Dispensary Committee.

RULE 22.—In cases falling under (*b*) and (*c*) of rule 21, the Local authority or the Managing Committee shall elect two of their number to be Chairman and Vice-Chairman respectively, and may also elect another of their number as Secretary.

RULE 23.—The Managing Committee shall meet at least once a quarter, and shall scrutinize the accounts and enquire into all matters affecting the welfare of the institution. They shall examine and pass the monthly accounts, and shall keep a minute-book in which their proceedings shall be recorded.

RULE 24.—The Managing Committee shall be responsible for the management of the funds of the institution. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the institution, the balance at the end of the month, if any, of the donations, subscriptions and interest realized by the Committee shall be deposited by them in the Post Office Savings Bank. When the amount at credit of the dispensary exceeds Rs. 200, the Comptroller-General should ordinarily be asked to invest the whole or a part of it in Government securities. No other mode of investment will be allowed without the previous sanction of Government.

RULE 25.—The Secretary shall keep the accounts of all funded and other property belonging to the institution. He shall receive from the medical officer in charge a monthly account of the receipts and disbursements, and shall examine and countersign all the establishment pay and contingent bills of the institution. He shall, at the end of each month, prepare a statement of the accounts, which he shall submit to the Committee at their next meeting. A copy shall also be sent to the Superintendent.

RULE 26.—In the case of institutions in Class II, all subscriptions, donations, and the interest on endowments shall be credited to the local fund, but a separate account of dispensary receipts and expenditure shall be kept. The endowments and subsequent investments, which must be made in Government securities, shall be held in the custody of the Comptroller-General apart from the assets of the local fund. Small sums available for investment should be placed in the Government Savings Bank. The securities must not be sold, and these invested funds must not be appropriated or used in any way without the sanction of Government.

RULE 27.—The Civil Surgeon shall be the Superintendent of every hospital and dispensary in his district which is classified under these rules, and shall exercise complete professional control over the medical officer in immediate charge.

RULE 28.—The Superintendent shall scrutinize the expenditure and accounts of every hospital and dispensary in his district, and shall call the attention of the managing body to any irregularity or other circumstance which, in his opinion, deserves notice. The managing body shall be bound to consider any communication from the Superintendent, to afford him full information as to the conduct of the medical officer in charge and all other matters affecting the welfare of the sick and the management of the institution. In all professional matters the decision of the Superintendent will be final; but if any difference of opinion arises between him and the managing body regarding any non-professional matter affecting the management of the institution, a reference must be made to the Inspector-General of Civil Hospitals or to Government for a decision.

RULE 29.—The Superintendent shall visit each dispensary in his district not less than four times annually, except by special dispensation from the Inspector-General of Civil Hospitals, and shall prepare and submit promptly to the Inspector-General of Civil Hospitals inspection reports in Form XXVI given in Appendix D.

RULE 30.—The Superintendent shall furnish an annual report of the working of the hospitals and dispensaries in his district to the Inspector-General of Civil Hospitals, according to the scheme given in Appendix C, and annual returns in accordance with the forms annexed.

RULE 31.—The Managing Committee of every hospital or dispensary shall cause to be kept at the institution—

(*a*) a record of the work done, showing day by day the number of patients treated, the affections for which they were treated, and in important cases some account of the symptoms, the treatment, progress, and the result;

(*b*) a record of the accounts of the institution.

These shall be written up daily by the medical officer in charge, and shall be open at all times to the inspection of inspecting officers.

The medical officer shall write up all other books and records prescribed under these rules, and in any case in which this is not done, the reasons should be stated in the inspection report of the Superintendent.

RULE 32.—An extract from the proceedings of each meeting of the Managing Committee and of the local authority, so far as they relate to hospitals and dispensaries, shall be promptly forwarded to the Superintendent, who may, if he thinks fit, and shall, if the Managing Committee so desire, submit it with his remarks to the Inspector-General of Civil Hospitals.

RULE 33.—A Visitors' book shall be kept in every hospital and dispensary, in which will be recorded the remarks of visitors. A copy of these remarks shall be forwarded, on the day of entry, to the Superintendent, who will, if necessary, transmit it with his remarks to the Inspector-General of Civil Hospitals within three days of its receipt in his office.

GENERAL.

RULE 34.—The medical officer in charge of a hospital or dispensary is responsible for the proper treatment of the sick, and this duty shall not on any account be delegated to a subordinate; he is also responsible for all matters connected with the comfort and well-being of the patients, and for the proper working of the dispensary establishment.

RULE 35.—The Managing Committee shall prescribe the hours of attendance (which shall not be less than four hours in the morning and two hours in the afternoon) within which the medical officer must be present at the dispensary. He must also give attention to urgent cases at other hours.

The hours of attendance shall be clearly stated in a notice posted in some conspicuous part of the dispensary.

RULE 36.—Any person attending at a charitable dispensary is entitled to receive advice and medicines free of charge; but the medical officer should impress upon any person who is not poor the duty of subscribing to the dispensary or paying for the medicines supplied to him, and should bring to the notice of the Committee any cases in which the privilege is abused.

RULE 37.—No medicines shall be issued from the dispensary stock to any one who does not receive treatment at the dispensary either as an in-door or out-door patient.

RULE 38.—Where special accommodation has been provided for paying patients, fees may be levied according to a scale previously sanctioned in that behalf by the Managing Committee.

RULE 39.—The medical officer in charge of a dispensary has the privilege of engaging in private practice, provided it does not interfere with his attendance at the dispensary during the hours prescribed in rule 35, or in any other way with his dispensary work.

RULE 40.—No medical officer in charge of a hospital or dispensary, or any compounder, dresser, or other servant of such institution, shall have any interest in a private dispensary or druggist's shop. A medical officer may, with the consent of the Civil Surgeon and Managing Committee, keep a private supply of medicine for the use of his private patients.

RULE 41.—When accommodation is provided for the medical officer in or near the dispensary, he must live in the residence provided for him.

RULE 42.—In dispensaries in which there are house-patients, a bed-head ticket in the prescribed form shall be hung over the bed of each in-patient.

RULE 43.—Medicines and instruments shall be kept under lock and key, except small quantities of the articles in daily use during the attendance of patients.

RULE 44.—Poisons must be kept under separate lock and key.

RULE 45.—No building for the location of a dispensary or hospital in Classes II and III, and no extension of such building, shall be constructed by the local authority or manager until the plan of such building or extension shall have been approved by the Civil Surgeon. If in-patients are to be accommodated, each patient should have at least 60 superficial and 810 cubic feet of space, and the beds should be so placed that the patients will not be obliged to sleep in a draught of air. Plans and estimates of dispensaries in Class I must be approved by the Inspector-General of Civil Hospitals, Bengal.

RULE 46.—In the case of institutions in Class II or Class III, repairs to the dispensary buildings shall be executed by, and be chargeable to, the Local authority or Managing Committee as the case may be.

RULE 47.—Menial servants will be appointed and discharged by the Managing Committee of the institution. Compounders and dressers will also be appointed and be liable to removal by the Managing Committee subject to the approval of the Superintendent.

RULE 48.—Dispensary servants must not be employed in the private service of the medical officer.

RULE 49.—The employment of apprentices is prohibited, except with the special permission of the Superintendent in the case of candidates training for the compounders' examination in the sudder dispensary at a civil station.

RULE 50.—Articles of clothing which are not infected, and other moveable property belonging to deceased house-patients, should be sent through the police to the local Munsif or District Judge for disposal under the provisions of Regulation V of 1799.

BOOKS AND FORMS.

RULE 51.—The following books and forms are required to be kept up by the medical officer at hospitals and dispensaries brought under these rules (See Appendix B.):—

1. Diary and register of in-door patients (Form I).
2. Register of operations (Form II).
3. Bed-head ticket (Form III).

This should be written up daily and be filed so as to preserve a concise history of the case and treatment. It is advisable also to keep a case-book for recording all special or important cases.

4. Register of out-patients (Form IV).
5. Ticket for out-door patients (Form V)
6. A book of copies of certificates given in police and medico-legal cases (Form VI).
7. A blank book for record of *post-mortem* examinations, medico-legal or otherwise, and for keeping detailed records of wounds of other police cases. Instead of a book being kept up, a copy of Form VII, which is to be used when despatching viscera to the Chemical Examiner, may be filed as a record of medico-legal *post-mortem* examinations.

8. Monthly return of in and out-patients (Form VIII). This should be prepared and submitted to the Civil Surgeon soon after the close of the month, and a copy should be kept in a book for the more easy and accurate preparation of the annual return.

9. Monthly bill in detail of establishment, diet, and contingencies (Form IX). These are to be prepared by the medical officer in charge and sent for examination, countersignature, and payment to the Secretary or Managers. In all cases in which there is expenditure for establishment, diet, or any other charge to be paid by Government, the bills of such expenditure are to be kept separate from the private accounts of the charity.

10. A bill-book for copies of all the dispensary bills.

11. A daily account or cash-book showing actual receipts and expenditure in detail. This is to be kept by the medical officer, and the account totalled up at the end of each month.

12. A diet book in Form X. This is required only in dispensaries in which there are in-patients.

13. Monthly return of medical subordinates and hospital servants, including acquittance-roll (Form XI). This is to be sent monthly to the Superintendent.

14. A stock ledger of medicines (Form XII).

15. Annual indent for European medicines and instruments (Form XIII). This is to be submitted to the Civil Surgeon in printed form and in duplicate.

16. Emergent indent for European medicines and instruments (Form XIV). This is to be submitted to the Civil Surgeon in printed form and in duplicate.

17. Form XV shows a list of medicines that may ordinarily be indented for from the Government Medical Store.

18. Form XVI shows a list of the principal articles of the materia medica which are procurable in bazars.

19. Annual indent for forms (Form XVII).

20. Annual returns (Form XVIII). These should be sent in the printed form and in duplicate, in the first week of January, to the Civil Surgeon for check and for the transmission of one of the copies to the Inspector-General of Civil Hospitals not later than the 10th January.

21. Operations are to be entered in the annual return in accordance with the classification given in list XIX.

22. A season monthly register of vaccination for use in dispensaries to which vaccinators are attached (Form XX). This form can be obtained from the Superintendent, to whom a copy duly filled up should be submitted every month for incorporation in his monthly return to be submitted to the Sanitary Commissioner.

23. Annual report of vaccination. This is to be submitted to the Superintendent in Form XXI for incorporation in his general report to be sent to the Sanitary Commissioner.

24. A visitors' book. For this a simple blank book will suffice.

25. A blank book for copies of all letters and circulars received.

26. A blank book for copying all letters despatched.

27. A book-cover for filing all circulars and other letters.

RULE 52.—The following books and forms are required to be kept up by the Secretary or Managers—*see Appendix C* :—

1. A monthly statement of accounts (Form XXII) to be submitted by the Secretary or Managers monthly to the Superintendent. A copy of the same should also be laid before the managing body at their monthly meetings, and another copy should be sent to the Magistrate.

2. An annual return of accounts in the same form should be submitted to the Superintendent for his information in the first week of January.

3. A subscription and donation book (Form XXIII).

4. A dispensary property book.

5. A committee book for recording the proceedings of each meeting of the managing body.

RULE 53.—The following reports and returns are required to be submitted by the Superintendent—*see Appendix D* :—

1. Annual return of Government Assistant Surgeons and Civil Hospital Assistants (Form XXIV).

2. Annual confidential report of Government Assistant Surgeons and Civil Hospital Assistants (Form XXV).

3. Inspection report of a dispensary (Form XXVI).

4. Annual report on the working of a dispensary (Form XXVII).

DECLARATION.

The 4th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Chittagong Municipality for a public purpose, viz., for a municipal drain in the village of Suja Katgor, *alias* Baudel, thana Town, sillah Chittagong, it is hereby declared that for the above purpose a piece of land measuring, more or less, 14 dhurs of standard measurement, is required. The land is bounded on the North by the lane leading from west to east; on the South by the municipal drain; on the East by the house of Mohanunda Pator and the land of Abdul Aziz and Rajchandra Sen; and on the West by the houses belonging to Mr. A. Rozario and Rausan Ali.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

J. H. BERNARD, *for Collector.*

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Patna, will be put up for sale at the Collector's Office of that district on the 18th January 1892, corresponding with 4th Magh 1299 (F. S.) (Monday), for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

AUSTRALIA—MONTALIVET ISLANDS.

Existence of certain reefs lying near the island.

THE British Admiralty has given notice (No. 564 of 1891) that information has been received from Commander W. U. Moore, H.M. Surveying vessel *Penguin*, dated 17th September 1891, of the existence of the undermentioned reefs lying near Montalivet islands, the result of recent examination of the locality:—

1. *Ingram reef* originally reported by Mr. H. Lee, commanding the Adelaide S.S. Company's vessel *Rob Roy*, is one mile in length in a north-west and south-east direction, and three cables broad, with depths of 28 to 30 fathoms around. The shallowest part, a coral patch of small extent, is awash at low water, and lies with the northern Montalivet island bearing S. by W., distant 6¼ miles, or in approximately on Admiralty charts lat. 14° 6′ 55″ S., long. 125° 20′ 45″ E. The sea does not usually break on this reef except near low water. The *Penguin* passed twice within a mile of it, before finding it, and though the weather was favourable, no indication of shoal water was seen.

2. *Albert reef* lying westward of the West Montalivet island, appears to be detached from that island, but vessels should not attempt to pass between. The north-west part which dries at low water is situated in approximately lat. 14° 11′ S., long. 125° 6′ E.

3. *Rob Roy reefs* extend about 6 miles in a north and south direction, with a breadth of about 3 miles. The western breakers lie in approximately lat. 14° 25′ S., long. 124° 50 E.; the northern breaker is situated in approximately lat 14° 22′ S., long. 124° 52′ E. About half a mile south-east of the northern breaker there is a sand cay, which is awah at half tide.

CAUTION.—As in the neighbourhood of the dangers near Montalivet islands the tides are strong, the banks and reefs steep-to, and the water unusually turbid, great care is necessary when navigating in the locality.

The depths given are at low water spring tides.

AFRICA—ZANZIBAR ISLAND.

The system of buoyage established in the approaches to Zanzibar harbour.

THE British Admiralty has given notice (No. 531 of 1891) that the following system of buoyage has been established in the approaches to Zanzibar harbour:—

Approaching Zanzibar harbour, red buoys should be left on the starboard hand, black buoys on the port hand (consequently the colours of the two Southern pass buoys are reversed, but in order to prevent confusion, the old buoys are for the present kept in position). The buoys recently placed are *can* buoys:—

(1.) A *can* buoy, black and red chequered, is moored in 3½ fathoms water on the southern edge of Seagull shoal, with White Block house bearing E. by N. ½ N., distant 1 $\frac{6}{10}$ miles, and large house on Bet el Ras S.S.E.

(2.) A black *can* buoy is moored in 5 fathoms water on the bank northward of Bet el Ras with Bububu house bearing E. by N. ½ N., distant 6½ cables, and Large house on Bet el Ras S. by E.

(3.) A black *can* buoy is moored in 5 fathoms water, about half a cable seaward of the edge of the bank off Bet el Ras, with Bububu house bearing N.E. ½ N, and Large house on Bet el Ras S E., distant 3 cables.

(4.) A red *can* buoy is moored in 6¾ fathoms water near the eastern edge of Chapani reef, with White stone pillar bearing N.E. by E. ½ E., distant 5½ cables, and Square white house S. ½ W.

(5.) A red *can* buoy is moored in 7 fathoms water near the eastern edge of Chapani reef, with White stone tower bearing N.E. ½ E., distant 6½ cables, and Square white house south.

(6.) A black *can* buoy is moored in 5 fathoms water near the eastern edge of Kisiki reef, with Mbweni house bearing E. by S. ½ S., distant 1 $\frac{4}{10}$ miles, and Conspicuous house on Ras Buyu S.S.E. ½ E. The old buoy (red) near the above mentioned buoy remains in position for the present.

(7.) A red *can* buoy is moored in 6 fathoms water near the western edge of Mtwana reef, with Mbweni house bearing E.N.E. distant 1 $\frac{8}{10}$ miles and Conspicuous house on Ras Buyu S.E. ½ E. The old buoy (black) near the abovementioned buoy remains in position for the present.

The depths given are at low water ordinary spring tides.

CHINA SEA—BORNEO.

Fixed harbour light on Sandilands rock—Kudat harbour entrance.

IN continuation of Notice to Mariners No. 57, dated 23rd March 1891, issued by this Office, the British Admiralty has given notice (No. 543 of 1891) that the light on Sandilands rock is exhibited :—

Sandilands rock light is a *fixed harbour* light of low power ; it shows *white* between the bearings of N. by W. ½ W., through west, and W. by S. ½ S. ; *red* between S. W. ½ S. and S. by W. ½ W. ; *red* between S.E. ½ E. and E. ½ S. ; and *white* between E. by N. ½ N., through north, and N. by W. ½ W. ; in all other directions it is obscured. It is elevated 7 feet above high water, and should be seen in clear weather from a distance of 2 miles.

The light-house, erected on piles, is about 10 feet high.

Approximate position, lat. 6° 52′ 20″ N., long 116° 52′ 5″ E.

Also that the *fixed white* light, previously shown from the fort at Kudat, has been discontinued.

NOTICE TO MARINERS—No. 223.

[Third Publication.]

AUSTRALIA—CAPE BOUGAINVILLE.

Sunken rocks and shoals in the Inner and Outer Routes.

THE British Admiralty has given notice (No. 552 of 1891) of the existence of the undermentioned sunken rocks and shoals lying in the Outer and Inner Routes, off cape Bougainville, the result of recent examination of the locality.

Outer Route.

1. A rock (*Oliver rock*) consisting of a coral head, with 9 feet water over it, and 25 fathoms close around, lies with the south extreme of Cassini island bearing N. 80° E, distant 4 3/10 miles. The sea was not seen to break on this rock, the *Penguin* passed over it without observing any sign of shoal water.

Approximate position on Admiralty charts, lat. 13° 56½′ S, long. 125° 39½′ E.

NOTE.—The rock marked awash in lat. 14° 0′ 30″ S., long. 125° 35′ E., does not exist.

2. A shoal (*Bassett-Smith shoal*) about one mile in diameter, with general depths of 5 to 6 fathoms, and 50 fathoms around, with a head of 20 feet near its western edge, is situated in approximately lat. 13° 16′ 50″ S., long. 125° 50′ E. The sea did not break on this shoal, and there was no appearance of danger in the vicinity.

3. *Penguin shoal*, situated in approximately lat. 13° 6′ S., long. 126° 4½′ E., has a least depth of 6 fathoms over it.

4. A rock (*Warn rock*) consisting of a small coral head, with 6 fathoms over it, lies in approximately lat. 13° 8½′ S., long. 126° 11′ E.

Inner Route

1. A coral pinnacle (*Lee rock*) with 3 feet water on it, and 10 to 17 fathoms close around, lies with Pascal island summit bearing S. 83° W., distant 7 7/10 miles, or in approximately lat. 14° 2′ S., long. 125° 52′ E. The *Penguin* passed twice within a few feet of this rock, but no indication of danger was seen.

2. A coral shoal (*Tancred shoal*), 7 cables in diameter, with 3 to 7 fathoms over it, and 16 to 22 fathoms around, lies with Low rocks summit bearing No. 56° W., distant 2 miles, or in approximately lat. 14° 3½′ S., long. 126° 0′ E.

3. The extensive reef charted north of Gibson point does not exist, but there is a rock (*Fury rock*) awash at high water, lying with the islet north of Gibson point bearing East, distant 1 7/10 miles. A reef dry at low water, extends 4 cables north-west of this rock, and foul ground for a distance of 1 1/10 miles north of it. Approximate position, lat. 13° 56½′ S. long. 126° 4′ E.

4. *Bishop rocks* consist of a small group of coral heads, drying 2 feet at low water, and lying with the north extreme of Troughton island bearing S. 75° E., distant 2 7/10 miles, or in approximately lat. 13° 42½′ S. long. 126° 12′ E.

5. A coral reef, with 2 fathoms over it, lies with the north extreme of Troughton island bearing S. 50° E., distant 6 1/10 miles, and is separated by a deep channel from the south point of Eastern Holothuria reef. Approximate position, lat. 13° 39½′ S., long. 126° 9½′ E.

6. *Branch Banks* consisting of two coral shoals with 6 and 7 fathoms over them, lie with the north extreme of Troughton island bearing S. 18° W., distant 8 7/10 miles, or in approximately lat. 13° 35½′ S., long. 126° 17′ E. Depths of 6 fathoms were obtained for a distance of one mile east of this position.

CAUTION.—As in the neighbourhood of the dangers off cape Bougainville the tides are strong, the banks and reefs steep-to, and the water unusually turbid, great care is necessary when navigating in the locality.

The depths given are at low water spring tides.

GOVERNMENT OF BENGAL.—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 224.

[Third Publication.]

AUSTRALIA—VICTORIA.

Uniform system of buoyage.

The British Admiralty has given notice (No. 533 of 1891) that the following uniform system of buoyage, somewhat similar to that adopted in the United Kingdom, was and will be established at ports in the Colony of Victoria, at the dates hereinafter mentioned:—

(1) The term Starboard Hand shall denote that side which would be on the right hand side of the mariner, either going with the main stream of flood, or entering a harbour, river or estuary from seaward; the term Port Hand shall denote the left hand of the mariner under the same circumstances.

(2) Buoys showing the pointed top of a cone above water shall be called *conical*, shall be painted red, and shall always be Starboard Hand buoys, as above defined

(3) Buoys showing a flat top above water shall be called *can*, shall be painted black, and shall always be Port Hand buoys, as above defined.

(4) Buoys showing a domed top above water shall be called *spherical*, and when used to mark middle grounds shall always be distinguished by horizontal stripes of white colour.

(5) Surmounting beacons, such as Staff and Globe, &c., shall always be painted of one dark colour.

(6) Staff and Globe shall only be used on Starboard Hand buoys. Staff and Cage on Port Hand, Diamonds at the outer ends of middle grounds, and Triangles at the inner ends.

(7) Buoys for marking Submarine Telegraph Cables shall be painted green, with the word *Telegraph* painted thereon in white letters. Mooring buoys shall be continued as heretofore. Gas buoys shall be painted red or black to correspond with the side of the channel on which they may be moored.

(8) The buoyage of the West, South, and Geelong channels, port Phillip, will be altered to conical and *can* shaped buoys.

(9) The buoyage of Sorrento and Cole's channel, port Phillip, also of Western port, port Albert, and Corner inlet, will remain of the same shape as heretofore, but all starboard hand buoys or beacons shall be painted red, and all port hand buoys or beacons shall be painted black.

(10) The alterations in the buoyage of the several ports and channels have been and will be made during the following months and years:—

Western port	September 1891.
Port of port Albert	October 1891.
Port of Geelong, and entrance thereto from port Phillip	November 1891.
West channel, port Phillip	February 1892.
Port of Corner inlet	March 1892.
South channel, port Phillip	June 1892.

(11) BUOYING AND MARKING OF WRECKS. All buoys and topsides of vessels used for marking wrecks shall be painted green, with the word *Wreck* painted thereon in white letters, and when practicable shall be moored near to the side of the wreck next to mid-channel.

(12) When a wreck-marking vessel is used, she shall exhibit:—

By day: Three balls 20 feet above the level of the sea, two placed vertically at one side of the vessel, and one on the other side, the single ball being on the side nearest to the wreck.

By night: Three *fixed white* lights, similarly arranged, but not the ordinary riding light.

THE MONSOON OF 1891.

THE following report is published for general information.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

The 5th January 1892. *Secretary to the Government of Bengal.*

METEOROLOGICAL SUMMARY OF THE MONSOON PERIOD OF 1891.

THE following statement is intended to give a very brief history of the more important features which have characterised the south-west monsoon period and the preceding months of 1891.

The weather conditions in January were of fairly normal character, and for the greater part of the month typical north-east monsoon weather obtained. The number of barometric depressions originating in or coming from Northern India was small, and only two in any way affected the weather in Bengal, and of these one only was of any considerable importance. One small depression advanced over Bengal from the 8th to the 10th, but it gave no rain, though weather conditions were distinctly disturbed by it, and a wave of high temperature passed over the province in front of it. The second depression passed through Behar and Bengal on the 23rd and 24th, and gave fairly general, and in some cases heavy, rain in all districts except East Bengal and Orissa. With the exception of these two periods, weather was generally fine with almost cloudless skies. For the whole month the mean pressure was in excess of the normal at the majority of stations, but the variations were not usually more than a hundredth of an inch, while temperature was also higher than usual by about a degree. Cloud proportion was in distinct defect at almost all stations; but, on the other hand, humidity was higher than usual. The rainfall in Behar and in Chutia Nagpur equalled rather more than an inch, and was very distinctly in excess of the normal. The falls in South-West and North Bengal averaged

from about a quarter to a third of an inch, and were rather less than the normal falls; but Orissa and East Bengal were almost rainless throughout the month.

On the first day of February conditions in Bengal were fairly normal, but another deep depression quickly made its appearance over North-Western India, and on the 2nd of the month an exceptionally deep storm covered the north-west of the Punjab. The greater part of this storm broke up against the Himalayas, giving apparently a heavy fall of snow. In connection with this storm also, a depression advanced over Bengal, giving a great increase of temperature in front of it, and a few showers also fell in Behar at the same time. In the rear of this depression a wave of exceptionally cold air advanced over Bengal, produced probably by the heavy fall of snow in the Himalayas, and in the three days from the 4th to the 7th a fall of temperature, varying from about 10° to 20°, took place over the province, and temperature became about 10° below the normal. Conditions then became more normal until about the 20th, when another deep depression appeared over the Punjab, which was accompanied by very steep baric gradients and a strong cyclonic circulation of winds. The depression advanced in a south-easterly direction towards Sirsa, and on the 22nd it, to a great extent, filled up and disappeared, but it left a large low pressure area which stretched over Bengal, and general rain set in over the greater part of the province from about the 21st to the 25th. During this period the falls equalled about three times the normal for the whole month in East and North Bengal, they were about twice as large as the normal fall in South-West Bengal and North Behar, while the falls were also considerably in excess of the normal in Orissa and South Behar, and about normal in Chutia Nagpur. The actual average falls in February ranged from more than three inches in East Bengal to about two-thirds of an inch in South Behar and Chutia Nagpur. Pressure during the month was everywhere above the normal, the excess ranging from about two to four hundredths of an inch, while temperature was slightly below the normal in all districts except North Bengal, where there was a slight excess. The air was also more humid than usual in all districts except South-West Bengal and Orissa where it was drier, and over the whole province the cloud proportion was about equal to the normal.

The meteorological conditions which obtained in March were of a most unusual character. Almost throughout the month, instead of the fine settled weather with steadily increasing temperature, with an almost complete absence of rainfall and cloud, and the low humidity which usually prevails, weather was in a more or less disturbed condition, rain was general, and at many stations very heavy on many days in the month; skies were heavily clouded, temperature was abnormally low, and the air was very damp. This reversion of the ordinary weather conditions was brought about by the existence of disturbed atmospheric conditions, in most cases connected with feeble barometric depressions, for almost the whole month. On the 4th a shallow barometric depression formed over the central parts of India and the Peninsula, which at once caused disturbed weather and rain in Bengal. This depression drifted slowly in an easterly direction over the province and affected the weather up till about the 10th. On the 11th a very decided barometric depression formed in North-Western India, which afterwards drifted away in an easterly direction along the line of the Himalayas, and this again caused weather to be rather stormy in Bengal. From about the 15th to the 18th conditions became more settled, when once again disturbances set in, the disturbance apparently commencing in the hills and in the higher strata of the atmosphere. On the 22nd a distinct area of low pressure had formed, which stretched from the south of Behar through Chutia Nagpur and South-West Bengal into Orissa, and this afterwards travelled in an easterly and south-easterly direction to the north-east angle of the Bay, and then into Burma, which it reached on the 25th. During the whole of this period very disturbed weather, with many local storms, obtained, and rainfall was frequent up to the 26th, but for the remainder of the month fine settled weather with almost cloudless skies and complete absence of rain set in. The rainfall in March was therefore generally excessive. It was about six times the normal amount in Behar, about five times the normal in Chutia Nagpur, four times in Orissa, three times as large as usual in South-West and North Bengal, while in East Bengal it was almost normal in amount. Generally the falls averaged from about two-and-a-half to four-and-a-half inches. Notwithstanding the disturbed conditions, the mean pressure in Bengal was in excess of the normal, the usual excess averaging about three or four hundredths of an inch. The mean

temperature for the whole month was about 4° in defect, but during the second week the day temperature at many stations was 10° and 12° lower than usual. Owing to the abnormal disturbances and rainfall, both humidity and cloud proportion were also largely in excess of the normal.

In April, for about the first twenty days, fine weather, of the usual hot season type, obtained, and with the rapid rise of temperature which then took place the unusually low temperature which had existed in March was rapidly replaced by a moderate excess above the normal. From the 20th of April, however, a shallow low pressure area was formed in the west and centre of the province accompanied by the usual cyclonic circulation of winds, and a period of disturbed weather with numerous local storms and rain set in over the province which lasted till almost the close of the month. The rainfall in East Bengal in April was about a third larger than the normal, and this division received 5·18 inches. In all other divisions the falls were in defect of the normal. In North Bengal the fall was a little less than two inches, or about two-thirds the normal. South-West Bengal received an inch or only half the usual fall. In Orissa the fall was only half an inch or about two-fifths of the normal, while in Behar and Chutia Nagpur the falls only averaged between one and two tenths of an inch, and generally were only equal to a fourth of the normal fall. Pressure in April was above the normal, the excess equalling about two or three hundredths of an inch. The mean temperature of the whole province for the month was nearly normal, though in Orissa, East and North Bengal and South Behar slight excess temperatures were registered; while, on the other hand, slight defects were reported in South-West Bengal, North Behar and Chutia Nagpur. Humidity was, if anything, a little lower than usual, while cloud proportion was generally higher.

In May, weather conditions almost throughout the month were unusually disturbed, and local storms with rain were numerous, particularly in the second and third weeks, and in the southern, eastern and northern districts. After this also conditions continued disturbed with more frequent rainfall, and there were many local storms up to the close of the month over almost the whole Province, the rainfall being due, first to the action of a small storm from the Bay, which advanced across the Orissa Coast on the 24th, and, second, to a small depression which advanced from the Bay between Saugor Island and Chittagong on the 29th, and which gave moderate rain to the southern and eastern districts. The rainfall during May was rather lighter than usual during the first week It then became heavier, and was in excess of the normal in all districts except South Behar, Orissa, and Chutia Nagpur for the second and third weeks, but during the last part of the month, it became exceedingly heavy and was in large excess in all districts. Thus the falls in East Bengal averaged fourteen inches, or nearly five inches more than usual. North Bengal received nearly twelve inches, or three-and-a-third inches in excess; South-West Bengal more than nine inches, or nearly four inches more than usual. North Behar registered five-and-a-half inches, or two and a third inches in excess, and Orissa also rather more than five inches or an inch-and-a-third in excess. South Behar and Chutia Nagpur received about four inches or roughly an inch-and-a-half more than usual.

The variations of pressure from the normal in May were a little irregular, but for the whole month there was a slight excess, generally equalling about one or two hundredths of an inch. Temperature was at first in considerable excess of the normal, but at the close of the month it was equally in defect owing to the heaviness of the rainfall, and the average for the whole month showed a defect of half a degree. Humidity and cloud proportion were both rather largely in excess of the normal during May.

During the first five months of the year, or in what may be termed the pre-monsoon months, it will be seen that the meteorological conditions in Bengal were very unusual. It is true that in January conditions were fairly normal, but even in this month the rainfall in Behar and Chutia Nagpur was about twice as heavy as usual, while defective falls were received elsewhere. In February conditions were very disturbed owing to the unusual nature and intensity of the cold weather storms, and the Province generally received a rainfall about twice or three times its normal amount. In March the conditions were exceptionally disturbed and stormy, and rainfalls were usually from about twice up to seven times the usual amount. April, on the other hand, was a fairly quiet and normal month, though rainfalls were generally rather largely in defect; but in May

disturbed conditions again commenced and continued almost throughout the month, with the result that rainfalls were generally from 50 to 75 per cent. in excess. For the whole period of five months, it may be said that the rainfall in Bengal was about 92 per cent. in excess of the normal All the meteorological divisions, indeed, showed a large excess for this period, the smallest being 38 per cent. of excess in East Bengal, and the largest 168 per cent. in excess in South Behar, and 137 per cent. in excess in North Behar; while all the other divisions showed excess amounts of from 50 to 90 per cent.

The monthly mean pressures, recorded throughout the five months, were in distinct excess of the normal, the excess usually being about 0·02″ or 0·03.″ Temperature, on the other hand, was in moderate excess in January, about normal or in slight defect in February, April, and May, and in very large defect in March. Humidity and cloud proportion were above the usual amounts almost throughout this period.

In the Bay there were no signs of any advancing monsoon current up to the 20th of May, when rather strong winds set in representing probably the first advance of the monsoon. A small storm, which was of moderate intensity at sea, formed in front of this advance, and it afterwards travelled in a north north-westerly direction, crossing the coast near Gopalpur on the 24th, and giving a wave of moisture-laden winds and rain to Bengal generally. Another small depression formed in this advance of monsoon winds in the northern half of the Bay, and advanced across the Sunderbuns during the 29th of May, again giving a slight advance of monsoon winds to South Bengal, but though a burst of monsoon winds and rain was thus given to Bengal in May, yet the monsoon current did not establish itself permanently over the province at this time, and it again retreated into the centre or south of the Bay.

The meteorology of June was most unusual. In ordinary years, after the preliminary advance of the monsoon winds, which takes place in the south of the Bay in the second half of May, similar advances usually take place early in June, and these, spreading over Bengal, give the ordinary monsoon rains which commence on an average date of the 12th to the 15th, and continue steadily up till the middle of October. In the present year, owing apparently to the unusual weakness of the general monsoon current, the monsoon winds were not able to advance further than the middle of the Bay up till quite the end of the month, and hence the general monsoon rainfall did not begin in Bengal until the 27th, or a fortnight later than usual. Also, even when the current did set in over Bengal, its strength appeared to be much below the normal, and consequently the wind velocities at the coast stations round the head of the Bay during June were much lower than usual. The rainfall in this month was therefore comparatively very small, even though there had been an advance of monsoon winds at the end of May which had given good rain over a large part of the Province during the first three days of June. In East Bengal there was a fall of nearly thirteen inches, or five inches less than usual; North Bengal received nine inches, or more than eight inches in defect; Orissa only registered two-and-a-half inches, or more than six inches less than usual; South-West Bengal received six inches or four inches less than the average; South Behar averaged five-and-a-half inches of rain, or rather more than an inch in defect; Chutia Nagpur received rather less than four inches, and was nearly four-and-a-quarter inches in defect; while, finally, North Behar received more than eight inches of rain, or practically a normal fall. In some of the smaller districts the falls indeed were only from 10 to 20 per cent. of the normal, and such was the case in Pooree and Cuttack

In June the variations of pressure from the normal were considerable in different districts and at neighbouring stations, and also at different periods of the month; but the variations to a great extend neutralized one another, and consequently the mean pressure for the month varied only slighly from the normal pressure, usually being in defect by one or two hundredths of an inch. Temperature was on the average about one degree in excess of the normal, but the excess was largest in Orissa, South-West Bengal and South Behar. In cloud proportion and humidity the variations were unimportant.

In July the monsoon current blowing over Bengal, as judged by the wind velocities at the coast stations, appeared to be stronger than usual, but the rainfall was only in excess of the normal in North Bengal, while elsewhere it was rather defective. The current was fairly steady in character, and the number of barometric depressions or feeble cyclonic storms forming in the Bay, was smaller than

usual. Only one depression of any importance formed at the head of the Bay on the 24th and passed inland, and there was also one cyclonic storm which generated in the east of the Bay, but which did not reach the land until August. For the first twenty days of July, conditions, were of ordinary rather light monsoon character in Bengal and over the Bay, but on the 22nd a distinct low pressure area formed in the north-west angle of the Bay, which continued almost unchanged in position and intensity up to the 24th, when it developed rather rapidly, and on the morning of the 25th a very definite and rather influential barometric depression existed, the centre of which was over the Sunderbuns to the east of Saugor Island. It then advanced in a north-westerly direction, and on the 26th the centre of the storm was in Chutia Nagpur; on the 27th it was near Jubbulpore and Sutna; on the 28th near Jhansi; on the 29th to the west of Ajmir; and on the 30th it was near Bikanir, and was rapidly filling up. The storm was accompanied by a strong cyclonic circulation of winds, and in its rear a heavy wave of moisture-laden winds spread over Bengal and over Northern India generally, and from the 26th to the 30th of July very heavy rain fell in Bengal. In July, therefore, the rainfall in North Bengal equalled about sixteen-and-a-half inches, or nearly two-and-a-half inches more than usual; in East Bengal also about sixteen-and-a-half inches fell or practically a normal fall; in Chutia Nagpur the fall averaged nearly thirteen inches or slightly less than the normal; and in South-West Bengal rather more than eleven inches fell, or again slightly less than the normal. Behar received between ten and ten-and-a-half inches or about two inches less than the normal, while in Orissa a little more than nine inches fell, or about three-and-a-quarter inches less than usual. In the following districts the falls were very scanty and did not equal half the normal amounts:—Pooree and Shahabad; while in the following the falls were less than two-thirds the usual fall:—Howrah, North Bhagulpore and Sarun.

In July pressure was, on the whole, in decided defect of the normal for a considerable portion of the month, while temperature was almost normal in all divisions except South Behar, where a distinct excess was registered. The average humidity was practically normal, while the cloud proportion was, if anything, larger than usual.

In August the moonsoon current, as judged by the wind velocities, was in distinct defect of the normal almost throughout the month, but as no less than four feeble barometric depressions and one cyclonic storm affected the weather, and as all of these either passed through or affected the south-western districts of the Province, these hence received rather abundant rainfall, while the remainder of the Province, and particularly the northern divisions, received falls decidedly below the normal. The cyclonic storm was formed in the Bay on the 31st of July to the north-west of Diamond Island, and commenced to move in a north westerly or north north-westerly direction. On the 1st of August it was to the west of Akyab, and was giving very heavy weather in the Bay On the morning of the 2nd, the storm centre was nearly over the Sunderbuns, between Chittagong and Saugor Island, when it suddenly changed the direction of its advance and travelled almost due west along the face of the Sunderbuns, and on the 3rd the centre was to the west of Balasore. It then advanced through Chutia Nagpur to Sutna where it filled up on the 6th. On the 7th a small depression which had formed near the north-west angle of the Bay passed inland to the west of Saugor Island, advancing in a north-westerly direction. This passed into the North-West Provinces and the Punjab, and on the 10th it was near Delhi On the 12th a depression was formed with a centre near Jessore, which afterwards moved in a westerly and north-westerly direction and filled up near Allahabad This small storm gave very heavy weather near the head of the Bay. Again, on the 20th, another depression formed in the north-west angle of the Bay and passed inland near Balasore on the 24th, and again on the 31st a new depression was formed off the South Orissa Coast which gave moderate rain to Orissa.

The rainfall in August was heaviest in Orissa, where nearly sixteen inches fell, or four-and-a-half inches more than the normal. Chutia Nagpur received twelve-and-a-half inches, or nearly an inch in defect of the normal. In South-West Bengal the falls averaged nearly eleven inches or about two inches less than usual. In East Bengal ten-and-a-half inches fell, or no less than five-and-a-half inches in defect. South Behar received nine and-a half inches or about two inches less than the normal fall. The falls, however, were still more decidedly in defect in North Bengal and North Behar. North Bengal received only a little more than six inches, or rather more than seven-and-a-half inches

less than usual, while in North Behar the actual falls averaged seven-and-a-half inches or four inches in defect. The following districts received falls during August of less than half the usual amount:—Moorshedabad, Noakholly, Pubna, Maldah, Dinagepore, Rungpore, Cooch Behar, Julpigoree, and Purneah; while falls of from half to two-thirds the normal were recorded in Nuddea, Khoolna, Jessore, Chittagong, Furreedpore, Tipperah, Bogra, and North Bhagulpore.

The mean pressure for August was again not far removed from the normal. Compared with the general pressure for the province, there was slightly deficient pressure in the north-west angle of the Bay and the adjacent parts of South-West Bengal, which apparently determined the position of formation of the greater number of barometric depressions during the month. Temperature was below the normal by moderate amounts in Orissa, and slightly below it in Chutia Nagpur, but in all other divisions excess temperature was registered, the usual excess equalling from half to one degree. Humidity was almost normal during the month, but cloud proportion was, if anything, slightly in excess of the normal.

In September again the monsoon current appeared to be particularly weak, but it continued to blow feebly over Bengal up till almost the close of the month, and slight rainfall was fairly general in all districts up to the 28th or 29th. The number of shallow barometric depressions which formed in the north-west angle of the Bay during the early part of the month was rather considerable; indeed, in the first eighteen days, four depressions generated and passed westwards and north-westwards through Orissa and South-West Bengal, though they were all so feeble that they scarcely require separate descriptions, and later on a depression advanced from Burma across the Bay, and also passed through Orissa on the 22nd of September. Most of these moved in a north-westerly direction along a trough of low pressure, which extended from the head of the Bay over part of the Central and North-West Provinces. The influence of the depressions was, however, rather limited, and the rainfall caused by them, though generally heavy near the track of the centre, was almost entirely confined to the western and south-western districts of the Province. Hence rainfall was in excess of the normal in Orissa and Chutia Nagpur, while it was in decided defect elsewhere, and particularly in the northern districts, such as North Behar and North Bengal, where the falls only equalled about a third of the normal quantities.

The rainfall in September in Orissa was the very large amount of eighteen-and-a-half inches, or more than eight inches in excess of the normal amount, while the next largest fall was in Chutia Nagpur, which only received nine inches or a little more than the usual fall in this month. The falls in South-West and East Bengal equalled about six inches, while in South Behar and North Bengal they were less than five inches, and in North Behar the falls only averaged the small amount of three-and-a-half inches. The defects in these districts in September were no less than the following amounts:—North Bengal eight-and-a-half inches, North Behar six-and-a-half inches, East Bengal six inches, South Behar three-and-a-half inches, and South-West Bengal two-and-a-half inches. In this month the following districts received falls of about a quarter of the usual amount:—Rajshahye, Rungpore, North Bhagulpore, Durbhunga and Mozufferpore; while falls of only about half to a quarter of the usual amount were registered in Burdwan, Beerbhoom, Nuddea, Chittagong, Noakhally, Tipperah, Mymensingh, Pubna, Bogra, Maldah, Dinagepore, Cooch Behar, Julpigoree, Darjeeling, Purneah, Chumparun, Sarun, Gya and Monghyr. On the other hand, in the district of Cuttack the fall equalled no less than 129 per cent. in excess of the normal, and about 50 per cent. in excess in Pooree and Balasore.

The only storm worthy of record during September was one which passed into the Indian region as a definitely formed storm from Siam. On the 20th it had advanced in a westerly direction from Siam, and its centre was in the Gulf of Martaban to the south of Rangoon. It then advanced in a west-north-westerly direction with such great rapidity that by the evening of the 22nd it had crossed the whole of the Bay of Bengal and was passing into Orissa, close to False Point. The small storm was, however, of no particular intensity; the lowest pressure reported at False Point being 29·430 inches, and it gave only squally weather in the Bay and at the coast stations during its passage. It afterwards passed into the Central Provinces, where its movement became northerly; later on it moved in a north-easterly direction till it reached Allahabad, where it practically filled up.

Pressure in September was very irregular owing to the number of depressions formed, but the means for the whole month were very nearly normal in South-West Bengal, below it by 0·02 inch in Orissa, Chutia Nagpur, and the west of Behar, and above it elsewhere by variable amounts ranging up to 0·03 inch. Owing to the distribution of the rainfall, temperature was considerably below the normal in Orissa, and slightly below it in Chutia Nagpur; but elsewhere it was above it, the excess being larger than one degree in North and South Behar and North Bengal. The variations of humidity and cloud proportion during September were not important.

In October the weakness of the south-west monsoon current again made itself felt by the unusually early period at which it withdrew from Bengal, and by the early cessation of the monsoon rains, for the rainfall due to this current practically entirely ceased on 5th October instead of in the middle of the month as happens in normal years. There was also an unusual absence of cyclonic storms or of barometric depressions such as are usually formed in this month, and, beyond a depression of very moderate dimensions, which formed in the south-west of the Bay towards the close of the month, and which passed across the south of the Peninsula, there was no storm or even disturbed weather of any kind. Fine settled weather therefore prevailed in Bengal almost uninterruptedly from about the first week in the month, and winds were more strongly northerly, and the northerly winds were also stronger than usual in the last three weeks of October, while temperature, humidity and cloud proportion, owing to the setting in of northerly winds, were all considerably below the normal during the month. Pressure, on the other hand, was unusually high almost throughout the month, and was considerably in excess of the normal for the period.

Rainfall was, however, unusually scanty, the average falls in the large meteorological divisions ranging only from 2·02 inches in North Bengal to 0·53 inch in Chutia Nagpur, while the amounts in defect varied from nearly five inches in Orissa to about two inches in Behar. Expressed as a percentage of the normal fall for October, the actual rainfall of the whole Province only equalled about 31 per cent., while in such divisions as Chutia Nagpur, South-West Bengal, and Orissa the falls only equalled about 20 per cent., and no single division received as much as 50 per cent. of the normal fall. In the following divisions, indeed, the falls received were less than 10 per cent. of the usual amount for October:—Midnapore, 24-Pergunnahs, Howrah, Hooghly, Burdwan, Khoolna, Hazaribagh and Manbhoom; while falls less than 20 per cent. of the normal were received in Cuttack, Balasore, Nuddea, Jessore, Backergunge, Dacca, Darjeeling, South Bhagulpore and Lohardugga.

As a general rule, the review of the monsoon period concludes with the month of October; but in the present year the meteorology of the first half of November has been so important that it is included in the monsoon period. Indeed, in November, two very severe cyclones formed in the Bay, one of which appeared in the Indian region on the 1st of November and afterwards travelled through Bengal, giving moderate amounts of rain, while the second was formed on the 21st to the west of the Andamans and advanced rapidly in a north-easterly direction crossing the Burma Coast on the night of the 23rd, or on the early morning of the 24th, between Akyab and Diamond Island, and then rapidly broke up in the Arakan Hills. It was a very severe storm, and did much damage at sea, and it gave rather heavy rain to Burma; but as the rainfall did not extend to Bengal, this review of the meteorology of the monsoon period has, with the accompanying tables, been closed on 15th November.

The cyclone of the early part of November was, on the whole a small one in diameter, but its fierceness was very great and was quite equal to the majority of cyclones which have been previously described. It is probable that this cyclone was generated in the Gulf of Siam, and that it crossed the Malay Peninsula into the Andaman Sea as a severe storm. It certainly existed as a violent storm on the 1st of November, a little to the east of the Andaman Islands, and it crossed Port Blair on the night of the 1st and morning of the 2nd. Even at this time it was a very severe storm, though the diameter of the hurricane winds was probably not more than 60 or 80 miles, and it did a large amount of damage both at sea and on land at the Andamans. It then moved in a west north-westerly or north-westerly direction towards the Ganjam Coast, and as it began to approach that coast, it increased very decidedly in intensity, and became one of the most severe storms on record. On the morning of the 4th it was to the south-east of Gopalpur, but as it approached the coast it changed the direction of its movement and

travelled first in a northerly and then in a north-easterly direction. The centre passed very close to False Point between 4 and 5 P.M. of the 5th, and passed over the Intermediate Light-vessel off the mouth of the Hooghly at 2-30 A.M. of the 6th.

It then passed through South Bengal between Saugor Island and Chittagong, and passed through East Bengal into Sylhet and Upper Burma and Upper Assam. In its progress it did a large amount of damage to the shipping and on land, but as it passed into South Bengal it commenced rapidly to decrease in intensity and soon became a feeble storm.

It brought up exceptionally heavy rain to Orissa, Pooree receiving 13·61 inches, Kendrapara 15·7 inches, &c., during the storm; but the rainfalls in South and East Bengal were much lighter. Owing to the action of the storm, in the first fifteen days of November Orissa received an average fall of no less than 6·24 inches, while East Bengal received rather more than two inches The falls in South-West Bengal averaged an inch and in North Bengal six-tenths of an inch. A few showers fell in South Behar and Chutia Nagpur, but North Behar received no rain. The rainfall for the first half of November in Orissa was about seven times the normal, and in North Bengal it was more than four times the usual amount. In South-West Bengal it was three-and-a-half times the normal, and in East Bengal it was two-and-a-half times as much as usual, but in the other districts the falls were decidedly less than usual. The rainfall, however, was not evenly distributed, and in North Bengal the falls were particularly irregular: the district of Bogra received about two inches, Pubna and Rajshahye about an inch, Maldah, Dinagepore, Rungpore and Darjeeling less than a fifth of an inch, and Julpigoree and Cooch Behar practically no rain at all. The whole of North Behar was rainless, and the whole of South Behar was also practically rainless except the Sonthal Pergunnahs district, where a little less than half an inch fell. In Chutia Nagpur the falls in the Singbhoom district averaged nearly half an inch, while the Hazaribagh, Lohardugga and Manbhoom districts received falls varying up to about a fifth of an inch. In the other divisions the falls were more copious and also rather more regular. In East Bengal, Tipperah received nearly four inches, Dacca about two-and-a-half inches, Chittagong Hill Tracts and Furreedpore a little less than two inches, and Chittagong, Backergunge, Noakhally, and Mymensingh from one to one-and-a-half inches. In South-West Bengal the Saugor Island district received two-and-a-half inches, Jessore, Khoolna, Moorshedabad, and Beerbhoom between one and two inches, Nuddea, Bankoora, Burdwan, and 24-Pergunnahs about half an inch, and Midnapore, Howrah, and Hooghly about a quarter of an inch. The falls were particularly heavy in Orissa, where the Pooree and Cuttack districts received an average fall of about eight inches and the Balasore district about four inches. It will therefore be seen that the meteorology of November was very important in so far as the rainfall was concerned.

The principal features of the monsoon season of 1891, and of the months preceding it in Bengal, have therefore been—

1. Pressure was almost uniformly in excess of the normal by amounts of about 0·02″ to 0·03″ up to the commencement of the rains.

2. Temperature was in slight excess at the commencement of the year, and afterwards generally slightly in defect up till the rains, except in March, when the defect was particularly large.

3. The number of cold weather storms which occurred in the early part of the year was particularly large, and the storms themselves were exceptionally influential, and in March the weather was disturbed from the occurrence of storms for almost the whole month.

4. The hot weather storms of the type of nor'-westers were very numerous in May, but of about the usual number in the other months; these storms were of about the normal character, and none of those reported were of exceptional intensity, and no tornadoes appear to have formed.

5. Rainfall in the pre-monsoon period was exceptionally abundant, and the general rainfall in the Province was nearly twice as large as usual, the excess being largest in North and South Behar and smallest in East Bengal.

6. The actual monsoon rains set in over Bengal about a fortnight later than usual, and the rains did not break until June 27th or 28th.

7. Even from the period of the commencement of the monsoon up till its close, the monsoon current was particularly weak and gave generally only very light rain.

8. About the normal number of barometric depressions or feeble cyclonic storms were formed in the Bay during the monsoon, but these showed an unusually strong tendency to advance through Orissa into the Central Provinces, Chutia Nagpur, &c.

9. Hence rainfall was frequently in excess of the normal in Orissa, while it was in defect in all other districts, and for the monsoon season while Orissa received about 10 per cent. more rainfall than usual, the other divisions received from 10 to 30 or even 40 per cent. less than usual, the largest defects equalling about 30 to 40 per cent. occurring in parts of North Bengal and North Behar.

10. The monsoon current also retreated from Bengal very much earlier and much more rapidly than usual, the rainfall ceasing on about the 5th of October, instead of in the middle of October as in normal years, and the closing of the rains was thus about ten days earlier than usual.

11. As the monsoon began a fortnight late, and closed ten days earlier, the monsoon period was unusually short and extended over only a little more than three months.

12. In the earlier part of the retreat of the south-west monsoon down the Bay, no storms of importance were formed, and October was an unusually quiet month, but in November two very fierce cyclones formed, one of which advanced into the north-west angle of the Bay and into Bengal, and the other into Burma, and both gave rather heavy rain.

13. The rainfall of the first half of November was therefore very important, and general rain was received in the south-western, southern, and south-eastern districts of the province.

14. The following tables give briefly the amount and variation of the rainfall in each of the seven meteorological divisions month by month for the monsoon season the 1st of May to 15th November, inclusive.

Actual Rainfall in inches.

Meteorological Divisions.	May.	June.	July.	August.	September.	October.	1st—15th November.	Year.

15. Finally, the rainfall of the whole province from May to 15th November inclusive has averaged 47·70 inches, while the normal fall for the period is 55·79, so that the actual fall has been in defect of the normal by 8·09 inches. Expressed as a percentage, the actual rainfall of the province of Bengal for the monsoon season of 1891 has been in defect of the normal by about 15 per cent.

Meteorological Office, Bengal,
the 10th December 1891.

A. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

TABLE I.

Actual Monthly Rainfall of districts in Bengal for the months of May to 15th November 1891.

			Ghatal .. ... nearly 16 }
5	Hooghly .. 2, '92	Nil	Weather—seasonable Reaping of *aman* paddy not yet finished. Outturn
	Serampore ...	Nil	somewhat meagre in Serampore subdivision. Cold weather crops promising.
	Jehanabad ...	Nil	Price of rice rising somewhat. There is no difficulty in obtaining water and fodder-supply. Prices of common rice :—
			Srs.
			Sudder ... . 12 }
			Serampore .. .. 12½ } per rupee
			Jehanabad ... ... 16 }
6	Howrah .. 2, '92	Nil	Weather—seasonable. Harvesting of *aman* nearly finished. Outturn below an
	Uluberia ...	Nil	average crop. Sugarcane crop good. Price of common rice 13 to 14 seers per rupee. Health of cattle good. Fodder and water-supply sufficient.
7	24-Pergns. .. 2, '92	Nil	Weather—seasonable. Harvesting of *aman* nearly over. Prospects of *rabi* continue unchanged. Pressing of sugarcane going on. Supply of fodder sufficient, and condition of cattle good. Prices stationary.
8	Nuddea .. 2, '92	Nil	Weather—seasonable. Harvesting of *aman* nearly finished; prospects poor
	Kushtea ...	Nil	Condition of *rabi* crops not good owing to want of moisture. Common rice
	Chuadanga ...	Nil	selling at from 11 seers 7 chittacks to 14 seers 8 chittacks. Cattle-disease
	Hanaghat ...	Nil	is reported in some parts of thana Kushtea. Supply of fodder and water
	Meherpore ...	Nil	sufficient.
9	Kooolna .. 2, '92	Nil	Weather seasonable. Harvesting of *aman* continues; total outturn will be
	Bagirhat ...	Nil	about 10 annas. Prospects of *rabi* fair. Common rice selling at from 15 to
	Satkhira ..	Nil	16½ seers per rupee. Fodder and water for cattle plentiful.
10	Jessore .. 2, '92	Nil	Weather—cool. *Aman* harvest not quite finished; outturn poor. *Rabi* crops
	Jhenidah	Nil	do not promise well for want of rain. Fodder and water sufficient for
	Magurah ..	Nil	cattle.
	Narail ...	Nil	
	Bongong ..	Nil	
11	Murshedabad .. 2, 92	Nil	Weather—cool and fine. Harvesting of winter rice going on Prospects of *rabi* crops not favourable. Ten cattle died of small-pox in thana Khargram in Kandi subdivision. There is sufficient fodder for cattle.
12	Chittagong .. 2, '92	Nil	Weather—seasonable. Harvesting of winter rice still continues. Prospects unchanged Vegetable crops doing well. Prices stationary. Condition of cattle good Supply of fodder sufficient.
13	Noakhally .. 2, '92	Nil	Weather—seasonable. *Aman* paddy is still being harvested. *Rabi* crops doing well. No cattle disease. Fodder and water available. Price of common rice at Sudharam 15 seers and Penny 17 seers per rupee.
14	Tipperah .. 2, '92	Nil	Weather—seasonable. Prospects of winter crops fair. Fodder sufficient. No cattle-disease reported.
15	Chittagong Hill Tracts. Dec. 31, '91	Nil	Weather—seasonably cool and fine. Gathering of plough-paddy going on Vegetables and other cold-weather crops progressing. Cattle dying of small pox here and there. Fodder and water sufficient. Price of common rice 11 seers 3 chittacks per rupee.

Burdwan Divn. Presidency Divn. Chittagong Divn.

	No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*					
Dacca Divn.	16	Dacca	Jan. 2, '92	Nil	Weather—seasonable. Harvesting of *aman* nearly completed. Prospects of mustard and *kalai* fair. Fodder available. Common rice selling at from 14 to 18 seers per rupee. Condition of people and cattle good.
	17	Furreedpore	,, 2, '92	Nil	Weather—seasonable. Harvesting of *aman* paddy finished nearly. Sowing of *jali dhan* in chur lands in progress. State of *rabi* crops fair. Rice selling at 16, 16, and 14 seers per rupee at Sudder, Madaripore, and Goalundo, respectively. Fodder for cattle available.
		Goalundo	...	Nil	
		Madaripore	...	Nil	
	18	Backergunge	,, 2, '92	Nil	Weather—seasonable. Prospects of crops good. Common rice sells at from 10 to 17 seers per rupee. Supply of fodder and water sufficient. Cattle-disease reported from Bhandaria and Matbaria.
	19	Mymensingh	,, 2, '92	Nil	Weather—very cold generally. Harvesting of winter rice almost completed. Prospects fair on the whole. Coarse rice sells at 15 seers per rupee. Condition of cattle good. Supply of water and fodder generally sufficient.
Rajshahye Divn.	20	Dinagepore	,, 2, '92	Nil	Weather—cool. Harvesting of winter rice still going on. Outturn of sugarcane estimated to be 16 annas. Prospects of other standing crops unchanged. Land being prepared for *bhadoi*. Price of rice at Sudder 13½ seers per rupee and at Thakurgaon 11 seers, but has a tendency to fall. Condition of cattle good. Supply of fodder and drinking water sufficient.
		Thakurgaon	...	Nil	
	21	Rajshahye	,, 2, '92	Nil	Weather—cold and seasonable. *Aman* crop will at best average only an 8-anna crop throughout the district. It has been very poor in places. Cold weather crops all coming up well; some will be exuberant. Rice selling at from 13 to 18 seers per rupee. No cattle-disease. Fodder and drinking water plentiful.
		Nattore	..	Nil	
		Nowgong	...	Nil	
	22	Rungpore	,, 2, '92	Nil	Weather—warm during the day with clouds; cold nights. *Aman* harvest proceeding. Prospects unchanged. Common rice selling at from 11 to 16 seers per rupee. Prices falling. Prospects of sugarcane, mustard, tobacco, and potatoes favourable. Preparation of lands for *bhadoi* progressing. Fodder plentiful.
		Gaibanda	...	Nil	
		Nilphamari	...	Nil	
		Kurigram	...	Nil	
	23	Bogra	,, 2, '92	Nil	Weather—mornings foggy and cool, days fine. Reaping of *aman* still going on; an average 8-anna crop expected. *Rabi* doing well. No cattle-disease. Fodder and water not sufficient. Price of rice almost stationary.
		Sherpur	...	Nil	
		Nowkhilla	...	Nil	
	24	Pubna	,, 2, '92	Nil	Weather—fine and cold. State of crops the same as before. Price of common rice and jute about the same. Condition of cattle good. Water-supply and fodder sufficient.
	25	Darjeeling	,, 2, '92	Nil	Weather—cold. Wheat, potato, and barley progressing well. *Haimanti* rice and *kalai* still being harvested. Prospects good. Prices of common rice :— Srs. Silliguri ... ... 12; Phansidewa ... ... 11½; Kalimpong ... ... 10; Pulbazar ... ... 10; Jore Bungalow ... ... 11; Nagri ... ... 8; Sonadah ... ... 10; Kurseong ... ... 10; Darjeeling ... ... 11 — per rupee. Fodder and water-supply sufficient. No disease among cattle.
	26	Julpigoree	,, 2, '92	Nil	Weather—cold and cloudy during the latter part of the week. Harvesting of *haimanti* paddy approaching completion; outturn poor. *Rabi* crops doing well. Rain much wanted. Price of common rice stationary. No cattle-disease. Fodder and water-supply abundant.
BEHAR.					
Bhagulpore Divn.	27	Monghyr	,, 2, '92	Nil	Weather—clear and cold. Harvesting of winter rice not yet complete in south. outturn in Begusarai about 3 annas. Rain wanted for *rabi* crops and indigo. Fodder and water for cattle sufficient. Cattle-disease prevalent in the south. Common rice 12 to 15 seers per rupee.
		Begusarai	...	Nil	
		Jamui	..	Nil	
	28	Bhagulpore	,, 2, '92	Nil	Weather—seasonable. Harvesting of winter rice is about to end. Prospects of *rabi* crops not improved. Mustard may yield about 8 or 10 annas. Price of common rice—old 12 seers, new 12 seers 15 chittacks per rupee.
	29	Purneah	,, 2, '92	Nil	Weather—settled: no appearance of rain. *Aghani* 12 annas harvested. *Rabi* pretty good, 8 annas to 12 annas in Sudder subdivision. Rice rather cheaper in distressed localities: 11 to 13 seers per rupee. Rain much required, but no complaints of fodder and water. No cattle-disease.
		Kishengunge	...	Nil	
		Arrareah	...	Nil	
	30	Maldah	,, 2, '92	Nil	Weather—seasonably cool. Winter rice is still being harvested. Gathering of *kalai* also in progress. Prospects of other *rabi* crops fair. Cattle-pox reported from Shibgunge and Ratua. Fodder and water sufficient. Coarse rice sells at from 11 to 14½ seers per rupee.
		Chanchal	...	Nil	
		Gajole	...	Nil	
		Shibgunge	...	Nil	
	31	Santhal Pergha.	,, 2, 92	Nil	Weather—cool with west winds; dry. Paddy harvest nearly complete; outturn 10 to 12 annas except in Godda and Rajmehal, where it is about 9 annas. General complaints of want of rain for *rabi* which will be not more than 10 annas if there be no rain. Tanks are dry, but there is no want of fodder yet.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—*concld.*			
PATNA DIVISION. 31	Patna, Jan. 2, '92	Nil	Weather—cold and clear. Harvesting and threshing of paddy in progress. Rain badly wanted for *rabi* and poppy crops. Prices almost stationary. In the corresponding week of last year prospects of *rabi* and poppy were reported good. A little damage was, however, done to poppy by caterpillars.
	Behar ...	Nil	
	Dinapore ...	Nil	
33	Gya, ,, 2, '92	Nil	Weather—very cold sometimes with cloudy morning. Harvesting of paddy still going on. Prospects of *rabi* continue the same, and rain still wanted. Poppy doing well. Sugarcane being pressed. Prices rising. Supply of fodder and water for cattle yet sufficient.
	Jehanabad ...	Nil	
	Nawada ...	Nil	
	Aurungabad ...	Nil	
34	Shahabad, ,, 2, '92	Nil	Weather—cold with heavy nightly dews. *Rabi* continues to bear up wonderfully against the drought. In the north of the district the crops are splendid, and elsewhere in irrigated tracts there is no cause for alarm. In Sasseram and Bhabuah a deterioration is reported. Water-supply is short, and prices are rising.
	Buxar ...	Nil	
	Bhabuah ...	Nil	
	Sasseram ...	Nil	
35	Durbhunga, ,, 2, '92	Nil	Weather—cool. Harvesting of paddy completed. *Rabi* doing well in places where there is moisture, but rain wanted everywhere. *Rahar* and tobacco good. Price of common rice almost stationary. Supply of fodder and water for cattle sufficient.
36	Muzufferpore, ,, 2, '92	Nil	Weather—cold. Harvesting of paddy nearly completed everywhere. Rain very urgently wanted for *rabi* crops. Tobacco and *rahar* doing well. Weather favourable for poppy. Irrigated crops doing well. Cattle in good condition. Fodder and water for cattle sufficient. Price of rice has fallen to some extent in Sitamarhi; stationary elsewhere.
	Sitamarhi ...	Nil	
	Hajipur ...	Nil	
37	Saran, ,, 2, '92	Nil	Weather—seasonable. *Rabi* being irrigated. Fodder and water sufficient. Prices of common rice :— Chupra ... ... Srs. 13 Ch. 9; Sewan ... ... 15 8; Gopalgunge ... ... 15 0 } per rupee.
38	Champaran, ,, 2, '92	Nil	Weather—cold. *Rabi* is being weeded. Prospects fair. Rain wanted. Fodder and water for cattle sufficient.
ORISSA.			
ORISSA DIVS. 39	Cuttack, ,, 2, '92	Nil	Weather—cold and seasonable. *Sarad* harvest progressing. *Rabi* crops generally doing well. Sugarcane harvested. Fodder-supply ample. Price of common rice 13 seers 2 chittacks at head-quarters and 20 seers in the interior.
40	Pooree, Dec. 31, '91	Nil	Weather—cool. Reaping of *sarad* rice continues. *Dalua* rice being sown. Miscellaneous crops doing well. Common rice sells at from 12½ to 21 seers per rupee. Cattle-disease reported from Khurda, Bogunia, Dandimal, and Banpur.
41	Balasore, Jan. 2, '92	Nil	Weather—normal. Harvesting of winter rice still continues. Sugarcane and miscellaneous crops doing well. Price of rice 17 seers per rupee at Balasore and 19 seers at Bhadrak.
CHOTA NAGPORE.			
South-West Frontier Agency.			
CHOTA NAGPORE DIVS. 42	Hazaribagh, Jan. 2, '92	Nil	Weather—seasonable. It will do immense good to *rabi* crops if it rains now. Poppy doing fairly. Common rice selling at from 13 to 16 seers per rupee. Cattle-disease reported from certain places. Fodder and water-supply sufficient.
	Giridih ...	Nil	
43	Lohardugga, ,, 2, '92	Nil	Weather—seasonable. Harvesting of winter rice finished. Rain badly wanted for *rabi* crops. Common rice selling in the Ranchi bazar at 15 seers per rupee. Fodder plentiful.
	Palamow (up to 26th Dec.)	Nil	
44	Singbhoom, ,, 2, '92	Nil	Weather—seasonable. Standing cold weather crops doing well. *Sirguja, til,* mustard and *rahar* being harvested with 12 to 16 annas outturn. Fodder sufficient except at Chyebasa, where it is falling off.
45	Manbhoom, ,, 2, '92	Nil	Weather—dry and cold. *Rabi* crops suffering from drought. Rice crop harvested; outturn not more than 10 annas all round. Fodder and water-supply still sufficient. Rice selling at from 16 to 22 seers per rupee.
	Govindpore ...	Nil

* Mean of 6 days.

Explanation.—*Summary.*—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible] years. The humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the normal rainfall or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past thirteen years, the district rainfall returns divided by the number of stations. A rainy day is one on which as least a tenth of an inch fell.

for the week ending Saturday, the 2nd of January 1892.

Average humidity at 6 A.M.	Average cloud amount at 6 A.M. for week.	Rainfall of week at observing station.	Of week.		District observations. Rainfall. Since 1st of month.			Since 16th October 1891.			Of week.		Representative station.	District.	Meteorological Division.
			Mean for district.	Normal mean.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.	Average number of rainy days.	Normal number of rainy days.

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 5th January* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 2ND OF JANUARY 1892.

THE week has again been one which calls for no detailed comment, as ordinary north-east monsoon or cold weather conditions have prevailed throughout the period. On the 27th the changes of barometric pressure were very small, and pressure remained above the normal by amounts ranging from 0·03″ to 0·1″. The fall of temperature, however, which had commenced at the close of the previous week continued slowly on the 27th, and temperature was generally below the normal by from 1° to 3° at the western and southern stations, while it was above by almost similar amounts at the eastern and northern stations. Light northerly winds prevailed over the whole province, the air was moderately dry, the sky almost free from cloud, and there was no rain. On the 28th pressure had commenced to fall slowly, though it still remained above the normal, but temperature had risen at the majority of stations by moderate amounts, and almost all stations, except a few in South Bengal and Orissa, registered temperatures in excess of the normal. On the 29th a further fall of the barometer took place, though pressure still remained very slightly in excess of the normal, but on this day temperature had commenced to fall rather briskly at the majority of stations. On the 30th a further moderate fall of pressure had occurred, and pressure became distinctly below the normal, while a slight fall of temperature was also reported at many stations. On the 31st of December a further rather rapid fall of pressure took place, the fall at some of the western stations almost equalling a tenth of an inch, and pressure became below the normal by amounts ranging from about 0·06″ to 0·12″, while temperature also again fell at many stations. This continuous and rather rapid fall of pressure was apparently connected with the formation of a very feeble barometric depression in North-Western India, which on the 31st appeared to have a centre near Lucknow. This at once affected the weather in Bengal slightly, and on the 1st of January southerly winds set in at some of the southern stations, and winds generally appeared to be influenced by low pressure in the hills; the sky also clouded over considerably, while humidity became very high at some stations, but no rain fell. The depression, however, did not develop, for on the morning of January the 1st a moderate increase of pressure was reported, and on the 2nd again a further moderate increase had taken place, through pressure was still slightly below the normal. The feeble depression, though only of brief existence, and though it had practically disappeared on the 2nd, had, however, caused temperature to increase moderately to rapidly in Bengal, and on the 2nd it was generally about 2° in excess of the normal. On the 2nd however winds had again become generally northerly, the sky had begun to clear rather rapidly, and weather was generally returning to its normal cold weather character, and throughout the whole week rainfall was thus entirely absent from the province.

Pressure.—The mean pressure for the week over the whole province has been very nearly normal, and at about half the stations slight defects have been recorded, while at the other half slight excess pressures have been registered. These small variations have, however, been rather irregular, though generally at the south-western and western stations slight excess pressures have been registered, and at the northern and eastern stations slight defects.

Temperature. The variations of temperature during the week have already been described. For the whole of this period, the mean temperature of the province has been absolutely normal, but in different districts there have been considerable variations, for the mean temperature of Orissa has been 1·9° below the normal, while in North Bengal and Behar there has been an excess temperature of half a degree and upwards.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. During the week it will be seen that the maximum or day temperatures have generally been in excess of the normal, while the night or minimum temperatures have been in defect, the defect at such places as Cuttack and Calcutta being considerable:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 2nd January 1892.

	Normal mean maximum temperature for the week ending 2nd January.	Actual mean maximum temperature for the week ending 2nd January 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 2nd January.	Actual mean minimum temperature for the week ending 2nd January 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 2nd January.	Actual mean daily temperature for the week ending 2nd January 1892.	Variation of actual mean from the normal.
Cuttack	82·1	80·7	—1·4	58·0	53·3	—4·7	70·1	67·0	—3·1
Calcutta	75·1	76·9	+1·8	54·4	51·6	—2·8	64·8	64·1	—0·7
Dacca	76·7	77·8	+1·1	55·8	53·4	—1·8	65·8	65·6	—0·2
Burdwan	76·8	77·5	+0·7	55·6	53·1	—1·5	66·2	66·3	+0·1

Purnea	74·7	76·7	+1·0	47·5	44·4	—3·1	61·1	60·1	—1·0
Hazaribagh	71·4	71·6	+0·2	49·4	48·4	—1·0	60·4	60·0	—0·4
Darjeeling	55·6	55·6	—0·0	35·5	35·5	0	45·0	45·6	—0·4

During the week some decidedly low minimum temperatures have been recorded, the lowest being 42·8° at Purneah, while temperatures of about 45° have been registered at Dinagepore, Ranchee, and Chybassa, and of about 46° at Balasore, Krishnagar, Rungpore, Mozufferpore, Buxar, Gya, and Hazaribagh.

Rainfall—Has been entirely absent throughout the week from the whole province.

The following table gives the summary of the temperature and rainfall data of each of the seven mete orological divisions of the province for the week ending Saturday, the 2nd of January 1892 :—

Meteorological Divisions.	Temperature.						Rainfall.									
			Averages for week.				Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1891.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	65·24

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew.

* Includes 282 tons and 54 tons during 1891 and 1890, respectively, carried for Revenue, for which no "Up" and "Down" register maintained.
† 79 tons for the present year for which no "Up" and "Down" register maintained.

Statement of principal commodities carried over the Bengal Central Railway during the month of October 1891.

Increases and Decreases.

The increases and decreases are due to ordinary fluctuations of traffic, and call for no special remarks.

J. Marshall,
Examiner of Accounts.

Calcutta, *the 21st December* 1891.

* Includes 7,164 tons and 7,701 tons during 1891 and 1890, respectively, carried for Revenue for which no "Up" and "Down" register maintained.

† 7,349 tons and 4,214 tons for the year 1891 and 1890, respectively, for which no "Up" and "Down" register maintained.

Comparative statement of the principal commodities carried over the Eastern Bengal State Railway during the month of October 1891.

INCREASES.

	Tons.
Railway plant	3,175
For repairs and renewals.	

DECREASES.

	Tons.		Tons.
Rice	1,204	Jute, unscrewed	15,225
Most of the rice-exporting stations on the Northern section show decreases under this head, said to be due to scanty production.		The falling off was in despatches from the principal jute-booking stations on the Northern, Dacca, and Eastern sections.	
Cotton piece-goods	1,575	Salt	7,133
Due to ordinary trade fluctuation.		The decrease in this traffic cannot be accounted for.	

J. MARSHALL,

Examiner of Accounts.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 105A.

GENERAL.—*The 6th January* 1892.—Babu Parbati Churn Roy, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, was on leave, under articles 264 and 369 of the Civil Service Regulations, with effect from the 13th September 1891 up to the 6th December 1891.

The 7th January 1892.—The Revd. John Davidson, Principal, La Martiniére College, is appointed to be Honorary Chaplain of the Calcutta Volunteer Rifle Corps, *vice* the Revd. A. W. Atkinson, resigned.

The 9th January 1892.—Lieutenant-Colonel A. E. Gordon, Deputy Commissioner of Palamow, is allowed leave for two months, under article 291 of the Civil Service Regulations, with effect from the 16th instant.

Mr. T. W. Richardson, Officiating Joint-Magistrate and Deputy Collector, Lohardugga, is appointed to temporarily act as Deputy Commissioner of Palamow, during the absence, on leave, of Lieutenant-Colonel A. E. Gordon, or until further orders.

The 11th January 1892.—Babu Radhakanta Banerjee, Deputy Magistrate and Deputy Collector, Hooghly, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from such date as he may avail himself of it.

Babu Bangshi Dhar Rai, Deputy Magistrate and Deputy Collector, Hooghly, is appointed temporarily to have charge of the Jehanabad sub-division of that district.

Mr. J. A. Hopkins, Magistrate and Collector, Patna, is appointed to be Additional Commissioner of the Patna Division, for three months, with effect from the date on which he joins that appointment.

Mr. G. W. Place, Joint Magistrate and Deputy Collector, Patna, is appointed to act temporarily as Magistrate and Collector of that district.

The 12th January 1892.—Babu Hari Mohan Sen, Deputy Magistrate and Deputy Collector, Furreedpore, is allowed furlough for one year, under article 371 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Babu Girindra Chandra Banerjee, Deputy Magistrate and Deputy Collector, Lohardugga, is transferred to Beerbhoom, and is posted to the head-quarters station of that district.

In modification of the order dated the 28th November 1891, Mr. C. P. Casperaz, Joint-Magistrate and Deputy Collector, is posted to the head-quarters station of the Chittagong district.

Mr. Ashutosh Gupta, Assistant Magistrate and Collector, is appointed substantively *pro tempore* to be a Joint Magistrate and Deputy Collector of the second grade, with effect from the 3rd December 1891, *vice* Mr. J. H. Bernard, and is confirmed in that grade from the 14th idem, *vice* Mr. W. R. Bright, but will continue to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors.

Babu Kedar Nath Banerji, Sub-Deputy Collector, on leave, is posted to the Presidency Division.

Mr. H. R. H. Coxe, Officiating Joint Magistrate and Deputy Collector, Bettiah, Chumparun, is allowed leave for two months and nineteen days, under article 291 of the Civil Service Regulations, with effect from the 15th instant or such subsequent date on which he may avail himself of it.

Mr. H. J. McIntosh, Officiating Joint Magistrate and Deputy Collector, Sarun, is transferred to Chumparun, and is appointed to have charge of the Bettiah sub-division of that district, during the absence, on leave, of Mr. H. R. H. Coxe, or until further orders.

Babu Ram Sadhan Bhattacharjee, Deputy Magistrate and Deputy Collector, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he was relieved of the charge of the Patuakhally sub-division.

POLICE.—*The 12th January* 1892.—Mr. W. C. Fasson, District Superintendent of Police, Dinagepore, is allowed leave for two months, under article 291 of the Civil Service Regulations, with effect from the 15th instant, or such subsequent date as he may be relieved.

In modification of the order, dated the 7th December 1891, Mr. A. R. G. Hampton, Officiating Assistant Superintendent of Police, 24-Pergunnahs, is transferred to Dinagepore, and is appointed to have charge of the district police of that district, during the absence, on leave, of Mr. W. C. Fasson, or until further orders.

ECCLESIASTICAL.—*The 12th January* 1892.—Reverend C. R. T. Winckly, Chaplain of Fort William, is allowed leave for three months, under article 656 of the Civil Service Regulations, with effect from the 20th instant.

REGISTRATION.—*The 12th January* 1892.—Babu Raghunandun Sahay, Special Sub-Registrar, Mozufferpore, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Ambica Persad, Rural Sub-Registrar of Sitamarhi, is appointed to act as Special Sub-Registrar of Mozufferpore, during the absence, on leave, of Babu Raghunandun Sahay, or until further orders.

JAILS.—*The 12th January* 1892.—Mr. C. H. C. Sevenoaks, Superintendent of Central Jail, Midnapore, is allowed furlough for eight months, under article 371 of the Civil Service Regulations, with effect from the 1st of March next, or from any subsequent date as he may be relieved.

Mr. E. W. Payne, Superintendent, Dacca Central Jail, is granted an extension of furlough for three days, up to the 13th December 1891, inclusive, under article 371 of the Civil Service Regulations.

ERRATUM.—EDUCATION.—*The 12th January* 1892.—In the notification of the 21st December 1891, placing the services of Mr. Michael Erulee DuSantoy Prothero, Professor, Presidency College, Calcutta, temporarily at the disposal of the Government of India in the Home Department, with effect from the 18th January 1892, *for* the 18th January 1892 *read* afternoon of the 19th January 1892, or from the date of giving over charge of his duties in Calcutta.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 7th January 1892.—The following statement shows the allotment of furloughs to officers of the Indian Civil Service and Non-Regulation Commission during the first half of the year 1892:—

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTICE.

The following draft of proposed Rules under the Indian Factories Act (Act XV of 1881 as amended by Act XI of 1891) is published under section 16 (4) of Act XI of 1891 for the information of persons interested, and notice is hereby given under that section that the draft will be taken into consideration by His Honour the Lieutenant-Governor on the 15th March next.

2. Any objection or suggestion which may be made by any person with respect to the draft before that date will be received and considered by the Lieutenant-Governor.

DRAFT RULES UNDER SECTION 18, CLAUSE 1, OF THE INDIAN FACTORIES ACT XV OF 1881 AS AMENDED BY ACT XI OF 1891.

THE terms *factory*, *child employed*, and *certifying Surgeon*, when used in these rules or in any supplementary rules that may hereafter be made under the Act, shall have the meaning given to them in the Act. *Inspector* means the Magistrate of the district or an Inspector appointed by the Lieutenant-Governor under section 3 of the Act. *Occupier* means the Manager, and includes the person for the time being actually in charge of a factory.

2. Every Inspector who is not himself the Magistrate of the district shall, in respect of factories in any district, be officially subordinate to the Magistrate of the district, and in Calcutta to the Commissioner of Police.

3. Each Inspector shall keep a register of all the factories within his jurisdiction in the form A attached to these rules. There shall be a separate part in the register for the factories in each district of the Inspector's jurisdiction.

4. The Inspector may at any time send through the post, under registered cover, a notice to the occupier of any factory within his jurisdiction, not already entered on his register of factories, intimating his intention of placing such factory upon his register.

5. Any person served with a notice under rule 4, whose premises do not fall within the definition of a factory given in the Act, may, within 30 days of the receipt of such notice, forward to the Inspector a statement setting forth his objections to the registration of his premises as a factory. The Inspector shall consider and dispose of such objection after making such enquiry as he may deem necessary, and shall make up his register of factories in accordance with the provisions of the Act.

6. When any premises cease to be occupied as a factory, the occupier may give notice of the fact to the Inspector, who shall, if satisfied that the Act is no longer applicable to such premises, remove them from his register of factories. The Inspector may, without such notice, of his own motion, at any time, remove any factory from his register if satisfied that it is no longer used as such.

7. Before the fence or guard of any part of the machinery is removed, the machinery protected by it shall be stopped, and the fence or guard shall be replaced before the machinery is again set in motion.

8. The occupier of a factory shall cause a sufficient supply of good water to be kept at a suitable place or places on the factory premises for the use of the operatives. A tap or taps connected with any public water-works, from which a sufficient quantity of water can at all times be drawn as required, shall be deemed a sufficient supply for the purpose of this rule. When the operatives cannot leave their places, the occupier shall cause the water to be carried to them as required or at reasonable intervals.

9. Every factory shall be provided with sufficient accommodation in respect of latrines and urinals, which shall be kept in a cleanly state. The accommodation for male and female operatives shall be separate.

10. Every factory shall be kept in a clean state and free from effluvia arising from any drain, privy, or other nuisance. All refuse likely to be injurious to health shall be removed with as little delay as possible.

11. Every factory shall be ventilated in such manner as to render harmless, as far as is practicable, the gases, vapours, dust, or other impurities generated in the course of the processes carried on therein that may be injurious to health.

12. All the inside walls of the rooms of a factory, and all the ceilings or tops of such rooms, and all the passages and staircases shall be lime-washed at least once in two years, dating from the time of last lime-washing.

13. All the beams, rafters, doors and other wood-work shall be painted or varnished once in six years, and shall be kept in a cleanly state.

14. A factory shall not be so overcrowded while work is carried on therein as to be injurious to the health of the persons employed therein.

15. An Inspector shall be competent to pass in respect of any factory such orders as he may consider necessary to give effect to rules 8 to 14 above.

16. Each factory shall be inspected by an Inspector at least twice in each calendar year.

17. Every Inspector shall keep a register of his inspections of each factory in form B attached to these rules, in which he shall record all orders and remarks made by him on each occasion of his inspection.

18. The Inspector shall without delay furnish a copy of such orders or remarks to the Commissioner of the Division (through the Magistrate of the district, if the Inspector be not himself such Magistrate) and also to the occupier of the factory concerned. In Calcutta the copy shall be forwarded to the Commissioner of Police and the occupier. This procedure shall also be observed in respect of orders passed under rule 15 and under section 12, clause C of the Act.

19. The despatch through the post, under registered cover, of the copy of such orders and remarks shall be deemed to be sufficient service on the occupier of the factory of any orders or directions therein contained.

20. The occupier of a factory shall, if required by the Inspector, bring before him on the occasion of any inspection all children employed in the factory, and any operatives in service of such occupier whom the Inspector may wish to see.

21. Each certifying Surgeon shall give the certificate described in section 5 of the Act in the form C attached to these rules. Forms of certificate in counterfoil will be supplied to the certifying Surgeons by the Magistrate of the district, and in Calcutta by the Commissioner of Police.

22. Every occupier of a factory shall keep a file of all certificates of certifying Surgeons relating to children in his employ, and shall produce it when required by the Inspector. Every such certificate shall be returned by such occupier to the parent or guardian of the child to whom it relates on his leaving the factory for other employ and on demand of such parent or guardian. If there be no such parent or guardian, the certificate may be made over to the child on his own demand.

23. Every occupier of a factory shall keep registers in forms D and E attached to these rules, and no such register shall be destroyed or removed from the factory without the written permission of the Inspector.

24. An appeal shall lie to the Commissioner of the Division, and in Calcutta to the Commissioner of Police, from every order of an Inspector under section 12, clause C of the Act, or under rules 5, 6, 15 and 17 of these rules. Every such appeal shall be submitted in writing to the Inspector within 15 days of receipt of the order appealed against, and the Inspector shall forward such appeal within 7 days of its presentation with any remarks he may see fit to make. The Commissioner shall on receipt fix a day for disposing of the appeal, and give due notice thereof to the appellant.

25. The appeal shall be in the form of a memorandum of appeal similar to that contained in the 4th schedule of the Civil Procedure Code, No. 173, and shall bear a stamp the value of which should be regulated by article 11, Schedule II of the Court-fees Act. In every appeal against an order passed under section 12, clause (*c*) of the Act by an Inspector, the Commissioner shall, on the written application of the appellant, and may without such application, appoint some person having competent practical experience of the management of machinery to sit as assessor at the hearing of the appeal, and shall have regard to the opinion of such assessor in deciding any technical question that may arise therein. An assessor appointed under this rule shall receive a fee of Rs. 16 for each appeal payable by Government. In the event of the appeal being decided against the appellant, the fee to the assessor is to be paid by the appellant and not by Government, in cases where the assessor was appointed on the application of the appellant.

26. Notice of accidents resulting in death or from which the injury is evidently so severe that there is no reasonable hope that the injured person will be able to return to his work within 48 hours should be given on the same day on which the accident occurs. Notice of accident of a less severe character, but which nevertheless prevents the person injured from returning to his work within 48 hours of the occurrence, shall be given immediately on the expiry of the 48 hours' interval allowed by section 13. Such notice shall be sent to the Magistrate or the Commissioner of Police within whose jurisdiction the factory is situated. Notice of fatal injuries shall at the same time be given at the nearest police-station, as required by section 90, Criminal Procedure Code. All such notices shall contain full particulars of the accident, and shall be sent by special messenger.

C E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 5th January 1892.—Under section 3 of the Bengal Survey Act, V of 1875, the Lieutenant-Governor is pleased to order that a survey shall be made of all the lands comprised within the boundaries of kiila Madhupur, a permanently-settled estate in the district of Cuttack, belonging to the Madhupur Ward's Estate.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 5th January 1892.—Under the powers conferred upon him by section 101, sub-section 2(*c*) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all the lands included within the boundaries of killa Madhupur, a permanently-settled estate in the district of Cuttack, belonging to the Madhupur Ward's Estate.

The particulars to be recorded in the survey and record of rights shall be the following:—

(1) The name of the proprietor, with the character and extent of his interest.
(2) The situation, quantity, and boundaries of proprietor's private lands as defined in Chapter XI of the Act.
(3) The name of each tenant.
(4) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuation of his tenure.
(5) The situation, quantity, and boundaries of land held by him.
(6) The name of his landlord.
(7) The rent payable.
(8) The mode in which the rent has been fixed, whether by contract, by order of a court, or otherwise.
(9) If the rent is a gradually increasing rent, the time at which and the steps by which it increases.
(10) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th January 1892.—Under section 5, Regulation III of 1822, as amended by section 2 (2) and Schedule II of the Obsolete Enactments Act XII of 1891, the Lieutenant-Governor is pleased to authorise the several Members of the Board of Revenue, Lower Provinces, to exercise generally, throughout the territories subject to their control, all the duties, powers, and authority which are vested in the Board collectively in respect of the departments detailed below:—

The Hon'ble Sir H. L. Harrison, Kt., will exercise the aforesaid powers in the Department of Land Revenue, from the 30th of October 1891. This includes Revenue, Survey and settlement, Land registration, Land improvements, the Sale or lease of waste land and Government estates, the Management of Wards' and Attached Estates, the collection of cesses, the realization of arrears of revenue, and the recovery of public demands, rent suits, embankments, pensions, the examination, enrolment, &c., of Revenue Agents, putni sales, and the supply of provisions for troops.

Mr. A Smith exercised the aforesaid powers in the Departments of Miscellaneous Revenue from the 30th October to the 15th December 1891. These include Excise, Income-tax, Salt, Opium, Customs, Stamps and Stationery, Marine, the partition of estates and the acquisition of land for public purposes.

Mr. C. C. Stevens will exercise the aforesaid powers in the Departments of Miscellaneous Revenue, as above described, with effect from the 16th December 1891.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 119L.R.

The 11th January 1892.—The notification, dated the 25th February 1891, published at page 233, Part I of the *Calcutta Gazette*, dated the 4th March 1891, is hereby cancelled, in so far as it relates to the appointment of Mr. Herbert Reade Reily as Superintendent of Survey in Orissa under Act V (B.C.) of 1875.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 12th January, 1892.—With reference to the notifications dated 11th February, 1890, and 22nd December, 1891, and published in the *Calcutta Gazettes* of the 12th February, 1890, and 23rd December, 1891, respectively, the Lieutenant-Governor is pleased to appoint, under section 4 of the Bengal Survey Act V of 1875, Mr. T. Shaw, Assistant Surveyor, first grade, to be an Assistant Superintendent of Survey for the survey of towji Nos. 1, 2, 3 and 4 of the Bankura district.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

ERRATUM.

The 12th January, 1892.—In the notification, dated the 22nd December, 1891, published in Part I, page 1079 of the *Calcutta Gazette*, dated the 23rd December, 1891, *for* "Mr. R. W. Smart," *read* Mr. A. W. Smart.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

The 8th January 1892.—Assistant Surgeon Kunja Lall Sanyal, in charge of the Barisal Charitable Dispensary, is appointed temporarily to the medical charge of the district of Palamow.

The 12th January 1892.—Assistant Surgeon Upendra Nath Sen, of the Monghyr Charitable Dispensary, is appointed temporarily to have medical charge of the Civil Station of Monghyr in addition to his own duties, with effect from the forenoon of the 19th December 1891.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 106A.

The 6th January 1891.—Syed Muhamad Yusuf Ali, B.L., is appointed to act as a Munsif in the district of Purneah, to be ordinarily stationed at Kissengunge, during the absence, on leave, of Babu Kapali Prasanna Mukerjee, or until further orders, with effect from the date on which he joined his appointment.

H. A. BAMFORD,
Inspector of European Schools, Bengal.

The 5th January 1892.

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

THE next examination of candidates for Pleadership will be held on the 22nd, 23rd and 24th February next in the Senate House of the Calcutta University.

The next examination of candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gauhatty and Sylhet on same days; the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership candidates will be examined *viva voce* only on the 22nd February, commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 23rd and 24th February. Two papers will be set for the Mookhtarship candidates on the 22nd February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 23rd and 24th February commencing at 10 A.M. each day.

Under no circumstances will any candidate be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovementioned).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

HENRY T. HYDE,
Secy. to the Board of Examiners for Pleadership and Mookhtarship.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1793B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1889 90, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 1st February 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory consisting of ...	2,150
Opium manufactured at the Ghazeepore Factory consisting of...	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 6th and 16th February 1892, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 6th February 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 16th February 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale up to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

Mymensingh Collectorate, the 7th January 1892. (940—1) ABUL MAHMUD, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Patna, will be put up for sale at the Collector's Office of that district on the 18th January 1892, corresponding with 4th Magh 1299 (F. S.) (Monday), for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

E. W. COLLIN, Chairman.

Dated the 4th January 1892.

Burdwan Municipality.

DEBENTURE LOAN OF RUPEES 25,000.

Bearing interest at 4½ per cent. per annum.

THE Commissioners have obtained the sanction of the Government of Bengal, under section 7, Act XI of 1879, "The Local Authorities' Loan Act," to raise a loan of the above sum in the open market, on the security of the rates and taxes levied by them under Act III (B.C.) of 1884, in order to enable them to further extend the Burdwan water-works and improve the supply.

Tenders are hereby invited, and will be received up to the 20th of January 1892, for the whole or any part of the abovenamed sum.

Negotiable debentures will be issued of Rs. 500 each, or any multiple thereof, and the loan will be repayable in twenty-five years. Interest on the debentures will be payable on the 1st May and 1st November, either at the Bank of Bengal, Calcutta, or at the Municipal Office, Burdwan.

Tenders in the form annexed, to be sent to the "Chairman, Burdwan Municipality," enclosed in a sealed cover marked "Tender for Municipal Loan of 1892." A minimum having been fixed upon, tenders will be opened at the Municipal Office by the Chairman of the Municipality at noon on the 21st January 1892.

A deposit of 2 per cent. of the amount tendered for must be paid either to the Bank of Bengal, Calcutta, or to the Burdwan Treasury, for credit of the Municipal Fund, and the Bank or Treasury Receipt should accompany the tender.

The whole amount tendered for should be paid in one instalment on the 1st February 1892, either at the Burdwan Treasury, or at the Bank of Bengal, Calcutta.

The deposits on accepted tenders will be taken in part payment of the sum tendered for, but will be forfeited if, after acceptance of the tender, the allotment be not fully paid up as above.

The deposits on accepted tenders will be returned on application.

NALINAKSHA BASU, Chairman.

FORM OF TENDER.

I hereby tender for Rs. ———— of the Loan advertized in the notification published in the *Calcutta Gazette*, and agree to pay the sums subject to the conditions notified, at the rate of Rs. ———— as ———— for every Rs. 100 allotted to me.

I enclose a deposit receipt of the Bank of Bengal, Treasury at Burdwan for Rs. ————, being 2 per cent. on the amount of my tender, and engage, if my offer is accepted, to pay to the account of the Municipal Fund in the Bank of Bengal, Treasury at Burdwan the sum allotted to me on or before the 1st day of February 1892.

———— *Signature.*

———— *Address.*

(932—1)

Judicial.

Appendices to above (in which is included the specimens of forms used in the Civil Courts). Super royal 8vo., boards. Rs. 2 (6*a.*)

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically

according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

The Shargi Architecture of Jaunpur, with Note on Zafarabad, Sahet-Mahet, and other places in the N.W. P. and Oudh. By A. FUHRER, Ph. D., with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1.)

NOTICE TO MARINERS—No. 3.

[Second Publication.]

AUSTRALIA—EAST COAST—KEPPEL BAY.

Amended position of sunken rock eastward of Great Keppel island, and sunken rock eastward of Bald rock.

WITH reference to Notice to Mariners, No. 164, dated the 31st August last, issued by this office, the British Admiralty has given further notice (No. 590 of 1891) that from an examination made by the Harbour Master of Rockhampton, it is found that the sunken rock (*Hannah rock*) lying eastward of Great Keppel or Wapparaburra island, and originally

reported by Mr. Hannah, Coast Pilot, has about 9 feet water over it, and lies with the south-east extreme of Humpy island bearing S.W. ½ W., distant 1 9/10 miles, and Bald rock N.W. by N. ½ N.

Approximate position: lat. 23° 12′ 15″ S.; long. 151° 1′ 35″ E.

Also, that Captain Sykes has reported the existence of a pinnacle rock (*Sykes rock*), with about 6 feet water over it, lying with Bald rock bearing about W. by N., distant 5 cables.

Approximate position: lat. 23° 10′ 35″ S.; long. 151° 1′ 15″ E.

[Third Publication.]

AUSTRALIA—MONTALIVET ISLANDS.

Existence of certain reefs lying near the island.

THE British Admiralty has given notice (No. 564 of 1891) that information has been received from Commander W. U. Moore, H.M. Surveying vessel *Penguin*, dated 17th September 1891, of the existence of the undermentioned reefs lying near Montalivet islands, the result of recent examination of the locality :—

1. *Ingram reef* originally reported by Mr. H. Lee, commanding the Adelaide S.S. Company's vessel *Rob Roy*, is one mile in length in a north-west and south-east direction, and three cables broad, with depths of 28 to 30 fathoms around. The shallowest part, a coral patch of small extent, is awash at low water, and lies with the northern Montalivet island bearing S. by W., distant 6¼ miles, or in approximately on Admiralty charts lat. 14° 6′ 55″ S., long. 125° 20′ 45″ E. The sea does not usually break on this reef except near low water. The *Penguin* passed twice within a mile of it, before finding it, and though the weather was favourable, no indication of shoal water was seen.

2. *Albert reef* lying westward of the West Montalivet island, appears to be detached from that island, but vessels should not attempt to pass between. The north-west part which dries at low water is situated in approximately lat. 14° 11′ S., long. 125° 6′ E.

3. *Rob Roy reefs* extend about 6 miles in a north and south direction, with a breadth of about 3 miles. The western breakers lie in approximately lat. 14° 25′ S., long. 124° 50 E.; the northern breaker is situated in approximately lat 14° 22′ S., long. 124° 52′ E. About half a mile south-east of the northern breaker there is a sand cay, which is awah at half tide.

CAUTION.—As in the neighbourhood of the dangers near Montalivet islands the tides are strong, the banks and reefs steep-to, and the water unusually turbid, great care is necessary when navigating in the locality.

The depths given are at low water spring tides.

THE CANAL REVENUE REPORTS FOR 1890-91.

No. 24*I.A.*

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

Irrigation Accounts.

Dated Calcutta, the 11th January 1892.

RESOLUTION.

READ—

The Canal Revenue Reports for 1890-91 and Chief Engineer's Note on the same.

His Honour the Lieutenant-Governor regrets the delay in the submission of this Canal Revenue Report, which is due on the 15th November, to the Government of India, and expects that in future it will be prepared with greater punctuality.

2. There are in Bengal four canal systems which are classed as Major Works. Three of these combine Irrigation with Navigation, and the fourth (Hidgellee Tidal Canal) is purely a Navigation work. The Midnapur Canal system is complete, and no further expenditure on the Capital Account will be incurred from Imperial funds. The Sone Canal system is practically complete and in full work. Expenditure on subsidiary works, chiefly connected

Major Works.

with drainage, on improvements to the outlets, and on masonry road crossings required for village channels continues against the unspent balances of estimates sanctioned before 31st March 1891. No further sanctions will be given debitable to Imperial funds. On the Orissa Canal system there is still a good deal to be done to complete the distributaries and minor channels, and it will be some years before the system is fully developed. The Hidgellee Tidal Canal was completed in 1874, but is now being remodelled. The funds required have been advanced by the Imperial Government, and interest is payable by the Local Government at 4 per cent.

Minor Works.

3. The works classed as "Minor Works and Navigation" are divided under three heads—(1) those for which both Capital and Revenue Accounts are kept, (2) those for which only Revenue Accounts are kept, (3) those for which neither Capital nor Revenue Accounts are kept.

Under the first head there are three projects in operation, viz., the Calcutta and Eastern Canals, the Orissa Coast Canal, and the Sarun Canals. The two former are Navigation works. By the first, communication is maintained between Calcutta and Eastern Bengal through the Sundarbuns, and the second is, in combination with the Hidgellee Canal, the main highway between Bengal and Orissa, and the only means at present by which food could be thrown into Orissa in time of famine, except by sea. The object of the Sarun Canals is to supply water from the Gandak to the Sarun district, partly for irrigation and partly for the manufacture of indigo.

Under the second head there is only the Nuddea rivers, the work on which consists of the improvement and maintenance of the river channels to secure a continuous supply of water from the Ganges to the Hooghly, and to facilitate navigation.

Under the third head there are the Eden Canal and the Madhuban Canal. The former is a small work for flushing some of the nullahs in the Burdwan district with water from the river Damooda, chiefly to give a supply of good drinking water. The canal is also in dry years used for irrigation. The latter is a small irrigation work in the Chumparun district.

Capital Account.

4. The outlay of the last two years and the total outlay to date on the Capital Account is shown in the following table :—

Works.	During 1890-91.			During 1890-91.			To end of 1890-91.

Orissa Canals

5. On the Orissa Canals the direct charges of the year, viz. Rs. 3,31,596, consisted of—

					Rs.
Works	...	...	...	...	2,79,149
Establishment	...	...	...	...	47,656
Tools and plant	...	...	...	...	7,089
Suspense accounts	...	...	...	...	—2,139
			Total	...	3,31,755
			Less receipts on Capital account	...	159
			Net	...	3,31,596

The Taldundah Extension Canal, which was shown as in progress in the report for last year, was proceeded with and was very nearly complete at the close of the year.

The lock at Paradeep, which is the outfall lock for this canal, was practically complete within the year, as at the close only the coping had to be put on and the gates to be hung.

Distributaries were in progress on all the canals, and though no addition was made to the completed length during the year, work was so far advanced that water could have been given if necessary during the current year from a length of 70 to 80 miles of new distributaries.

During the year estimates were submitted and sanctioned for 252 miles of distributaries and for 27 miles of embankments.

The Daib protective embankment was fully completed.

There is now no reason for further delay in completing the Orissa project so far as regards detailed sanctioned estimates, but progress continues slow owing to the want of labour. During the year under review work was also hindered by rain in February and March.

Midnapur Canal.

6. The transactions of the year (direct charges) affecting the Capital account of the Midnapur Canal were the following:—

	Rs.
Works	3,300
Establishment	1,136
Tools and plant	(—)24
Suspense accounts	—39,537
Total ...	—35,125
Less receipts on Capital account	765
Net ...	—35,890

As all further outlay on this canal has, under recent orders from the Government of India, to be met from Provincial revenues, it was necessary to write back the suspense or stock balance from head 49, Major Works, to head 43, Minor Works and Navigation, so effecting a reduction to that extent in the sum at charge. The amount of Rs. 3,300 spent in works was used mainly on the improvement and extension of the Jakhpur drainage channel.

Hidgellee Tidal Canal.

7. The sum of Rs. 1,52,884, by which the Capital account of the Hidgellee Canal was increased (direct charges), was distributed as follows:—

	Rs.
Works	99,423
Establishment	35,978
Tools and plant	17,483
Total ...	1,52,884

The alterations or remodelling of this canal with a view of preventing the frequent closures for the removal of silt, which had been commenced in the preceding year, were proceeded with. The main object of these works is to lower the bed of the canal in order to provide waterway in spite of accumulations of silt, and to admit the drainage of the country across the canal by inlet and escape. Also to provide duplicate supply channels in order to admit the river water in the canal free from silt. The supply sluice for Range I at Gewankhally was built up to floor level, and the supply channel from it was about three-fourths completed. In Range II the lowering of the bed of the canal was taken in hand and about one-third of the work was done.

8. The Capital account of the Sone Canals was increased during the year by the amount of Rs. 1,71,361 (direct charges) distributed as follows :—

	Rs.
Works	1,32,699
Establishment	19,850
Tools and plant	6,411
Suspense accounts	14,716
Total ...	1,73,676
Less receipts on Capital account ...	2,315
Net ...	1,71,361

The expenditure on these canals from Imperial funds is about to be closed, and will be limited to those works sanctioned before 1st April 1890 and not then completed. The unspent balance of such estimates amounted on that date to Rs. 6,16,733.

The most important works done during the year were the Chowri and Chowsa drainage cuts, and an escape from the Kuttea distributary. Progress was also made in the provision of permanent outlets and in constructing crossings for village channels under the district roads. An important drainage cut in the Buxar Division and an additional weir on the Patna Canal at lock No. 11 were in progress at the end of the year. The latter work was completed in May.

Calcutta and Eastern Canals.

9. On the Calcutta and Eastern Canals the Capital account was increased by Rs. 5,613 (direct charges) as under—

	Rs.
Works	1,599
Establishment	574
Tools and plant	3,427
Suspense accounts	13
Total ...	5,613

The works constructed were two additional buildings for storing wreckage, while a portable engine was received from the Orissa Coast Canal and its value adjusted.

Orissa Coast Canal.

10. On the Orissa Coast Canal the outlay amounts to Rs. 17,212 (direct charges) as shown below—

	Rs.
Works	17,269
Establishment	6,085
Tools and plant	(—)4,098
Suspense accounts	(—)2,029
Total ...	17,227
Less receipts on Capital account ...	15
Net ...	17,212

The expenditure on works was incurred on clearing several brickfields, on the construction of toll-houses and sheds for khallasies, on excavation of tanks for drinking water at locks, and on the purchase of a house for the Executive Engineer's Office.

Revenue, Major works.

11. The receipts, working expenses and interest charges in respect of the four works classed as Major Irrigation Works, are shown as follows for 1890-91 and for the four previous years :—

Charges for interest	22,91,008	23,13,446	23,39,849	23,65,080	23,87,119
Deficit ...	23,97,464	27,98,536	24,45,965	22,82,924	24,80,114

The cost of repairs was less in 1890-91 than in any of the previous four years. This is, however, met by heavier charges for establishment (Direction, Accounts and Executive). Owing to the varied nature of the work in Bengal, the total charges for the establishment employed in the Irrigation Branch of the Public Works Department have to be distributed among various heads, including Civil Works (Provincial and Imperial), Agricultural (embankments and drainage), Major Works (Capital and Revenue), and Minor Works. Up to 1886-87 this distribution was effected by charging a fixed percentage against Land Revenue and other heads, while the balance was debited to Provincial Roads and Buildings. Since 1887-88 a fixed percentage has been charged against Capital Expenditure on Major Works and against Civil Works, the balance being allotted to Canal Revenue. Hence it follows that without any increase in the total establishment charge of the Province the amount debited against the Revenue account of the Major Works may increase owing to smaller charges being made under other heads.

The net result of the year's working resulted in a loss of Rs. 92,995. The interest charges of the year were Rs. 23,87,119. The total to be made good by the Province was Rs. 24,80,114. From the commencement up to the close of the year 1890-91, the total charge to Provincial revenues on account of Major Irrigation Works has been Rs. 4,02,95,961.

12. Taking each work separately, the results of the year's work compared with the previous year are shown below :—

The net result of the year combining Major and Minor Works was as follows:—

	Rs.
Receipts from all sources (less refunds)	21,70,916
Working expenses, direct and indirect	20,28,288
Profit ...	1,42,628
Interest charges payable to Government of India on Major Works	23,87,119
Net charge on Provincial revenues	22,44,491

Areas and water-rates.

13. The main source of revenue from the Major Works is the amount received as water-rates. The following will show the area irrigated, the water-rates earned on such area, and the amounts collected for the year under review and for the preceding year:—

	1889-90.			1890-91.		
	Area irrigated.	Earnings.	Collections.	Area irrigated.	Earnings.	Collections.
	Acres.	Rs.	Rs.	Acres.	Rs.	Rs.
Orissa Canals ...	186,627	2,82,638	1,99,745	190,299	2,69,234	2,09,730
Midnapore Canal ...	68,810	1,03,223	1,16,243	82,002	1,22,838	1,15,233
Sone Canals ...	305,282	6,75,642	7,99,874	281,014	5,85,542	6,37,413
Total ...	560,719	10,61,503	11,15,862	543,315	9,77,614	9,62,376

NOTE.—In the above the earnings show the assessed amount due on account of the irrigation of the year, part of which falls due after the 31st March, and the collections are the gross totals, deducting refunds.

The collections in any year depend to some extent on the assessments of the previous year, more especially on the Sone system, where the assessments for rabi irrigation and half of the assessments on long leases fall due after the close of the financial year.

14. On the Orissa system the area irrigated was somewhat less than in 1889-90, but was greater than in any previous year, and the area leased at the end of the year, 184,418 acres, was greater than that irrigated during the year, which indicates that the demand for irrigation is increasing. There has been a satisfactory decrease in the area assessed for unauthorised irrigation, and the assessments for the year were completed and the demands sent in with greater punctuality than before. On the other hand the collections of water-rates are still unsatisfactory, being much less than the annual demand, so that the amount in arrear is greater at the end of the year than it was at the beginning; but in spite of this some improvement in collection is observed, and the amount collected was larger than in any previous year. The following figures show how the total demand of the year was constituted and the progress made in realising it:—

	Demand of year 1890-91.	Collected or remitted.
	Rs.	Rs.
Arrears of 1887-88 and previous years	19,556	10,344
Arrears of 1888-89	55,662	32,977
Arrears of 1889-90	1,01,544	43,501
Total arrears ...	1,76,762	86,822
Current demand of 1890-91	2,69,650	1,61,226
Total ...	4,46,412	2,48,048
Remissions were	.....	38,242
Actual collections were	.....	2,09,806

The number of certificates issued during the year was 13,594 as compared with 8,586 in 1889-90. Only 10,928 were disposed of, and the balance outstanding at the end of the year had risen to 9,104. The amount recovered on 10,153 certificates was only Rs. 25,000 (approximately), that is about Rs. 2-8 on each certificate.

The statement given in paragraph 26 of the Chief Engineer's Note shows to what extent incorrect demands had been made. The large amount under "Unirrigated crops" is partly due to the recent exemption of low-lying lands, which are included in existing leases and so assessed in the first instance, but the existing system of assessing and collecting water-rates on these canals is in many ways unsatisfactory, and a revised system, based on that in force on the Sone Canals, has been worked out and is shortly to be introduced.

The returns from navigation have advanced considerably, and the collections of the year are the highest yet obtained on these canals.

15. On the Midnapur Canal there was a satisfactory increase in the area irrigated and in the earnings of the year; but the collections of the year were not satisfactory, and the arrear balance increased from Rs. 50,644 to Rs. 64,967. There was, however, greater activity shown in the certificate work during the past year. Seven thousand six hundred and sixty-four cases were instituted, and 9,150 cases were disposed of, the pending balance being reduced from 3,444 to 1,958. The number of cases is still very high compared with the Sone Canals, on which with three times the area irrigated far fewer certificates are required. The navigation receipts, which are an important item on this canal, fell considerably during the year. This is attributed mainly to dulness in trade and partly to a closure of some of the reaches for repairs.

16. As regards the Hidgellee Canal, the year is marked by increased expenditure and diminished receipts, the former being due to extensive silt clearance, to heavy charges for repairs to dredging plant, and to the cost of constructing a slip for boats at Balasore. The falling off in receipts, which are derived almost exclusively from navigation, is due to the long closure of the canal for silt clearance and in connection with remodelling which is in progress.

17. The decrease in the area irrigated and consequently in the earnings on the Sone Canals is attributable to the more abundant rainfall of 1890-91, which was, as the average of 22 stations on that system, 52·86 inches against 39·27 inches in 1889-90, and against 41·70 inches, being the mean of 20 years. Considering this heavy rainfall the area irrigated is large, and it is especially satisfactory to find the area under 5-years' leases so well maintained. There is an increase over the preceding year in the area assessed from unauthorised irrigation, which is to be regretted. The area so assessed in 1889-90 was, however, unusually small. The collections, though considerably less than in 1889-90, when they were inflated by the recovery of heavy arrears, are still greater than the demand of the year, and show progress in reducing the arrear balance. In the Patna district, however, the collections were very bad. Here the arrears had greatly increased and the accounts were in confusion owing to the scandalous incompetence of the circle officer, who was then in charge, and has since died. Since the close of the year vigorous measures have been taken, and the balance outstanding has been much reduced.

The amounts remitted for incorrect demands and written off as irrecoverable were Rs. 5,324 and Rs. 16,136, respectively, and are smaller than in any of the four previous years. The chief causes of remissions were mistakes in assessment, owing to their having been made without sufficient proof of the land having been irrigated or of its being liable to assessment.

The work done in disposing of certificate cases has also been good. Four thousand eight hundred and ninty-one cases were instituted as against 5,577 in 1889-90. Five thousand three hundred and eleven cases were disposed of at the close of the year, the balance pending was only 1,586, and has since been still further reduced.

The receipts from navigation have been satisfactory, and show a steady, if slow, increase.

18. The Lieutenant-Governor made a close inspection of this canal in November last, and has nothing but approval to record of the system on which it is now being worked and of the spirit which animates its staff. Complaints of wrongful assessment and of non-receipt of water, which once were numerous,

are now reduced to a minimum, and when made are disposed of rapidly and in a liberal spirit: the utmost care is taken to secure accuracy in the leases and assessments and punctuality in the payments: the arrears which on the 1st April were over Rs. 2,10,000 had been brought down to about Rs. 55,000: the pending certificates were 1,586 at the end of March and 415 at the end of November. The irrigated lands stood out long lines of greenness and fertility, a startling contrast to the parched and impoverished tracts which they intersect. As long as the principle is upheld which Mr. Odling has inculcated on his engineers that the first duty of a Canal Officer is to show good irrigated crops, so long may it be safely said that the canal is an unmixed blessing to the country.

Revenue, Minor Works.

19. Turning now to the Minor Works, the revenue from which is almost entirely derived from navigation, the following brief remarks may be made:—

On the Calcutta and Eastern Canals there has been a fair increase in the receipts, but this has been counterbalanced by increased charges, especially for establishment, which item is higher this year than in any previous one. The net revenue, Rs. 2,01,128, is lower than it has been since 1881-82. The working of the system of toll collections was good as noticed in paragraph 108 of the Chief Engineer's Note. The method of charging tolls according to measurement and the rates of toll on this system of canals are now under revision with the view of making the payments fall more equally on the various kinds of boats and classes of goods.

On the Orissa Coast Canal there is a very slight increase in the receipts. The net revenue is, however, less than in the previous year owing to the extra charge for establishment. When the works now in progress on the Hidgellee Tidal Canal are completed, it is hoped that the returns from the Orissa Coast Canal will improve. The want of roads in the country adjoining this canal is also an impediment to expansion of traffic. Two feeder roads are now being taken up by the District Board of Balasore, towards which the Local Government has contributed Rs. 7,000.

The receipts from the Nuddea Rivers have increased slightly, but owing to increased charges for repairs and establishment the net revenue has decreased from Rs. 92,834 to Rs. 90,588.

The Sarun, Madhuban, and Eden Canals are small works which ordinarily bring in a very slight revenue, while they are a source of expense to maintain. On the other hand, in a dry season like that of the present year, they are of considerable value to the parts of the country in which they are situated.

20. The figures in Appendix I, which record the number of days spent by each Irrigation Officer on tour, show that while some have been active and energetic in the work of inspection, others have fallen far short of the standard which ought to be attained. The attention of all officers in the Department should be called to this table, and Chief Engineer is requested to mention in next year's report the names of those officers who have been most remiss in this branch of their duties.

21. This is the last Canal Revenue Report which will be issued over the signature of Colonel J. M. McNeile, who will retire from the Government service shortly after the Report is published. Sir Charles Elliott cannot allow this distinguished officer to leave the Province without putting on record his high appreciation of his services through a long and honourable career, and his indebtedness to him for his assistance in the administration of the Public Works Department during the past year. He desires also to thank Mr. Odling, Superintending Engineer, for his excellent work on the Sone Canals.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's Note and its accompaniments be submitted to the Government of India, in the Public Works Department, and published in the *Calcutta Gazette*; also that it be circulated to other Governments and to all Departments and Officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Col.*, R.E.,

Secretary to the Government of Bengal.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

IRRIGATION BRANCH.

REVENUE REPORT.

Note by COLONEL J. M. MCNEILE, R.E., *Chief Engineer, on the Canal Revenue Reports for the year* 1890-91.

THE Capital expenditure on Irrigation Works, for which Capital Accounts are kept, amounted during the year 1890-91 to Rs. 6,41,576 for direct and Rs. 15,593 for indirect charges:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Capital expenditure not charged against Revenue	6,19,951	14,661	6,34,612
Minor Works and Navigation ...	21,625	932	22,557
Total ...	6,41,576	15,593	6,57,169

2. The total Capital outlay at the end of the year 1890-91, including indirect charges, was as follows:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Major Irrigation Works.			
Productive Public Works ...	5,99,57,951	16,85,281	6,16,73,232
Minor Works and Navigation.			
Protective grants—Imperial ...	8,66,000	...	8,66,000
Ordinary revenue { Imperial and Provincial. }	99,51,667	2,82,115	1,02,33,782
Total ...	7,08,05,618	19,67,396	7,27,73,014

3. The above outlay is divided under the different projects in the following statement:—

Works.	During 1890-91.			To end of 1890-91.		
	Direct charges.	Indirect charges.	Total.	Direct charges.	Indirect charges.	Total.

5. The total amount of interest payable to the Imperial Treasury on account of Major Irrigation Works for the year 1890-91 is Rs. 23,87,119. Interest.

6. The following statement shows the financial results of both Major Irrigation Works and Minor Works and Navigation, of which Capital and Revenue Accounts are kept, to the close of the year 1890-91:— Financial results.

		Major Irrigation Works. Rs.		Minor Works and Navigation. Rs.
Direct revenue	...	1,80,29,058		2,17,85,125
Working expenses (direct charges)	...	1,85,08,986		87,92,009
Results on direct charges only ...	Loss	4,79,928	Profit	1,29,93,116
Indirect charges debitable to revenue	...	9,99,960		2,39,690
Results on both direct and indirect charges	Loss	14,79,888	Profit	1,27,53,426
Charges for interest on Capital ...	...	3,88,16,076		Not calculated.
Net results, including interest to end of 1890-91	Loss	4,02,95,964		.....

7. The financial results to the close of the year 1890-91 of Minor Works and Navigation, of which only Revenue Accounts are kept, are shown below:—

		Rs.
Direct revenue		82,08,513
Working expenses (direct charges)		44,35,337
Results on direct charges only	Profit ...	37,73,176
Indirect charges debitable to revenue		2,33,565
Results on both direct and indirect charges ...	Profit ...	35,39,611

EXPENDITURE.

8. The expenditure on, and receipts from, Irrigation, Navigation, and Agricultural Works during the year 1890-91, as compared with those of the year 1889-90, are shown below:—

EXPENDITURE.	1889-90. Rs.	1890-91. Rs.
42—Major Irrigation Works, Working Expenses—		
Provincial	14,22,368	14,32,136

The year's working and its financial results will now be dealt with separately for each of the canal systems of the province, as in previous years.

ORISSA CANALS.

The figures in all statements showing totals of receipts or expenditure are those of the Examiner of Accounts. In dealing with details the figures of the Commissioner or of the Superintending Engineer are used.

10. The Capital, Interest, and Revenue Accounts of these canals are given below :—

CAPITAL ACCOUNT

I.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1890-91.	Outlay to end of 1890-91.
DIRECT CHARGES.	Rs.	Rs.
I.—Works	2,79,149	1,74,51,190
II.—Establishment	47,656	44,07,168
III.—Tools and plant	7,089	20,17,876
IV.—Suspense accounts	(—)2,139	1,59,653
Loss by exchange	...	2,68,070
Total ...	3,31,755	2,43,03,957
V.—*Less*—Receipts on Capital account	159	86,031
Net total direct charges ...	3,31,596	2,42,17,926
INDIRECT CHARGES.		
Capitalisation of abatement of land revenue	...	33,059
Leave and pension allowances	6,672	5,13,129
Total indirect charges ...	6,672	5,46,188

The progress on the construction of the works remaining to complete this system of canals was less during the year than had been anticipated. There are difficulties in securing a sufficient supply of labour in Orissa, and the labourers which can be obtained are also for the most part cultivators of land, and leave the work at harvest time. Work was also delayed by unusual rain in January and February 1891. The more important works completed or in progress were the Taldundah Extension Canal with outfall lock at Paradeep, and the Daib protective embankment in the Machgong Extension Canal, while distributaries on all the canals were in hand.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1889-90	1,47,31,581
Ditto for 1890-91	9,62,085
Total ...	1,56,93,666

REVENUE ACCOUNT.

3.—REVENUE ACCOUNT—(Actuals).

	EXPENDITURE—			RECEIPTS—	
	During 1889-90.	During 1890-91.		During 1889-90.	During 1890-91.
DIRECT CHARGES.	Rs.	Rs.		Rs.	Rs.
I.—Maintenance and repairs.					
Works (extensions and improvements).	...	...	Water-rates ...	1,99,844	2,09,806
Repairs	2,31,068	2,22,638	Navigation ...	88,632	1,21,498
Compensation	...	...	Miscellaneous ...	15,747	13,708
Establishment, including direction and accounts.	1,09,434	1,32,859	Total ...	3,04,223	3,45,012
Tools and plant ...	19,722	13,951	*Less*—Refunds of revenue.	99	76
Profit and loss ...	..	1,225			
Total ...	3,60,224	3,70,673			
II.—Revenue management.					
Irrigation establishment	55,502	52,591			
Navigation ditto ...	15,871	16,119			
Total ...	71,373	68,710			
Total direct charges ...	4,31,597	4,39,383			
INDIRECT CHARGES.					
Capitalized abatement of land revenue.	...	...			
Leave and pension allowances.	25,313	28,220			
			Net total receipts	3,04,124	3.44,936
Total indirect charges...	25,313	28,220	Deficit ...	1,52,786	1,22,667
Total working expenses	4,56,910	4,67,603	Total ...	4,56,910	4,67,603

The net result is slightly more favourable than in the preceding year, that is, there is a net loss on the working of the year of Rs. 1,22,667 compared with Rs. 1,52,786 for 1889-90. The receipts have increased by Rs. 40,812 and the working expenses by Rs. 10,693. The latter increase is due to increased charges for establishment.

EARNINGS.

11. The net result calculated on the earnings as opposed to collections, and actual outlay is shown below for the year under review and the preceding year:—

	1889-90.	1890-91.
	Rs.	Rs.
Actual outlay	4,56,910	4,67,603
Earnings	3,87,017	4,04,440
Deficit ...	69,893	63,163

The figures given as earnings include the actual realizations of navigation and miscellaneous revenue with the assessed revenue from irrigation, less refunds.

12. The revenue receipts and working expenses of the Orissa Canals for the last ten years are shown in the following statement:— FINANCIAL RESULTS.

PARTICULARS.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

No addition has been made to the completed lengths of either main canals or distributaries, but the area protected from floods has been increased by 52,129 acres, on account of the completion of the Daib embankment during the year.

The Superintending Engineer remarks as follows regarding the extension of distributaries:—

"The distributaries of the Pattamoodee, Kendrapara, Gobri, and Gobri Extension canals, of the Taldundah and Machgong Extension canals, and of the Jajepore canal, which have been sanctioned by Government, were all in hand during the year. As the financial year closes in the middle of the working season, it may perhaps be noted here that in the Kendrapara subdivision out of 143 miles of distributaries sanctioned, half the length has been thrown up to section, and all the important masonry works are well advanced, the dressing and turfing is now being done; but should there be any failure of the rains in October, it will, it is hoped, be possible to supply water from 70 to 80 miles of new channels. In the Mahanuddy Division, No 19 distributary is well in hand, and half the length will, it is hoped, be available for supply should a demand arise."

RAINFALL.

14. The following statement gives the average rainfall observed during the kharif and rabi months of the last five years at thirteen stations within the tract irrigated by the Orissa canals:—

		Average of thirteen stations.				
		1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif Season	July	10·65	11·67	8·91	13·10	12·59
	August	9·86	8·49	21·61	13·11	7·58
	September	14·66	6·12	8·36	5·30	14·40
	October	6·87	2·69	1·11	9·16	8·63
	Total	42·04	28·97	39·99	40·67	43·20
Rabi season	November	1·56	0·87	2·88	11·24	1·94
	December	0·45	.....	.....	0·15	0·05
	January	0·48	1·70	0·06	00·6	.....
	February	.....	1·26	0·81	0·02	0·99
	Total	2·49	3·83	3·75	11·47	2·98
	Whole year	60·05	47·79	49·07	67·95	63·17

The rainfall of the year was on the whole slightly less than in the previous year, but was above the average, particularly in the kharif season. During the month of August the fall was somewhat deficient, leading to a demand for water, which is particularly necessary at this time for the operation of *beason* or replanting of the rice.

FLOODS.

15. The average rainfall of the year at ten stations in the Central Provinces which are drained by the Mahanuddy was 52·75 inches, or 2·84 inches less than that of 1889-90. There were no floods of any importance during the year.

IRRIGATION.

16. The areas of each crop irrigated during the last 10 years and the yearly rainfall are shown below:—

Year.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
	Acres.	Acres.	Acres.	Acres.	Inches.
1881-82 ...	126,611	5,403	264	132,278	56·92
1882-83 ...	128,530	4,100	398	133,028	59·03
1883-84 ...	47,035	1,381	344	48,760	57·21
1884-85 ...	54,181	2,994	197	57,372	50·40
1885-86 ...	70,563	1,605	171	72,339	52·59
1886-87 ...	75,115	2,440	154	77,709	60 07
1887-88 ...	108,867	502	137	109,506	47·84
1888-89 ...	156,319	2,779	194	159,292	49·07
1889-90 ...	180,568	5,897	162	186,627	67·95
1890-91 ...	175,829	4,250	220	180,299	63·17

17. The whole of the known irrigated area was assessed. The figures below show the nature of assessment compared with the figures of the two preceding years :—

	1888-89.	1889-90.	1890-91.
	Acres.	Acres.	Acres.
Kharif ... Five-year leases ...	152,282	177,169	173,577
Kharif ... Annual leases ...	57	...	246
Kharif ... Unauthorised irrigation	3,981	3,399	2,006
Rabi	2,779	5,987	4,250
Perennial ... Sugarcane ...	193	162	220
Total, including unauthorised irrigation	159,292	186,627	180,299
Total, excluding unauthorised irrigation	155,311	183,228	178,293

The decrease in the kharif area, which is the chief item, is explained by the Deputy Revenue Superintendent to be due to (1) less unauthorised irrigation having been assessed; (2) the exclusion from leased areas of unirrigated beali and of undrained low lands; (3) to certain lands under lease on the High Level Canal, Range I, being found to be unirrigable for want of village channels or other causes.

The Superintending Engineer gives the following review of the progress of irrigation on the different canals:—

"The alterations which have taken place in the area of each crop upon the various canals, together with the percentages of the area provided with distributaries, as well as that commanded, which had been leased in each case, at the close of the official year, are shown in the two following statements:—

Canal system.	1889-90.			1890-91.			Kharif.		Perennial.		Rabi.	
	Kharif.	Perennial.	Rabi.	Kharif.	Perennial.	Rabi.	More.	Less.	More.	Less.	More.	Less.

Ditto, do. II ...	10,000	...	2,532	25·32	...
Ditto, do. III ...	57,500	44,047	40,681	70·75	92·36
Total ...	434,272	252,866	184,418	42·47	72·93

* * * *

The deficiency in the rainfall of August led to a demand for canal water, as stated under "Rainfall," and the area which was leased during that month under each canal is given below:—

	Acres.
Taldundah Canal	135
Machgong do.	6,468
Kendrapara do.	3,128
Gobri Canal	4
Pattamoondee Canal	88
High Level Canal, Range I	61
Ditto, do. III	4,717
Total ...	14,601

* * * *

Upon the High Level Canal, Range I, and Taldundah Canal, 1st section, the whole of the irrigable area has nearly come under lease, so that very little increase in leases can be expected on those canals.

The second statement shows that the total area which was under lease at the end of the year was 42·47 per cent. upon the area commanded by the canals, and 72·93 per cent. upon the area provided with distributaries. It, however, includes an area of 8,101 acres, which has been leased upon canals from which no distributaries have as yet been constructed, and a further area of 12,501 acres, which is distributed over the whole length of the Pattamoondee Canal, and is not, as reported last year, situated solely within the area which is under the command of distributaries Nos. 7 and 8. If these areas are deducted, we find that the total leased area amounts to 163,816 acres, which is 37·72 and 64·78 per cent, respectively, upon the areas commanded and provided with distributaries.

Omitting the Pattamoondee Canal, the circumstances on which are peculiar, we find that the percentage of the area leased upon that provided with distributaries was greatest upon the High Level Canal, Range III, and least upon the High Level Canal, Range I. The percentages on these canals were 92·36 and 52·72, respectively, as compared with the percentages of 78·30 and 52·51, respectively, which were obtained on those canals in the previous year; so that it appears that there has been considerable improvement upon the 3rd Range of the High Level Canal, while there has also been slight improvement upon the 1st Range. The percentage of leases on the total area provided with distributaries was also higher than that of the preceding year by 4·35 per cent."

DUTY OF WATER.

18. The following table shows the duty attained by the discharge at canal heads during the last three years:—

		Kendrapara Canal system.	Taldundah Canal system.	High Level Canal, Range I.	High Level Canal, Range II.	High Level Canal, Range III.
1888-89	Kharif ... Acres	70,274	40,165	8,091	2,355	25,628
	Duty on gross supply	92·48	82·60	70·73	30·99	200 07
1889-90	Kharif ... Acres.	73,122	39,641	26,121	2,501	39,345
	Duty on gross supply	80·77	78·19	102·92	44·46	83·01
1890-91	Kharif ... Acres	71,403	41,247	21,893	2,473	39,033
	Duty on gross supply	66·42	102·22	66·07	37·61	107·81

Calculated upon the average quantity of water utilized, the duty is highest on the Taldundah Canal System, and lowest on the High Level Canal, Range II. The area irrigated by each cubic foot in the former case is 110·58 acres, and in that of the latter 40·54 acres.

CROP EXPERIMENT.

19. During the year 291 experiments were made upon the outturn of crops, of which 161 were on land irrigated by canal water and 130 on unirrigated land. The results are shown in the following statement:—

NAME OF DIVISIONS.	OUTTURN PER ACRE FROM IRRIGATED LAND.			OUTTURN PER ACRE FROM UNIRRIGATED LAND.			VALUE OF OUTTURN FROM IRRIGATED LAND.		VALUE OF OUTTURN FROM UNIRRIGATED LAND.

ASSESSMENTS, COLLECTIONS, AND BALANCES.

20. At the commencement of the year under review the balances outstanding were—

	Rs.
Water-rates	1,76,762
Miscellaneous Revenue	355
Total ...	1,77,117

as against the balances outstanding on 1st April 1891 which were—

	Rs.
Water-rates	1,98,364
Miscellaneous Revenue	266
Total ...	1,98,630

notwithstanding large remissions, the outstanding balance of water-rates has again increased, and amounted at the close of the year to 73 per cent. of the demand for 1890-91.

The Deputy Revenue Superintendent gives as reasons for the poor result:—

(1) The defective ijaradari system.

(2) The time of his subordinates having been taken up with census work at the best season for collecting.

The Collector and Commissioner in forwarding the report of the Deputy Revenue Suprintendent have made no remarks regarding the collections.

21. The following statement shows the balances, assessments, and recoveries of water-rates for the last five years:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realisations.	Remitted. or written off.	Balance at the end of the year.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

CERTIFICATES.

23. Out of Rs. 2,19,692 realized by the Collectors on water-rates and miscellaneous revenue, Rs. 24,964 were recovered on certificates issued under the Public Demands Recovery Act. The amount so collected in 1889-90 was Rs. 19,502. Details below:—

Amounts recovered by certificate.

By whom collected.	Water-rates.	Miscellaneous.	Total water-rates and miscellaneous.	Value of court-fee stamps affixed on the certificates realized by the Certificate Officer during 1890-91.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Cuttack Certificate Officer ...	21,125 14 2	658 14 0	21,784 12 2	5,900 6 3
Balasore Certificate Officer ...	3,155 14 11	22 13 3	3,178 12 2	766 14 9

1. Cases pending at the close of the preceding year ..	5,740	...	6,227	21,042	106	...	211	499	5,846	.	6,438	21,541
2. Cases instituted during the year	7,700	...	11,226	29,852	886	.	2,308	5,704	8,586	..	13,534	35,556
Total .	13,440	.	17,453	50,894	992		2,579	6,203	14,432		20,032	57,097
Cases disposed of—												
1. By being struck off owing to the demand having been remitted ...	7,213	..	760	3,480	781	...	16	46	7,994	.	776	3,526
2. By being wholly satisfied ...			9,126	22,657			1,024	2,690			10,152	25,353
Total ..	7,213	...	9,886	26,143	781	..	1,040	2,736	7,994	...	10,928	28,881
Balance outstanding at the close of the year ..	6,227	...	7,565	24,751	221	.	1,539	3,465	6,438		9,104	28,216

Columns 3, 7 and 11 have been left blank for want of information.

The number of certificates instituted and the number pending have considerably increased, and taken together with the increased amount of outstandings, it is apparent that considerable efforts will have to be made to bring collections up to date.

The matter is doubtless receiving the attention of the Commissioner, but he has not offered any remark or explanation regarding the increase in the pending cases. The number of cases struck off is small proportionately with that in which the demand was realized.

Complaints.

25. The following statement shows the number of objections filed against assessment and disposed of during the year:—

Division.	(I)—Ordinary Remissions.				(II to IV)—Other Complaints.						Remarks.
	Received during the year and pending from previous year.	Disposed of.		Pending.	Received during the year and pending from last year.	Disposed of.		Pending.	Total complaints received during the year excluding those pending from previous year.	Pending.	
		Remission allowed.	Remission refused.			Allowed.	Rejected.				
1.—Water-rates—											
Lands not irrigated	1,722	1,398	101	223	...	...	...	...	369	223	
Do. damaged	697	474	64	159	...	...	...	...	220	159	
Erroneous assessment .	1,319	909	49	361	...	...	...	...	553	361	
Regulators not allowed in drainage cuts.	27	17	5	5	...	...	...	...	15	5	
Chowkidars' jagear	167	121	4	42	...	...	...	...	58	42	
Double assessments	376	292	26	58	...	...	...	...	189	58	
Appeals	6	2	3	1	...	...	...	...	6	1	
2.—Miscellaneous	246	125	34	87	...	..	...	...	126	87	
3.—Mutations and other complaints.	...	...	...	...	1,795	1,273	36	486	1,640	486	
Total, 1890-91 ...	4,560	3,338	287	935	1,795	1,273	36	486	3,185	1,491	
Total, 1889-90	5,394	2,379		3,015	1,330	1,165		155	5,473	3,170	

The Deputy Revenue Superintendent remarks:—

"The filing of objections has been greatly reduced by excluding unirrigable beali and low-lying lands from assessment, and fewer cases were pending than in the previous year."

There has been a considerable reduction in the number of complaints and applications received during the year and in the balance pending, which is so far satisfactory. The number pending is, however, still large, and it is hoped that the improvement made this year may be maintained.

REMISSIONS.

26. The amounts remitted and written off as irrecoverable were Rs. 38,688 against Rs. 27,055 in the year previous. The following is the Deputy Revenue Superintendent's classification of the reasons for remission:—

Remissions.	Rs	A.	P.
(*a*) Unirrigated crops	22,177	2	4
(*b*) Damaged	8,458	9	8
(*c*) Chowkidar's jageer	3,013	9	7
(*d*) Waste land	1,120	2	9
(*e*) Land occupied by channels ...	23	6	2
(*f*) Twice assessed	118	9	2
(*g*) Destroyed by insects or worms ...	241	11	0
(*h*) Barred by limitation ...	5	11	2
(*i*) Excessive realizations	1,070	14	3
(*j*) Change of rates	282	13	8
(*k*) Erroneous assessments	343	3	0
(*l*) Commutation of double assessments ...	789	4	4
(*m*) On account of death of defaulters ...	117	15	6
(*n*) Absconding of defaulters ...	89	12	9
(*o*) Misappropriated by nazir's peons ...	44	10	8
(*p*) Lease cancelled	61	5	10
Total ...	37,958	13	10
Written off.			
(*q*) Permanent lands thrown out of cultivation for remodelling, diversion and extension of canals, or excavated for repairs of canals	251	7	3
(*r*) Rent of trees blown down and damaged	130	13	10
(*s*) Irrecoverable demands	347	3	11
Total ...	729	9	0
GRAND TOTAL ...	38,688	6	10

The important items in the above, classed as (*a*), (*b* and (*c*, are due to the system of assessment by which the gross areas are shown as assessed, and the rates on parts of these areas are remitted on account of land with boali crops not irrigated, of low land not requiring water, and of land occupied as jagir by chowkidars. Under the revised system about to be introduced, these items will be dealt with in making the assessments, and will, to a great extent, cease to appear as remissions.

REVENUE ESTABLISHMENT.

27. The cost of revenue establishment of the year was Rs. 52,591, the details of which are given in the following statement compared with those of the three previous years:—

	1887-88.	1888-89.	1889-90.	1890-91.
Establishment under Collector.	Rs.	Rs.	Rs.	Rs.
Superior officers and permanent and temporary establishment, including travelling allowance	28,749	31,389	41,228	39,299
Contingencies	2,218	2,889	4,482	2,928
Headmen's fees	2,208	1,680	2,244	2,803
Establishment under Executive Engineer.				
Permanent and temporary establishment ..	2,964	3,052	3,398	3,417
Water-regulation establishment ...	4,161	4,151	4,150	4,144
Total ...	40,300	43,161	55,502	52,591
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department	1,46,039	1,60,328	2,09,823	2,19,692
Percentage ...	27·6	26·9	26·4	23·9

There has been a decrease in the cost of establishment to the extent of Rs. 2,911, which is due to the reduction in the cost of that employed under the Collector, while the cost of the establishment employed under

the Public Works Department increased by Rs. 13 only. The amount paid to headmen on account of fees increased during the year by Rs. 559.

NAVIGATION.

28. As regards navigation, the management of the canals is in the hands of the engineering staff. Besides tolls on boats and rafts, the receipts include the earnings of the transport service maintained by Government between Bhuddruck on the High Level Canal and Cuttack, a distance of 75 miles.

TOLLAGE.

The tollage receipts of each of the canal systems for the last five years are shown below:—

Year.	Taldundah Canal System.		Kendrapara Canal System.		High Level Canal, Range I.		High Level Canal, Range II.		High Level Canal, Range III.		Jajpore Canal.		Total.	
	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.
	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.
1886-87	31	2,850	75	41,786	33	7,852	12½	3,788	19	2,368	...	...	170½	58,064
1887-88 ..	31	6,207	75	46,659	33	8,300	12½	4,085	19	1,311	.	.	170½	66,628
1888-89 ..	31	4,310	75	53,786	33	6,642	12½	3,302	19	1,691	6½	90	177	69,830
1889-90 ..	31	4,426	75	60,245	33	8,386	12½	3,433	19	1,386	6½	163	177	78,039
1890-91 ...	31	2,148	75	86,907	33	12,220	12½	3,185	19	2,174	6½	318	177	1,06,961

Of the total Rs. 1,06,961, private traffic accounts for Rs. 99,248, the balance being the tolls on boats carrying Government materials and on Government steamers.

The increase of private traffic is almost entirely in the Kendrapara Canal. It was due to a large export trade in rice and oilseeds.

TRAFFIC.

29. The following statement shows the traffic (excluding the transport service) of all the canals in Orissa for the last ten years:—

	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

MAINTENANCE AND REPAIRS.

31. The charge for maintenance and repairs during the year was Rs. 2,22,226, as distributed in the Superintending Engineer's report.

	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.
Head-works	71,168	75,300	76,334
Main canals	1,11,712	1,09,839	99,746
Distributaries	31,451	23,988	21,992
Drainage and protective works	15,960	15,508	12,676
Cost of working transport service	6,405	5,829	11,478
Total ...	2,36,696	2,30,464	2,22,226

HEAD-WORKS.

Out of the total expenditure of Rs. 76,334 on head-works, Rs. 62,422 represent the cost of maintaining the weirs, divided as follows:—

NAME OF WEIR.	Length.	EXPENDITURE.			RATE PER RUNNING FOOT.		
		1888-89.	1889-90.	1890-91	1888-89.	1889-90.	1890-91.
	Feet.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Naraje	3,833	10,140	10,275	4,728	2·64	2·68	1·23
Mahanuddy ...	6,349	26,539	30,331	33,340	4·18	4·78	5·25
Beropa	1,980	5,573	4,709	7,616	2·81	2·38	3·85
Brahmini... ...	4,000	7,471	2,170	4,302	1·86	0·54	1·08
Pattia	783	5,698	2,203	4,194	7·27	2·81	5·36
Byturni	1,026	1,440	6,295	3,792	1 40	6·14	3·70
Burrah	526	5,935	5,470	4,450	11·28	10·40	8·46
Total of all weirs...	18,497	62,796	61,453	62,422	3·39	3·32	3·37

On the Mahanuddy, Beropa, Pattia, and Brahmini weirs the outlay during the year was in excess of that of last year, in consequence of the cost of repairing damages caused by floods.

TRANSPORT SERVICE.

32. The cost of working the transport service between Bhuddruck and Cuttack and between Acquapadda and Jajepur was Rs. 17,974, and the actual receipts Rs. 14,123. The loss incurred on this service is therefore Rs. 3,851, against a loss of Rs. 1,495 in the previous year.

The working charges for 1890-91 include Rs. 6,101 as tollage, which had not been previously shown, while the earnings include Rs. 748, hire of boats; allowing for which the expenditure was Rs. 11,873, and the earnings Rs. 13,499, or a net profit of Rs. 1,626 as compared with a loss of Rs. 1,495 in the previous year.

MAIN AND BRANCH CANALS.

33. The following statement compares the expenditure on each canal with that of the two previous years:—

CANALS.	1888-89.			1889-90.			1890-91.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.
	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara	20	20,370	1,009	20	20,190	748	20	20,723	786
Ditto extension ...	16	2,611	174	15	2,622	180	15	1,885	123
Gobri	15	6,434	429	15	7,410	494	15	8,448	563
Do. extension	6	4,725	787	6	3,333	557	6	14,406	2,401
Pattamoondee	47	18,769	186	47	3,990	85	47	9,978	213
Taldandah	27	17,027	630	27	22,134	819	27	6,471	239
Machgong	19	8,360	440	19	12,715	669	28	5,406	178

Ditto, do. II ..	12½	4,815	385	12½	5,793	463	12½	2,787	200
Ditto, do. III	19	6,320	333	19	8,420	457	19	5,589	294
Jajepore Canal	...	..	...	6½	721	111	6½	1,033	159
Total .	233½	1,11,712	480	230	1,09,839	480	232	99,746	395

Maintenance charges of main canals fell from Rs. 1,09,839 to Rs. 99,746. The Superintending Engineer has analysed the expenditure by sub-heads in

each of the canals. There is an increase in the Kendrapara Canal caused by heavier outlay on weed clearance and on buildings to which thorough repairs were effected. On the Gobri Canal the increase is due to the item masonry works, the lower gates of the Chakerda lock having been renewed. On the Gobri Extension Canal there is an apparently very large increase. This is, however, due to the construction of the escape at Gunpore and consequent raising of the banks of the canal. This is really a work of improvement, and should have been classed as such and not as a charge to maintenance. On the Pattamoondoo Canal the increase is due mainly to works executed in 1889-90 having been paid for in the year under review. On the Taldundah Canal the large apparent decrease is due to exceptional expenditure in the previous year on lock gates. On the Machgong Canal the length under maintenance has increased from 19 to 32 miles. The decrease in mileage rate compared with the previous year is due to less expenditure on masonry works and buildings. On all the reaches of the High Level Canal there has been reduced expenditure.

DISTRIBUTARIES.

34. The average mileage rate for the maintenance of distributaries was Rs. 30·06 as compared with Rs. 36·41 in the previous year:—

	1888-89.			1889-90.			1890-91.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.
DISTRIBUTARIES.	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara Canal System	333½	13,530	40·53	333½	9,826	29·44	337	9,975	29·36
Taldunda Canal	71½	2,950	41·25	71½	3,068	42·91	71½	1,953	27·31
Machgong Canal	122½	5,725	46·83	122½	5,900	48·34	122½	4,064	33·41
High Level Canal, Range I	117½	9,246	78·85	131½	5,185	39·50	131½	3,961	30·18
Ditto do. II	.....	.....	.....	.....	.....	.....	.....	.....	.....
Ditto do. III	.....	. .	... ..	.....	.....	.....	49½	2,019	4·80
Total	644½	31,451	48·77	658½	23,988	36·41	751½	21,992	30·06

The lengths of distributaries in the above are those which have been brought on the revenue account, and consequently differ from the lengths given in paragraph 13, which include all so far advanced as to be fit for use, whether the capital account is still open or not.

DRAINAGE AND PROTECTIVE WORKS.

35. The total expenditure on drainage and protective works was Rs. 12,696 against Rs. 15,508 in 1889-90. The most important items under this head are the protective embankments on the High Level and Taldundah Canals, and the drainage channels connected with the Kendrapara, Taldundah and Machgong Canals.

DREDGING AND SILT-CLEARING.

36. The following statement shows the cost of the silt-clearing and dredging during the year 1890-91:—

	Silt-clearing.			Dredging.		
	Quantity.	Cost.	Rate per 1,000 c. ft.	Quantity.	Cost.	Rate per 1,000 C. feet.
	C. feet.	Rs.	Rs.	C. feet.	Rs.	Rs.

Total	5,610,069	14,715	2·6	419,566	3,743	8·92

PLANTATIONS.

37. The state of the plantations for the last two years is shown below:—

Year.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
	No.	No.	No.	No.
1889-90 ...	52,531	21,408	34,947	108,881
1890-91 ...	69,741	26,806	50,061	146,609

GENERAL.

38. As has been shown in paragraph 11 the earnings of the year are greater than those of the previous year by Rs. 17,423, and the working expenses by Rs. 10,693. There has, therefore, been a slight advance on the whole due to increased navigation receipts.

The irrigated area has slightly declined. The increase in the working expenses is due, as has been already noted, to the larger charge for construction establishment. There has not yet been any improvement in the collection of water-rates, and arrears continue to accumulate. It is admitted that the work has outgrown the existing revenue staff, and a revised procedure is under consideration, by which it is intended that the work shall be distributed between the Public Works Officers and the staff under the Collector.

MIDNAPORE CANAL.

CAPITAL ACCOUNT.

39. The Capital, Interest, and Revenue Accounts of this Canal are given below—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1890-91.	Outlay to the end of 1890-91.
DIRECT CHARGES.	Rs.	Rs.
I.—Works	3,300	53,53,307
II.—Establishment	1,136	19,25,180
III.—Tools and plant	(—)24	9,02,513
IV.—Suspense accounts	(—)39,537	... ..
Loss by exchange	.....	94,800
Total ...	(—)35,125	82,75,800
V.—*Less*—Receipts on Capital Account	765	31,558
Total direct charges ...	(—)35,890	82,44,242
INDIRECT CHARGES.		
Capitalization of abatement of land revenue	.....	168
Leave and pension allowances ..	159	1,83,965
Total indirect charges ...	159	1,84,133

Under the orders of the Government of India, the amount expended on this canal during the year was written back from 49—Major Works to 43—Minor Works and Navigation, and any future outlay will have to be provided from Provincial Funds under the same head. At the close of the year the suspense balances were also transferred to Minor Works.

The sum of Rs. 3,300 expended on works classed as original construction was spent mainly on the improvement and extension of the Jackpore drainage channel and on improvements to the drainage in No. 1 distributary.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1889-90	57,48,653
Ditto for 1890-91	3,30,487
Total ...	60,79,140

LENGTHS OF CANALS AND DISTRIBUTARIES.

42. The length of canal open for navigation during 1890-91 remained the same as that for the previous year, viz., 72 miles, and no additions were made during the year to the areas protected or commanded. The table below shows the capabilities of the canal and distributaries, and the areas protected, commanded, irrigable, and assessed :—

	1889-90.								1890-91.							
NAME OF CANAL.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command. 44. The following statement shows the rainfall for the year 1890-91 and the four previous years at four registering stations which lie within the area irrigated by the Midnapore Canal:— RAINFALL.

STATIONS.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	Average of 21 years previous to 1890-91.
	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
Midnapore ...	49·39	55·38	68·00	48·71	57·61	56·20
Panchkoorah ...	50·56	56·21	59·47	51·78	55·84	56·21
Luchmapore ...	53·35	47·01	60·93	45·61	59·30	Not available.
Mowah ...	55·93	49·76	60·14	31·80	49·93	Ditto.

The total rainfall approached closely the calculated average. It was fairly well distributed throughout the season and was favourable for cultivation, though somewhat short in the months of July and August. The following table shows the distribution during the kharif season:—

	Midnapore.	Panchkoorah.	Luchmapore.	Mowah.	Average, 1890-91.	Average, 1889-90.
	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
July ...	5·94	3·87	5·14	5·49	5·69	6·65
August ...	5·73	4·11	5·37	2·50	4·43	11·66
September ...	7·80	13·47	10·40	10·67	10·56	6·95
October ...	5·10	4·81	5·47	5·41	5·20	2·53
Total kharif season, 1890-91.	24·56	26·26	26·68	23·97	25·87	.....
Ditto, 1889-90 ...	30·33	34·02	27·63	19·20	.....	27·79

45. The year was an uneventful one as regards floods. The highest gauge-reading of the Cossye river taken above the Midnapore weir was R. L. 86·50 and below it 81·00, as against 92·30 and 91·55—the highest recorded. The discharge of the Cossye was greatest on the 24th August 1890, being 24,841 cubic feet per second. The highest reading of the same river at Panchkoorah was 29·00 on the 25th June, and that of the Selye river at Ghatal, 21·50. FLOODS.

46. The table below shows the area of each crop irrigated during 1890-91 and in the nine previous years, as also the yearly rainfall:— IRRIGATION.

YEAR.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.	
	Acres.	Acres.		Acres.	Inches	
1881-82 ...	104,149	285	...	104,434	74·37	
1882-83 ...	101,939	...	...	101,939	58·81	*
1883-84 ...	97,919	...	...	97,919	47·99	
1884-85 ...	69,294	1,835	...	69,294	53·01	
1885-86 ...	68,769	...	...	70,604	81·28	
1886-87 ...	69,762	...	...	69,762	53·05

1888-89 ...	66,408	3,369	...	69,777	62·13	†
1889-90 ...	68,370	440	...	68,810	44·47	
1890-91 ...	82,002	...	...	82,002	55·68	

* Mean of observations of two stations—Midnapore and Panchkoorah.
† Average of four stations throughout the irrigated areas under the Midnapore and Panchkoorah weirs.

The Superintending Engineer writes:—

"The whole of the irrigated crop consisted of rice, and nearly the whole was under five years' lease, only 71 acres being under one year's lease. Last year the area irrigated amounted to 68,810 acres, including 440 acres of boro rice. The increase in the irrigated area is satisfactory, being 13,192 acres more than the area irrigated in the previous year, and is due chiefly to the smaller rainfall during the first half of the kharif season as compared with that of the

previous year. The increase was almost entirely under the Midnapore weir. The Executive Engineer states:—'The demand for water was well met, and no serious difficulties were encountered during the irrigation season.' Twenty-nine acres only were irrigated by lift. The area illicitly irrigated included in the total was 1,372 acres, a large reduction on that shown in the previous year. Of this area 16 acres were charged with the penalty rate during the year. Some portion was entered as five-year leases with adjacent lands and 35 cases, involving an area of 1,116 acres, were outstanding at the end of the year."

Leases for 2,934 acres had expired on 31st March 1890, while leases for 16,126 acres were executed during the year. On 31st March 1891 leases expired for only 2,543 acres, leaving 79,459 acres under lease. In order to equalize the areas falling out of lease in each year, the Deputy Revenue Superintendent reports that some of the leases granted for 1890-91 have been made for less than five years, so as to expire in 1894 and 1895.

DUTY OF WATER

47. The duty obtained from the gross discharge during the past three years is detailed in the following statement:—

			Under Midnapore weir.	Under Panchkoorah weir.
1888-89	Kharif ...	Acres	56,385	5,545
		Duty on gross supply ...	152	111
1889-90	Kharif ...	Acres	63,598	4,314
		Duty on gross supply ...	134	77
1890-91	Kharif ...	Acres ...	76,645	4,981
		Duty on gross supply ...	160	89

The areas irrigated in the Tidal Reaches, Ranges I and II, are not taken account of in the above statement. The area in the year under review was 376 acres.

CROP EXPERIMENTS.

48. No experiments on outturn of crops were carried out during the year.

ASSESSMENTS, COLLECTIONS AND BALANCES.

49. The following comparative statement shows the balances, assessments and recoveries of water-rates on the Midnapore Canal during the last five years:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1886-87 ...	69,972	1,06,751	1,76,723	1,08,834	17,140	50,749
1887-88 ...	50,749	1,02,532	1,53,281	90,837	5,951	56,493
1888-89 ...	56,493	1,23,337	1,79,830	91,016	4,041	84,773
1889-90 ...	84,773	1,17,202	2,01,975	1,16,424	34,907	50,644
1890-91 ...	50,644	1,30,595	1,81,239	1,15,438	834	64,967

The figures in the above statement have been furnished by the Deputy Superintendent of Canal Revenue, and agree with those given in the Examiner's Memorandum.

In the arrear balance of Rs. 50,644 with which the year opened, there were no demands of older standing than 1886-87. Rupees 45,983 were for dues incurred in 1889-90, and Rs. 4,661 for those of the three preceding years.

The current demand, amounting to Rs. 1,30,595, was composed of Rs. 1,23,043 earned within the year, and Rs. 7,552 earned in the three preceding years, but not recoverable till 1890-91.

ARREARS.

50. The whole amount for recovery, including arrears, was Rs. 20,736 less than that in 1889-90, while the collections were only Rs. 986 less. In the following table arrear and current dues are distinguished, the sums composing the demand are distributed by the years in which they were earned, and the proportions of each year's earnings recovered or remitted are separately shown:—

YEAR.	Amount previously due and unrealized.	Amount falling due within the year.	Total amount due to end of the year.	ADJUSTMENT OF THE YEAR.				Balance unrealized at end of the month of March 1891.	Percentage adjusted.
				Cash recoveries.	Remission authorized.	Written off as being irrecoverable.	Total.		
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs.	Rs. A. P.	Rs. A. P.	Per cent.
1886-87 ...	163 1 0	...	163 1 0	51 2 3	111 14 9	...	163 1 0	...	100
1887-88 ...	307 6 6	135 4 0	442 10 6	424 3 3	34 3 9	...	458 6 0	44 6 6	91·2
1888-89 ...	4,100 2 3	306 1 0	4,406 3 3	2,747 14 9	257 3 9	...	3,035 2 6	1,451 0 9	67·9
1889-90 ...	45,988 4 8	7,080 3 3	53,068 8 3	48,131 5 6	370 9 6	...	49,502 2 0	4,851 7 3	91·4
1890-91 ...	...	1,23,043 6 0	1,23,043 6 0	64,063 9 6	...	...	64,063 9 6	58,999 13 6	52·0
Total ...	50,044 1 9	1,30,564 14 3	1,81,239 0 0	1,15,428 6 3	833 14 9	...	1,16,272 5 0	64,966 11 0	64·1

Fair progress has been made in the recovery of outstanding arrears. The collection of the current demand has not been so good. The Deputy Revenue Superintendent attributes this to continual heavy rain for 12 days in March, which stopped collections at a busy time. The Commissioner, however, is of opinion that this explanation is not sufficient.

REMISSIONS.

51. In the report of the Deputy Revenue Superintendent the following classification of the remissions granted is given:—

		Rs.	A.	P.
By Collector under clause 1, rule 22, on account of failure to supply water	...	367	14	3
Remissions granted by officers disposing of certificate objection cases	...	377	15	0
By demands shown twice over by mistake	...	248	14	3
Total	...	994	11	6

Of this sum Rs. 160 are for miscellaneous revenue. Deducting this amount from the total remissions, there remains a balance of Rs. 833-14-9, which is the figure shown in the foregoing statements.

CERTIFICATES.

52. The following table shows the number of certificates issued and disposed of during the year:—

	MIDNAPORE.			
	1889-90.		1890-91.	
	Number.	Amount.	Number.	Amount.
Cases for disposal.		Rs.		Rs
1. Cases pending at the close of the preceding year	7,185	...	3,444	16,195
2. Cases instituted during the year	12,398	..	7,664	32,944
Total ...	19,583	...	11,108	49,139
Cases disposed of—				
1. By being struck off owing to the demand having been remitted.	4,467	...	3,839	26,396
2. By being wholly satisfied	11,672	...	5,311	16,658
Total ...	16,139	...	9,150	43,054
Balance outstanding at the close of the year ...	3,444	...	1,958	6,085

Of the 3,839 cases struck off, 2,742 were for surreptitious irrigation, the amount in connection with these being large, as the rate charged had been Rs. 5 per acre. The Commissioner remarks:—

"The system of assessment and lease of lands illicitly irrigated that prevailed in the district having been found to be illegal, as noticed in paragraph 11 of last year's report, a correct procedure was introduced, though after the close of the year, with the approval of Government contained in its No. 1251I, dated 22nd August 1891. This change in the procedure will, it is hoped, tend to reduce the number of certificates which used to be filed against the illicit receivers of canal water, but were subsequently cancelled on commutation of the penalty rates to ordinary five years' leases."

COMPLAINTS

53. The following table shows the number of complaints filed during the year and how they have been disposed of:—

DIVISION.	(I) ORDINARY REMISSION.				(II to IV) OTHER COMPLAINTS.				Total complaints received during year, excluding those pending from previous year.	Pending on 1st April 1891.
	Received during the year and pending from previous year.	DISPOSED OF.		Pending.	Received during the year and pending last year.	DISPOSED OF.		Pending.		
		Remission allowed.	Remission refused.			Allowed.	Rejected.			
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No.
Midnapore ...	1,084	235	743	103	314	59	188	67	1,250	170

On the 1st April 1890, 148 complaints were pending, 1,250 were received during the year as compared with 1,415 in the previous year, making a total of 1,398, of which 1,105 were disposed of during the year, 26·8 per cent. being established and 73 2 per cent. being rejected.

REVENUE ESTABLISHMENT.

54. The cost of the revenue establishment during the year, as compared with three previous years, is given below:—

ESTABLISHMENT UNDER THE COLLECTOR.	1887-88.	1888-89.	1889-90	1890-91.
	Rs.	Rs.	Rs.	Rs.
Superior Officers and permanent and temporary establishment, including travelling allowances.	20,192	21,134	19,588	20,406
Contingencies	1,372	1,459	1,253	1,260
Headmen's fees	36	2,135	49	60
Total ...	21,600	24,728	20,890	21,726

In addition the sums paid by the Executive Engineer for water-regulation were—

	Water-regulation.	
	Permanent.	Temporary.
	Rs.	Rs.
1887-88	572	625
1888-89	546	653
1889-90	480	533
1890-91	488	595

The above figures are those of the Examiner. The Commissioner in his report gives the cost of establishment as Rs. 21,916.* He remarks—

"The cost of collection rose from Rs. 20,890, or 15·9, to Rs. 21,916, or 17·9 per cent. on the amount recovered during 1890-91. The increase was due to the payment of establishment charges for February 1890 in April 1890, and of the arrears of zilladars' conveyance allowances during the year."

* Includes Rs. 120 Tehsil office repair charges.

NAVIGATION.

55. The receipts under the head of Navigation show a decline from Rs. 1,48,164 to Rs. 1,12,754. The tolls realised from the Calcutta Steam Navigation Company during the year fell from Rs. 28,947 to Rs. 21,274, as also the revenue from native crafts from Rs. 1,16,409 to Rs. 89,556. The usual particulars regarding the traffic carried in vessels, other than those of the company, for the last ten years are given below:—

DESCRIPTION.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

(a) Exclusive of tolls, Rs. 21,274 paid by the Calcutta Steam Navigation Company.
(b), (c), (d), (e), and (f) Exclusive of passengers 96,443, 86,765, 85,319, 96,397, and 105,369 carried by the Calcutta Steam Navigation Company's steamers.

The Superintending Engineer writes as follows regarding the falling off in tollage:—

"The revenue from tolls on private boats shows a falling off of Rs. 26,853 as compared with that of the previous year. The tolls realised from steamers also show a decrease of Rs. 7,673. The receipts are less than those of any year since 1882-83, except the year 1886-87, when the market was generally dull. There was also a large falling off in the number of boats plying in the canal. The Executive Engineer states:—'The cause of this must be chiefly attributed to the Calcutta Steam Navigation Company entering into active competition with country-boats. They have of late practically got the monopoly of the through canal traffic to Calcutta. This would not matter much to us if they paid us the same tolls as is charged for native boats, but as they only pay two-fifths of the full tollage, it will be seen that every 100 maunds of goods they divert from country-boats means a loss of three-fifths of the tolls which would have come to us had country-boats carried the goods. There is no doubt that before very long native cargo boats will cease to ply between Midnapore and Calcutta. As it is, all the large Nattore boats have left the canal, as they were unable to compete with the steamers The Calcutta Steam Navigation Company should undoubtedly pay us full tolls on their cargo boats at least, if not on their steamers as well. When it is considered that the cost of the maintenance of the canals has been considerably increased since the steamer service was started, owing to the great damage caused by them to the canal banks and locks, it is not too much to ask them to pay the same tolls for their flats as country boats pay. Among the other causes which have contributed in a lesser degree to a falling off in the navigation receipts during the year may be mentioned the closure of the canal from Mohunpore to Ballychuck from 20th April to 10th May 1890, and from Kantapooker to Uluberriah from 5th to 31st March 1891 for silt clearance and repairs to locks."

MISCELLANEOUS RECEIPTS.

56. The miscellaneous receipts for the last five years are given in the following statement:—

DETAILS.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water	...	...	...	...	...
Plantations	34	44	...	35	52
Other canal produce ...	20	154	4	299	37
Water-power	...	...	...	...	...
Rent of buildings ...	624	534	727	738	721
Fines	5	...	...	...	...
Miscellaneous — Rent of lands	6,757	8,268	7,182	7,984	6,079
Miscellaneous — ,, of fisheries	1,302	1,440	1,084	812	736
Miscellaneous — Cost of process	3,471	3,023	1,113	2,400	1,009
Miscellaneous — Other items...	3,445	3,504	1,189	748	370
Total ...	15,658	16,967	11,299	13,016	9,004

The revenue collected during the year was Rs. 4,896 less than in the previous year. The sum collected by the Deputy Revenue Superintendent was Rs. 6,918, of which Rs. 2,772 was for arrears. The percentage of collection was Rs. 66-67 on the amount recoverable.

MAINTENANCE AND REPAIRS.

57. The actual cost of maintenance and repairs during the last three years is distributed by sub-heads as shown below—

	1888-89. Rs.	1889-90. Rs.	1890-91. Rs.
Head works, including buildings ...	13,903	10 511	11,610
Main canal and branches ...	66,216	77,488	77,323
Distributaries	22,464	19,769	11,851
Drainage and protective works ...	2,113	2,262	1,151
Working steamers	2,443	3,447	3,103
Total ...	1,06,139	1,13,507	1,05.038

HEAD WORKS AND WEIRS.

The expenditure on the Midnapore head works was Rs. 7,120, and on the Panchkoorah head works Rs. 4,490. The expenditure on weirs was Re. 0·86 per foot run of the Midnapore weir, and Re. 0·79 of the Panchkoorah weir, against Re. 1·38 and Re. 0·60, respectively, last year.

MAIN CANAL.

The outlay on repairs to the main canal, including that on head works, on working steamers, and on drainage works, was Rs. 93,187, against Rs. 93,738 in the previous year. The Superintending Engineer remarks:—

"There was a slight reduction in the mileage rate of maintenance over that of the previous year, although the quantity of earthwork (silt clearance) executed was considerably in excess of that usually carried out."

DISTRIBUTARIES.

On distributaries the expenditure on repairs was Rs. 11,851, or Rs. 41 per mile, against Rs. 19,769, or Rs. 69 per mile, in the previous year. The saving was effected mainly under earthwork. In the following table mileage rates for the last ten years, both for main canals and distributaries, are shown:—

Year.	Main Canal and Head Works, &c.			Distributaries.		
	Length of canal open.	Total cost of work.	Rate per mile.	Length of distributary channels.	Total cost of work.	Rate per mile.
	Miles.	Rs.	Rs.	Miles.	Rs.	Rs
1881-82 ...	48	1,03,910	2,164	277	11,854	42
1882-83 ...	48	1,01,821	2,121	277	20,407	73
1883-84 ...	48	1,06,425	2,216	277	21,195	76
1884-85 ..	48	1,15,171	2,399	277	18,865	68
1885-86 ...	48	1,10,350	2,299	277	14,424	52
1886-87 ...	48	1,20,135	2,503	283	17,617	62
1887-88 ..	48	1,10,494	2,301	283	20,957	74
1888 89 ...	48	93,675	1,743	283	22,464	79
1889-90 ...	48	93,738	1,953	283	19,769	69
1890-91 ...	48	93,187	1,941	283	11,851	41

The expenditure on distributaries is less this year under all heads. The main decrease is, however, on earthwork, the cost of which was only Rs 6,925, against Rs. 13,490 in the previous year and Rs. 14,197, the average cost of the four preceding years.

DREDGING AND SILT CLEARING.

58. The amount of silt cleared by dredgers, excavators, and hand labour during the year 1890-91 and the two previous years is shown below:—

	1890-91.		1889-90.		1888-89	
	Quantity.	Rate.	Quantity.	Rate.	Quantity.	Rate.
	C. ft.	Rs. A. P.	C. ft.	Rs. A. P.	C. ft.	Rs. A. P.
Silt cleard in 1st reach by hand labour	1,618,051	4 11 9 /₀₀	2,650,004	4 14 6 /₀₀	1,755,000	3 12 6 /₀₀
Silt cleared by dredgers in 7th and 8th reaches and entrances to locks	5,159,375	5 6 10 /₀₀	5,267,703	5 10 3 /₀₀	4,176,765	6 5 1 /₀₀

Cadmus steam excavator ...	510,440	1,909	...	...	1,909	3 11 10	...	3 11 10
Total for 1890-91	5,159,375	20,400	7,582	34	28,016	3·95	1·47	5·43
Total for 1889-90	5,267,703	22,614	7,148	...	29,762	4·29	1·35	5·64

The expenditure on tools and plant, which mainly consists of the cost of repairs to dredgers, was Rs. 23,929 against Rs. 27,612 in the previous year. REPAIRS TO DREDGERS.

59. The state of the plantations for the last two years is shown in the following statement:— PLANTATIONS

Year.	Trees upwards of 12 feet high.	Saplings between 4 and 12 feet.	Seedlings below 4 feet.	Total.
	No.	No.	No.	No
1889-90 ...	8,076	8,592	6,601	23,269
1890-91 ...	9,706	10,705	3,141	23,552

60. In the financial statement in paragraph 41 it is shown that the working of the Midnapore Canal in 1890-91 gave a net revenue of Rs. 28,131 compared with Rs. 68,617 in 1889 90. The reduction of receipts occurs under all heads, but mainly under the head Navigation, in which there is a decrease of Rs. 37,334. The cost of working expenses is very nearly the same as in the previous year. GENERAL RESULTS.

HIDGELLEE TIDAL CANAL.

61. The Capital, Interest and Revenue Accounts of this Canal are given below:— CAPITAL ACCOUNT.

I.—CAPITAL ACCOUNT.

Heads of account.	Outlay during 1890-91.	Outlay to end of 1890-91.
Direct charges.	Rs.	Rs.
I.—Works	99,423	14,14,304
II.—Establishment	35,978	4,84,046
III.—Tools and plant	17,483	77,582
IV.—Suspense accounts	.....	.....
Loss by exchange	.....	22,790
Total ...	1,52,884	19,98,702
V.—*Less*—Receipts on capital account	... ..	915
Net total direct charges ...	1,52,884	19,97,787
Indirect charges.		
Capitalization of abatement of land revenue	.. ...	11,210
Leave and pension allowances	5,037	38,390
Total indirect charges ...	5,037	49,600

In the year 1888-89 an estimate, amounting to Rs. 7,91,963 (direct and indirect charges), was sanctioned to provide for certain alterations required in

this canal to prevent frequent closures for the purpose of silt clearance, and so avoid the double loss caused, *first*, by the expense of removing the silt and, *second* by the interruption of traffic. The main features of the scheme were to lower the bed level of Ranges I and II, to construct a new supply channel to Range I, which may be laid dry for silt clearance without interrupting traffic, to feed Range II by a pipe connected with the first reach of the Orissa Coast Canal, and to build a new lock on the Russulpore river. The work was commenced in 1889-90, Rs. 49,414 being spent in that year. During 1890-91, as shown above, Rs. 1,52,884 was expended (direct charges only). The supply sluice for Range I was built up to floor-level, and the supply-channel from it was three-fourths completed. In Range II about one-third of the work of lowering the bed level was done. The parts of the scheme involving a new lock and a pipe supply to Range II, are at present in abeyance, as they depend on the possibility of keeping open the Russulpore river, which has silted up to such an extent as to threaten *extinction* of the passage between the locks on its two banks. This matter is being considered in connection with the present drainage scheme for the South Midnapore district, and a decision on this must be arrived at before the supply of Range II and the junction of the new proposed lock can be disposed of.

The increased expenditure on maintenance was due to extensive silt clearance being necessary and to the locks at Gewankhally and Etamogra having been thoroughly repaired.

The heavy charge for tools and plant was due to extensive repairs being required to the Bruce's dredger and hopper-barges, also to half the cost of a slip for boats at the Balasore Workshops being charged to this account.

63. The rainfall at Contai station was 75·32 inches against 57·53 inches in 1889-90. The fall was very heavy during the months of September and October. RAINFALL.

64. Owing to heavy rain in the months of September and October, the country along the banks of the canal was flooded, but no damage of any consequence was done either to the works or the crops. FLOODS.

65. The usual particulars regarding the traffic on the Hidgellee Tidal Canal carried in vessels other than those of the Calcutta Steam Navigation Company during the last ten years are given in the following statement:— NAVIGATION

PARTICULARS.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

(a), (b), (c), (d), and (e) Exclusive of tolls, Rs. 1,603, Rs. 1,892, Rs. 4,500, Rs. 5,833, and Rs. 3,846 paid by the Calcutta Steam Navigation Company.
(f) and (g) Exclusive of passengers, 23,243 and 17,554 carried by the Company's steamers.

The heavy decline in the tollage receipts in the case of the private boats from Rs. 34,815 to Rs. 23,799, and in that of the Company's steamers from Rs. 5,523 to Rs. 3,346, was entirely due to the closure of Ranges I and II of the canal for 6½ and 3 months respectively for silt clearance.

MISCELLANEOUS RECEIPTS.

66. The miscellaneous receipts for the last five years are shown in the following statement:—

DETAILS.	1886-87.	1887-88.	1888-89.	1889-90	1890-91.
	Rs.	Rs.	Rs.	Rs.	Rs.
Sales of water	...	...	...	...	...
Plantations	102	70	61	62	68
Other canal produce	2,159	1,085	...	...	5
Water-power	...	...	...	...	...
Rent of buildings	223	245	226	181	244
Fines	...	...	...	...	...
Miscellaneous — Rent of lands ..	...	...	..	18	56
Miscellaneous — „ of fisheries ...	...	52	955	1,198	514
Miscellaneous — Cost of process ...	...	..	...	...	..
Miscellaneous — Sales of old materials ...	...	...	4	144	4
Miscellaneous — Other items ...	16	...	...	11	8
Total ...	2,500	1,452	1,249	1,614	899

The receipts during the year show a decline of Rs. 899 mainly in item fisheries, which is due to the closure of the canal for a longer period.

DREDGING.

67. There was no dredging work, as the silt was removed by hand-labour during the closure of canal.

PLANTATIONS.

68. The state of the plantations for the last two years is shown in the following statement:—

YEAR.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	TOTAL.
	No.	No.	No.	No.
1889-90	1,830	2,841	2,049	6,720
1890-91	1,883	2,845	1,776	6,504

The decrease in the number of trees during the year was chiefly owing to the death of cocoanut trees caused by drought. The expenditure during the year was Rs. 383 against Rs. 390, and the revenue was Rs. 68 against Rs. 62.

SONE CANALS.

The figures in all statements showing totals of receipts or expenditure are those of the Examiner of Accounts. In dealing with details the figures of the Commissioner or of the Superintending Engineer are used.

CAPITAL ACCOUNT.

69. The Capital, Interest and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1890-91.	Outlay to end of 1890-91.
DIRECT CHARGES.	Rs.	Rs.
I.—Works	1,32,699	1,84,17,825
II.—Establishment	19,850	51,29,956
III.—Tools and plant	6,411	21,28,567
IV.—Suspense accounts	14,716	1,71,364
Loss by exchange	.....	52,240
Total ...	1,73,676	2,58,99,952
V.—*Less*—Receipts on capital account	2,315	3,71,956
Net total direct charges	1,71,361	2,55,27,996
INDIRECT CHARGES.		
Capitalization of abatement of land revenue	14	37,911
Leave and pension allowances	2,779	8,67,449
Total indirect charges	2,793	9,05,360

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1889-90	1,45,45,132
Ditto for 1890-91	10,17,693
Total ...	1,55,62,825

With respect to the above outlay on works of Rs. 1,32,699 spent during the year under review, the Superintending Engineer writes:—

"The progress made with original works during the year was satisfactory, the expenditure being slightly in excess of the provision made in the budget and revised estimates. The chief works under construction during the year were the Chowri and Chowsa drainage cuts, and the Kuttea escape, all of which were practically completed at its close. It having been determined that permanent outlets and village channel-crossings should be constructed as part of the canal system, estimates for the number required were sanctioned during the year and many completed. The masonry drain from the canal to the river at Baroon, the toll office and dredger sheds at that place, the drainage cut at mile 7, Doomraon Canal, the inlet at that place, three rest-sheds in the Arrah Division, and other minor works were completed. Besides the permanent outlets and village channel-crossings already alluded to, the most important works in progress at the close of the year were the Kujhi drainage cut and the additional weir at lock No. II, Patna Canal. The latter work was completed in May 1891."

It has been decided that the time has arrived for closing the account of the capital expenditure chargeable to Imperial funds on these canals. The unspent balance of estimates already sanctioned amounted on 1st April 1891 to Rs. 6,16,733.

REVENUE ACCOUNT.

3—REVENUE ACCOUNT (ACTUALS).

EARNINGS.

70. The net result calculated on the earnings as opposed to collections and actual outlay is shown below:—

	1889-90. Rs.		1890-91. Rs.
Earnings ...	7,56,743		6,77,299
Outlay ...	7,29,930		7,02,099
Profit ...	26,813	Loss ...	24,800

The figures given as earnings include the actual realizations of navigation and miscellaneous revenue with the assessed revenue from irrigation, less refunds.

The following compares the amounts earned and collected (less refunds) for the year under review and the preceding year:—

	Irrigated area. Acres.	Earned. Rs.	Collected. Rs.
1889-90 ...	... 3,05,282	6,75,642	7,99,874
1890-91 ...	... 2,81,014	5,85,542	6,37,413

The receipts for the last two years have been increased by the collection of outstanding arrears. The balance of such has now been much reduced.

FINANCIAL RESULTS.

71. The receipts on revenue account and working expenses of the canals for the year 1890-91 and the nine preceding years are shown in the statement below:—

	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

NOTE.—The method of charging the cost of establishment was altered from 1887-88.

Compared with 1889-90 the receipts (less refunds) have fallen off from Rs. 8,80,975 to Rs. 7,29,170, that is by Rs. 1,51,805. The working expenses (direct charges) have been reduced from Rs. 6,80,959 to Rs. 6,53,286, or by Rs. 27,673. Including indirect charges, the net revenue has fallen from Rs. 1,51,045 to Rs. 27,071.

The falling off in the receipts occurs under the head Water-rates only, here having been an increase under Navigation and Miscellaneous. It is accounted for partly by reduced assessments owing to abundant rainfall, and partly by the outstanding arrear balance having been lower than in the previous year.

LENGTHS OF CANALS AND DISTRIBUTARIES.

72. The following table shows the lengths of canals and distributaries in operation, and the areas commanded, provided with distributaries, and irrigated at the close of the year 1890-91, compared with 1889-90:—

Name of Canal.	1889-90.								1890-91.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

The total of 1,210¾ miles of distributaries includes 14¾ miles of village channels in the Buxar Division. During the year 15¾ miles of distributaries, mostly parallel channels of the Buxar canal, were added to those already in operation.

VILLAGE CHANNELS AND OUTLETS.

73. The following statement shows the progress made in the construction of village channels and of permanent outlets:—

Division.	Total length of village channels completed.	Total number of temporary and permanent outlets.	Number of permanent outlets.
	Miles.	No.	No.
Eastern Sone	341¼	1,623	335
Arrah	820	2,039	993
Buxar	462½	918	400
Total, 1890 91 ...	1,623¾	4,580	1,728
Total, 1889-90 ...	1,622½	4,596	1,605

The total length of village channels and the total number of outlets remain very nearly the same as in the previous year.

The number of permanent outlets has been increased by 123, chiefly in the Arrah and Buxar Divisions.

RAINFALL.

74. The following statements furnish the rainfall statistics of the Sone Canal system and the distribution by canal divisions for the last five years:—

		AVERAGE OF 23 STATIONS.				
		1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season	August ...	11·73	9·48	18·49	12·01	14·47
	September...	12·51	5·24	7·35	5·90	6·58
	October ...	8·33	4·18	0·18	0·79	0·99
	Total ...	32·57	18·90	26·02	18·70	22·04
Rabi season	November ..	0·23	.....	0·46	0·48	.....
	December ...	0·23	.....	.....	.....	0·01
	January ...	1·47	1·09	1·22	.....	1·69
	February ..	.....	.....	1·30	0·01	0·39
	Total ...	1·93	1·09	2·98	0·49	2·09
Whole year ...		59·34	40·31	47·34	39·27	52·86

The average rainfall for twenty years is 41·70 inches.

The Superintending Engineer writes:—

"The season was as regards rainfall a favourable one, the total rainfall of the year being 10·53 inches in excess of the average. It was well distributed, commencing early and continuing at favourable intervals during the kharif season, and during the rabi season being somewhat in excess of the normal fall."

FLOODS.

75. The levels of the highest floods in the rivers Sone and Ganges during the year are recorded in the statements below, the figures being the height in feet above mean sea level:—

RIVER SONE.

LOCALITY.	1890-91—16TH AUGUST 1890.		1889-90—19TH AUGUST 1889.		HIGHEST KNOWN 1876-77—7TH JULY 1876.	
	Above weir.	Below weir.	Above weir.	Below weir.	Above weir.	Below weir.

Hajipore, confluence of rivers Ganges and Gunduk ...	21st August 1890 ...	164·40	August 1879 ...	166·20

IRRIGATION.

76. The irrigation for ten years together with the rain fall is shown below:—

YEAR.	Kharif.	Rabi.	Perennial	Total.	Rainfall.
	Acres.	Acres.	Acres.	Acres.	Inches.
1881-82 ...	98,595	57,589	21,891	178,075	43·05
1882-83 ...	125,159	25,935	22,730	173,824	34·47
1883-84 ..	215,790	117,960	16,864	350,614	32·91
1884-85 ...	246,740	100,239	23,682	370,661	31·37
1885-86 ...	217,072	87,936	27,562	332,570	44·52
1886-87 ...	177,510	60,639	30,055	268,204	58·84
1887-88 ...	220,428	69,945	25,007	315,380	40·18
1888-89 ...	238,895	100,142	16,872	355,909	45·43
1889-90 ...	230,741	55,613	18,928	305,282	49·65
1890-91 ...	211,726	51,318	17,970	281,014	52·23

Regarding the irrigation of the year, the Superintending Engineer writes :—

"Compared with the previous year, there was a slight falling off under 1,000 acres in the area irrigated under five-year lease, a diminution of nearly 50 per cent. in the area under annual kharif leases, and a reduction of about one-third in the hot-weather irrigation. The area irrigated during the rabi season was much the same as during the previous year despite the more favourable rainfall. The rainfall was greater and the area irrigated less than in any year since 1883-84 with the exception of 1886-87, when the rainfall was greater and the area irrigated less than during the year under review. The most satisfactory feature of the year's irrigation was the steadiness in the area under long leases. The area under lease on the 1st of April was 189,316 acres, and permits were issued during the year for 34,124 acres, applications for 22,783 acres being for various causes declined or not completed by the applicants."

77. The areas irrigated during the year 1890-91 and the two previous years, distinguishing between five-year leases and annual leases, are shown in the following table :—

Crop.		1888-89.	1889-90.	1890-91.
		Acres.	Acres.	Acres.
Kharif	Five-year leases ...	154,825	174,780	189,227
	Annual leases ...	69,628	41,917	22,499
	Total ...	224,453	216,697	211,726
Rabi	Five-year leases ...	27,408	31,128	20,761
	Annual leases ...	69,817	20,336	20,632
	Total ...	97,225	51,464	41,393
Sugarcane	Five-year leases ...	17,869	18,360	13,568
	Annual leases ...	4,600	5,004	4,402
	Total ...	22,469	23,364	17,970
Hot-weather ...	...	11,762	13,757	9,925
Grand Total	...	355,909	305,282	281,014
Total five-year leases	...	200,102	224,268	223,556
„ Annual leases		155,807	81,014	57,458

In determining the areas of kharif, rabi, and sugarcane in five-year leases, the figures obtained at the time of executing the leases are assumed to hold good throughout. The proportionate areas of the crops named, assumed for the year 1890-91, are given below :—

Division.	Rice.	Sugarcane.	Rabi.	Total.
Arrah	85·4	7·4	7·2	100·0
Buxar	78·2	6·1	15·7	100·0
Eastern Sone ...	93·1	2·6	4·3	100·0

In the case of the Arrah Division, where this method has been in use for five years, the proportion remains very nearly the same as given in last year's report. In the case of the Buxar and Eastern Sone Divisions, where the requisite information has only been recorded for two years and one year, respectively, there is a considerable change from the proportions hitherto assumed, showing that the area under rice has been under-estimated, and that under sugarcane and rabi has been over-estimated.

78. The areas irrigated in each division during the last five years are shown by crops below:—

Year.	Eastern Sone Division.				Arrah Division.				Buxar Division.				Total for all Divisions.			
	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.
	Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.		
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
1886-87	11,689	1,316	34,194	47,379	21,710	20,300	98,737	140,747	13,165	5,266	61,625	80,075	46,744	26,904	194,556	268,204
1887-88	20,399	679	40,125	61,201	25,983	13,079	102,423	141,484	38,715	6,303	67,618	112,635	85,096	20,120	210,164	315,380
1888-89	29,470	408	37,117	66,995	33,269	11,591	101,489	135,349	57,706	4,363	61,496	123,565	120,445	16,362	200,102	255,909
1889-90	18,899	295	40,917	60,041	24,365	13,416	108,087	145,738	19,189	5,050	75,394	99,633	62,253	18,761	224,398	305,392
1890-91	14,622	504	46,116	61,302	20,483	10,358	108,990	139,807	8,026	3,438	68,441	79,905	43,131	14,387	223,556	281,014

The area irrigated during 1890-91 was 99·87 per cent. of the area leased. The proportion of flow to lift irrigation was 96·7 to 3·3.

Duty of water.

79. The following statement shows the duty obtained in the year under review and in the years 1889-90 and 1888-89:—

			Eastern Main Canal Series.	Arrah Canal System.	Buxar Canal System.	Western Main Canal Series.	Total Sone Canals.
1888-89	Kharif	Acres	57,535	121,799	76,433	198,232	255,767
		Duty on gross supply ...	51·23	69·32	86·76	74·41	67·54
	Rabi	Acres	11,088	41,597	49,617	94,214	105·252
		Duty on discharge utilized	40·14	69·03	82·69	75·61	69·20
1889-90	Kharif	Acres	54,875	115,888	78,906	194,794	249,669
		Duty on gross supply ...	48·34	79·81	86·04	81·94	71·09
	Rabi	Acres	6,801	30,867	23,116	53,983	60,784
		Duty on discharge utilized	21·33	45·52	52·77	48·37	42·36
1890-91	Kharif	Acres	56,000	112,584	60,512	173,096	229,606
		Duty on gross supply ...	55·22	86·87	79·20	83·66	74·24
	Rabi	Acres	6,735	30,492	22,136	52,628	59,363
		Duty on discharge utilized	20·72	57·75	55·48	56·77	47·41

The relative areas of kharif and rabi in five-years' leases have been recomputed and differ from those in report of previous year.

The increased duty in the kharif season is attributable to the abundant rainfall. Owing to this cause conditions were not favourable for making any experiments in the duty of water measured at the outlet.

The Superintending Engineer has given an account of some observations made in the Arrah Division with the view of ascertaining the loss of water in branch canals and distributaries.

The results arrived at, which can only be regarded as approximations, show a loss of 1 cubic foot per second per mile of the mean discharge in distributaries and 1·5 cubic feet per second per mile in branch canals.

The matter is of importance and requires further investigation, especially having in view the probable extension of long leases up to the limit of available supply and the construction of permanent outlets calculated to use up as exactly as possible such supply.

Crop Experiments.

80. With respect to rice, the experiments were confined, as explained in last year's Revenue Report, to crops irrigated from the canal.

The results obtained were—

For good, that is, selected, crops, the average yield obtained in 124 experiments was 32 maunds 2 seers of grain and 82 maunds 30 seers of straw per acre. In 115 cases the lands had been continuously irrigated from the canal for five years and over.

For average crops the mean yield in 33 experiments was 21 maunds 17 seers of grain and 49 maunds 6 seers of straw per acre. In 31 cases the lands had been irrigated from the canal for more than five years.

The results of the experiments taken in the rabi season are tabulated below. The experiments were not numerous, and the results of these in different subdivisons have varied considerably.

The Superintending Engineer remarks that special attention will be paid to wheat in 1891-92:—

DIVISION.	Staple.	IRRIGATED WITH CANAL WATER.					IRRIGATED FROM OTHER SOURCES.				
		Number of experiments.	AVERAGE YIELD PER ACRE.				Number of experiments.	AVERAGE YIELD PER ACRE.			
			Grain.		Straw.			Grain.		Straw.	
			Maunds.	Seers.	Maunds.	Seers.		Maunds.	Seers.	Maunds.	Seers.
Eastern Sone ..	Wheat ...	24	9		14	10	23	5	20	8	32

Buxar	,, ..	11	9	16	14	30	2	6	28	8	30
Sone Circle average		62	10	11	15	6	25	5	8	8	36

81. The following statement shows the demands, collections and balance of water-rates for the last five years:— DEMANDS, COLLECTIONS, AND BALANCES.

YEAR	Amount outstanding at commencement of year.	Amount falling due during the year.	Totalor recovery	Cash realization.	Remitted or written off.	Balance at the end of the year.
	Rs.	Rs.	Rs	Rs.	Rs.	Rs
1886-87 ...	3,98,321	6,95,086	10,93 407	8,26,461	35,364	2,31,582
1887-88 ..	2,31,582	7,25,810	9,57,392	5,19,586	26,525	4,11,281
1888-89 ...	4,11,281	7,53,217	11,64,498	7,59,556	24 329	3,80,613
1889-90 ...	3,80,613	7,52,788	11 33,401	8,16,394	35,225	2,81,782
1890-91 ...	2,81,782	6,29,124	9,10,906	6,44,718	21,460	2,44,728

The amounts included in the current demand for the last three years as assessments for the unauthorised use of water, or for wastage of water are reported by the Superintending Engineer to be—

	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.
For unauthorized use of water ...	7,699	913	4,240
For wastage of water .	162	224	256

82. The following statement will show the extent to which the arrears as well as current demand have been worked off:— AREA.

	Demand of 1890-91 consisting of.	Collected or remitted in 1890-91.	Percentage of demand adjusted.	Unadjusted balance at close of year.
	Rs.	Rs.		Rs.
Arrears previous to 1888-89	32,733	19,636	59·9	13,097
Arrears of 1888-89	48,120	34,798	72 3	13,322
,, ,, 1889-90	2,00,929	1,82,785	90 9	18 144
Total arrears outstanding on 1st April 1890 ..	2,81,782	2,37,219	84·1	44,563
Current demand for 1890-91	6,29,124	4,28,959	68 2	2,00,165
Total ...	9,10,906	6,66,178	73·1	2,44,728

There is on the whole a reduction on the outstanding balance of Rs. 37,054, which is satisfactory.

The progress in collections by districts is shown in the following table:—

DISTRICT.	DEMAND.			ADJUSTMENTS.				Balance on 31st March 1891.	Percentage, column 8 on column 4.
	Arrears on 31st March 1890	Current demand for 1890-91.	Total.	Collection.	Remission made by canal officers.	Written off as irrecoverable.	Total.

As regards the Patna district the Commissioner remarks:—

"In this district the collections have been extremely unsatisfactory, owing partly to a defective system and partly to the inefficiency of the officer in charge. A Sub-Deputy Collector who has had experience of such work in Shahabad has been transferred to this duty, and there are signs of improvement, though these will be more evident later on."

83. The following compares by districts the operations of the year under review with those of the preceding year, arrears and current demand being shown separately:—

District.	Arrears due for irrigation effected in previous years.				Demands for irrigation effected in 1890-91.			
	Percentage of total demand.				Percentage of total demand.			
	Demand.	Collections.	Remissions.	Outstanding at end of year.	Demand.	Collections.	Remissions.	Outstanding at end of year.

Remissions.

84. In the returns submitted by the Examiner of Accounts, the sums remitted during the year under review and the preceding year are shown as below:—

	1889-90.	1890-91.
	Rs.	Rs.
By canal officers ...	6,830	5,324
By civil „ ...	28,395	16,136
	35,225	21,460

In the figures supplied by the Superintending Engineer, refunds are treated as remissions:—

	Rs.
Written off as irrecoverable by civil officers ...	16,128
Remissions and refunds by canal officers	6,554
Extraordinary remissions	24
	22,706

Deducting the sums written off as irrecoverable, the remissions and refunds together amount to Rs. 6,578 sanctioned under the several heads given in the following table:—

Division.	Remitted owing to double assessment, land having been subsequently included in a five-year lease.	I	II	III	IV	V	VI	VII	VIII	IX	X	Total.
		Failure of supply, rule 15.	Land not irrigated.	Proof of irrigation insufficient.	Insufficiently irrigated.	Irrigated, but not liable to water-rates under the Act.	Incorrect measurement.	Charge incorrect, i.e., lift charge as flow, &c.	Names incorrect.	Reduction of rate (rabi).	Other causes.

Total ...	62,822	6,48,622	9·6

COST OF MEASUREMENT, &c., PER ACRE.

86. The following statement shows the approximate cost of measuring lands brought under assessment during the year under review and of preparing demand statements:—

NAME OF DIVISION.	Areas measured and assessed.	COST OF MEASURING CROPS.		COST OF PREPARING DEMAND STATEMENTS.	
		Total.	Per acre.	Total.	Per acre.
	Acres.	Rs.	Pies.	Rs.	Pies.
Eastern Sone	23,194	589	4 87	30	6·04
Arrah	50,806	2,696	10·18	1,701	6 42
Buxar	17,698	1,505	16·33	870	9·44
Total, 1890-91 ...	91,698	4,790	10·03	3,301	6·91
Total, 1889-90 ...	150,315	6,581	8·40	5,184	6·62

87. The following table shows the cost per acre of assessments, including permanent and temporary establishments and headmen's fees:—

DIVISION.	Area assessed during the year.	CHARGE PER ACRE.			TOTAL.	
		Permanent establishment.	Temporary establishment.	Headmen's fees, liabilities on account of 1890-91.	1890-91.	1889-90.
	Acres.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Eastern Sone ...	23,194	0 5 10	0 1 5	0 4 1	0 11 5	0 9 1
Arrah	50,806	0 4 11	0 1 4	0 4 3	0 10 7	0 8 5
Buxar ...	17,698	0 10 5	0 1 10	0 7 1	1 3 0	0 7 8
Total, 1890-91 ...	91,698	0 6 2	0 1 6	0 4 9	0 12 6	0 8 3
Total, 1889-90 ...	1,50,315	0 3 9	0 1 4	0 3 1	...	...

The Superintending Engineer remarks as follows:—

"The high cost of establishment per acre is due to the comparatively small area brought under lease during the year, which bears most unfavourably in the Buxar Division. The permanent establishment is fixed with reference to the total area under irrigation, and the incidence per acre is high in those years in which comparatively few long leases are renewed. As regards temporary establishment, there has not been a material increase. The headmen's fees ought to be calculated, not on the area leased during the year, but on the total area irrigated. Calculated in this way, the fees for the three divisions would be as follows:—Eastern Sone As. 1-7, Arrah As. 1-6, Buxar As. 1-7. In future years' reports the table will be modified."

COMPLAINTS.

88. "Complaints" properly so defined, *i.e*, objections to assessments actually made or petitions alleging that damage has been sustained through the canals, are classified as follows:—

DIVISION.	(I)—ORDINARY REMISSION.				(II TO V)—OTHER COMPLAINTS.				Total complaints received during year, excluding those pending from previous year.	Pending.
	Received during the year and pending from previous year.	Disposed of.		Pending.	Received during the year and pending from last year.	Disposed of.		Pending.		
		Remission allowed.	Remission refused.			Allowed.	Rejected.			
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone	1,261	677	624	20	23	3	20	...	1,177	20
Arrah	1,843	736	1,127	79	28	20	56	2	1,583	91
Buxar	599	285	295	.	28	28	23	2	291	2
Total, 1890-91 ...	3,703	1,698	1,996	109	194	61	199	4	3,151	113
Total, 1889-90 ...	5,258	3,313	4,240	705	833	96	336	41	6,867	746

The total number of complaints received during the year was 3,151 as compared with 6,867 in the previous year. Including those pending from the

previous year, orders were passed on 3,590, and the balance outstanding at the close of the year had been reduced to 113. This is satisfactory. The Collector of Shahabad has also remarked on this subject—"*Complaints against assessments.*—These have been reduced to a minimum. The assessment work was every where carefully done."

In addition, 4,335 "applications"—in which term are included petitions for leases and outlets, for change of names in five-year leases, or for the post of headman—were received, of which 2,312 were granted, and 1,557 refused The number pending at the close of the year was 466. The details by Divisions are shown below:—

Division.	Received during the year and pending from last year.	Granted.	Refused.	Pending at the close of the year.
	No.	No.	No.	No.
Eastern Sone ...	927	563	313	51
Arrah ...	2,381	1,091	885	405
Buxar ...	1,027	658	359	10
Total, 1890-91	4,335	2,312	1,557	466
Total, 1889-90	4,439	2,206	1,751	482

The Superintending Engineer has remarked on this subject:—

"The applications relate to matters in connection with irrigation, in which requests are made in the ordinary way of business. The most numerous class are those in connection with the mutation of names in a five-year lease, of which 953 were received, the next in importance are preliminary applications for a five-year lease, which numbered 739, the remainder are fully classified in the Appendix, the only ones of importance being 284 applications for registration as owner of a village channel: in 132 cases they relate to a supply of water free for drinking purposes."

Appeals.

89. Four appeals (including three pending from the previous year) were preferred to Collectors against the orders passed by canal officers on complaints, and all were dismissed.

Eight cases were decided by engineers vested with magisterial powers under the Bengal Irrigation Act. Seven persons accused of offences under the Act were convicted and thirteen discharged.

Certificate procedure.

90. It has been decided that the certificates required in realising water-rates shall continue to be dealt with by the Special Deputy Collector in charge of the collections, and shall not be made over to the General Department of the Collectorate.

The amount of certificate work done in each district during the year under review as compared with that of the previous year is shown in the following statement:—

	Shahabad.				Patna.				Gya.			
	1889-90.		1890-91.		1889-90.		1890-91.		1889-90.		1890-91.

2. Cases instituted during the year	4,209	44,075	3,336	34,594	1,091	8,738	1,403	7,446	317	7,956	189	5,033
Total ..	4,729	50,642	3,909	41,351	3,972	28,272	2,733	23,042	417	14,051	255	11,745
Cases disposed of—												
1. By being struck off owing to the demand having been remitted.	473	4,303	426	4,503	1,538	7,349	748	5,011	61	4,701	40	6,514
2. By being wholly satisfied ...	3,654	39,582	3,230	30,576	806	1,634	673	1,706	251	2,628	186	2,334
Total ...	4,126	43,885	3,656	35,079	2,044	9,676	1,421	6,717	312	7,329	226	8,848
Balance outstanding at the close of the year.	973	6,757	945	6,272	1,928	18,596	1,312	16,325	105	6,722	29	2,797

Inclusive of cases pending, the number for disposal was 6,897, covering a sum of Rs. 76,048, as compared with 8,438 and Rs. 86,158 in the previous year. The demand adjusted was Rs. 50,764 as against Rs. 55,496, the remissions being Rs. 16,128 compared with Rs. 12,155. Except in Patna, where the collections have been much in arrears, the numbers of certificates pending at the close of the year are moderate.

NAVIGATION. 91. The tables below show the navigation revenue and tollage receipts for the last five years:—

NAVIGATION RECEIPTS.

Year.	Eastern Main Series.			Western Main Series.			Total.	Total tollage only.
	Number of miles open.	Tollage receipts.	Transport service receipts.	Number of miles open.	Tollage receipts.	Transport service receipts.		
	No.	Rs.	Rs.	No.	Rs.	Rs.	Rs.	Rs.
1886-87	86½	22,506	54*	132½	27,159	4,535*	54,254	49,665
1887-88	86½	27,622	95*	132½	23,362	4,825*	55,904	50,984
1888-89	86½	24,876	60*	132½	27,286	5,607*	57,829	54,162
1889-90	86½	25,189	...	132½	26,000	6,570*	57,759	51,189
1890-91	86½	28,465	...	132½	28,128	9,036*	65,629	56,593

* There is no longer any Government transport service. These receipts are on account of hire of steamers, boats and sundries.

TOLLAGE. TOLLAGE (ASSESSED).

Year.	Patna Canal system, Eastern Main Canal series.	Arrah Canal system.	Buxar Canal system.	Total.
	Rs.	Rs.	Rs.	Rs.
1886-87	22,646	18,289	9,001	49,936
1887-88	28,206	15,306	8,030	51,542
1888-89	25,165	18,121	8,826	52,412
1889-90	*24,271	18,565	7,479	50,315
1890-91	28,526	18,180	9,998	56,704

TRAFFIC. COMPARISON OF TRAFFIC.

	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
Number of miles open ... No.	218½	218½	218½	218½	218½
Toll collections ... ... Rs.	49,936	51,542	52,412	50,315	56,704
Collections per mile ... „	229	236	240	230	259
Boats, including empties ... No.	8,573	8,116	8,096	8,058	8,644
Tonnage of boats ... ... Tons.	104,836	95,082	106,788	104,390	114,996
Estimated value of cargo, including rafts ... ... Rs.	64,65,651	56,80,508	58,04,029	44,36,564	65,25,714

There was an increase of about 12 per cent. in the tollage receipts, due chiefly to increased activity in the grain trade.

TRANSPORT SERVICE. 92. The transport service on the Sone Canals is worked by Messrs. Hodges and Radford under a contract for three years from the 1st December 1889. Two trips are run each way every week on the Arrah and Buxar Canals, and one trip on the Patna Canal. There are four steamers, the property of Government, of which three are hired to the contractors and one is held in reserve. The charge for steamer hire is Rs. 600 per month, and Rs. 500 is also levied as compounded tollage.

The extent of the traffic in connection with the steamers is shown below:—

		Arrah Canal.	Buxar Canal.	Patna Canal.	Total.
Passengers carried	Up ... No.	12,539	6,740	3,710	22,989
	Down ,,	11,274	7,089	3,903	22,266
Cargo carried	Up ... Tons.	478	222	1,066	1,766
	Down ... ,,	955	433	1,208	2,596

The ordinary repairs of the steamers are executed by the lessees and not by Government.

The transport service is reported to be efficiently and regularly worked, and to be popular. It is certainly a great convenience to the places served.

There are in addition to the steamers four cargo boats, the property of Government, for the hire of which Rs 1,360 was received during the year, besides which Rs. 111 was recovered by way of fees for the use of the accommodation boat.

MISCELLANEOUS RECEIPTS.

93. The miscellaneous receipts for the last five years are given in the following statement:—

	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs	Rs.	Rs.

Total ...	37,714	28,459	26,504	23,342	26,128

MAINTENANCE CHARGES.

94. The expenditure on works, maintenance, and repairs will now be briefly reviewed.

EXTENSIONS AND IMPROVEMENTS.

On 'extensions and improvements' Rs. 3,263 was spent, mainly in substituting brick arches for wooden tops on bridges on branch canals.

REPAIRS.

The expenditure on repairs fell from Rs. 2,92,992 to Rs. 2,72,831, which is distributed under the following sub-heads:—

	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.
Head works	74,756	32,787	20,353
Main canal including branches...	1,85,746	1,89,296	1,78,593
Distributaries	61,839	60,767	67,616
Drainage and protective works .	5,264	8,502	6,101
Cost of working transport service	577	779	...
Compensation	...	861	168
Total ...	3,28,182	2,92,992	2,72,831

REPAIRS TO HEAD WORKS.

95. The cost of repairs to head works during the last three years is shown below:—

	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.
Weir on Sone River ...	63,245	21,133	11,151
Other works ...	10,097	11,030	8,743
Total ...	73,342	32,163	19,894

The expenditure on the reconstruction of the piers of the under-sluices of the Sone weir was concluded in 1889-90, and the expenditure in the head works is now normal.

MAINTENANCE OF MAIN CANALS AND DISTRIBUTARIES.

96. The expenditure on maintenance and repairs on the main canals and distributaries in each division during the last three years is shown below:—

	Arrah Division.			Buxar Division.			Eastern Sone Division.			Total.		
	1888-89.	1889-90.	1890-91.	1888-89.	1889-90.	1890-91.	1888-89.	1889-90.	1890-91.	1888-89.	1889-90.	1890-91.

Eastern ditto ...	...	...	...	...	...	...	22,722	32,267	29,398	22,722	32,267	29,398
Canals	34,443	26,854	25,110	10,766	10,543	15,896	23,015	25,077	25,566	68,224	62,474	66,572
Branch Canals	14,559	15,179	12,540	14,206	13,269	7,514	...	...	...	28,765	28,448	20,054
Distributaries	29,453	29,682	33,706	15,172	17,106	17,747	17,216	13,979	16,161	61,841	60,767	67,614
Drainage and protective works	2,358	5,285	4,332	153	168	...	2,753	3,048	1,768	5,264	8,501	6,100
Total ...	1,25,111	1,25,430	1,20,465	60,406	56,509	57,324	65,706	74,371	72,893	2,51,223	2,56,310	2,50,682

The amounts given above exclude the charge for maintaining the Telegraph line from Arrah to Dehree, which has been included in paragraph 94 under head "Main Canal with Branches."

The expenditure is slightly less than in the two previous years. Generally the expenditure is less on main and branch canals and greater on distributaries. Of Rs. 44,777 spent on the first five miles of Western Main Canal, Rs. 43,430 are under the subhead Earthwork compared with Rs. 47,196 in 1,889-90 and Rs. 42,224 in 1888-89. The charge of the year under review for this portion of canal includes Rs. 5,166 for silt clearance by hand and Rs. 35,776 for dredging.

SILT-CLEARING AND DREDGING.

97. The quantity of silt dredged from the Eastern and Western Main and Buxar Canals and the rate at which the work was done during the last three years are given below:—

CANALS.	1888-89.			1889-90.			1890-91.		
	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.
	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.
Eastern Main and Patna ...	2,327,518	12,944	5 9 0	2,369,143	13,867	5 13 7	2,235,724	11,747	5 4 0
Western Main ...	7,544,478	49,724	6 9 5	6,410,767	40,033	6 3 10	7,833,182	45,498	5 12 11
Buxar Canal	...	...	...	...	...	...	720,117	2,970	4 1 11
River Sone	1,059,684	2,944	2 12 6	1,563,222	3,285	2 1 7	1,502,555	2,748	1 6 10
Head Lock	51,205	157	3 1 0	35,620	210	5 14 3	66,224	281	4 3 10
Total ...	10,982,885	65,769	5 15 9	10,378,752	57,395	5 8 5	10,122,078	50,897	5 0 5

The rates shown in the above table include the cost of lifting the silt into barges and of carrying it either over the spoil banks or into the river. The rates necessarily vary much under the latter head owing to different heights of spoil bank and of different lengths of lead to the river.

The cost of lifting the silt on to the barges or dredging proper was as shown below:—

	Quantity dredged.	1888-89—Cost of lifting.	Rate per 1,000 cubic feet.	Quantity dredged.	1889-90—Cost of lifting.	Rate per 1,000 cubic feet.	Quantity dredged.	1890-91—Cost of lifting.	Rate per 1,000 cubic feet.
	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.
Eastern Main and Patna ...	2,327,518	4,999	2 2 4	2,369,143	3,750	1 9 3	2,235,724	2,674	1 10 3
Western Main	7,544,478	20,398	2 11 3	6,410,767	12,707	1 15 8	7,833,182	15,276	1 15 2
Buxar	...	...	...	...	...	...	720,117	1,385	1 14 9
River Sone	1,059,684	2,757	2 9 8	1,563,222	2,835	1 13 0	1,502,555	1,923	1 4 6
Head Lock	51,205	157	3 1 0	35,620	135	3 12 7	66,224	208	3 2 3

The rates do not vary much from those of the preceding year.

98. The expenditure on repairs to dredgers during the year under review is compared with that of the two previous years in the following statement:—

	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.
12 Fouracres' dredgers	7,704	6,675	6,857
2 Bruce's ditto	754	374	436
2 English ditto	4,300	3,439	3,525
Mud punts ...	2,870	3,178	4,790
Total ...	15,628	13,666	15,635

The Superintending Engineer has given the following information as to the comparative cost of lifting the silt on to barges, allowing for interest on the capital cost of the dredgers and for the expenditure on repairs:—

	Average cost in 1890-91 of lifting per 1,000 cubic feet.	Interest on capital cost per 1,000 cubic feet lifted.	Cost of repairs per 1,000 cubic feet lifted.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Fouracres' dredgers ...	1 12 5	0 9 5	0 15 1	3 4 11
Bruce's dredger ...	1 13 1	0 11 8	0 3 10	2 12 7
English ladder dredgers	1 14 5	1 7 6	1 1 2	4 7 1

The small expenditure on repairs has given a decided advantage to the Bruce's dredgers, of which there are two employed.

99. The quantity of silt cleared by hand from main canals in the Eastern Sone Division and the cost are compared below with the figures for the two previous years:—

	1888-89.			1889-90.			1890-91.		
	Quantity cleared by hand.	Cost.	Rate.	Quantity cleared by hand.	Cost.	Rate.	Quantity cleared by hand.	Cost.	Rate.
	C. feet.	Rs.	Rs. A. P.	C. feet.	Rs.	Rs. A. P.	C. feet.	Rs.	Rs. A. P.
Eastern Main and Patna Canals...	2,773,668	10,542	3 12 9	2,491,847	13,037	5 3 10	4,282,127	19,021	4 7 0

On the Western Main Canal 1,589,240 cubic feet were cleared by hand at a cost of Rs. 7,852.

100. The cost of weed-clearing for the last five years is shown in the following table:— WEED CLEARING.

DIVISION.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.	Rs.	Rs.
Eastern Sone ...	314	558	217	9	396
Arrah	1,731	2,691	1,053	715	1,299
Dehree Workshops...	487	782	899	911	1,350
Buxar	2,065	884	869	726	1,505
Total ...	4,597	4,915	3,038	2,361	4,550

The figures for 1888-89 and 1889-90 have been amended, as those given in the report of last year excluded certain items which have been added.

The Superintending Engineer remarks:—

"There has been increased expenditure all round in this item, and it is reported that the weeds during 1890-91 were very troublesome and had to be removed more frequently than

usual. It is difficult to ascribe a satisfactory reason for the vigorous growth of these pests: the lower average discharge of the canals during the rains may have had some share in the matter.''

MILEAGE RATES OF REPAIRS OF CANALS AND DISTRIBUTARIES.

101. The mileage rates of cost of repairs are worked out both for canals and distributaries, and compared with the rates of the two previous years in the statement below :—

CANAL.	DIVISION.	1888-89.		1889-90.		1890-91.	
		Number of miles	Cost per mile.	Number of miles.	Cost per mile.	Number of miles.	Cost per mile.
		No.	Rs.	No	Rs.	No.	Rs.
Eastern Main Canal ...	Eastern Sone ...	7¼	3,134	7¼	4,483	7¼	4,054
Western ditto ...	Dehree Workshop ...	9	6,211	9	6,702	9	6,260
	Buxar	12½	681	12½	282	12½	364
Buxar Canal	Do.	45¼	238	45¼	233	45¼	351
Patna do.	Eastern Sone	79	291	79	317	79	323

	Buxar	343	44	354¼	48	370¼	48
	Eastern Sone	358	48	358	39	358	45

PLANTATIONS.

102. The state of the plantations in each division at the close of the years 1889-90 and 1890-91 is shown in the following statement:—

DIVISION.	1889-90.				1890-91.				Increase.	Decrease.
	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.		
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone	89,989	25,212	66,532	181,833	85,430	30,871	62,040	178,041		3,792
Arrah and Dehree Workshop	40,648	27,211	77,269	145,128	42,874	54,733	78,204	175,511	30,383	...
Buxar	17,544	11,490	17,786	46,790	19,573	12,066	14,959	46,598	108	.
Total ...	148,175	64,013	161,587	373,745	147,877	97,370	155,203	400,450	Net increase 26,705	

The increase shown in the Arrah and Dehree Workshop Divisions is due mainly to the plantations being established in the vicinity of the head works at Dehree. The decrease in the Eastern Sone Division is due to incorrect enumeration in the previous year.

CALCUTTA AND EASTERN CANALS.

CAPITAL ACCOUNTS.

103. The Capital and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1890-91.	Outlay to end of 1890-91.
DIRECT CHARGES.	Rs.	Rs.
Old outlay prior to the year 1861-62	...	24,91,012
I.—Works	1,690	20,36,755
II.—Establishment	574	3,84,970
III.—Tools and plant	3,427	3,51,663
IV.—Profit and loss	...	847
V.—Suspense accounts	13	12,079
Total ...	5,613	52,77,326
Less—Receipts on capital account	...	44,454
Total direct charges ...	5,613	52,32,872
INDIRECT CHARGES.		
Leave and pension allowances	80	61,025

The new works carried out during the year chargeable to the Capital Account of the canals were—A wreck godown at Soorkhally in No. 4 Assassoonee subdivision at a cost of Rs. 488 and an out-office of the inspection bungalow at Assassoonee for storing wreckage at Rs. 1,146. In addition a sum of Rs. 3,427 was expended on tools and plant on account of portable engines transferred from the Orissa Coast Canal.

REVENUE ACCOUNT.

2.—REVENUE ACCOUNT—(Actuals).

Total indirect charges ...	4,967	6,632	11,407	13,022	9,468	9,376	12,344	11,853	12,165	14,334
Total working expenses ...	3,32,321	3,26,897	2,32,031	2,91,214	1,96,209	1,92,264	2,24,656	2,93,801	2,79,133	3,23,957
Net revenue ...	1,50,146	2,37,297	3,32,070	2,78,512	2,83,275	2,91,390	3,55,278	2,81,324	2,16,410	2,01,128

The receipts of 1890-91 show an increase of Rs. 29,542 over those of 1889-90, though still much behind the years 1887-88 and 1888-89.

The competition of the Bengal Central Railway and of the Steam Navigation Companies is said to be getting keener every year.

The profits in the working of the canals were Rs. 2,01,128, or 3·8 per cent. on the capital outlay. Results for ten years are given below:—

Year.	Capital outlay (direct and indirect)—		Receipts and Working Expenses.			Percentage of net revenue to capital outlay to end of year.
	During the year.	To end of the year.	Gross revenue.	Charges (direct or indirect).	Net revenue.	
	Rs.	Rs.	Rs.	Rs.	Rs.	
1881-82	5,58,268	47,71,649	4,82,467	3,32,221	1,50,246	3·1
1882-83	3,21,351	50,96,000	5,64,194	3,66,897	2,37,297	4·6
1883-84	1,55,534	52,51,534	5,64,101	2,32,031	3,32,070	6·3
1884-85	9,013	52,60,547	(a) 5,69,726	2,91,214	2,78,512	5·2
1885-86	(—)42,566	52,17,981	(b) 4,79,484	1,96,209	2,83,275	5·4

1888-89	49,369	52,88,485	5,75,125	2,93,801	2,81,324	5·3
1889-90	(—)281	52,88,204	4,95,543	2,79,133	2,16,410	4·1
1890-91	5,693	52,93,897	5,25,085	3,23,957	2,01,128	3·8

(a) Is Rs. 35,183 larger than it should be by reason of error o account.
(b) Is Rs. 35,183 smaller than ditto ditto ditto.

NAVIGATION.

105. The amounts received during the last two years by the Collector of the canals and by the Executive Engineer are shown in the following statement:—

Canals.	Number of boats and rafts.	Collections by Collector and Supervisor.						Collections by Executive Engineer.	Grand Total, gross revenue.
		Tolls from boats and rafts.	Demurrage.	Ferry tolls.	Tolls from steamers and flats.	Rents of buildings, lands, and other miscellaneous receipts.	Total.	Rents of buildings, lands, and other miscellaneous receipts.	
	No.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta and Eastern ...	84,063	3,83,730	5,219	3,100	5,425	3,569	4,01,043	2,172	5,25,146
Tolly's Nullah	73,333	1,18,898	1,373	1,220	...	340	1,21,231		
Total 1890-91 ...	157,575	5,02,628	6,592	4,320	5,425	3,909	5,22,274	2,172	5,25,146
Total 1889-90 ...	149,203	4,71,555	6,065	5,316	4,650	4,626	4,92,121	3,007	4,95,631

The tolls collected from boats and rafts, which are the chief source of revenue, amounted to Rs. 5,02,628 compared with Rs. 4,71,555 in the previous year.

There has recently been an enquiry into the system of measuring boats and charging tolls on these canals, and a scheme is under consideration for modifying and readjusting them so as to make the distribution more equal on different classes of boats, to all of which the present system of measurement does not appear fully suitable.

106. The particulars regarding the boats which used the canals during the last two years are given below, and it will be seen that there is an increase under every class:— BOATS.

		Number and class of boats.					Total.
		Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000 maunds.	Over 5,000 maunds.	
Calcutta and Eastern Canals ...	1889-90 ...	34,016	24,124	17,152	2,059	74	77,425
	1890-91 ...	39,763	24,643	18,102	2,375	166	84,038

and for Tolly's Nullah:—

Tolly's Nullah ...	1889-90 ...	16,784	17,894	5,280	51	...	40,009
	1890-91 ...	17,076	21,109	6,481	70	...	44,736

Besides the boats enumerated above, a number of small boats and *dinghies* enter Tolly's Nullah from the Kourapukhur khal, paying toll at Russa. These boats are not classified. Their number was 28,680 against 30,731 in 1889-90.

107. The figures showing the tonnage of the boats by canal measurement and the estimated weight and value of the cargoes are shown below separately for the Calcutta Canals and Tolly's Nullah, and compared with the returns of the preceding year:— TRAFFIC.

		Number of boats.	Tonnage of boats by canal measurement.	Weight of cargo carried.	Value of cargo carried.	Tollage including demurrage.	Percentage of toll on value of cargo.
		No	Tons.	Tons.	Rs.	Rs.	
1889-90 ...	Calcutta Canals	77,425	1,797,810	610,349	5,15,09,515	3,76,607	
	Tolly's Nullah...	70,740	652,249	212,476	1,52,94,352	1,05,672	
	Total ...	148,165	2,450,059	822,825	6,68,03,867	4,82,279	0·72
1890-91 ...	Calcutta Canals	84,038	1,818,350	635,796	4,57,67,347	3,94,474	
	Tolly's Nullah...	73,416	792,550	258,639	1,61,59,157	1,20,271	
	Total ...	157,454	2,610,900	894,435	6,19,26,504	5,14,745	0·83

The increase of 9,289 boats during the year was partly due to the large number of pilgrims brought to Calcutta during the *Ardhodya jog* festival.

108. The improvement which has been effected in the organisation and management of the toll system is again attested by a decrease in the number of missing tickets. The following are the figures for the last nine years:— MISSING TICKETS.

Year.	No.	Year.	No.
1882-83 ...	... 5,459	1887-88 ...	... 677
1883-84 ...	... 3,086	1888-89 ...	... 329
1884-85 ...	... 1,404	1889-90 ...	... 238
1885-86 ...	... 653	1890-91 ...	... 212
1886-87 ...	... 542		

REVENUE ESTABLISHMENT.

109. The cost of the revenue establishment employed on toll collections for the last four years is shown below:—

	1887-88.	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.	Rs.
Salary and commission of Supervisor ...	12,651	12,972	11,053	11,475
Salary of Canal Inspector	5,435	4,034	3,900	5,172
Supervisor's office establishment ...	5,414	5,183	5,142	5,155
Canal police	2,022	2,060	2,050	2,051
Supervisor's steam-launch establishment ...	942	944	735	98
Inspector's and chalan boat establishment ...	1,123	1,112	1,138	1,049
Dhappa water establishment	180	180	173	168
Duffadar	40 (a)	...	...	271
Travelling allowance	65	11	39	22
Contingencies	1,338	1,401	1,027	1,261
Toll-station establishment	9,710*	9,787*	10,424*	11,478*
Total cost of establishment ...	38,920	37,684	36,281	38,210

(a) Canal domes.
* Includes salary of daroghas, clerks, cashiers, ko otnavises, koyals, toll peons, and dinghies with crew.

MISCELLANEOUS RECEIPTS.

110. The following is a detailed statement of miscellaneous receipts realized by the Executive Engineer and the Supervisor of the Calcutta Canals during the year as compared with those of the previous year:—

	1889-90.	1890-91.
	Rs.	Rs.
Plantations	31	35
Other canal produce	1	202
Rent of building	1,660	1,597
„ of land	366	711
*Miscellaneous other receipts ...	5,254	3,338
Total ...	7,312	5,883

* Includes fishery rent and sale proceeds of canal silt.

EXTENSIONS AND IMPROVEMENTS.

111. The expenditure of Rs. 36,676 charged to extensions and improvements was mainly due to the erection of a new girder bridge over Tolly's Nullah at Kalighat, on which Rs. 36,295 was spent during the year, the total estimated cost being Rs. 85,560, of which Rs. 30,000 has been contributed by the Corporation of Calcutta.

MAINTENANCE AND REPAIRS.

The cost of maintenance of the canal by sub-heads as compared with that of the previous year is given below:—

CANALS.	Locks.	Masonry bridge.	Roads.	Buildings.	Plantations.	Dredging.	Channel and bank.	Towpath.	Rustic bridges.	Steam-launches.	Miscellaneous.	Drainage.	TOTAL.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta Canals, 1890-91 ...	11,562	4,079	15,851	936	526	12,260	320	1,321	360	5,999	9,828	284	63,326

Ditto, 1889-90 ...	...	...	...	1,875	...	...	26,912	18,529	19,016	...	2,960	...	69,292
Total, 1890-91 ...	11,562	7,724	16,251	3,540	5,058	12,260	25,530	22,748	21,094	5,999	17,822	284	1,49,872
Total, 1889-90 ...	2,283	7,800	17,791	5,276	579	22,247	44,364	20,200	20,036	9,231	15,508	...	1,65,315

The increase or decrease in the expenditure as compared with that of the year before is explained below:—

Calcutta Canals.—The heavy increase of Rs. 9,279 under "Locks" was due principally to dewatering, examining, and repairing the Chitpore lock, gate, gearing, &c., and clearing the lock basin of silt. Outlay on buildings was small, viz., Rs. 936 against Rs. 3,024 of the year before. The decrease under dredging was due to breakdown of dredgers *Victoria* and *Fouracres*, which worked only for 95 and 90 days, respectively, in 7 months during the year. The decrease under "Channels" and "Banks" is attributable to large expenditure in piling and rivetting in the former year. The decrease under "Steam-launches" was due partly to the fact that no launch had to be hired for the Supervisor of the Calcutta Canals during the year as was done in the previous year. Government launches "*Ethel*" and "*Coot*" were under repairs during a greater portion of the year, which tended to curtail the working expenses. The expenditure of Rs. 284 under "Drainage" was due to the making of a new shutter for the inlet sluice at Chitpore.

Tolly's Nullah.—The increase under head "Bridges" was due to painting the Alipore and Zeerut bridges. There was a marked decrease of Rs. 11,225 under head "Channels and banks" as compared with the expenditure under this head during the preceding year, which was principally due to the fact that no outlay on silt clearance for improvement of the Kowrapookhur Khal was incurred during last year.

Eastern Canals.—The increase of Rs. 729 under "Buildings" was due to thorough repairs to the subdivisional bungalows having been undertaken during the year. There was an expenditure of Rs. 4,532 under "Plantation." New plants were purchased and planted out in the canal surplus lands at Bhangore. The increase under "Towpath" was due to the construction of a retired line of towpath in No. 4 or Assassoonee subdivision, and to some extra repairs to flood damages. The increase under "Rustic bridges" was due to the fact that thorough repairs were carried out to the remodelled bridges in No. 5 or Perozepore subdivision, and to extra work done for repairing flood damages. Under "Miscellaneous" the increase was partly attributable to cutting nicks on the north and south banks of Bhangore khall, and constructing boundary pillars at Bamonghatta khall, and partly to petty works of a miscellaneous nature.

DREDGING AND SILT CLEARANCES.

112. The following statement shows the quantity of silt dredged, and the expenditure incurred, and the rate per 1,000 cubic feet during the year, including the cost of delivering the mud—:—

	Quantity dredged.	Cost.	Rate per 1,000 cubic feet.
	C. feet.	Rs.	Rs. A. P.
Steam dredger *Victoria* ...	614.100	6,186	10 1 2
Fouracres' dredger ...	156,900	1,887	12 0 5
Marchants' dredger ...	191,700	1,896	9 14 3

Omitting the cost of delivering the mud, the rates of dredging proper, exclusive of the cost of repairs and of interest on original cost, were per 1,000 cubic feet—

	Rs. A. P.
Steam dredger *Victoria*	4 10 6
Fouracres' dredger	6 9 8
Marchants' dredger	0 11 6

The Superintending Engineer remarks:—

"The results of the dredging work cannot be considered satisfactory, allowing even for the time the dredgers were under repairs. The average rates of working of the *Victoria* and *Fouracres* were in excess of those of last year, and far in excess of the rates of work on the Midnapore Canal. There are, however, no steam-hoppers or hopper-barges in use, and the disposal of the excavated silt is very costly. The number of days in the months during which the two dredgers named above worked is small, and unless they are worked more regularly, good results cannot be expected."

PLANTATIONS.

113. The state of the plantations for the last two years is shown below:—

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
	No.	No.	No.	No.
1889-90 ...	2,046	569	427	3,042
1890-91 ...	2,208	1,382	1,314	4,904

The cost incurred during the year was Rs. 5,058 against Rs. 579 in 1889-90.

FLOODS.

114. The whole of the rivers connecting with the Eastern Canals were in heavy flood in August and September, but gauge-readings are not available. Owing to the heavy flood in the Bhyrub river, serious damages were caused to the river protective works at Khoolna: some of the spurs were swept away and others damaged more or less. Slight slips occurred, and the river bank was eroded to a certain extent. On the whole the protective works at Khoolna, which come under the head of miscellaneous improvements, did their work well, and prevented what might have been a serious erosion.

ORISSA COAST CANAL.

CAPITAL ACCOUNT.

115. The Capital and Revenue Accounts of this canal are given below:—

I.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1890-91.	Outlay to end of 1890-91.
DIRECT CHARGES.	Rs.	Rs.
I.—Works	17,269	32,74,448
II.—Establishment	6,085	7,30,844
III.—Tools and plant	(—)4,098	2,02,474
IV.—Suspense accounts	(—)2,029	30,586
Total ...	17,227	42,38,352
V.—*Less*—Receipts on capital account	15	3,293
Total direct charges ...	17,212	42,35,059
INDIRECT CHARGES.		
Capitalized abatement of land revenue	...	784
Leave and pension allowances	852	1,02,234
Total indirect charges ...	852	1,03,018

The expenditure of Rs. 17,269 on works was incurred in the following:—

(*a*) Clearing brickfields at Nulcool, Sara, and Kunduli.

(*b*) Toll-houses and khallasies' sheds were completed and paid for.

(*c*) Excavations of tanks for drinking-water and for bathing purposes at the various locks were completed, except at Jamcoonda, where they are in abeyance, pending settlement of the question of the necessity for building a new lock.

(*d*) Mr. Bond's house, occupied on a monthly rental for Executive Engineer's office, has been purchased for Rs. 5,000, and it is now undergoing thorough repairs. Additional office accommodation is also being provided in a detached building, which, together with cost of land and special repairs and alterations, sanctioned in Bengal Government letter No. 534I, dated the 26th March 1891, will amount to Rs. 9,895.

The Superintending Engineer remarks :—

"The canal is now practically complete, although there are about 29 lakhs cubic feet of earth in certain uncut portions of the canal. This, however, is no impediment to the navigation."

REVENUE ACCOUNT.

2.—REVENUE ACCOUNT (Actuals).

	Expenditure—			Receipts—	
	During 1889-90.	During 1890-91.		During 1889-90.	During 1890-91.
	Rs.	Rs.		Rs.	Rs.
DIRECT CHARGES.					
I.—Maintenance and Repairs.			Water-rates ..	61	...
			Navigation ...	63,724	64,220
Maintenance and repairs	50,528	42,312	Miscellaneous ..	1,563	1,410
Establishment, including direction and accounts.	926	15,452	Total ...	65,348	65,630
Tools and plant ...	10,513	9,794	*Less*—Refunds of revenue ..	15	44
Total ...	61,967	67,558			
II.—Revenue Management.					
Navigation establishment	6,044	6,208			
Total direct charges ...	68,011	73,766			
INDIRECT CHARGES.					
Capitalized abatement of land revenue ...	...	...			
Leave and pension allowances	975	3,032			
Total indirect charges...	975	3,032			
Total working expenses	68,986	76,798			
Net revenue ...	(—)3,653	(—)11,212			
Total ...	65,333	65,586	Net total receipts	65,333	65,586

The navigation receipts have advanced slightly. The Superintending Engineer, however, remarks that this may be looked upon as very satisfactory, considering the long closure of the Hidgellee Tidal Canal. There was an increased traffic in grain due to larger exports to Calcutta, and an increase in the quantity of salt imported from Calcutta.

FINANCIAL RESULTS.

116. The receipts on Revenue account and working expenses of the canal for the last six years are shown in the following statement:—

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

INDIRECT CHARGES.						
Capitalized abatement of land revenue ...	.....	.....	.....	.....	.....	.....
Leave and pension allowances ...	831	1,722	2,639	2,450	975	3,032
Total indirect charges ..	831	1,722	2,639	2,450	975	3,032
Total working expenses	30,712	61,426	83,507	77,018	68,986	76,798
Net revenue ...	(—) 16,994	(—) 31,938	(—) 29,670	(—) 10,844	(—) 3,653	(—) 11,212

The expenditure on repairs is less by Rs. 8,216 than in the previous year, and is reported by the Superintending Engineer to be normal. The establishment and indirect charges are much larger than in 1889-90. This is due to the fact that in that year they were unusually low owing to the large proportion of establishment charged to the Hidgellee Canal.

NAVIGATION.

117. The income from tolls rose from Rs. 63,724 to Rs. 64,220. While the tolls paid on vessels of the Calcutta Steam Navigation Company declined from Rs. 22,200 to Rs. 19,510, the receipts from country boats increased from Rs. 41,434 to Rs. 44,680. The increase of the traffic is chiefly attributable to the exports of grain to Calcutta and imports of salt from Calcutta in larger quantities than those of last year.

The receipts on each range of the canal are compared with those of the two previous years below :—

Ranges.	Miles of canal open.	Tollage receipts.		
		1888-89.	1889-90.	1890-91.
		Rs.	Rs.	Rs.
Range III ...	36	45,575	37,743	37,731
Do. IVA ...	17	4,110	3,651	4,121
Do. IVB ...	6½	5,729.	8,468	7,748
Do. V ...	38	9,596	13,859	14,620
Total ...	97½	65,010	63,724	64,220

118. The traffic on the canal during the year 1890-91, compared with that of the previous year, is shown in the following statement :— TRAFFIC.

	Number of boats.		Tonnage of boats.		Value of cargo.		Tolls.	
	1889-90.	1890-91.	1889-90.	1890-91.	1889-90.	1890-91.	1889-90.	1890-91.
	No.	No.	Tons.	Tons.	Rs.	Rs.	Rs.	Rs.
Orissa Coast canal	12,416	13,645	117,190	120,527	23,87,686	27,05,654	63,724	64,220

With the view of stimulating the traffic on ranges IVA, IVB, and V, a concession has been granted for one year by which on these ranges no charge will be made for a return trip. The causes of the small receipts on this part of the canal are given in the following extract from Superintending Engineer's report :—

"This measure, the Executive Engineer reports, 'will undoubtedly increase the volume of traffic, but it should be noted that sea-going craft and steamers can penetrate by the Burrabullong and the Mutai, the country traversed by these ranges, which are thus very unfavourably situated for earning revenue compared with Range III and the Hidgellee Tidal Canal. It may also be added that a great proportion of the rice produced in the Balasore district is shipped direct from Balasore, and the Mutai to the Laccadive and Maldive islands, Mauritius, and other places outside India. This trade of course cannot be diverted by any means into the canals; also owing to the very brisk competition, which prevails at Chandbalii between the various steamer companies, freight charges are very low at that port, which accordingly attracts much of the trade that might naturally be expected to follow the coast canal route to Calcutta.'

"The advisability of the construction of feeder-roads has been brought to the notice of the District Board, and a contribution of Rs. 7,000 offered by the Government towards defraying their cost. No roads were constructed during the year, but there is every probability of two lines being undertaken and completed during the current year, tending, it is hoped, to increase the traffic on the backward ranges."

119. The miscellaneous receipts during the last two years are shown below :— MISCELLANEOUS RECEIPTS.

	1889-90.	1890-91.
	Rs.	Rs.
Plantation	...	8
Rent of buildings	161	285
Land	220	340
Miscellaneous	1,182	777
Total ...	1,563	1,410

DREDGING AND SILT CLEARANCE

120. During the year under review the dredgers *Clinker* and *Comus* were employed principally in removing the silt accumulated above the Bhanitghur lock. The quantity dredged by them and the cost and rate per 1,000 cubic feet, compared with the year 1889-90, are shown in the following table:—

Year.	Names of dredgers.	Quantity dredged	Cost of—			Rate.		
			Lifting.	Removing.	Total.	Lifting.	Removing.	Total
1889-90 ...	*Clinker* and *Comus*.	963,380	4,486	5,241	9,727	4·65	5·44	10 09
1890-91 ..	Ditto ...	295,399	2,346	746	3,072	7·87	2·52	10 39

The expenditure incurred on repairs to the dredgers and five hopper-barges during the year was—

	Rs.
Repairs to *Clinker*	1,743
Ditto hopper-barges	3,511
Ditto *Comus*	379
Ditto mud punts	*Nil.*

Six new mud punts were constructed during the year—three by Messrs. Burn and Company and three at the Seebpore Workshops.

PLANTATIONS.

121. The state of the plantations for the last two years is shown in the following statement:—

Year.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Saplings under 4 feet.	Total.
	No.	No.	No.	No.
1889-90 ...	203	372	820	1,395
1890-91 ...	326	905	2,255	3,486

FLOODS.

122. In consequence of the heavy rains in September and October, the country traversed by Range III of the canal was heavily flooded. The highest flood levels of the year on the various rivers crossed by it were as follows:—

River.	Place.	Date.	Gauge.
Russulpore ...	Bhanitghur ...	29th September	115·20
Soobunrekha ...	Bhograi ...	28th „ ...	113·70
Ditto ...	Jameoonda ...	29th „ ...	113·80
Panchpara ...	Panchpara ...	27th „ ...	114·70
Burrabulong ...	Nulcool ...	26th „ ...	116·80
Ditto ...	Chargachia ...	26th „ ...	110·50
Mutai ...	Charbettia ...	28th „ ...	110·10

There was no damage to any of the works on the rivers. On Range III at Peechabani the water rose to the height of 112·05 against 113·35 in 1888-89. On Range V the escapes at Atilabad and Gumai were heavily eroded, and temporary repairs were carried out.

SARUN CANALS.

123. The Capital and Revenue Accounts of these canals are given below :— CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1890-91.	Outlay to end of 1890-91.
DIRECT CHARGES.	Rs.	Rs.

Tools and plant ...	991	389			
Total direct charges ...	38,313	37,403	Total ...	23,113	36,983
INDIRECT CHARGES.			*Less*—Refunds of revenue.	...	...
Capitalized abatement of land revenue	..	...			
Leave and pension allowances.	1,739	1,478	Total receipts ..	23,113	36,983
			Deficit ...	16,939	1,898
Total indirect charges	1,739	1,478			
Total working expenses	40,052	38,881	Total ...	40,052	38,881

The increased receipts are due to the recovery of outstanding arrears.

124. The receipts on Revenue Account and working expenses of the Sarun Canals for the last ten years are shown in the following statement:— FINANCIAL RESULTS.

	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

LENGTH OF CANALS OPEN AND AREAS COMMANDED AND IRRIGATED.

125. The lengths of canal and distributaries in operation at the close of the year 1890-91, compared with 1889-90, are given in the following table:—

Name of Canal.	1890-91. Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	1889-90. Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.
Sarun Canals.		Miles.			Acres.		Acres.			Miles.			Acres.		Acres.	
Main canal or head cut		6·34								6·34						
Branch Canals.																
I.—Daha feeder .		3·34	...	...	64,000		2,226	..	...	3·34	...	...	64,000	...	4,215	...
II.—Gunduki ...		1·57								1·57						
III.—Dhanai		1·00								1·00						
IV.—Gangri . .		6·57								6·57						
In addition to the above, the following are maintained as supply channels:—																
I.—Takraha Sota .		1·50	...	...	...	...	...	...	...	1·50	...	...	...	...	...	...
II.—Roopan Chap Sota		27·00	..	..	...	..	...	...	...	27·00	...	...	...	...	...	...

There are no distributaries or village channels maintained by Government, but several cuts and channels have been constructed and maintained by the Canal Managers.

RAINFALL.

126. The average rainfall on the area under command is shown by seasons in the table below for the last three years:—

	1888-89.	1889-90.	1890-91.
	Inches.	Inches.	Inches.
*Kharif season	18·66	19·47	24·60
Rabi	4·49	1·20	1·43
Year	42·39	45·09	58·63

*August, September, and October.

The rainfall during the year, especially in the kharif season, was excessive. In July the average fall was nearly 18 inches. There was consequently very little demand for water either for irrigation or indigo manufacture.

IRRIGATION.

127. The areas irrigated as obtained from the Canal Manager's reports during the past ten years, together with the rainfall, are given in the table below:—

Year.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
	Acres.	Acres.	Acres.	Acres.	Inches.
1880-81 ...	2,434	853	...	3,287	52·88
1881-82 ...	Not known.		...	666	43·50
1882-83 ...			...	1,747	40·89
1883-84 ...			...	21,122	26 32
1884-85 ...	1,917	5,306	...	7,223	35·42
1885-86 ...	888	3,677	...	4,565	29·27
1886-87 ...	566	1,580	...	2,146	60·96
1887-88 ...	1,699	2,519	...	4,218	39·63
1888-89 ...	3,897	3,316	...	7,213	42 39
1889-90 ...	2,684	1,531	...	4,215	45·09
1890-91 ...	990	1,236	...	2,226	58·63

DUTY OF WATER.

128. The duty of water cannot be calculated, as there is no regular irrigation, and the canals are drainage as well as irrigation channels.

ASSESSMENTS, COLLECTIONS AND BALANCES.

129. The following comparative statement shows the balances, assessments, and recoveries of water-rates for the last ten years:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1880-81		9,750 0 0	9,750 0 0	10,080 6 9		330 6 9
1881-82	330 6 9	23,000 0 0	23,669 9 3	5,874 12 0	...	16,794 13 3
1882-83	16,794 13 3	21,750 0 0	38,544 13 3	16,506 0 6	...	22 038 13 9
1883-84	22,038 13 9	21,750 0 0	43,788 13 9	22.989 10 3	.	20.829 3 6
1884-85	20,829 3 6	21,750 0 0	42,579 3 6	8,976 11 3		33,602 7 3
1885-86	33,602 7 3	21,750 0 0	55,352 7 3	39,718 9 3	2,770 13 4	12,863 0 8
1886-87	12,863 0 8	21,750 0 0	34,613 0 8	11,072 10 5	...	23,540 6 3
1887-88	23,540 6 3	21,850 0 0	45,390 6 3	21,009 9 0	...	24,380 13 3
1888-89	24,380 13 3	21,850 0 0	46,170 13 3	20,415 0 0	.	25,755 13 3
1889-90	25,755 13 3	21,850 0 0	47,605 13 3	22,090 0 3	1,250 0 0	23,365 13 0
1890-91	23,365 13 0	21,850 0 0	45,215 13 0	37,036 2 9	...	8,179 10 3
Total ...	...	2,38,900 0 0	...	2,16,600 8 5	4,020 13 4	8,179 10 3

The above figures do not agree with those of the Examiner, which have been taken in the statement of Revenue account.

The outstanding balance has considerably decreased, and there now only remains a sum of Rs. 8,179 to be recovered.

MAINTENANCE AND REPAIRS.

130. The following table shows the expenditure on maintenance during the passed three years:—

	Miles.	1888-89.	1889-90.	1890-91.
		Rs.	Rs.	Rs.
Repairs to head cut and river protective works	6·34	11,666	10,026	7,445
Repairs to Daha feeder ...	3 34	1,049	909	1,290
„ to Gundaki feeder ...	1·57	1,206	1,118	1,735
„ to Dhanai feeder ...	1·00	618	722	592
„ to Gangri feeder ...	6·57	1,202	768	2,777
„ to dams and channels for irrigation purposes	...	8,235	11,357	12,615
Total ...	...	23,976	24,900	26,454
Establishment	...	10,248	12,422	10,560
Tools and plant (actual) ...	...	673	991	389
GRAND TOTAL ...	...	34,897	38,3 13	37,403

The main source of expense was the clearance of silt from the feeders and supply channels, and the dam at Chittahi required to maintain the Roopun Chup Sota in its original bed.

DREDGING AND SILT CLEARANCE.

131. There are no dredgers on the canals, and the silt is removed by hand only.

The following statement shows the total quantity of silt removed from the canals and the cost during the year as compared with those in previous year:—

	1889-90.		1890-91.	
	C. ft.	Rs.	C. ft.	Rs.
Head cut or main canal ..	102,121	612	342,745	1,740
Feeders or branch canals	448,006	1,650	1,339,675	4,080
Takaraha Sota mouth ...	525,474	2,149	519,781	2,077
Total ...	1,075,601	4,411	2,232,201	7,897

PLANTATIONS.

132. The state of the plantations for the last two years is shown below:—

YEAR.	Trees over 12 feet.	Saplings between 4 and 12 feet.	Seedlings under 4 foot.	Total.
	No.	No.	No.	No.
1889-90 ...	4,947	2,410	3,905	11,262
1890-91 ...	5,475	2,837	3,695	12,007

The expenditure incurred was Rs. 183 against Rs. 390 in 1889-90.

GENERAL. 133. The arrangement by which a revenue of Rs. 21,850 was guaranteed by a number of the indigo concerns in the Sarun district has been finally abandoned, and on the 31st March 1891 the accounts were closed. For the current year a provisional arrangement has been made with Mr. D. Reid of the Moniara Indigo Concern, by which he is to have the use of the water and the receipts from a portion of the system in return for a payment of Rs. 11,000 per annum, together with the liability of maintaining and clearing the minor channels. It is estimated that with the Rs. 11,000 Government will be able to maintain the head works and main supply-channels. A proposal to enter into an agreement of this nature for a term of years is under consideration.

NUDDEA RIVERS.

REVENUE ACCOUNT. 134. The approximate length of the channels comprising the Nuddea rivers system is 477 miles. No capital account of expenditure is kept. The revenue account for the last two years is given below:—

	Expenditure.			Receipts.	
	During 1889-90.	During 1890-91.		During 1889-90.	During 1890-91.
	Rs.	Rs.		Rs.	Rs.
DIRECT CHARGES.					
I.—Works, Maintenance and Repairs					
Works (extensions and improvements) ...	...	...			
Maintenance and Repairs ...	47,843	52,482	Navigation ...	1,85,983	2,00,508
Establishment, including direction and accounts	16,777	21,780	Miscellaneous ...	60	136
Tools and plant ...	2,250	2,476	Total ...	1,86,043	2,00,644

Total ...	65,834	79,907			
II.—Revenue Management.					
Navigation establishment	21,760	23,630			
Total direct charges ...	87,594	1,03,537			
INDIRECT CHARGES.					
Capitalized abatement of land revenue ...	...	...			
Leave and pension allowances ...	5,395	6,357			
Total indirect charges...	5,395	6,357			
Total working expenses	92,989	1,09,894			
Profit ...	92,834	90,588			
Total ...	1,85,823	2,00,482	Net total receipts	1,85,823	2,00,482

The receipts have increased by Rs. 14,659 and the working expenses by Rs. 16,905, net result being a profit of Rs. 90,588, against a profit of Rs. 92,834 in the previous year. The Superintending Engineer remarks that a revival of trade is indicated by a comparison of the quantities of goods carried, compared with those of the previous year.

135. The receipts on revenue account and working expenses for the last ten years are shown below :— FINANCIAL RESULTS.

	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.

MISSING TICKETS.

138. Regarding missing tickets, the following is extracted from Superintending Engineer's report:—

"Missing tickets have not been wholly accounted for by the Executive Engineer, who reports as follows:—'Without a special establishment for the purpose, it has been found impracticable to institute a systematic attempt to trace missing tickets. Where there is no terminal station, as on the Matabhanga, Hooghly, and Bhyrub, it is impossible for tickets to be returned to the office of issue. The through traffic up and down the Bhagiruthee from Surroopgunge and Jungypore respectively can only be checked by return of tickets, and this forms the minimum of the total on the Nuddea Rivers."

"Under the orders conveyed in Bengal Government No. 782I of the 12th May 1890 check-measurement of boats were taken up by the Toll Collector of Jungipore and by the subordinate in charge of No. 6 subdivision. Out of 474 tickets checked by the former, 54 were found to show measurements in excess and 15 short-measured. By the latter 163 tickets were checked, 4 were found excess and 14 in defect. In all cases the differences were trifling. As check-measurements can only be made within toll limits, the number of tickets checked must necessarily be comparatively small."

REVENUE ESTABLISHMENT.

139. The cost of the revenue establishment for the last four years is shown below:—

	1887-88.	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.	Rs.
Salary and commission of Collectors	12,217	12,671	11,943	13,224
Accounts and office establishment	9,030	9,397	8,986	9,223
Travelling allowance ...	479	463	390	711
Contingencies	450	475	441	472
Total ...	22,176	23,006	21,760	23,630

MAINTENANCE AND REPAIRS.

140. The charges for maintenance and repairs for the last two years are detailed below:—

PARTICULARS.	1889-90. Details.	1890-91. Details.
Repairs.	Rs.	Rs.
Reopening lower entrance channel, Bhagiruthee river	6,931	1,422
Closing Bhagiruthee, upper intake ...	7,264	...
Training works in river Bhagiruthee ...	17,849	31,438
" " Bhyrub ...	871	2,313
" " Jellinghee ...	792	1,695
" " Matabhanga ...	2,357	1,641
Sounding Nuddea Rivers	5,802	5,921
Maintaining and working divisional boats ...	3,027	2,862
Petty and other charges	2,950	5,190
Total ...	47,843	52,482

The total expenditure during the year shows an increase of Rs. 4,639, which is mainly due to the erection of training works in the section above Berhampore.

MISCELLANEOUS RECEIPTS.

141. The miscellaneous receipts during the year was Rs. 136 against Rs. 61 in the previous year.

DREDGING AND SILT CLEARANCE.

142. There was no expenditure under this head during the year.

PLANTATIONS.

143. There are no plantations on the banks of the rivers. During the year under review bamboos were planted on the berm of the Bhagiruthee embankment, but the result was not very successful.

144. The flood in the Bhagiruthee river during the year was the highest ever recorded. It was higher than that of 1889-90 by 7¼ inches. A breach was caused in the left embankment of the river about a mile above the Laltakori retired line at Arizpore, by which considerable damage was done to the crops. FLOODS.

The gauge readings at Berhampore and Gheria for four years are given below:—

YEAR.			Berhampore.	Gheria.
1886	...	...	29′ 9¼″	32·35
1887	...	...	30′ 1½″	31·50
1889	...	...	30′ 4½″	34·00
1890	...	...	30′11¼″	34·70

One effect of the increased volume which entered the upper head of the river was to deepen it, and training works were successful in keeping the whole river open for navigation throughout the year, and as a consequence the toll collections were more than those of the previous year.

The Jellinghee and Matabhanga rivers were also in high floods at the same time as the Bhagiruthee, but no damage of any consequence occurred.

EDEN CANAL.

145. The purpose for which this canal was originally constructed was, as stated in the last year's report, mainly to supply drinking-water. The receipts from, and expenditure on, it for the last two years are given below:— RECEIPTS AND EXPENDITURE.

	1889-90.	1890-91.
RECEIPTS.	Rs.	Rs.
Water-rates	8,503	2,795
Miscellaneous	867	802
Total receipts ...	9,370	3,597
EXPENDITURE.		
Works	1,786	584
Maintenance and repairs ...	15,692	24,612
Establishment	7,032	8,915
Tools and plant .	270	684
Total expenditure ...	24,780	34,795
Balance, deficit ...	15,410	31,198

The receipts from water-rates were much less than those of the previous year, the decrease being due to the timely rainfall, which reduced the demand for canal water.

The expenditure during the year was Rs. 10,015 more than that of the previous year. The increase was mainly on silt clearance, on which item alone Rs. 9,101 was spent. The works carried out are detailed below:—

The sand dam across the Damoodar at Joojooty was carried away by a freshet in the river in March and repaired, but again carried away in the beginning of the current year.

The Channel No. 2 at Joojooty, as also No. 1 channel and the Banka at Joojooty, was cleared of silt at a cost of Rs. 2,984 and Rs. 6,117 respectively. The quantity of silt excavated was 1,223,305 cubic feet.

Sluice No. 2 at Joojooty was repaired, its iron gates remodelled, and a pair of new wooden gates fitted on the river-side at a cost of Rs. 1,070. The four old rivers which form a system of this canal, viz., Kana Nuddee, Kana Damoodar and North and South Saraswatty, which were choked up with weeds, were partially cleared during the year at a cost of Rs 347.

IRRIGATION. 146. Of 4,847 biggahs leased for irrigation during the year, only 3,089 biggahs were actually irrigated against 29,080 biggahs in 1889-90. The amount realized in advance at the rate of four annas per biggah was Rs. 1,211-14, of which Rs. 214-8 will have to be returned to the lessees for the unirrigated area of 858 biggahs. The earnings therefore were Rs. 997-6. Of arrears of water rates (Rs. 1,207-3-6) Rs. 1,183-7-0 was collected during the year, leaving a balance of Rs. 23-12-6 uncollected.

REVENUE ESTABLISHMENT. 147. The establishment employed on irrigation was Rs. 147, against Rs. 421 in 1889-90.

MADHUBAN CANAL.

EXPENDITURE. 148. The expenditure on works and maintenance of this canal during the last three years are given below:—

	1888-89.	1889-90.	1890-91.
	Rs.	Rs.	Rs.
Works	582	2,957	6,236
Maintenance ...	2,297	3,257	2,011
Establishment ...	1,315	3,100	3,293
Tools and plant ...	...	23	287
Total ...	4,194	9,337	11,827

The floods of 1890 again caused much damage to the Teur weir, owing mainly to which the expenditure during the year was Rs. 2,490 in excess of that of the previous year.

No revenue is derived at present from irrigation in this canal, the ryots being allowed to irrigate their lands free of cost.

The miscellaneous receipts during the year were Rs. 42, against Rs. 36 in 1889-90.

IRRIGATION. 149. There was no demand for irrigation from the canal during the kharif season, as the rainfall was sufficient. At the beginning of the poppy cultivation, however, some water was wanted, and 854 acres of land were irrigated. In 1889-90 the total area irrigated was 9,134 acres, of which 2,186 acres were for poppy cultivation.

GENERAL RESULTS.

NET REVENUE. 150. The net results of the year 1890-91 are shown below, compared with those of the previous year:—

	Receipts from all sources (less refunds).	Working expenses (direct and indirect).	Profit or loss.
MAJOR IRRIGATION WORKS.	Rs	Rs.	Rs.
1889-90	15,04,474	14,22,368	+82,106
1890-91	13,39,141	14,32,136	−92,995
MINOR WORKS AND NAVIGATION.			
For which Capital and Revenue accounts are kept.			
1889-90	5,83,989	3,88,171	+1,95,818
1890-91	6,27,654	4,39,636	+1,88,018
For which only Revenue accounts are kept.			
1889-90	1,85,823	92,989	+92,834
1890-91	2,00,482	1,09,894	+90,588
For which neither Capital nor Revenue accounts are kept.			
1889-90	9,406	34,117	−24,711
1890-91	3,639	46,622	−42,983
Total 1889-90 ...	22,83,692	19,37,645	+3,46,047
Total 1890-91 ...	21,70,916	20,28,288	+1,42,628

Compared with the figures accepted in the revised Budget Estimates, the actual receipts were less by Rs. 7,084, and the expenses less by Rs. 1,07,092.

151. The net result of the Major Irrigation Works reckoned on earnings, that is on assessed revenue instead of on actual receipts, was compared with 1889-90:— EARNINGS.

	Earnings.	Working expenses.	Profit or loss.
	Rs.	Rs.	Rs.
1889-90 ...	14,50,115	14,22,368	+ 27,747
1890-91 ...	13,54,379	14,32,136	− 77,757

The decrease is accounted for by the reduced area under irrigation on the Sone Canals, due to favourable rainfall and to a diminution in the Navigation receipts on the Midnapore and Hidgellee Tidal Canals.

The expenditure was normal.

The revenue from Minor Works and Navigation is derived mainly from tollage receipts. There are satisfactory increases from the Calcutta and Eastern Canals, and from the Nuddea rivers, which are the most important items of this class.

152. The progress in the recovery of water-rates during the year is summarised below:— ARREARS.

	Outstanding on 1st April 1890.	Demand of 1890-91.	Collected or adjusted.	Outstanding on 1st April 1891.
	Rs.	Rs.	Rs.	Rs.
Orissa Canals ...	1,76,762	2,69,650	2,48,048	1,98,364
Midnapore Canal	50,644	1,30,595	1,16 272	64,967
Sone Canals	2,81,782	6,29,124	6,66,178	2,44,728
Total ..	5,09,188	10,29,369	10,30,498	5,08,059

The progress on the Sone Canals has been good, and taken together with the diminished number of complaints is satisfactory evidence that the modifications in the system lately introduced have been successful. In Midnapore there has been a falling off, which it may be hoped is only temporary. In Orissa the outstanding balances have been steadily increasing, and the state of affairs is far from satisfactory. It is hoped that certain alterations in the method of assessment, which are now being considered, will be effective in placing that part of the work on a sound footing. It is, however, imperative that the rates shall be collected promptly, and this ever-increasing arrear balance put an end to.

153. The approximate value of crops irrigated by Major Irrigation Works during the last two years is shown below:— VALUE OF CROPS.

Canals.	1889-90.		1890-91.	
	Area irrigated.	Value of crops.	Area irrigated.	Value of crops.
	Acres.	Rs.	Acres.	Rs.
Orissa Canals	186,627	40,45,961	180,299	39,10,595
Midnapore Canal	68,810	17,20,250	82,002	18,86,046
Sone Canals	305,282	1,05,44,074	281,014	1,08,08,203
Total ...	560,719	1,63,10,285	543,315	1,66,04,844

The average value per acre of the various crops irrigated has increased from Rs. 29·0 to Rs. 30·5.

154. A table is attached as an appendix to this note showing the number of days spent on tour by each officer of the Irrigation Branch of the Department during the year 1890-91.

155. The date fixed for the submission of revenue reports to the office of the Chief Engineer is the 15th September. The dates when the different reports were received are shown below:—

		In 1890.	In 1891.
Orissa Circle	Commissioner's report	19th September	3rd September.
	Superintending Engineer's report	6th October	5th October.
South-Western Circle	Commissioner's report	22nd September	24th September.
	Superintending Engineer's report	26th ditto	17th ditto.
Sone Circle	Commissioner's report	20th ditto	7th October.
	Superintending Engineer's report	15th ditto	14th September.

The reports from the Commissioner of Orissa, and the Superintending Engineer, Sone Circle, were received within the fixed time, and the other reports were practically punctual, with the exception of those of the Commissioner of Patna and the Superintending Engineer, Orissa Circle. The finance and administrative accounts of the year 1890-91, due in the Chief Engineer's office on the 1st August, were received from the Examiner, Public Works Accounts, Bengal, on the 27th August and 5th September 1891, respectively.

J. M. McNEILE, Col., R.E.,

The 17th December 1891. *Chief Engineer.*

APPENDIX I.

Statement showing the number of days spent on duty and on tour by Superintending, Executive, and Assistant Engineers of the Irrigation Branch during the year 1890-91.

NAME.	Circle or Division.	NUMBER OF DAYS—		REMARKS.
		On duty.	On tour.	
Superintending Engineers.				
Buckley, R. B. ...	Sone	281	103	On privilege leave for 84 days.
Inglis, W. A. ...	Do.	25	8	
King, W. H. ...	Calcutta and South-Western ...	97	21	
McArthur, A. D., Lieut.-Col., R.E.	South-Western	275	61	On privilege leave for 90 days.
Odling, C. W. ...	Sone	78	36	On furlough for 287 days.
Rhind, R. H. ...	Orissa	365	73	
Executive and Assistant Engineers.				
Arnott, M. H. ...	Arrah and Buxar	365	283	Sub-divisional charge for 340 days.
Banerjee, Raj Kissen ...	Pooree, Mahanadi and Brahmini-Byturni.	167	2	In charge of sub-divisions. On privilege leave and furlough for 198 days.
Barlow, H. ...	Office of Superintending Engineer, Sone Circle, and Gunduck and Mahanadi Divisions.	233	71	Sub-divisional charge. On privilege and language leave for 132 days.
Butler, T. ...	Balasore and Mahanadi ...	365	94	Sub-divisional charge for 91 days.
Carter, R. E. ...	Northern Drainage and Embankment, Arrah and Buxar.	127	98	Sub-divisional charge. Furlough for 238 days.
Chowdhry, Krith Chunder ...	Damuda-Rupnarain Survey, Northern Drainage and Embankment, Nuddea Rivers, Office of Superintending Engineer, South-Western Circle, and Balasore.	275	29	Sub-divisional charge. Privilege leave for 90 days.
Clowes, T. H. ...	Buxar	365	241	Sub-divisional charge.
Coy, J. P. ...	Acquapada-Jajepore	365	99	
DeMello, C. H. ...	Cossye	365	135	Ditto.
Faulkner, G. W. ...	Mahanadi	75	13	Furlough for 290 days.
Fox, J. W. ...	Circular and Eastern Canals ...	365	84	Sub-divisional charge.
Fraser, L. R. ...	Dehree Workshops	365	65	Works lie mostly at head-quarters.
Gregory, J. M. ...	Arrah	258	131	Transferred to North-Western Railway with effect from 17th December 1890.
Hayes, H. ...	Balasore	365	139	
Hewitt, J. C. ...	Chota Nagpore, Gunduck, and Eastern Sone.	297	59	Sub-divisional charge. Privilege leave for 68 days.
Horn, D. B. ...	Buxar and Brahmini-Byturni ...	113	42	Furlough for 252 days.
Inglis, W. A. ...	Arrah	340	101	
Jacobs, P. G. ...	Eastern Sone	334	254	Sub-divisional charge. Language leave for 31 days.
King, W. H. ...	.....	268	...	Inspector of Local Works, Patna Division.
Lees, O. C. ...	Damuda-Rupnarain Survey and Gunduck.	365	135	Sub-divisional charge for 46 days.
Leeson, G. J. R. ...	Circular and Eastern Canals ...	365	139	
Livesay, C. E. ...	Nuddea Rivers	365	233	
Long, J. S. L. ...	Office of Superintending Engineer, Sone Circle, and Gunduck.	141	55	Sub-divisional charge. Furlough for 224 days.
Maconchy, G. C. ...	Brahmini-Byturni and 2nd Calcutta.	124	62	Sub-divisional charge for 111 days. Furlough for 241 days.
McCarthy, A. H. C. ...	Arrah	365	191	Sub-divisional charge.
Mitra, Beni Madhub ...	Buxar	365	207	Ditto.
Monies, A. ...	Brahmini-Byturni and Acquapada-Jajepore.	275	59	Privilege leave for 90 days.
Mookerjee, Nogendro Nath ...	Mahanadi	365	160	Sub-divisional charge.
Norman, M. J. J. P. ...	Gunduck	77	22	Furlough for 288 days.
Paramanic, Bama Churn ...	Northern Drainage and Embankment.	365	205	Sub-divisional charge.
Pellereau, H. E. ...	Cossye and Balasore	365	126	Ditto.
Roy Chowdhry, Amritolal ...	Mahanadi and Office of Superintending Engineer, Orissa Circle.	356	4	Sub-divisional charge. Privilege leave for 9 days.
Scotland, J. P. ...	Cossye	365	140	
Seawright, G. L. ...	Mahanadi	365	219	Sub-divisional charge for 349 days.
Sen, Kalipada ...	Brahmini-Byturni and Acquapada-Jajepore.	365	171	Sub-divisional charge.
Silk, A. E. ...	Brahmini-Byturni and Arrah ...	275	144	Sub-divisional charge. Privilege leave for 90 days.
Sircar, Annoda Prosad ...	Acquapada-Jajepore, Office of Superintending Engineer, Orissa Circle, and Brahmini-Byturni.	292	99	Sub-divisional charge. Privilege leave for 73 days.
Stawell, G. C. ...	Arrah and Gunduck and Sanitary Commissioner's Office.	365	79	Sub-divisional charge.
Stephen, K. H. ...	Buxar	365	151	
Swinden, J. R. ...	Pooree	365	121	
Thomson, A. S. ...	Eastern Sone	365	174	
Thompson, T. M. L. ...	Northern Drainage and Embankment.	365	133	
White, C. A. ...	Gunduck, 2nd Calcutta, Chief Engineer's Office, Local Works, Burdwan, and Brahmini-Byturni.	365	18	Ditto.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 9th January 1892.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN. 1	**Burdwan** Jan. 9, '92	Nil	Weather—seasonable. *Aman* harvest nearly finished. Prospects of sugarcane and *rabi* crops fair. Prices of common rice :—
	Culna ...	Nil	
	Cutwa ...	Nil	
	Raneegunge ...	Nil	

	Srs.	
Sudder	13 to 17	per rupee.
Culna	... 14	
Cutwa	... 14	
Raneegunge	... 15	

2	**Bankoora** ,, 9, '92	Nil	Weather—seasonable. Prospects of *rabi* crops not very good. Sugarcane is ripening and promises a good outturn. Condition of cattle fair. Supply of fodder and water hardly sufficient. Common rice selling at 17 seers 8 chittacks per rupee at Bishenpur and 15 seers 10 chittacks at Bankoora.
3	**Birbhum** ,, 9, '92	Nil	Weather—seasonable. Winter rice is now almost gathered in. Cold-weather crops need rain, but still promise well. Price of common rice from 14 to 18 seers per rupee. Condition of cattle normal. Fodder and water plentiful.
	Rampore Haut ...	Nil	
4	**Midnapore** ,, 9, '92	Nil	Weather—cool and seasonable. Harvesting of rice all but finished; outturn in Tumluk estimated at 12 annas. Prospects of *rabi* not good. Fodder sufficient. Prices of common rice :—

	Srs.	
Sudder	... 17	per rupee.
Contai	... 17	
Ghatal	... 16	
Tumluk	... 14	

5	**Hooghly** ,, 9, '92	Nil	Weather—seasonable. Harvesting of *aman* paddy nearly completed and crop being threshed out. *Rabi* promising. No difficulty in obtaining water and fodder-supply. Prices of common rice :—
	Serampore ...	Nil	
	Jehanabad ...	Nil	

	Srs.	
Sudder	... 13	per rupee.
Serampore	... 12½	
Jehanabad	... 15	

6	**Howrah** ,, 9, '92	Nil	Weather—cool and seasonable. Harvesting of *aman* nearly completed. Prospects of *rabi* crops not so good as usual. No cattle-disease. Fodder and water-supply sufficient. Price of common rice 14 to 15 seers per rupee.
	Uluberia ...	Nil	
PRESIDENCY DIVN. 7	**24-Perghs.** ,, 12, '92	Nil	Weather—seasonable, but evenings getting warmer; mornings foggy and occasionally cloudy. Harvesting of winter rice almost finished. Rain wanted for *rabi* crops. Prospects of *rabi* crops continue the same. Pressing of sugarcane continues. No complaints of lack of fodder or water. No cattle-disease prevalent. Price of common rice from 13 to 15 seers per rupee.
8	**Nuddea** ,, 9, '92	Nil	Weather—seasonable. Harvesting of *aman* over; outturn poor. Prospects of *rabi* not good owing to want of rain. Common rice selling at from 11 seers 7 chittacks to 15 seers 3 chittacks per rupee. Condition of cattle good and supply of fodder and water sufficient.
	Kushtea ...	Nil	
	Meherpore ...	Nil	
	Chuadanga ...	Nil	
	Ranaghat ...	Nil	
9	**Khoolna** ,, 9, '92	Nil	Weather—seasonable. Harvesting of *aman* going on. The condition of the crop in the southern parts of the Bagirhat subdivision and of the district generally is said to be very good, but in the north and in high lands it is not so good. On the whole, an 11-anna crop is expected. Prospects of *rabi* fair. Cattle-disease has subsided. Water and fodder sufficient. Price of common rice ranges from 14 to 17 seers per rupee.
	Bagirhat ...	Nil	
	Satkhira ...	Nil	
10	**Jessore** ,, 9, '92	Nil	Weather—cool and pleasant. *Aman* harvest continues; outturn poor. *Rabi* wants rain. Fodder sufficient.
	Jhenidah ...	Nil	
	Magurah ...	Nil	
	Narail ...	Nil	
	Bongong ...	Nil	
11	**Murshedabad** ,, 9, '92	Nil	Weather—cold and fair. Harvesting of *kalai* finished in Jangypore subdivision; average outturn may be estimated at 14 annas. Winter rice is still being harvested. No want of fodder. Six head of cattle died of small-pox in thana Khargram in Kandi subdivision.
CHITTAGONG DIVN. 12	**Chittagong** ,, 9, '92	Nil	Weather—seasonable. Winter rice mostly cut. Prospects unchanged. Vegetable crops doing well. Prices steady. Condition of cattle good. Supply of fodder sufficient.
13	**Noakhally** ...	...	Report not received.
14	**Tipperah** ,, 9, '92	Nil	Weather—seasonable. Harvesting of *aman* almost completed. Winter crops promising. No cattle-disease. Prices normal.
15	**Chittagong Hill Tracts** ...	...	Report not received.

No	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN. 16	Dacca Jan. 9, '92	Nil	Weather—seasonable. Harvesting of *aman* nearly completed. Mustard, *kalai*, &c., thriving. Common rice selling at from 14 to 18 seers per rupee. Condition of cattle fairly good and fodder available.
17	Furreedpore „ 9, '92	Nil	Weather—seasonable. State of *rabi* crops fair. Rice selling at 15, 14, and 16 seers per rupee at Sudder, Goalundo, and Madaripore, respectively. Condition of cattle good and fodder-supply sufficient.
	Goalundo ...	Nil	
	Madaripore ...	Nil	
18	Backergunge „ 9, '92	Nil	Weather—seasonable. Prospects of crops good. Common rice selling at from 10 to 16 seers per rupee. Cattle-disease reported from Bhandaria. Supply of fodder and water sufficient.
19	Mymensingh „ 9, '92	Nil	Weather—cold; mornings generally foggy. *Aman* crop has been harvested. General prospects fair. Coarse rice sells at 15 seers per rupee. Condition of cattle good. Supply of water and fodder sufficient.
RAJSHAHYE DIVN. 20	Dinagepore „ 9, '92	Nil	Weather—cool. Harvesting of winter rice still continues. Sugarcane being pressed. Cultivation of lands for *bhadoi* and jute in progress. Price of rice at Sudder 12½ seers per rupee, that at Thakurgaon stationary. Condition of cattle reported to be good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	Nil	
21	Rajshahye „ 9, '92	Nil	Weather—cold and seasonable. Outturn of *aman* is yet expected to be 8 annas throughout the district. Winter crops are thriving well and the prospect is good. Price of rice varies from 12 to 18 seers per rupee. Condition of cattle good. Fodder and water-supply ample.
	Nattore .	Nil	
	Nowgong ...	Nil	
22	Rungpore „ 9, '92	Nil	Weather—cold and clear. Harvesting of *aman* going on and about to be completed. Prospects of cold-weather crops unchanged and favourable. Price of common rice ranges from 18 seers in parts of Gaibanda subdivision to 10 seers in Kurigram subdivision. In Sudder it sells at from 13 to 14 seers a rupee, and at Nilphamari 13 seers a rupee. Fodder sufficient.
	Gaibanda ...	Nil	
	Nilphamari ...	Nil	
	Kurigram ...	Nil	
23	Bogra „ 9, '92	Nil	Weather—cool. Prospects of *rabi* good. Cutting of *aman* not yet finished. No change in the estimate of the outturn of *aman*. An average 8-anna crop expected. Condition of cattle good. No want of fodder and water. Price of rice 18½ seers a rupee.
	Sherpur ...	Nil	
	Nowkhilla ...	Nil	
24	Pubna „ 9, '92	Nil	Weather—cold and seasonable. State of standing crops fair. Rain wanted. *Aman* yielding 10 annas. Sugarcane being cut. Price of common rice 13 to 14 seers per rupee. Water-supply and fodder sufficient, the latter hardly so.
25	Darjeeling „ 9, '92	Nil	Weather—cold. About 13 to 14 annas paddy has been reaped. *Kalai* and *jafor* being harvested. Mustard, wheat, and barley progressing well. Prospects good. Fodder and water-supply sufficient. No disease among cattle. Prices of common rice:—
			Silliguri ... ... 11 Srs. per rupee.
			Phansidewa 11
			Nuxalbari 13
			Kurseong 10
			Kalimpong 10
			Darjeeling 10
			Pulbazar 10
			Jore Bungalow 11
			Nagri 8
			Sonadah 10
26	Julpigoree „ 9, '92	Nil	Weather—foggy in the morning for the first half of the week; clear and cold during the latter part. Harvesting of *haimanti* paddy still going on; outturn very scanty. *Rabi* crops promising. Rain wanted. Price of common rice rising. No cattle-disease. Water and fodder-supply abundant.
BEHAR.			
BHAGULPORE DIVN. 27	Monghyr „ 9, '92	Nil	Weather—not so cold. Some clouds, but no appearance of rain. Prospects of *rabi* remain unchanged. Rain anxiously desired. Winter rice still being harvested in the south. Coarse rice selling at 13 to 14 seers per rupee. Fodder and water for cattle sufficient.
	Begusarai ...	Nil	
	Jamui ..	Nil	
28	Bhagulpore „ 9, '92	Nil	Weather—seasonable. Harvesting of rice about to end. Prospects of *rabi* not improved. Rain urgently wanted. Fodder plentiful.
29	Purneah „ 9, '92	Nil	Weather—foggy mornings, otherwise clear. Somewhat warmer. *Aghani* harvest nearly finished. *Rabi* pretty good: estimated at from 6 to 12 annas in various parts; will be more than the lower figure everywhere if there is rain. Fodder and water good. No cattle-disease. No distress reported.
	Kishengunge ...	Nil	
	Arrareah ...	Nil	
30	Maldah „ 9, '92	Nil	Weather—seasonable. Harvesting of winter rice not yet finished. Gathering of *kalai* and mustard going on. *Rabi* crops thriving. Land is being prepared for *boro* paddy. Fodder and water-supply sufficient. Common rice selling at from 11 to 14 seers per rupee.
31	Santhal Pergnas. „ 9, 92	Nil	Weather—cool and dry. West winds. Rice harvest nearly over. Outturn of rice about 9 annas in Godda and Rajmehal; better further south. Price of rice varies from 12 seers in Rajmehal to 17 seers in Jamtara. *Rabi* suffering for want of rain. Fodder and drinking water sufficient.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—*concld.*			
Patna Division. 32	Patna, Jan. 9, '92	Nil	Weather—cold and clear. Harvesting and threshing of paddy still going on. Poppy and *rabi* doing well, but rain urgently wanted. Sugarcane being pressed. Prices generally stationary, but a slight rise reported from Barh.
	Barh ...	Nil	
	Behar ...	Nil	
	Dinapore ...	Nil	
33	Gya, „ 9, '92	Nil	Weather—very cold, fair. Harvesting of paddy almost finished. Condition of *rabi* has not improved. Poppy good. Sugarcane is still being pressed. Prices of food-grains rising. Supply of fodder and water still sufficient.
	Jehanabad ...	Nil	
	Nawada ...	Nil	
	Aurungabad ...	Nil	
34	Shahabad, „ 9, '92	Nil	Weather—cool. High west winds prevail. *Rabi* doing well yet, though in Sasseram some of the crop is reported to be withering from drought. Paddy being threshed. Prices rising in places.
	Buxar ...	Nil	
	Bhabuah ...	Nil	
	Sasseram ...	Nil	
35	Darbhunga, „ 9, '92	Nil	Weather—cool. *Rabi* prospects favourable where there is moisture, but rain wanted everywhere. Pea blossoming. *Rahar* and tobacco good. Supply of fodder and water for cattle available everywhere. No cattle-disease. Prices slightly rising.
36	Muzaffarpore, „ 9, '92	Nil	Weather—cold. Harvesting of paddy almost completed. Rain very urgently wanted for *rabi* crops. *Rahar*, mustard, and tobacco doing well. Poppy progressing very fairly in irrigated lands. The cold has slightly improved the prospects in unirrigated fields. Cattle reported to be in good condition. Fodder and water-supply sufficient. Prices as follows :—

* Mean of 3 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last

The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district reading in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

r the week ending Saturday, the 9th of January 1892.

Number.	Average cloud amount at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	Of week.		DISTRICT OBSERVATIONS.						Of week.		Representative station.	District.	Meteorological Division.
						Rainfall.										
						Since 1st of month.			Since 16th October 1891.							
				Mean for district.	Normal mean.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.	Average number of rainy days.	Normal number of rainy days.

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 12th January* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 9TH OF JANUARY 1892.

THE meteorological conditions of the week have again continued practically without any important change until Saturday, the 9th of January. On the 3rd pressure was rising rather rapidly, and had become slightly but distinctly above the normal, while temperature was above the normal at the western and below it at the eastern and southern stations. The northerly wind current blowing over the province was a little less regular than usual, but fine clear weather obtained at all stations. On the 4th the rise of pressure continued, while temperature fell and became below the normal over the whole province; and winds also became more steady. From the 5th a fall of pressure set in which continued on the 6th and 7th, though a slight rise set in on the 8th. A rapid fall then commenced on the 9th, the fall at some stations exceeding a tenth of an inch, and pressure generally became nearly a tenth of an inch below the normal. This fall apparently accompanied the commencement of a barometric depression in North-Western India, and on this day also temperature increased rapidly and became from 2° to about 5° above the normal, while humidity also increased very largely and became very high. The northerly wind also fell off in force, and at several stations winds became more or less southerly. Cloud proportion also commenced to increase, but no rain fell. Conditions at the close of the week were therefore becoming a little abnormal, but fine clear weather still obtained at all stations, and for the whole week the province has again been absolutely rainless.

Pressure.—The mean pressure for the week has been slightly in excess of the normal in all districts and at almost all stations except a few in and near the line of the hills, where there has been a slight defect. At most stations, however, the variations do not exceed more than a few thousandths of an inch, and the general pressure of the province has not been more than about 0·01 inch above the normal.

Temperature—Was below the normal in the early part of the week and largely above it at its close. For the whole week, however, the mean temperature has not been very far removed from the normal, and the general temperature of the province has been about a fifth of a degree in excess of the normal. Orissa has on the one side shown a distinctly defective temperature, while Chutia Nagpur and East and North Bengal have shown an excess of half to one degree.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. It will be seen that the day temperatures have been generally in excess of the normal, while the night temperatures have been in defect.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 9th January 1892.

	Normal mean maximum temperature for the week ending 9th January.	Actual mean maximum temperature for the week ending 9th January 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 9th January.	Actual mean minimum temperature for the week ending 9th January 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 9th January.	Actual mean daily temperature for the week ending 9th January 1892.	Variation of actual mean from the normal.

N. 521, N.E. 75, E. 18, S.E. 0, S. 0, S.W. 4, W. 6, N.W. 68, Calm 52.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...		0·09

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

〓, fog; ⛅, dew.

C. Little,
For Meteorological Reporter to the Govt. of India.

Meteorological Office, Govt. of India;
Calcutta, the 11th January 1892.

MEMORANDUM.

Report on the Monthly Statistics of Deaths registered in forty-five districts of Bengal for the month of September 1891.

THE total deaths registered in forty-five districts of Bengal during the month of September 1891 numbered 149,431, against 146,205 in September 1890 and an average of 126,666 in the corresponding month of the previous five years, 1886—90. These figures represent an annual death-rate of 27·12, 26·52 and 23·04 per 1,000, respectively, of the aggregate population of those districts, which is 65,859,534. The death-rate of September 1891 is 4·08 higher than the mean rate of the corresponding month of the past five years 1886—90, and is also higher than the rate of the corresponding period of any of the past five years with which comparison is made, *vide* the figures below—

	September 1886.	September 1887.	September 1888.	September 1889.	September 1890.	Monthly average of five years, 1886—90.	September 1891.
Number of deaths	118,586	111,820	121,538	135,179	146,205	126,666	149,431
Ratio per mille per annum	21·60	20·23	23·08	24·69	26 52	23 04	27 12

The death-rate of the forty-five districts during September 1891, as will be seen from the following table, is greater than the previous months of the year except March and April:—

Months.	*Number of deaths.*	*Ratio per mille.*
January	143,492	26·04
February	137,553	24·96
March	168,185	30·60
April	161,980	29·52
May	125,975	22 92
June	140,594	25·56
July	121,977	22 20
August	142,154	25·80
September	149,431	27·12

The following table shows the registered results as they occurred among the different sexes and the several classes of the community which comprise the population of the Bengal Province. As usual, on the whole, more males died than females. The ratio of deaths among the sexes, calculated on the proportion the mortality bears to the total male and female population of the province, is as 110 is to 100; but, individually considered, in only three districts, viz., Rajshahye, Darjeeling, and Purneah, the death-rates among females are greater than that among males. Considered with the population of each class, the death-rate per mille per annum among the Hindus is greater than among the Mahomedans or other classes, Christians come next, Buddhists suffered least:—

	Sex.			Class.				
	Males.	Females.	Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population.	Christians.	Hindus.	Mahomedans.	Buddhists.	Other classes.
Number of deaths	77,991	71,440	...	175	99,434	46,690	126	5,616
Ratio per mille per annum ...	25·56	25·89	110	21·60	27·64	25·92	18·96	25·88

The following table exhibits the proportions of deaths registered during the month of September 1891, above 30 per 1,000 of population, arranged in order of sequence, and compared with the ratios of the corresponding month of 1890:—

Districts.	Ratio per *mille* during—		*Districts.*	Ratio per *mille* during—	
	Sept. 1891.	Sept. 1890.		Sept. 1891.	Sept. 1890.
Maldah	52·20	28·32	Rajshahye	34·32	31·92
Murshedabad	39·48	29·04	Patna	33·72	36·36
Nuddea	39 24	27·00	Serampore	32·40	28·32
Chumparun	38·40	27·72	Lohardugga	32·28	28·08
Gya	38·04	48 36	Dinajpore	31·56	23·04
Darjeeling	36·84	34·44	Julpaiguri	31·44	30·96
Shahabad	36·60	38 76	Hazaribagh	30·60	33·00
Jessore	36 24	33·96	Monufferpore	30 00	30·96
Mongbyr	36·12	35·58	Bhagulpore	30·00	30·00

The maximum death-rate was registered in Maldah, 52·20 per mille, and the minimum in Tipperah, 16·08. Fever is accountable for the high death-rate in Maldah, 2,821 deaths having occurred from this disease out of a total of 3,091. In seventeen districts the death-rates ranged between 30· and 39·48, in eighteen they were between 20·40 and 28·68, and in the remaining nine they were below 20.

The total mortality from the several registered death-causes during the month under notice is compared in the following table with the mortality from those causes in the corresponding month of 1890 and the average of the previous five years 1886-90:—

	Ratio per *mille* during—		
	September 1891.	September 1890.	Monthly average of five years 1886-90.
Cholera	1·20	·84	·96
Small-pox	·09	·06	·04
Fever	20·76	20·16	16·92
Dysentery and diarrhœa	·60	·60	·72
Injury	·60	·72	·60
Other causes	3·72	3·84	3·36

The only noticeable point in connection with the above table is that the death-rate of September 1891 under the head fever is higher than the mean rate of the corresponding period of the past five years 1886-90.

Cholera caused 6,844 deaths, or at an annual death-rate of 1·20 per 1,000 of population, against 14,548, ratio 2·64, in the preceding month. The highest death rate occurred in Chumparun, 6· per 1,000 per annum, next in Shahabad 5·76, then in Gya 3·84, Sarun 3·72, and in Mozufferpore 2·88. In four districts, viz. Dinajpore, Rungpore, Noakhali, and Singbhum, the disease was entirely absent.

The deaths from *small-pox* numbered 557, ratio ·09 per mille per annum, against 959, ratio ·12, in the previous month. Cuttack returned the highest death-rate, viz. ·96 per mille per annum, followed by Poori ·72 and Midnapore ·60. The disease was entirely absent in fourteen districts, viz. Birbhoom, Hughli, Serampore, Jessore, Murshedabad, Khulna, Rajshahye, Rungpore, Pubna, Darjeeling, Noakhali, Monghyr, Maldah and Sonthal Pergunnahs.

Fever caused 114,017 deaths and *dysentery and diarrhœa* 3,641 (ratios 20·76 and ·60 per 1,000 of population respectively), against 99,028 and 3,668 (ratios 18· and ·60 respectively). These diseases were present in every district. Maldah seems to have suffered most from fever, the annual death rate being 47·64 per mille. The death-rates from fever were also high in Nuddea 35 04, Murshedabad 33·96, Jessore 33·84, Rajshahye 31·68, Julpaiguri 30·12, Dinajpore 29·40, Monghyr 28·32, Gya 27·96, Rungpore 25·56, Shahabad 25·32, and Purneah 25·20. Darjeeling returned the highest death rate from dysentery and diarrhœa 7·20 per mille of population, followed by Balasore 3·96.

Injury caused 3,654 deaths (ratio ·60 per mille) against 4,204 (ratio ·72) in the month before, and the mortality from *all other causes* not specified amounted to 20,718 (ratio 3·72 per mille), against 19,749 (ratio 3·48) in the preceding month. Poori returned the highest death-rate from the unspecified diseases coming under the head "All other causes," viz. 11·28 per 1,000 per annum, next Sarun 9·96.

With regard to mortality according to *age*, infants under one year of age, as usual, perished in the largest numbers, viz. at the rate of 202·56 per 1,000 of population per annum; next came old persons (60 years and upwards) with a death-rate of 64·68 per mille. The lowest death-rate occurred among persons between 10 and 15 years of age, viz. 12·96 per 1,000 per annum.

Detailed information regarding the mortuary statistics of the forty-five districts of Bengal during the month under review will be found in the statement appended.

W. H. Gregg, *Dip. Publ. Health, Camb.*,
Sanitary Commissioner for Bengal

The 9th January 1892.

Government of Bengal

JUDICIAL DEPARTMENT.

THE following Notification by the Government of India is republished for general information.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Chief Secretary to the Govt. of Bengal.

HOME DEPARTMENT.

NOTIFICATION.

PUBLIC.

No. 54.

Calcutta, the 14th January 1892.

INTELLIGENCE having been received of the death of His Royal Highness Prince Albert Victor Christian Edward, eldest son of His Royal Highness the Prince of Wales—Duke of Clarence and Avondale, Earl of Athlone, K.G., K.P., LL.D. (Cantab. and Dublin), the Governor-General in Council hereby directs that the Officers of Her Majesty's Civil, Military, and Marine Services do put themselves into mourning until further orders.

The Governor-General in Council requests that a similar mark of respect may, on this melancholy occasion, be observed by all other classes of British subjects in India.

The Flag at Fort William will be hoisted half mast high from sunrise to-morrow until further orders.

By order of the Governor-General in Council,

C. J. LYALL,

Secretary to the Government of India

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 107A.

GENERAL.—*The 12th January* 1892.—Mr. A. E. Harward, Covenanted Deputy Collector, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in the district of Durbhunga.

Babu Chandra Bhushan Chukravarti, Deputy Collector, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in the district of Dacca.

The 13th January 1892.—Babu Dino Nath Dey, Deputy Magistrate and Deputy Collector, Rungpore, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the 5th instant.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 185L.R.

The 13*th January* 1892.—Under the powers vested in him by section 48 of the Land Acquisition Act X of 1870, the Lieutenant-Governor is pleased to appoint Mr. W. Fiddian, C.S., Covenanted Deputy Collector of Howrah, to conduct an enquiry at Bally, under the provisions of the said section, for the purpose of acquiring, for the Bally Paper Mills Company, Limited, certain land lying to the south of the Company's Mills and between the road to the Bally Railway station and the Choitulpara Lane.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 18*th January* 1892.—Babu Baroda Das Bose, Sub-Deputy Collector, 24-Pergunnahs, is hereby authorized to discharge the functions of a Revenue Officer, under Chapter X of the Bengal Tenancy Act VIII of 1885, and is vested with the powers of a Settlement Officer under Rule 1, Chapter VI of the Rules framed by Government under that Act.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

DECLARATION.

The 16*th January* 1892—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Orissa Volunteer Rifle Range in the town of Cuttack, in the village of Tulsipore, pergunnah Cuttack Haveli, zillah Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 20 acres 2 roods and 34 poles of standard measurement, bounded on the north by the Mohanady embankment, on the south by the Katjuri embankment, on the east by the land acquired previously for the Military Rifle Range, and on the west by cultivated and waste lands of mouza Tulsipore, is required within the aforesaid village of Tulsipore.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. E. BUCKLAND,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 16th January 1892.—Under the powers conferred upon him by section 12 of the Births, Deaths and Marriages Registration Act, No. VI of 1886, the Lieutenant-Governor is pleased to appoint the Reverend J. W. Thomas to be a Registrar of Births and Deaths under that Act in connection with the Circular Road Baptist Chapel.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 112.

CHAPTER I.

PROCEDURE OF GOVERNMENT AND DUTIES OF CIVIL OFFICERS.

Duties of Local Government.

1. The following rules will be observed by the Local Government in reporting to the Government of India the condition of tracts suffering from failure of crops :—

I. The first indications of failure of harvest or scarcity should be communicated in the weekly telegraphic reports on the state of the season and the prospects of the crops, which are published in each Government of India Gazette.

II. When the indications are sufficiently serious to cause apprehension that, from continued want of rain or other cause, relief measures may have to be undertaken, the weekly telegrams should be supplemented by monthly written reports.

III. These reports should give as distinct information as possible regarding the areas affected (or likely to be affected), and should be accompanied by a sketch map on which such areas should be indicated by colours. A revised sketch map should be submitted whenever the area of scarcity expands or contracts.

IV. So soon as the information is available, there should be entered in one or more of the monthly reports—

(*a*) an account of the economic condition of the tract, the crops affected, and the extent to which they have suffered, the contingencies on which the probable duration of distress depends, and the position of the affected area as to local trade, food supply, and communications.

(*b*) a rough estimate of the number of the population of the affected tracts for whom it is anticipated that relief may have to be provided in poor-houses or on the relief works, large or small, which it is proposed to start for their employment.

(*c*) a list of the larger works which it is proposed to open for the relief of each affected tract or district. If any such relief work is one which would ordinarily require Imperial sanction, a separate report should be submitted for communication to the Public Works Department.

(*d*) the rise or fall of prices should be specially noticed in every monthly report.

V. When any poor-houses or relief works have been opened, or any considerable expenditure has been or seems likely to be incurred, the monthly report should give an abstract of the information received from District Officers with a statement of the amount spent and granted up to date, and an estimate of the available funds from which it is proposed to meet future expenditure. If there is any reason to believe that the Provincial funds will prove insufficient to meet the exigencies of famine, the extent to which Imperial aid is likely to be demanded should be estimated.

VI. The extent to which suspension of land revenue may be necessary should be stated whenever the adoption of such a measure is contemplated.

VII. In the case of serious famine being apprehended in a Presidency or Province, an estimate of the number of officers of different grades and departments likely to be indented for from other Provinces should be given.

VIII. When in any affected tract cause for anxiety is removed, a request that the tract may be removed from the list of affected areas should be included in the monthly report.

Duties of the Commissioner.

2. The Commissioner of a Division is bound to keep himself at all times informed of the agricultural condition of every part of his division, and to enforce the observance of all rules laid down by Government for the collection of agricultural statistics and information, or for the relief of famine.

To furnish statement of areas liable to famine, and number of people who may require work.

3. As soon as possible after the publication of these rules, and thereafter whenever he is of opinion that a statement previously submitted requires amendment, he shall forward to the Local Government, through the Director of Agriculture, a statement of the areas within his division which are most liable to famine, and a rough forecast of the maximum number of persons within those areas likely to require employment in a year of extreme drought. He shall also be responsible for the preparation and submission to Government of the two lists of relief works (Civil Agency and Professional Agency) which are required under sections 26 and 57 of this Code.

To report impending famine.

4. When the Commissioner of a Division has reason to believe that scarcity prevails, or a famine is imminent, in any part of his division, he shall report the fact to the Local Government, stating, as far as possible—

(*a*) the grounds of his belief;
(*b*) the area and population likely to be affected;
(*c*) the character of communications in the affected area;
(*d*) the condition of the grain stocks;
(*e*) sources from which supplies of food may be obtained;
(*f*) proposed measures of relief;
(*g*) an estimate of the expenditure likely to be incurred, and the local sources from which it can be met;
(*h*) any other matters necessary for the due information of Government.

Commissioner to propose relief works.

5. When famine is impending or exists, the Commissioner of the Division shall be responsible (1) for proposing, in consultation with the Superintending or Chief Engineer, the action to be taken by the Public Works Department, (2) for organising private agency; and (3) for prescribing the action to be taken by District or Local Boards in respect of works to be carried on under their agency and with their funds; *provided* that no relief circle shall be formed, and no special relief work or poor-house or system of gratuitous relief shall be commenced, the cost of which will fall on Provincial Funds, without the previous sanction of the Local Government.

No special relief measures to be undertaken without sanction of Local Government.

Commissioner to exercise administrative control in all measures of famine relief.

6. The Commissioner shall exercise administrative control over all measures undertaken by the District Officer, or by District or Local Boards, for the relief of famine. He should also be supplied with, and may call for, periodical information with regard to relief measures carried out under the agency of the Public Works Department.

Other duties.

7. The Commissioner should from the outset direct his attention to (*a*) the due strengthening of the normal staff of each district, (*b*) fixing, where necessary, suitable administrative areas in view to the proper administration of famine relief, and (*c*) advising the Superintending Engineer as to the best distribution and employment of the Public Works agency in his Division.

Duties of District and Sub-divisional Officers.

8. The Collector or Deputy Commissioner and the Sub-divisional Officer shall, *mutatis mutandis*, be responsible for the performance, within his district or sub-division, of all the duties which are laid down for the Commissioner within his Division.

Reports to be submitted by District Officer.

9. When famine is impending or exists, the District Officer shall submit to the Local Government, through the Commissioner of the Division, a half-monthly report for the periods 1st—15th and 16th to end of the month, giving all the necessary information as to the state and prospects of the affected tracts: some of the following particulars are required only in the event of relief works or poor houses being opened, or gratuitous relief being afforded :—

(1) Area affected during the period under report, and approximate estimate of the portion of the population affected; number of relief circles and of officers in charge.

(2) General state of the affected tracts during the fortnight under report, crop prospects, prices, food-stocks, importation or exportation of food-grains, rainfall, public health, emigration or immigration of famished people, condition of cattle.

(3) Number of public works open in or near the affected tracts in his district, distinguishing works—

(*a*) Civil Agency Works under District Engineers or Municipal Committees, or special Supervisors,

(*b*) Under Professional Agency (the Public Work Department or District Engineer),

together with the daily or average numbers of persons employed on these works, distinguishing (*i*) men, (*ii*) women, (*iii*) children, and showing separately the numbers paid by daily wages and those paid for task work: the rates of daily wages and of task work to be also reported. If any relief works have been opened under private agency, such information as is possessed regarding them should be given.

(4) Number of poor-houses open, and daily or average numbers at each in receipt of gratuitous relief, distinguishing (*i*) men, (*ii*) women, (*iii*) children.

The scale of food distributed should also be stated.

If any private poor-houses have been opened, the numbers there relieved should be reported, if known.

(5) Organization for employment of artizans, women, &c., at their homes in weaving, cotton-spinning, husking corn, &c. Number of persons so employed, distinguishing between (*a*) men, (*b*) women, (*c*) children.

(6) Organization for the distribution of grain doles or money doles, number of recipients and amount of money and value of grain distributed.

(7) Number of persons to whom loans under the Land Improvement Act, or under the Agriculturists Loans Act have been made, the system and security on which such advances are given, and the average amount usually lent to each and the total amount lent under each head.

(8) Financial statement for the fortnight under the following heads:—

A.—Receipts, distinguishing between grants from District Boards, grants from the Provincial Government, and private subscriptions, and showing, in the case of Government grants, the date of each grant being sanctioned, and the purpose for which it was made.

B.—Expenditure from public funds during the half month under report—

(*a*) On relief works (clause 3), showing separately the sums paid on account of daily wages and sums paid for task-work.

(*b*) On relief in poor-houses (clause 4).

(*c*) On the relief of artizans, &c., (clause 5).

(*d*) On relief by grain or money doles, clause 6).

(*e*) On any other kind of miscellaneous charitable relief.

C.—Balances of funds in hand under each head.

CHAPTER II.

CIRCLE ORGANIZATION AND DUTIES OF THE CIRCLE OFFICER.

Division of districts into relief circles in times of scarcity or famine.

10. In times of severe scarcity or famine each district affected shall be divided into relief circles, the boundaries of one or more of which shall be conterminous, as far as possible, with territorial divisions made for purposes of administration (such as sub-divisions or thanas).

11. For each circle there shall be an Inspector of relief operations whose duty it shall be—

Circle Inspectors to be appointed. Their duties.

A.—To decide what persons residing in the local area should be placed in receipt of gratuitous relief, and to prepare a correct register of such persons.

B.—To organise a system of private charity for the relief of persons whose names are entered in the register of gratuitous relief;

C.—When the distress cannot be relieved by private charity, to make an application for funds to the district authority, and to carry out such instructions as he may receive for arranging for the supply of money or grain required to give the necessary relief;

D.—To keep strict and accurate accounts which shall be open to the examination of the Sub-divisional or District Officer whenever he may wish to inspect them, of all moneys expended and grain distributed in gratuitous relief, and to submit half-monthly reports of the expenditure incurred;

E.—To ascertain and report what works can be carried out in the circle, what kind of labour they will require, and for how many labourers, and for what period they will probably afford employment, with a rough estimate of the cost; and if the civil authorities decide on opening any such work, in the local area, to aid in every way in the execution of such work and the supervision of labourers employed thereon;

F.—To supervise the management of any children's kitchen or poor-house established in the local area;

G.—To encourage by all the means in his power the employment of labour on agricultural operations, and to invite applications for advances to make wells, tanks, and other improvement;

H.—To make known the places at which relief works are opened, the nature of each work, wages offered, and the classes of persons to whom such work is suitable;

I.—To visit as frequently as possible each village in his circle;

J.—To test, as far as possible, by personal inspection, and to correct the register of gratuitous relief;

K.—To report the condition of cattle in the circle, and suggest any measure that may be suitable for providing them with food;

L.—To report the occurrence of any unusual sickness in the circle;

M.—To ascertain that relief has been properly and effectually distributed in the manner laid down;

and generally to make any suggestions as to relief measures which he thinks requisite, and to carry out such instructions as he may receive from the Sub-divisional or District Officers.

Services of village headmen, village accountants, and other local agency to be used.

12. In preparing the list of gratuitous relief and generally in all relief operations, the Circle Inspector should utilize, as far as possible, the services of village headmen, village accountants, clerks, chowkidari panchayats, Ward Committees in Municipalities, and other local agency.

Circle Inspector to submit reports.

13. The Circle Inspector shall submit half-monthly reports in which he shall include, besides the matters indicated above, the general result of his observations, remarks on the condition of the people, and their willingness or otherwise to work, the prices of food, the supply of food, the condition of growing crops, the state of communications, and any other matters worthy of notice, on which he is required by the District Officer to report.

To be supplied with money.

14. He shall be supplied with money sufficient to meet the expenditure of the current half-month and of one week in advance, and he shall indent from time to time on the local treasury accordingly.

Appointment of contractors for grain.

15. In times of famine or scarcity one or more contractors for the supply of grain required for poor-houses or grain doles may be appointed for each circle. They should be chosen from among the grain-dealers of the locality. Each contractor should be furnished with a list of the probable daily demand for the supply of which he is responsible.

Indents for grain and payments for same.

16. When it is necessary to require a contractor to supply grain to his circle, the Circle Inspector shall indent on him in the prescribed form, stating the amount and kind of grain required for a week's supply, the place and date of delivery, and any other matters that may be necessary for his information.

The Circle Inspector shall at the same time give him an order on the district treasury for an advance to cover the cost of the supply indented for.

Payments to contractors.

17. The contractor shall be paid weekly, or more often if he desires it, on presentation of vouchers for expenditure duly signed by the Circle Inspector.

Relief of starving wanderers.

18. The Circle Inspector in any area to which a starving wanderer comes shall give such wanderer such food as may be necessary, and shall, if or when he is fit to move, send him to the poor-house or relief work which is nearest to such village. Sums expended by the Circle Inspector under this rule shall be treated as expenditure on gratuitous relief under section 21. This rule shall apply to any village headman or other local agent who may be placed in charge of relief operations in subordination to a Circle Inspector.

If it is found that starving travellers or beggars are lying about the bazar or streets of the town where the poor-house is situated, the Circle Inspector shall send a patrol out daily to gather them into the poor-house.

Rest-houses for emigrants.

19. On the roads along which emigrants are known to travel in large numbers, it may be necessary to keep up places at which they can be fed. At these places the conditions of residence and work will not be insisted on. Two meals will be cooked a day, morning and evening; those who arrive in the evening will receive a meal and shelter in a shed for the night, and will be

sent on next day after receiving a second meal in the morning. The Superintendent is responsible for seeing that they eat the meal in his presence and do not carry it away, and that this indulgence is granted only to *bonâ fide* travellers who are in want. The circle relief officer will pay special attention to these rest-houses; will endeavour to dissuade feeble and emaciated persons from emigrating, and offer them employment on a relief work; and if the number becomes at all considerable, he will report the facts to the Collector of the district. He will also be careful to visit these rest-houses frequently, and at feeding times, in order to test the Superintendent's returns as to expenditure and the number of emigrants fed. The Superintendent will add to his daily abstract register a note showing the number of people going to and returning from the place which is the goal of emigration.

CHAPTER III.

GRATUITOUS RELIEF.

Classes of persons entitled to gratuitous relief.

20. The following classes of persons are, as a rule, entitled in time of famine to receive gratuitous relief, provided that they have no relatives able, and, by the custom of the country, bound, to support them:—

(*a*) idiots and lunatics,
(*b*) cripples,
(*c*) blind persons,
(*d*) all who from age or physical weakness are incapable of earning their living,
(*e*) all persons whose attendance on the sick, or on infant children in their own homes, is absolutely necessary.

Relief in money or in grain.

21. Relief may be given gratuitously to persons included in the register maintained under section 11A, either in money or in grain.

When no register is ready, the distribution of gratuitous relief is to be governed by special orders of the Circle Inspector.

Grain doles to be preferred to money.

A.—Grain doles are more advisable than money, and money doles should only be given under most exceptional circumstances to persons registered under section 11A.

Proviso 1.—Money is not to be given when food is not easily obtainable in the local market.

Proviso 2.—Money may be given (i) when the recipients of gratuitous relief are scattered, and cannot be brought together without an amount of hardship not called for by the gravity of the situation, and grain doles cannot be provided easily, (ii) when gratuitous relief in no other form will be accepted.

Proviso 3.—If money is given, the amount shall be sufficient to procure the minimum ration prescribed in Chapter XIV.

Relief to respectable women.

B.—Gratuitous relief shall ordinarily be given at the home of the recipient. Respectable women who are debarred by national customs from appearing in public shall always be relieved at their own homes.

Persons receiving gratuitous relief are to do some work.

22. When grain doles are given, the persons whose names are entered on the Register of Gratuitous Relief shall receive from the Circle Inspector tickets authorising them to receive weekly a grant of 7lb. of common flour for each adult and 3½lb. for each child (or a corresponding quantity of unground grain) from some grain merchant in the town. In return for this, they should be expected to do some work, and

spinning cotton is a work most suitable for women to do at their homes, and one which is not repugnant to the feelings of any female. A certain quantity of cotton should therefore be given with the ticket to each woman on the list, and she should be expected to return it spun into thread by hand before she receives the second weekly allowance. It is generally reckoned that a woman who is not particularly skilful can spin about 1 seer of cotton in a week. Each woman should have a basket in which the cotton can be sent and returned, and she should be allowed to send it and to draw her ration of flour through any male relation or child who is able to go abroad for the purpose. But, as a rule, women who possess able-bodied male relations (not in receipt of relief) should not be admitted to this relief list, and care must be taken lest such relations should try to throw on to the State the burden of supporting the relations who are entitled to look to them for help.

Removal of name from relief register.

23. If a person whose name is entered on the register maintained under section 11A becomes from any cause disentitled to receive gratuitous relief, his name shall be removed from such register by the Circle Inspector.

CHAPTER IV.

FAMINE RELIEF WORKS.

Two kinds of famine relief works.

24. Famine relief works are of two kinds—

(I) Civil Agency works which employ small numbers of unskilled labourers and do not require professional supervision ; and

(II) Professional Agency works which employ large bodies of labourers, some of whom will generaly be skilled labourers, and require professional supervision.

I.—Civil Agency Works.

Definition.

25. Civil agency works may be managed by a civil or professional officer, and are under the control of the District Officer or Chairman of the District Board. They are distinguished from relief works under professional agency by the following characteristics :—

(*a*).—They should be not so large as to require professional ability for their laying out, or for the due organization of the labour. As a rule each project should provide for the employment of not more than 300 labourers for three months.

(*b*).—They should be suitable for the employment of unskilled labourers who are only accustomed to dig or carry earth.

(*c*).—They should be sufficiently numerous to supply labour tolerably near to the homes of those who require it. For instance, there should be approximately one work for each 16 square miles of the affected tract.

(*d*).—The wages given shall be governed by the principles laid down in Chapter XIV of this Code.

Relief works carried out by the District Board under the District Engineer and his staff, if they satisfy the above conditions, may be classed under this head.

Programme of relief works to be prepared for districts liable to famine.

26. For each district containing areas reported under section 3 to be liable to famine, the District Officer shall, as soon as possible after the publication of these

rules, prepare, thana by thana, a programme of such civil agency works as it is intended to carry out in the event of famine or scarcity, together with a rough forecast of the number of labourers who can be employed on each of them, and shall submit to Government, through the Commissioner of the Division and the Director of the Department of Land Records and Agriculture, a revised programme, complete up to date, in April each year. They should, as far as circumstances admit, consist (*a*) of agricultural works calculated to increase the outturn of the proximate harvest or harvests, *e.g.*, the construction of wells, the digging and clearing of village tanks, the construction of irrigation reservoirs or channels; (*b*) of roads which have to be constructed, raised or repaired. It is highly important, especially at the beginning of a famine, that the tendency to migrate or to wander aimlessly should be checked: and with this object the programme of relief works should be so arranged that work may be available for any one who requires it within such a distance from his home that he may be able to go to it every morning and return home every evening after completing his task.

An officer to be placed in charge of the work.

27. An official shall be placed in charge of every separate civil agency work either by the District Officer or Chairman of the District Board or by an officer to whom he may have delegated the power.

Responsibilities of officer in charge.

28. The officer in charge of a work shall be responsible for the following matters:—

(1) The admission of applicants.
(2) The classification and treatment of labourers.
(3) The provision of tools and shelter.
(4) The adjustment of rates.
(5) The payment of wages.
(6) The supply of food.
(7) Market arrangements.
(8) The hearing and investigation of complaints.
(9) Hospital inspection.
(10) The care of children and infirm persons unfit for work.
(11) The submission of special reports.

Admission of applicants.

29. At every work a place shall be fixed for the admission of applicants. Such place shall be marked by a flag and shall be visited twice a day, at morning and midday, by the officer in charge, or one of his subordinates, who shall classify the applicants and draft them, if fit for labour, on the relief work.

Allowance before commencing work.

30. All persons, being *bonâ fide* applicants for labour, or relatives depending on such applicants, who arrive at the relief work in the morning shall, in addition to the full working wage which will be paid in the evening, receive half the minimum wage on admission, and shall be allowed, if they desire, to take a meal before commencing work. Those who arrive in the evening shall, under the same conditions, receive on admission the full minimum wage.

Classification of labourers.

31. All Civil Agency works are open—

(*a*) to able-bodied persons accustomed to labour;
(*b*) to able-bodied persons not so accustomed;
(*c*) to persons not able-bodied, but fit for light employment of the kind required at the work.

Persons to be retained on Civil Agency works.

32. All applicants for admission to Civil Agency works shall be received, but those who come under class (*a*) shall be drafted from time to time to Professional Agency works, when any such have been opened and designated for the purpose of receiving such drafts.

Drafting of labourers to Professional Agency works.

33. In selecting the labourers who are to be drafted to Professional Agency works, regard shall be had to the distance of such works from the labourer's home, and to the number of women, children, and infirm persons dependent on, or belonging to, the family of such labourer.

Information about Professional Agency works.

34. The District Officer shall, from time to time, instruct the officer in charge of a Civil Agency work as to the Professional Agency works to which able-bodied labourers may be drafted, and regarding the maximum number which may be so drafted.

Payment-by-results to be introduced.

35. The system of payments-by-results or piece-work may be introduced where it is suitable. Persons unaccustomed to labour, or weakly persons, shall, as far as possible, be separated from able-bodied labourers accustomed to labour and provided with suitable work, and remunerated in accordance with the rates prescribed in section 152.

Gangs of labourers.

36. Labourers should be permitted and encouraged to form their own gangs under a headman or paymaster appointed by themselves. When they do not do so, the officer in charge should form them into gangs, allowing the members of a family, or of the same vicinity, to work together as far as possible.

Transfer of labourers.

37. In drafting persons to other works, the officer in charge shall observe the following rules:—

(1) The drafts shall ordinarily consist of not less than twenty persons.

(2) A numerical roll of men, women, and children shall be sent with all drafts with the reason for sending them.

(3) The draft shall be placed in charge of a trustworthy official, to whom shall be given money sufficient to support the members of the draft until they reach the work. If necessary, a police guard may be sent with the draft.

(4) On reaching the work, such official shall make over the gang, with the roll, to the officer in charge, who shall at once compare the roll with the draft and satisfy himself by inspection and enquiry that the draft has been properly fed *en route*.

(5) If the officer in charge finds everything in order, he shall sign the numerical roll, certify the expenditure, and return it to the official in charge of the gang.

(6) If the draft received does not correspond with the roll, he shall note the difference, and cause the official aforesaid to explain it, and then transmit the roll and the official's explanation to the officer who despatched the draft.

(7) If complaints of ill-treatment or insufficient feeding are made by any persons in the draft, he shall enquire into the complaints, and shall note his finding on the roll, and may refuse to certify the whole or any portion of the expenditure.

If necessary, precautions must be taken against desertion on the road.

Tools and shelter for labourers.

38. The labourers' camp or camps shall be selected with as careful regard as possible to sanitary conditions, with reference to which the sanitary and medical officials should, whenever an opportunity occurs, be consulted.

Huts.

39. If it is considered necessary to make huts for the labourers, hutting materials should be provided in sufficient quantity. The District Officer shall satisfy himself that shelter is provided where it is necessary. Proper arrangements must be invariably made for latrines.

Residence in camp

40. Residence in camp is compulsory for all labourers on Civil Agency works whose home is not within a reasonable distance

Tools.

41. The District Officer, before opening a work, shall see that proper tools are provided.

Adjustment of rates.

42. The officer in charge shall watch the variations in the price of food, and shall adjust the rates of wages in accordance with the rules laid down in Chapter XIV whenever the variation is not less than 10 per cent.

Payments of wages.

43. Labourers in classes (*a*) and (*b*) (section 31) should, as a rule, be paid at first daily, afterwards twice or thrice a week, for which purpose they may be divided into two or more sets, who shall be paid on different days. In no case shall payment be made less often than once in seven days.

Payment when to be made daily.

44. Labourers in class (*c*) (section 31) shall be paid daily.

Mode of payment.

45. The officer in charge shall be responsible that every labourer receives the wage to which he is entitled. Payment may be made for piece-work to the head of each gang, but in all other cases must be made individually.

To be made in cash.

46. All wages must be paid in cash unless food cannot be procured in the local market, in which case uncooked rations on the scale prescribed in Chapter XIV may be given in lieu of wages.

Day for which to be paid.

47. The minimum wage prescribed in section 148 shall be paid to labourers or *bonâ fide* applicants for employment on the work—

(*a*) for all days occupied in classification, medical inspection, or the like;

(*b*) for any days on which work is stopped by order on account of weather or other causes.

Fines.

48. Fines may be imposed for short work, provided that the daily payment does not fall below the minimum wage. In the case of contumacious refusal to perform all work, payment may be made in proportion to the work done. Any labourer persisting in such conduct may be sent to the poor-house.

Supply of food.

49. When an officer receives orders to undertake any relief work, he should make an immediate estimate of the amount of food which will be required for the number of labourers to be employed, and should notify the same to the district officer. He shall from time to time, as circumstances may require, vary such estimate, and shall report weekly or oftener, if necessary, to the district officer the condition of the supplies sent and the rates at which they are sold.

Market arrangements.

50. When it is necessary to have a market for the supply of food at a relief work, the officer in charge shall see—

(*a*) that the shop-keepers are provided with suitable and healthy accommodation;

(*b*) that the weights and measures used are fair;

(*c*) that the articles supplied are fit for human food;

(*d*) that the current prices are written up and notified daily in the market.

If it shall appear to him that the current prices are excessive, he shall report the matter to the district officer.

Hearing of complaints.

51. The officer in charge shall give daily opportunity to labourers and others employed or supported at the work to make complaints or bring forward grievances, and shall make due enquiry into every case which appears to require investigation.

Hospital accommodation.

52. Hospital accommodation shall be provided at every relief work for the sick. If there is no medical officer on the work, his duties shall be performed, as far as may be, by the officer in charge, who shall send all cases of serious illness to the nearest place at which medical treatment is obtainable. The hospital shall be inspected daily.

Care of children and infirm.

53. Labourers' children unfit to work shall be fed in kitchens and put in charge of nurses while their parents are engaged in work. Rules regarding children's kitchens will be found in Chapter VI. Infirm persons unfit to work, who apply for relief, shall receive the minimum wage prescribed in section 148, and if dependent on labourers employed on the work, shall be allowed to remain on such work so long as such labourers are so employed: if not so dependent, they may be drafted to a poor-house or entered in the register of gratuitous relief and relieved at their homes under the rules contained in Chapter III.

Submission of progress return for relief work.

54. The officer in charge of a relief work shall make a progress return in Form 1 appended to this Code for each week ending on Saturday night.

In the controlling office (*e.g.*, the Collector's or Subdivisional Office) this return shall be recast in Form 2.

Report to accompany progress return.

55. He shall also state—

(*a*) the physical condition of the labourers, of those seeking relief, and of the neighbouring population;

(*b*) the numbers who have been rejected from the work, and the reasons for rejection;

(*c*) the causes of any refusal to work or failure to accomplish the full task, and the action taken;

(*d*) the sufficiency or insufficiency of the scale of wages of payment for piece-work;

(*e*) any other information which it is expedient to communicate to his superiors.

II.—Professional Agency Works.

Definition.

56. Professional Agency Works are those which from their nature require the supervision of a trained Engineer Officer, whether he be an Executive Engineer of the Public Works Department, or a District Engineer. The characteristics of this class of works are:—

(*a*) they should be of such a character as to require engineering skill in laying out or in organising;

(*b*) they should be on a larger scale than Civil Agency Works; and should employ only able-bodied labourers. They should be ordinarily sufficient to provide employment for a period of six months to the maximum number of persons who may need relief in a famine area, in accordance with the information furnished by the Commissioner under section 3. As a general rule there should not be more than one such work to a sub-division;

(*c*) they need not, like Civil Agency Works, be confined to the employment of unskilled labourers;

(*d*) the contract system should be prohibited, but the method of payment by the piece may be introduced with advantage, provided that it is optional with the labourers to choose between it and the daily wage, and that the rates for piecework should be so fixed as to give only a little more than the ordinary daily wage in return for the quantity of work likely to be performed.*

N. B.—1. Railway projects are not suitable as relief works unless the embankment itself would be useful as a feeder-road, even if no rails are laid upon it.

2. If a public work, sanctioned as such, is transferred to the list of Professional Agency Works, it is not necessary that the whole of the work should be utilized for relief purposes and brought under the rules of Chapter IV, Part II.

Programme of relief works.

57. It is the duty of the Commissioner of the Division, in communication with Superintending Engineers on the one hand, and District Officers on the other hand, to prepare, under the sanction of Government, a programme of famine relief works as described above for each sub-division of a district containing areas reported under section 3 to be liable to famine. The programme shall be revised, and a copy of the revised programme, complete up to date, shall be furnished to the Chief Engineer in charge of the Public Works Department of Government in April each year.

Order of undertaking works.

58. When any works in the programme of Professional Agency Works have been sanctioned and funds allotted for them in the current year, those works should be opened as relief works in the first case, and others in the list should be undertaken when the first are exhausted.

Redistribution of work.

59. When the Local Government decides that professional relief works are to be undertaken, the Commissioner shall, in communication with the Chief Engineer, determine in what order (subject to the preceding rule) each work is to be set in hand. He shall then arrange for the redistribution of works, funds, and establishments accordingly; and such redistribution may, in urgent cases, be carried into effect in anticipation of the Local Government's sanction.

Emergent Budget.

60. If the funds assigned in the Public Works Department Budget for the current year, or if the existing establishment, be insufficient, the Chief Engineer shall submit an emergent budget with as little delay as possible for the sanction of the Local Government.

* *See* paragraph 132, Famine Commissioners' Report, Part I, and Section 150 of this Code.

Provision of tools, &c.

61. The Superintending Engineer or Inspector of Works shall be responsible for issuing timely and ample instructions to the proper officials for the provision of tools, treasure chests, small coin, and other requisites for the conduct of the selected works.

Report to District Officers.

62. The officer in charge of a work shall give timely notice to the District Officer—

(*a*) of the date on which such work will be ready for the admission of the labourers;

(*b*) of the date on which it will probably close;

(*c*) of any sickness or other occurrence which renders it advisable to stop admissions to such work;

and shall keep such District Officer informed from time to time of the condition of the work, the number of labourers on it, and the number which can be admitted to it.

Transfer of labourers.

63. In drafting persons to other works, the Engineer in charge shall observe the rules laid down in section 37.

Progress return for relief work.

64. The officer in charge of a relief work shall forward to the District Officer a progress return in Form No. 1 for each week ending on Saturday night.

In the Controlling Office (*e.g.*, the Collector's or Subdivisional Office) this return shall be recast in Form 2.

Report to accompany return.

65. He shall also state—

(*a*) the physical condition of the labourers, of those seeking relief, and of the neighbouring population.

(*b*) the numbers who have been rejected from the work, and the reasons for rejection;

(*c*) the causes of any refusal to work, and the action taken;

(*d*) the sufficiency or insufficiency of the scale of wages or payment for piece-work;

(*e*) any other information which it is expedient to communicate to his superiors.

Channel for submitting it.

66. The Superintending Engineer or Inspector of Local Works may order a copy of such return to be sent directly to him by all officers in charge of works.

CHAPTER V.

THE POOR-HOUSE.

Definition.

67. A poor-house is an enclosure within which cooked food is distributed gratuitously to inmates on the condition of residence within the enclosure.

Persons to be admitted.

68. The persons for whom this provision is intended are mainly—

(1) persons who have no homes or have cut themselves adrift from their homes, and are unfit for employment on works;

(2) persons who, being fit for employment on works, refuse to labour;

(3) professional beggars who find the sources of private charity dry up in a famine;

(4) other applicants for relief, of whom it is doubted if they are really in want, and to whose case willingness to reside in a poor-house is applied as a test.

Inmates to be kept in compulsorily.

69. Inmates once received into a poor-house shall be kept there: if of the first class, until they are fit for work or to be sent to their homes; if of the second, until they consent to work; if of the third class, till private charity can again be relied on to feed

them; if of the fourth class, till they have proved their necessity by submitting to the test.

Number.

70. The number of poor-houses to be established in any district shall be determined by the District Officer with the sanction of the Commissioner. In the earlier stages of famine, one poor-house will be sufficient for each sub-division of a district; if the famine is severe, there should be one for each relief circle.

Supervision.

71. The poor-house shall be managed by a Superintendent, assisted by such staff as is necessary to keep the accounts and registers and to enforce discipline. It shall be directly under the Sub-divisional or Circle Officer. He shall be assisted by a body of visitors who shall be appointed by the District Officer, and shall join with him in supervising the administration. These shall ordinarily be chosen from the members of the District or Local or Municipal Boards, or shall be Revenue or Police Officers of the locality, or some other officials of a similar position.

Site.

72. The site of the poor-house should be chosen with regard to the following circumstances:—

(1) it should be within easy reach of the head-quarters of the visitors;
(2) it should be situated on the outskirts of the head-quarters of the sub-division or relief circle;
(3) the situation should be healthy;
(4) the drainage should be good;
(5) an ample supply of water for drinking and bathing purposes should be available.

It should be surrounded by an enclosure such as not to be easy to surmount, but not so formidable as to make it resemble a jail, since the authorities, for the keeping the residents inside, should rely not so much on the wall as on the certainly that the patrol will catch and bring back wanderers and beggars. There should be only one entrance to the poor-house: a peon should always be on duty there to check ingress or egress. There should be to every poor-house a superintendent and a writer, with sufficient assistance to enforce discipline and keep the accounts and registers. The menial establishment should consist of cooks, water-carriers, sweepers, &c., the paupers themselves being utilized in this work as well as in grinding the flour for their food as far as possible.

Hospital.

73. To each poor-house shall be attached a hospital, which shall be placed as near the poor-house as is consistent with health. The hospital shall be in charge of a medical officer.

Closing of the poor-house.

74. When it appears to the District Officer that a poor-house should be closed, he shall determine a date for the closing of such poor-house, and shall direct that no one shall be admitted after that date; and that all inmates who are fit for work shall be dismissed.

He shall also arrange for the transmission to their homes, or the support by private charity, of such inmates as are unfit for work and incapable of supporting themselves.

Rules for administration.

75. In case the famine becomes very severe, and starving people resort to poor-houses in very large numbers, the organisation must be more elaborate. In this case a special set of rules is provided in an Appendix to this Code.

CHAPTER VI.

KITCHENS FOR CHILDREN.

Relief in children's kitchens.

76. Experience having shown that starving parents cannot, in times of severe famine, safely be entrusted with the means of relieving their children, it is essential that a daily supply of cooked food should be issued to them under proper supervision.

Method of effecting it.

77. For this purpose villages should be grouped into circles not more than 5 miles in diameter, so as to admit of the children coming or being brought daily to the central village in the morning, and returning to their homes in the evening. In the most central village of each circle should be erected a kitchen and feeding sheds; if necessary, a small shed may be erected in the vicinity of the kitchen to afford sleeping accommodation to homeless children.

Treatment of children abandoned by their parents or guardians.

78. Children abandoned by their parents or guardians should, if old enough, be sent to a suitable relief work, and, if too young to work, should be admitted to the nearest children's kitchen. A Register should be kept of all children admitted to the kitchen (see Form 3), and in it all the information procurable as to the parentage and villages of the children should be entered, in order to facilitate the tracing out of their parents or natural protectors, and the future restoration of the children to them.

Materials to be used in construction of kitchens, &c.

79. The outer and partition walls of kitchens should be built of mud or any suitable form of fencing which may be stiff enough to prevent egress and ingress. A ditch should be dug round the whole enclosure so as to prevent superficial drainage into the enclosures and to carry it off from the interior, for which purposes small open drains can be made leading into it from the enclosures; the floors of the eating sheds should be raised above the surrounding surface to ensure proper supervision.

Maximum number of children in one kitchen.

80. The number of children attached to one kitchen should not exceed 300.

Children's tickets.

81. Every child on first admission to a kitchen shall be furnished with a tin ticket, on which are to be stamped the number of the kitchen, the number borne by the child in the kitchen register, and the letter M with the number of its mess.

Loss of tickets.

82. These tickets must be worn suspended from the child's neck when it presents itself for admission at meal time. To check careless loss of tickets, a child should be punished for loss of its ticket by withholding one issue of condiment, soup, or sugar. Lost tickets must be replaced by the Circle Inspector, and in case of removal of a child from the kitchen register, its ticket should be returned into store and given by the Superintendent to his Circle Inspector, who shall retain it; a ticket should never be re-issued to any but the orginal holder. Example: if No. 5 has been removed, and at the time of admission there are 50 on the register, the next child admitted shall be numbered 51. The object of this rule is to ascertain the total number of the children who obtain relief in a kitchen.

Eating utensils.

83. Utensils sufficiently large to contain the ration prescribed for the mess to which a child is attached will be furnished to each child on its admission to a kitchen; they are not to be removed from the kitchen premises; and care must be taken that the utensils

of one section do not get mixed with those for the use of another section. A stout basket should be provided for each mess in which its utensils should be kept when not required for use.

Classification of children into messes.

The following plan has been found to work well: divide the children with castes; allot to each caste a separate feeding space marked by a suitable flag—white, blue, red, or green, &c.

84. To facilitate the issue of the cooked rations, children of each section may be classified into messes according to their ages. All members of a mess will receive the same ration. There should be four messes—

M. 1. Consisting of children from 9 to 12 years of age.

M. 2. Consisting of children from 6 to 9 years of age.

M 3. Consisting of children from 3 to 6 years of age.

M. 4. Consisting of children under 3 years of age.

Note.—Children of the 4th mess are often unable to feed themselves; such children are usually in the charge of some bigger child; the issue of rations to such children should be deffered until the elder child has finished its meal; it will then receive the ration of the little child in its charge and feed it under the special observation of the mess-cook. In the very rare cases of such a child having only an audit relation to feed it, the same course can be pursued, with this difference that the admission as well as feeding of the child will be deferred till all the other children have left the enclosure, and it will be fed under the personal supervision of the gomastah.

Admission of children for meals.

85. There should be two meals, morning and afternoon. Half an hour before meal-time the Superintendent shall commence to call the Attendance Register, Form 4. As soon as a child's name is called, it should enter the enclosure and obtain from its mess-cook its eating utensils, and then sit down in its usual place in the eating shed of its mess. Children of the fourth class who are unable to take care of themselves should be admitted along with the child in charge.

Removal of cooked food prohibited.

86. The removal of cooked food should be strictly forbidden.

Permanent establishment.

87. The establishment shall be as follows for each kitchen containing 300 children:—

1 Superintendent.	2 Cooks.
2 Warders.	2 Scavengers.
3 Waterwomen.	

Note.—The number of cooks beyond the fixedminimum shall be increased in the ratio of one for every fifty or fraction of fifty children—up to the maximum of six for a kitchen. The children in each section shall, as far as possible be equally divided amongst the cooks appointed to it, having regard to the, retention of intergrity of messes. One cook must not prepare food for a portion of a mess in addition to the mess or messes which are specially allotted to him, otherwise the rations of different messes are likely to get mixed up, and responsibility is not limited.

Position and duties of Superintendent.

88. The Superintendent shall be under the immediate orders of the Inspector of the circle in which the kitchen is situated. He shall obtain daily, on indent from an agent appointed for the purpose, the supplies required for his kitchen; one copy of the indent shall be left with the agent to be given up on payment of the articles indicated on it. The Superintendent shall personally weigh and distribute the raw rations for each mess: these issues shall be made twice daily. After the morning issue he shall place the remaining raw supplies under lock in the store-room of the section for which they have been procured. After the issue of the raw rations he shall give out to each mess-cook the eating utensils in use by his mess or messes, and after each meal he shall inspect the utensils to ascertain that they have been cleansed, and after he has seen them put into their respective baskets, he shall lock them up in the store-room. Half an hour before meal-time he

shall commence to call the roll or attendance register, and shall supervise the issue of the rations and remain till the kitchen is closed. He shall submit weekly to the village Circle Inspector an abstract of his kitchen register, and shall be held responsible for the discipline of his kitchen, the carrying out of regulations, and the condition of the children.

Duties of a warder.

89. Warders shall be appointed to each section of the kitchen; they shall maintain order among the children, and shall observe, as far as possible, the issue of the rations and at once report to the Superintendent if they consider a short ration is issued. At the close of each meal they shall carefully inspect each child as it goes out to see that neither cooked food nor utensils are removed; they shall also ascertain that the servants on leaving the kitchen do not take away any food or utensils belonging to the kitchen. One warder must always be on the premises of the kitchen to prevent unlawful egress or ingress, and they shall sleep in their respective sections every night.

Duties of cooks.

90. The cooks shall carry the supplies required for their respective sections; they should be present one hour and a half before each meal to receive the raw rations and eating utensils of their respective messes, and shall cook and distribute the food. After each meal they shall collect and cleanse the eating utensils of their messes and replace them in the store-room of their sections. As soon as this is done, they shall leave the kitchen premises till again required to be present.

Duty of water-carriers.

91. The water-carriers shall thoroughly sweep out their respective sections; the rubbish they collect shall be deposited in a fixed place for their removal by scavengers. They shall also cleanse their sections after each meal; they shall supply the filters for drinking and culinary purposes, and all water required in their respective sections during meal-times; they shall move among the children ready to supply water to any child asking for it.

Cooks and water-carriers how to be chosen.

92. The cooks and water-carriers must be chosen with reference to caste requirements.

Scavengers.

93. It will be found necessary to daily cleanse the ground round the kitchen, and also to have the latrine areas cleaned after each meal, and the ordure removed and buried or burnt.

Contingent charges.

94. Under the head of "Contingent charges" are included cost of firewood, cooking pots, small repairs to sheds, fences, &c.; the simplest method of supplying firewood and pots will probably be to allow the Superintendent a fixed sum for each 50 children. The Superintendent shall keep an account of expenditure under these heads.

General remarks—Inspection of kitchens.

95. Independently of official inspections, encouragement should be given to a few men of position and reputation and residents in the circles to visit these kitchens and to record their impressions in a book which should be kept by the Superintendent.

Payment of food contractors.

96. The agent at his option can either be paid locally in cash by the Circle Inspector, or at the Sudder or Sub-divisional treasury, on presentation of his copy of Indent, countersigned by the Circle Inspector.

CHAPTER VII.

OTHER MEASURES OF RELIEF.

Relief to respectable men.

97. So far as may be, consideration shall be shown to persons of respectable position and family who are reduced to starvation. Such persons shall not be forced to labour on the works, but shall, wherever possible, be employed as overseers of gangs, supervisors, accountants or clerks on the works. If no suitable work can be found for them, they may be admitted by order of the Circle Inspector to gratuitous relief. A list of all such persons so admitted shall be sent weekly to the district officer.

Relief to artizans.

98. Artizans who require relief shall be employed as far as possible in their own trades on the Professional or Civil Agency works, and in localities where the members of any particular trade or calling are numerous. Preference may be given to works which will provide employment for men of such trade or calling.

Relief to weavers.

99. In localities where weavers are numerous, the Circle Inspector shall arrange for the distribution of thread, and the payment for cloth woven, at the market price.

Price of their cloth to be raised.

100. If the market price is so low that a weaver cannot support himself, the price given may be raised, with the sanction of the Commissioner, to such an extent as may be necessary.

Money distributed to artisans should be repaid.

101. Money distributed to artisans or weavers is not to be regarded as gratuitous, since repayment should be required.

Orphans and deserted children, how to be disposed of temporarily.

102. A temporary orphanage may (if necessary) be established at the head-quarters of the district, to which shall be sent, on the closing of a poor-house or children's kitchen, any children who are left without relations, or whose relations are unknown, or, if known, cannot be compelled to support them. Such orphanages may be placed under the management of the District Board, who shall have the power to make over the children to the care of any respectable persons who wish to adopt them.

If several persons apply for leave to adopt the same child, preference shall ordinarily be given to the person, if any, who is of the religious persuasion to which such child belongs, or is believed to belong.

How to be disposed of eventually.

103. If after three months from the admission of a child to the temporary orphanage no respectable person has adopted it, such child may be sent, with the Commissioner's approval, to any orphanage or other public institution for the care of destitute children, which is willing to receive it:

Provided that in any case a child may be reclaimed by parents or near relations who have a legal right to its custody.

CHAPTER VIII.

MEASURES FOR THE PROTECTION OF CATTLE.

Register of cattle.

104. The following measures for the protection of cattle shall be carried out in any part of the province to which they may be considered applicable by the Local Government.

The District Officer shall, when called on by the Local Government to do so, prepare and maintain a Register showing for his district—

(*a*) the approximate number of cattle depending on pasture;

(*b*) the pasture-grounds ordinarily in use;

(*c*) the reserve pasture-grounds belonging to Government to which in times of drought the cattle can be most conveniently driven.

To be taken to fodder reserve.

105. A copy of this Register shall, when called for, be submitted to the Local Government, who shall decide annually, in concert, if necessary, with the Forest Department, to what reserves the cattle from each district may be driven in case of need.

Mode of sending cattle to reserves.

106. On receiving the orders of Government, the District Officer shall notify from time to time what reserves are, in case of drought, to be opened.

District officer shall report scarcity of fodder.

107. When it appears to the District Officer that the pasture of his district or any portion of his district is about to fail, he shall report the matter through the Commissioner to the Local Government, who may open the reserve set apart for such district.

People to be encouraged to send cattle to the reserves.

108. On receipt of the order opening the reserves, the District Officer shall inform the people of the affected tract, and shall urge them to send the cattle of their villages to the reserve opened to them.

Utilization of trees.

109. The District Officer shall at the same time arrange, if necessary, and as far as may be, for the sale of fodder along such routes as are most suitable for reaching the reserves. If no fodder is procurable, and the cattle cannot otherwise be preserved, he may order the trees (if any) fit for fodder, which are on or near the routes, and which belong to Government, to be utilized to the utmost.

Supply of water.

110. If water is deficient along such routes, the District Officer in concert with Municipal Committees, and the District or Local Boards, shall make such arrangements to supply the want as may be practicable.

Pasture reserves to be under the Forest Officers.

111. The management of the pasture reserves and the control of the cattle admitted to them shall be in the hands of the Forest Officers or other officials who ordinarily have charge of such reserves. The fees ordinarily charged for pasturage may be reduced or remitted as the Local Government may direct.

Protection of fodder in canal-irrigated districts.

112. In districts irrigated by canals, the Commissioner, in consultation with the Canal Officers, shall take such measures for the growth of fodder, and for increasing the growth of grass, by flooding the ordinary pasture-grounds or otherwise as to him may seem advisable.

CHAPTER IX.

Utilization of Forests.

Withdrawal of restrictions

113. When any considerable Government forest or waste land exists in a tract affected by scarcity or famine, and such forest or waste land contains, in the opinion of the Commissioner of the Division, an important supply of forest produce utiliza-

ble as human food, and not available to the neighbouring population, it shall be the duty of the Commissioner to arrange for the temporary withdrawal of all restrictions tending to exclude persons in distress from the full benefit of the natural products of the forest or waste land. If the forest is under the control of the Conservator of Forests, the Commissioner shall communicate with him before making such arrangements.

Reference to Government in certain cases.

114. If such forest is in part or in whole reserved or protected forest, and subject to rules and regulations under the Forest Act which do not admit of the edible forest produce being utilized by the neighbouring population free of charge, and to the extent that the Commissioner may consider necessary, he shall apply by telegraph to the Local Government for permission to suspend, for the time being the operation of any such rule or regulation in so far as it may conflict with the objects in view:

Provided that permission shall not be given in either of the above cases to kill any animal of which the destruction is prohibited by law throughout the year:

Provided also that no such concession shall be held to permit any damage by fire or by a negligent or wasteful process of obtaining the produce sought after.

Proclamation of the concession

115. When the Commissioner shall have obtained permission to open any such Government reserved or protected forest, not already available to the neighbouring population in this respect for the unrestricted collection and removal of edible forest, produce, he shall proclaim the nature of the concession in all the surrounding country, specifying the areas to which the concession applies and the kinds of produce which the people may temporarily collect and remove for their personal use. He shall similarly, when there is no longer occasion, in his opinion, to continue the concession, proclaim with the same publicity its discontinuance from a date to be specified in the proclamation.

Duties of Divisional Forest Officer.

116. The Divisional Forest Officer shall obey any order communicated to him by the Commissioner of the Division, through the Collector or Deputy Commissioner of the district, in relation to the use and management of the Government forests under his charge in times of scarcity or famine; and shall see that there is no unnecessary and vexatious interference on the part of his subordinate staff.

CHAPTER X.

DUTIES OF POLICE AND LOCAL OFFICERS.

Periodical reports to be submitted by Police Officers in ordinary times.

117. The District Superintendent of Police shall require all Police Officers in charge of stations and outposts in the district to submit, in ordinary times at periods to be fixed by him from time to time in communication with the Magistrate of the district, a report on the following matters:—

(1) the amount and distribution of the rainfall;
(2) the character of the weather;
(3) the progress of agricultural operations;
(4) the condition of the standing crops;
(5) the outturn of the crops at time of harvest [to be estimated in annas (16 annas denoting an average crop, 20 annas a bumper crop)];
(6) the condition of the grain stocks;

(7) the prices of rice and other principal food-grains (quantity obtainable for a rupee);

(8) the state of the people—existence of any scarcity or distress, whenever it may occur;

(9) the health of the people;

(10) any failure in the supply of fodder, the presence of disease, or the occurrence of any unusual mortality among the cattle.

Whenever cause for apprehension arises, or when specially directed by the Magistrate to do so, the District Superintendent of Police shall submit the original reports with his own remarks to the Magistrate of the district.

Special returns in time of scarcity and famine.

118. In seasons of scarcity and famine, the reports prescribed in the preceding section shall be submitted weekly, and the District Superintendent of Police shall require all Police Officers in charge of stations and outposts to submit special reports from time to time on the following additional matters:—

(1) Increase in crimes which may be attributed to a general rise in prices or scarcity of food.

(2) Wandering of needy or starving persons.

(3) Migration or immigration from, or to, the area under their charge.

(4) Deaths believed to be due to want of food.

(5) Cases of starvation or severe want.

(6) Decrease in the above symptoms of scarcity.

The District Superintendent of Police shall submit these original reports with his own remarks to the Magistrate of the district, and furnish the Sub-divisional Officer with copies of their reports.

Explanation of rise of prices above 20 per cent.

119. Where the prices of rice and other principal food-grains, referred to in clause (7) of section 117, rise above 20 per cent. over the normal rates, an explanation should be submitted by the District Officer to the Commissioner of the Division.

Local Officers.

120. Wherever patwaris or village accountants are appointed in temporarily-settled districts, they shall in times of scarcity be constituted Local Officers under this Code, and shall be called upon by the Collector to submit weekly reports of the nature prescribed in section 118.

Shall visit lanes and bye-ways.

121. The District Superintendent shall, in times of severe famine, organise a system of patrol to visit the lanes and bye-ways of towns and villages, rest-houses or serais, as well as the main roads, in order to conduct starving wanderers to the nearest relief work or poor-house, or if they are unable to go so far, to the headman of the nearest village, for the purpose of receiving relief.

Shall take precautions to protect grain.

122. He shall take extra precautions for the protection of markets and all places where grain is stored, and shall place special patrols on lines of communications along which grain is carried.

Shall require extra force if required.

123. He shall report from time to time to the Magistrate of the District what increase (if any) in the force under his command is needed. If any increase is made, he shall take the necessary steps for reducing the force when the increase ceases to be required.

124. Every Police Officer in charge of a station or out-post in a famine-stricken area shall be furnished with a sum of money sufficient to enable him in urgent cases to supply food to starving wanderers. The Superintendent of Police shall obtain from the Magistrate of the District the funds necessary for this purpose.

Shall take advance to supply food in urgent cases.

125. It shall be the duty of the Police to see that persons found dead by the roadside are properly buried or burnt by the village authorities.

Shall remove dead on roadside.

CHAPTER XI.

DUTIES OF DISTRICT BOARDS.

126. In the Resolution of this Government, Revenue Department, dated 24th January 1890, the following principles were laid down as to the duties of District Boards in times of scarcity and famine:—

District Boards must be regarded as forming an integral part of the administration, and it becomes their duty, as it is that of other departments of Government in time of serious scarcity, to subordinate the ordinary objects and methods of their expenditure to the special consideration of saving life. District Boards are the primary agency available for coping with famine, and must be expected in such crises to direct their whole resources, subject only to the maintenance of absolutely necessary works in non-affected tracts, to affording relief. This primary obligation having been carried out, it remains for Government to supplement the resources of Boards, if necessary, so as to enable them not only to combat famine, but also to perform their ordinary functions connected with the up-keep of district communications Before, then, an appeal is made by the Boards to Government for funds, all possible expenditure, beyond that absolutely necessary for bare maintenance and establishment charges, should be diverted from non-affected to affected areas, and on the opening of relief operations, the district budgets should be remodelled with this object.

The first charge for Relief works to fall on District Boards.

127. The relief operations carried on by District Boards, whether in the form of—

Gratuitous relief,
Poor-houses,
Kitchens for children, or
Relief works, (whether Civil Agency or Professional Agency).

shall be regulated by the provisions, and their officers shall be subject to the rules, laid down by the Local Government in this Code.

Who shall be guided by this Code.

CHAPTER XII.

DUTIES OF MEDICAL OFFICERS.

128. The Chief Superintending Medical Officer of the province shall, in times of scarcity, require Medical Officers in civil charge of districts to submit special monthly reports to himself and to the District Officers on the following matters:—

(1) increase of illness and disease believed to be due to want of food;

(2) number of cases of death due to want of food, or illness induced by want of food, which have been brought to his notice;

Chief Superintending Medical Officer shall require special return.

(3) number of in and out-patients received in the hospitals or dispensaries of the district, and in any special famine hospitals which may be under the control of his subordinates, with such details of the cases as may be required for the information of the Local Government;

(4) the distribution of the subordinate medical staff and any increase to it that may be required.

Shall send abstract to Local Government.

129. He shall submit a monthly abstract of these reports to the Local Government.

Shall regulate diet for famine patients.

130. He shall issue such special instructions as are necessary and advise the Local Government regarding any alterations he may consider necessary in the rules for the treatment of famine patients and in regard to their diet, and may in case of urgency issue direct any special instructions which he may consider necessary.

Shall supervise medical arrangements.

131. He shall, if necessary, personally inspect and supervise the medical arrangements for famine relief, and shall be responsible that such arrangements are duly made in all districts.

Shall report when staff is deficient.

132. Whenever an increase to the medical staff of any locality appears necessary, he shall report the matter to Government, suggesting the measures necessary, with suggestions as to the means by which it can be increased.

Shall submit a general report.

133. At the end of any period of severe scarcity or famine, he shall submit a general report on the operations of his department in connection with famine relief.

Duties of Medical Officers in Civil charge.

134. The Medical Officer in Civil charge of a district shall send copies of the monthly reports required under section 128 to the District Officer, and shall also be responsible for reporting to him all cases of death, starvation, or illness due to starvation, which may come to his knowledge.

Shall inform District Officer of any defective arrangements.

135. He shall bring to the immediate notice of the District Officer any cases in which he has reason to believe that sanitary arrangements connected with special famine institutions are not on a proper footing.

Shall inspect.

136. The Medical Officer in civil charge of a district shall, if required by the District Officer, inspect the labourers and visit the hospitals at relief works or poor-houses, and shall aid the civil authorities in making the necessary arrangements for sanitation and for the proper care of the sick.

Medical Officer attached to relief works.

137. A Medical Officer or subordinate competent for independent charge should, if possible, be attached to every poor-house and large relief work.

Shall have charge of hospital established under section 52.

138. The Medical Officer on a work shall have charge of the hospital established under section 52. He shall also constantly visit the relief work, inspecting the labourers and treating any cases which do not necessitate the patient's removal to hospital. He should also inspect the water-supply and the conservancy arrangements.

Procedure in case of dispute.

139. If any dispute arises between the Engineer or Civil Officer in charge of a relief work and the Medical Officer attached to the same regarding any matter connected with hospital management, sanitation or the health of the people on the works, the

Engineer or Civil Officer may, if he thinks fit, refer the matter in dispute, through the District Officer, to the Chief Civil Medical Officer of the province. But, pending the reference, he shall be bound to act in accordance with the Medical Officer's opinion.

Medical Officer shall report insufficient allowances of food.

140. If the wage paid or the ration given on any relief work in any famine institution appears to the Medical Officer in charge of the district or of the work or institution to be insufficient for the support of the labourers or inmates, the Medical Officer may report the matter to the district officer, who may order the ration to be increased pending the order of the Commissioner, to whom the matter shall be reported.

CHAPTER XIII.

DUTIES OF THE DIRECTOR OF THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Periodical inspection.

141. It shall be the duty of the Director of the Department of Land Records and Agriculture and his assistants to ascertain by periodical inspection that the system for the supply of information from police and local officers prescribed by section 117 and section 120 is being efficiently and properly worked in each district, and to report to the District Officer and any other authorities whom the Local Government may direct any defects in its working.

Compilation.

142. It shall be the duty of the Director to compile and collate periodically in an intelligent form the facts and statistics which are derived from the system established for the provision of the information of the character above described. For this purpose he should have full access under such rules as may be laid down by the Local Government to any statistical and agricultural returns and reports which are submitted by District Officers to the higher revenue authorities.

Agricultural information.

143. It shall be his duty to prepare from time to time after an examination both of Settlement reports and other similar sources of information which may be available, as well as of the information periodically collated in his own office, a statement of the agricultural circumstances of each tract of the Province and of the measures, if any, which are in his opinion required to improve the agricultural efficiency thereof.

Revision of Code.

144. The Director is the officer to whom the Government will primarily look for the revision and correction of this Code and for making suggestions from time to time as to the improvement of the system for Famine Warning and Famine Relief.

CHAPTER XIV.

WAGES AND RATIONS.

Full ration.

145. The full ration prescribed under this Code as sufficient to maintain able-bodied labourers in health and strength is—

	For a man. lb oz.	For a woman. lb oz.	For children.
Flour of the common grain used in the country or cleaned rice	1 8	1 4	$\frac{3}{4}$, $\frac{1}{2}$ and $\frac{1}{4}$ rations according to age and requirements.
Pulse	0 4	0 4	
Salt	0 $\frac{1}{2}$	0 $\frac{1}{2}$	
Ghee or oil	0 1	0 $\frac{1}{2}$	
Condiments and vegetables ...	0 1	0 1	

Minimum ration.

146. The minimum ration for labourers under this Code is—

	For a man.	For a woman.	For children, not being infants, below 14.
	lb. oz.	lb. oz.	
Flour of the common grain used in the country or cleaned rice	1 0	0 14	¾, ½ and ¼ rations according to age and requirements.
Pulse	0 2	0 2	
Salt	0 ½	0 ½	
Ghee or oil	0 ½	0 ½	
Condiments and vegetables ...	0 ½	0 ½	

Penal ration.

147. The penal ration prescribed for labourers sent to a poor-house for refusing to work is—

	For a man.	For a woman.
	lb. oz.	lb. oz.
Flour, grain or rice ...	0 14	0 12
Pulse	0 1	0 1
Salt	0 ¼	0 ¼

NOTE—The flour should be that of the coarsest cereal or millet ordinarily consumed and commonly purchaseable in the bazar: where rice is made the standard of wage, if should be cleaned rice. The price should be that at which the flour or rice is sold at the bazar attached to or nearest to the relief work; if flour is not sold, the price should be based on that at which the grain is sold. In calculating the price of flour, it should be remembered that flour is always dearer than the grain of which it is composed.

Minimum wage.

148. The minimum wage under this Code is the amount of money which, at the current rates authorized by the District Officer, is sufficient to purchase a minimum ration.

Definition of full wage.

149. The full wage under this Code is the amount of money which at the current prices is sufficient to purchase a full ration.

Payment for Professional Agency works.

150. Payment for labour on Professional Agency works may be made by the piece-work system ordinarily in force in the Public Works Department, provided that the rates are so fixed that the sum which a labourer can ordinarily be expected to earn by a fair day's labour shall in no case be less than the full wage prescribed in section 149, and shall exceed it only by about ten per cent.

Payment for Civil Agency works.

151. Payment for labour on Civil Agency works, where payment is made by results, shall be so arranged that the sum which able-bodied labourers can ordinarily be expected to earn shall be as nearly as possible equal to the full wage prescribed by section 149.

Payment for task work.

152. Payment for labour on Civil Agency works, where made according to task, shall be arranged at the discretion of the civil officer in charge:

Provided that in no case it be greater than 75 per cent. of the full wage, nor less than the minimum wage prescribed in this chapter.

CHAPTER XV.

ACCOUNTS.

Estimate of extra expenditure.

153. The Commissioner of a Division, when he has reason to believe that scarcity prevails or a famine is imminent in any part of his Division, shall submit to Government for sanction an estimate for the extra expenditure likely to be incurred with any details that he can furnish.*

* See section 6 (g).

154. When orders have been received from Government on the estimate, and an allotment has been made, the Commissioner shall distribute the sum so allotted, at his discretion, among the districts of his Division on estimates which the District Officers are required to submit to him not later than the 15th of each month for the following month.

Distribution of allotment.

155. The Commissioner shall return the estimate after signature and alteration (if that is necessary to show the correct sum assigned locally to the District Officer, and forward at the same time a consolidated statement of the total amount assigned each month (or on each occasion) to each district to the Account Office, registering the same in his own office.

Communication of the distribution to the Account Office.

156. The Account Office shall advise each Treasury Officer what amount has been assigned to his district, and the Treasury Officer shall make payments within the amount so advised. Every payment, as soon as made, with its date, shall be entered in the treasury, under the initials of the Treasury Officer, in lump, on the reverse of the advise, which should be carefully filed, and the progressive total of the expenditure ascertained before fresh payments are made. The unexpended balance of a monthly assignment shall not lapse, but should be added to the next assignment, and may be drawn against by the authorized disbursing officer at any time before the close of the official year, or before the close of the relief operations in the district, whichever may be earlier.

Account Office to communicate the district allotments to the Treasury Officers.

157. In case a District Officer should find his assignment insufficient, he should make a supplementary application to the Commissioner, who may sanction the amount out of the balance of his divisional assignment, or, if that be exhausted, may sanction the amount in anticipation of the approval of Government, advising the several officers in the manner indicated above.

Supplementary allotment.

158. District Officers are authorized to sub-divide their district assignments amongst responsible disbursing officers (Circle Inspectors and others) who may be authorized to undertake the administration of expenditure and to draw bills upon the treasury direct. When such a distribution of the district assignment is made, the District Officer shall inform the Treasury Officer of the amount placed at credit of each disbursing officer, who shall draw money against the credit from the treasury, as required by him, on bills signed by himself. The Treasury Officer shall note the distribution on the advice received from the Account Office, and shall see that the amount thus assigned to each disbursing officer is not overdrawn, and that the total of all does not exceed the district assignment.

Sub-division of district allotment.

159. Permanent advances on a sufficient scale, which shall be fixed by Government when occassion arises, shall be allowed to the several disbursing officers, viz:—

Permanent advances.

The Commissioner, | The District Officer,
Circle Inspector,

and any other special officers who may be appointed to administer relief or to conduct work requiring immediate payment. The permanent advance is to be employed in paying charges which, from the nature of the case, cannot

be held over until a regular bill is cashed at the Treasury, and officers who are granted permanent advances are at liberty, on their own responsibility, to allot portions of their permanent advances to select subordinates who have to carry out executive details on their behalf.

Permanent advances how to be drawn.

160. Permanent advances should be drawn from the Treasury by the officers authorised by Government on receipts stating the purpose and authority therefor, and should be refunded into the Treasury at the close of relief operations.

Register of payment.

161. Every disbursing officer shall keep a Register in which he shall enter the payments as they are made by him (Form 5.) This register shall show date of payment, name of the person to whom paid, number of sub-voucher and of contingent abstract, detailed heads of expenditure in separate columns, with particulars, total of each contingent abstract, total of each month's bill, date of detailed bill, date of submission with initials and remarks. Particular attention is drawn to paragraph 19 of Chapter 5, Civil Account Code.

Abstract contingent bills.

162. When the permanent advance from which the disbursing officer has been making payments appears to require recoupment, the disbursing officer shall rule a red ink line across the page of the register, add up the several columns, enter their cross-totals in the column of "Total of each contingent abstract," post the several totals in a form of contingent abstract (Form 8, Civil Account Code), detailing against each entry the numbers of the sub-vouchers, and entering in its proper place the description of charge, number the abstract bill in a separate monthly consecutive series, and then sign and date it. If the disbursing officer is authorized to draw money from the Treasury on bills signed by himself, he shall recoup the permanent advance by cashing the bill at the Treasury; otherwise he should first get the bill countersigned by the officer above him authorized to draw money from the Treasury before presenting it for payment at the Treasury. There is no limit to the number of recoupments allowed, so that, if necessary, they may be made every week or oftener.

Payments of demands in excess of permanent advance.

163. Where the permanent advance is running short a demand may be presented in excess of the balance: this item, too, should be charged in the register of payments and included in the abstract, the number given being that which the sub-voucher will bear when payment has been made (*see* note, Rule 8, Chapter V, Civil Account Code). It must be distinctly understood that a disbursing officer is only authorized to draw a sum in excess of the amount necessary to recoup his permanent advance when an actual immediate payment has to be made, and not in advance for prospective payments,—that is, he may draw such a bill when a payment in excess of the balance of his permanent advance has actually become due and has to be paid; but if he habitually finds it necessary to draw sums in excess of his advance for any other reason, he should immediately apply for an increase to his permanent advance. As the entries in this register of payments are to precede, not follow, the signing of the abstract bill, which will in reality be constructed from the register, it cannot possibly fall into arrears, so long as this procedure is followed.

Monthly detailed bill.

164. After the close of each month, the forward total of each column should be made in the register of payments, and when the

foot of the page is reached, it should be carried forward in ink to the top of the next. From these totals the monthly detailed bill shall be prepared in the same form as the abstract bill, but headed *Not payable at the Treasury*, and showing the monthly total of each column, with description (as in the abstract) of each charge; the numbers of the sub-vouchers shall be entered against each item; at foot shall be a memorandum of the number and date of every contingent abstract and the sub-vouchers included in each, and the amount charged in the bill must be agreed with the amount actually drawn from the Treasury within the month. It shall be signed by the officer, and submitted to the controlling officer, or, if there be no controlling officer, to the Account Office direct with sub-vouchers for all sums above Rs. 10, and a certificate in the following form:—

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the public service, be avoided. I have satisfied myself that the charges entered in this bill have been really paid. The grain charged for in the bill has been actually issued in gratuitous relief and in payment of relief wages as shown in the memorandum below. The rates prescribed by the Famine Code for wages and gratuitous relief have been observed. Vouchers for all sums above Rs. 10 in amount are attached to the bill. I have, as far as possible, obtained vouchers for other sums, and am personally responsible that they have been so destroyed, defaced, or mutilated that they cannot be used again."

Bills which require no countersignature.

165. From officers whose bills require no countersignature, monthly bills in adjustment of their contingent abstracts are not required; provided that they omit from the heading of the abstract bill any reference to future submission of a detailed bill, and that they attach the certificate of section 164 and all vouchers for sums in excess of Rs. 10.

Duties of the countersigning officer.

166. It is the duty of a countersigning officer to see that the charges made in the contingent bill are of obvious necessity, and are at fair and reasonable rates; that the vouchers are all received and in order; and that the calculations of those which he detains are correct; and especially that the expenditure has not exceeded the amount assigned to the officer.

Countersigning officer's register of bills passed.

167. On receipt of the monthly detailed bill in the office of the countersigning officer, its figures shall be transcribed in a register of the same form as the disburser's register, and the bill shall then be reviewed by the countersigning officer with the sub-vouchers. Any disallowance, with the number of the sub-voucher and the explanation of the objection, shall be noted on the bill at foot and in the "Remarks" column of the register, and the amount shown in the register in the column affected shall be corrected in red ink: explanation of the objection should be given on the reverse of the bill, if there is not room on the face. The countersigning officer will then take up register and bill together, enter in the former the date of admission under his initials, sign the bill, and despatch it to the Account Office with the large vouchers, and the following certificate in lieu of the smaller ones:—

"I certify that in support of every charge of more than Rs 10 made in this bill a receipt or other voucher has been given me, and is now in my possession. The receipts and vouchers for items in excess of Rs. 100 are attached to the bill, and I am personally responsible that the receipts and vouchers for all other items of more than Rs. 10 are in proper form and order, and that they have been so cancelled that they cannot be again used to support claims against Government.

Disallowance by the countersigning officer.

168. After despatch of the bill to the Account Office, the countersigning officer should communicate any disallowance to the disbursing

officer, and its amount should be, without fail, refunded into the Treasury. If the amount be subsequently passed by the countersigning officer, it may be redrawn. When a refund is made, a note of the same should be made in the disbursing officer's register, and the Treasury Officer should be careful to add the amount of refund to the balance shown on the back of the advice mentioned in section 156.

Establishments.

169. The pay of the extra establishments only which may be employed in connection with the relief operations shall be a famine charge. Bills for such establishments must be always made out in full detail on the usual establishment form, and must cite the authority of Government under which the establishment has been entertained, except when, under emergent circumstances, the previous sanction of Government could not be obtained, in which case the bill shall be paid, but the charge shall not be finally passed until the sanction of Government subsequently obtained is communicated to the account office. These charges are not to be drawn on abstract bills or be paid from permanent advances.

Extra allowances to officers deputed on famine duty.

170. The pay and the ordinary travelling allowances of officers and of establishments deputed on special famine duty are not famine charges. They shall be drawn in the usual way, and shall be adjusted against the departments to which the officers are permanently attached. But if any special allowances be sanctioned for these officers and establishments in addition to their substantive pay, they should be treated as famine charges.

Relief in grain.

171. In case it becomes necessary to grant gratuitous relief and pay relief wages in grain, the grain required for the purpose should be obtained on indent from the grain contractor appointed for the circle. The contractor shall draw out a bill weekly or more often, if he desires it, for the value of the grain supplied by him, attaching the receipts received by him for the grain so supplied to the bill as sub vouchers, and present it to the officer by whose authority the grain was supplied. The officer shall first check the bill to see that the quantities, rates, and charges are correct, enter the amount to be paid in his register of payments, and make out an abstract bill in the same way as in section 162. This abstract bill may be passed for payment at the Treasury to the contractor, or the amount may be drawn from the Treasury for payment to the contractor, or where convenient, can be paid from the permanent advance. In the monthly detailed bill in which the value of the grain is included, a plus and minus memorandum should be given, showing the balance of grain which was in stock at the end of the previous month, quantity charged for in the bill, total including balance, quantity issued in gratuitous relief and in payment of relief wages, and the balance in stock at the end of the month.

Register to be kept of grain supplied by contractors.

172. Every officer ordering the supply of grain by a contractor shall keep a register (Form 6) in which he shall enter the grain supplied as the contractors' bills are passed for payment. In this register he shall also enter the quantity issued in gratuitous relief and in payment of relief wages, any necessary details being obtained from his subordinates. At the close of each month this register shall be totalled and balanced, and the balance agreed with that of the plus and minus memorandum to be given at foot of the monthly detailed bill. If the balance be in charge of different

officers, an abstract should be entered at foot of the register showing the balance in charge of each.

Relief works by Professional agency.

173. Funds for relief works, which are conducted under the direct control of the Public Works Department shall be supplied to that Department by means of letters-of-credit issued in favour of the officers concerned on the application of the Examiner of Public Works Accounts. The officers shall draw money from the Treasury, as they require it, by cheques against their letters-of-credit, and shall submit their account of expenditure to the Examiner according to the rules of the Public Works Department.

Advances and loans.

174. Advances and loans for land improvement, &c., shall be regulated under the general rules laid down by Government for the purposes. The payments shall not be debited to famine, but to the ordinary heads provided for the disbursements. No special rules for these advances and loans are therefore necessary, as they shall be made, not from permanent advances, but direct from the Treasuries, on orders signed by the District Officer or other officer who may be authorized to grant such advances or loans.

APPENDIX

RULES FOR THE MANAGEMENT OF A POOR-HOUSE IN TIME OF SEVERE FAMINE.

Interior accommodation.

1. The poor-house should be divided into sleeping sheds, working yards, and offices. The sleeping shed should ordinarily be erected round the sides of the enclosure, the working yards being in front of them and the offices collected in one corner or along the side nearest the gate. The walls of the sheds should be of earth or of wattle, according as is most suitable to the climate of the locality and the time of year. They should be thatched so as effectually to keep out rain. A free current of air should pass through them, but the sheds allotted to families may have spaces divided off into cubicles or apartments for each family. Superficial space should be allowed to each sleeper, 7 feet by 4, a mat provided to sleep on, and a ticket hung up over the mat corresponding in number to that worn by the pauper. The area of the poor-house should be staked off, so as to provide separate enclosures for men, women, children, and for entire families. Families should not be broken up, but otherwise the sexes and ages should be separated. Each of these enclosures would contain the sleeping sheds and working yard of the class to which it belongs, and where this is found necessary, separate enclosures should be provided for those of good caste and those of low caste. The offices shall consist of a store-room for the grain required for food, another for the work done by the paupers, a grinding-shed, a cook-room, and an office in which the accounts would be written up and the records and registers kept.

The above sketch may serve as a suggestion as to the way in which a poor-house should be laid out and arranged.

Either inside or (which is better) outside the enclosure there should be a wall used solely for washing purpose. A trough or both should be attached to it, which should be filled

from the well, and to which the paupers should be marched in detachments to bathe as often as is thought good with reference to the climate and time of year.

Reception of applicants for relief.

In front of and near the door of each relief camp an enclosure shall be railed off in which all fresh applicants for relief shall be received, whether they present themselves voluntarily or are sent in by the police or by relief officers. In this place some superior relief officer shall attend at a fixed hour every day; either the special relief officer of the circle, or the village relief officer, or the tehsildar, or, in the absence of all these, the peshkar, to receive the applicants, and either forward them to a relief work or admit them into the relief camp.

If the severity of the famine render it necessary, some official with a supply of cooked food should be present at all hours of the day.

Food.

2. The food should be distributed twice a day, and should consist of a daily ration of the following quantities of the meal or flour of the common coarse grain of the country, or the same quantities of cleaned rice, where rice is the usual food of the people:—

For men and women	...	1 lb	flour or rice+2 oz. pulse and condiments.
For children under 12	...	½ lb.	,, +2 ,, ,,

For children in arms a special milk diet should be provided, and nursing-mothers should receive 50 per cent. above the usual female ration.

If thought necessary, a stock of food can be laid in to guard against contingencies, but ordinarily it shall be sufficient to contract with a merchant to provide the daily requirements. Care should be taken that every evening enough grain is in store for two days' supply, and enough flour for the food of the next day; the grain should be ground every day for the food of the day after. The flour should be carefully weighed out for cooking, and a definite relation fixed by experiment between the weight of the raw and the cooked food, and the latter should be tested constantly by weighment by the Superintendent as well as by the visiting official.[1]

They should also see that the food is thoroughly cooked, and is served in a state as palatable as possible. The pulse should contain a certain quantity of pepper and of spices to be fixed in each province according to the local custom. The paupers should be arranged in rows in the feeding-sheds in their own enclosures, and the number of rations required for each enclosure should be taken to them, after being counted by an official at the cook-room door, and distributed. A plate or pot should be given to each in which to receive the liquid portion of the meal. They should be supervised while eating it, and not allowed to get up till it is eaten, or to give any away; especial watchfulness is required in the case of the children, who are liable to have the food snatched from them by other children, or by adults, or who may be induced by fear to save a part of it, to give to their parents.

Establishment.

3. The establishment should consist of paupers as far as possible. The only paid officials should be the Superintendent, the accountant, and the hospital assistant; but Re. 1 per month may be paid to the overseers and to the head-cook in addition to food. Carpenters and blacksmiths, if required, may be called in and paid in cash. But all other servants in the poor-house should be paid in food, or in raw grain if their caste requires it, and

[1] The importance of frequent testing cannot be overrated. Under the most careful superintendence errors will creep in on this head if the cooks are not subject to constant inspection; and it must be remembered that, where the daily ration is cut down to a low scale, to sufficiency to sustain life cannot be ensured, if the pauper can be defrauded of even a small fraction of it.

should, as far as possible, be appointed from among the paupers themselves, not from outside.

The Superintendent.

4. The duty of the Superintendent is general supervision. He is responsible for examining the supply of grain received from the contractor, testing its quantity and quality, and entering it in the stock register; also for seeing that it is securely kept in a safe chamber under a good lock or sufficient guard. He is bound to be always present at feeding time, to see that the food is well cooked and the amount of it correct; to see that paupers are properly organized into gangs and parties, are set to work at labour suitable to their capacities, and do a sufficient quantity of work, and that all members of the establishment do their duty punctually and thoroughly. He shall muster the establishment every day, and record their attendance in a register. He shall also receive daily from the circle relief officer all new admissions, and see that their names are entered by the overseer on his muster-roll.

The accountant.

5. The accountant must always be a member of the Collector's office permanent establishment, and must be selected for this work because of his special qualifications, a temporary officiating man filling his place. He has to keep up the prescribed returns and registers.

The overseer.

6. The overseer shall keep the nominal register of the paupers in the poor-house. If there are more than 400 inmates, a second overseer may be appointed. He should ordinarily be a respectable literate inhabitant of the circle, Muhammadan or Brahman, or of other good caste, who is in distressed circumstances, and is glad to do the work for a payment of one rupee a month, plus half as much again as the daily ration, which may be given raw. He shall marshall the people in the morning to the early meal, and shall take the roll-call while it is being eaten. When it is taken, he shall write out a slip in the following form, and make it over to the accountant:—

Attendance morning of

Name of gangsman.	Men.	Women.	Children.	Total.	Total number of lb grain.

During the day he shall supervise the work of the gangs either generally or any particular set of gangs as the Superintendent may direct. In the evening he shall again marshall the people to the evening meal, and take the roll-call, and give a slip to the accountant in the same form as in the morning.

Organization of enclosures.

7. There should be a gangsman or monitor to each enclosure, a female being appointed to the female enclosure: they should be responsible for the discipline of all the residents in their enclosure at night, when at work, or when eating. If the numbers in an enclosure are small, persons of good caste can be allowed to sit a little apart in working and eating from the other members of the gang, and can have a portion of the shed walled off for them. The gangsman or monitor should, if possible, be chosen from among the more respectable and capable paupers in the poor house; if none such are available, he should ordinarily be a respectable illiterate resident of the circle in distressed circumstances, who is glad

to accept the post for the wages of a ration half as large again as the ordinary one, *i.e.*, 1½ lb of grains, which may be given raw. The discipline of the party should be kept as uniform as possible, so that people may know their work and their place and each other; they should sleep in the same shed, eat meals in the same place, and after meals go together to the same work in the same place as nearly as possible. Proper arrangements should be made as to the water-supply, the latrines and urinals, and the burial of those who die in the poor-house or hospital.

Employment of the inmates.

8. A certain number of the residents should be selected as water-carriers, sweepers, grinders, &c. and as monitors or orderly peons to enforce discipline. For the rest, such employment as they are capable of should be provided; for instance, rope-making, spinning, stone-breaking, basket-making, &c.

Medical establishment.

9. This establishment, which consists of cooks, water-carriers, rice-cleaners or grinders, guards and sweepers, should be kept down to a moderate strength, and should, as far as possible, be recruited from the paupers of the kitchen, or from respectable people of the circle who are in distressed circumstances. As a rule, they should be paid in grain, which may be given raw, if desired, at the rate of 1½lb, or for the most onerous task 2lbs. a day; but where the numbers are large, the head cook may, in addition, receive Re. 1 per mensem. The number of each class of servants should be arranged on a sliding scale in proportion to the number of paupers to be attended to. The number of cooks should be about 1 per cent. of the number to be fed, and where the resident population is very feeble, more persons must be entertained to carry and distribute the cooked food than where there are able-bodied paupers who can be so employed. Great care should be taken that the persons employed in the cooking and handling the food should be of such castes that the prejudices of the inmates should not be offended. The number of water-carriers and of sweepers should be about the same as the cooks. But for the sick in hospital probably one sweeper will be required for 25 patients. The occupation of rice cleaning or grinding is one that can be suitably given to women of respectable castes; two women in good health should easily grind thirty seers of grain a day, or enough for sixty adults; but if they are enfeebled, then two relays of two women each should be allowed for each mill. It is not intended in these rules to tie officers down to a too rigid uniformity; but every Superintendent and circle relief officer is expected to do all in his power to combine efficiency with economy.

The hospital.

10. There should be a hospital and a medical officer attached to each poor-house. The site of the hospital should be as near to the poor-house as possible, subject to sanitary considerations, and it should be selected with great care by a superior medical official. Its arrangements should correspond in all important particulars with those laid down for the hospitals on large relief works. The medical official should be appointed with due consideration of the relation between his rank and experience, and the difficulties and responsibilities of the post, the most experienced men being put in charge of the largest hospitals and poor-houses. He shall be responsible for seeing that all the requirements of a hospital are provided, and that the sheds are dry and ventilated. He shall send in to the Superintendent a daily return showing the number of sick in hospital, the daily admissions, discharges, and deaths, and

the number of rations, and the quantity of extra food required for his patients. He shall also keep up a nominal register of all admissions, of their diseases and history; and shall prepare from this such return as may be called for by his own department. He shall constantly go round and inspect the residents in the poor-house, and give out-door treatment to those in need of it, avoiding, as far as possible, any compulsion on the paupers to enter the hospital as in-patients. He should notice the condition of all the residents to see if they are improving, or the reverse; and he should report at once to the Superintendent or the civil relief officer if he believes the food to be insufficient or bad in quality. For those who are specially emaciated, he should prescribe special diet, such as milk or ghee or other nutriment. He should also report to the Superintendent if he thinks that in any case the work exacted is too severe for any of the paupers.

Inspection.

11. The poor-house is under the immediate charge of the civil relief officer of the circle, and the Superintendent of the poor-house is directly subordinate to him. But whenever a poor-house is established, a body of respectable native gentlemen shall be associated with the relief officer as a committee of management. They should be consulted on all matters connected with caste and social observances, and their influence should be exerted to spread abroad the knowledge that everything possible is done to prevent any offence being given to the sensitive feelings or prejudices of the inmates. They should be specially consulted as to the appointment of cooks and overseers, in order that no one may be appointed to whose caste any objection can be taken. One of them should be invited to visit the poor-house every day according to a roster, and specially to be present at feeding time; and the whole committee should, if possible, meet the relief officer weekly at the poor-house, where any suggestions may be offered, or any objectionable practices brought to light and stopped. The relief officer should then, accompanied by the committee, inspect the residents, and enquire into their cases and condition. Those who have improved in strength sufficiently to enable them to work should be sent to a relief work; those who have not, should, if their homes are known, and there is any reasonable prospect that they will stop there, be sent back to their homes and put on village relief.

Who are to be kept as permanent residents of poor-house.

12. The exceptions, who must be kept as permanent residents as long as the famine lasts, are (1) incurable wanderers who have been sent to their homes more than once, but have not gone or have not stayed there; (2) able-bodied professional beggars who have been sent to work more than once, but have persistently left it; (3) persons from villages in which village relief is not given.

JUDICIAL DEPARTMENT.

No. 108A.

The 16th January 1892.—Babu Hari Das Bose, B.L., is appointed to act as a Munsif in the district of Rungpore, to be ordinarily stationed at Kurigram, during the absence, on leave, of Babu Bepin Behari De, or until further orders.

The 18th January 1892.—Mr. E. P. Chapman, Officiating Joint-Magistrate and Deputy Collector, Lohardugga, is appointed, under the provisions of section 22 of Act X of 1882, to act as a Justice of the Peace within the territories under the Lieutenant-Governor's control.

The 19th January 1892.—Babu Mahadeo Pershad is appointed to be an Honorary Magistrate of the Behar Independent Bench in the district of Patna, and is vested with the powers of a Magistrate of the third class.

The undermentioned gentlemen are appointed to be Honorary Magistrates of the Independent Bench in the Gobindpore sub-division in the district of Manbhoom, and are vested with the powers of a Magistrate of the third class:—

Mr. Robert Mitchell.	Babu Modhu Sudan Singh.
,, Harby Cyril Veasey.	,, Sib Narain Singh.
Babu Banwari Lall Singh.	,, Srikantha Roy.
,, Ganga Narain Singh.	,, Pran Nath Pandit.

Babu Purno Chunder De, Additional Munsif of Buxar, on deputation at Arrah, who is about to be deputed to act as Munsif of Sasseram, in the district of Shahabad, is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 50 within the local limits of the Sasseram Munsifi, during the absence, on deputation, of Babu Srigopal Chatterjee, or until further orders.

Mr. George Anthony Marsden Rose is appointed to be an Honorary Magistrate of the Independent Bench at Diamond Harbour, in the district of the 24-Pergunnahs, and is vested with the powers of a Magistrate of the third class.

Mr. H. J. McIntosh, Joint-Magistrate and Deputy Collector, Sarun, is vested with power under section 110 of the Code of Criminal Procedure.

The Lieutenant-Governor accepts the resignation tendered by Mr. C. W. Eborall of his appointment as an Honorary Magistrate of the Jamalpore Municipal Bench in the district of Monghyr.

GRANT OF LEAVE TO MUNSIF.—*The 13th January* 1892.—Babu Bipin Behary De, substantive *pro tempore* Munsif of Kurigram, in the district of Rungpore, is allowed leave for six weeks, under article 372, rule 1 of the Civil Service Regulations, with effect from the 15th January 1892, or from the date on which he is relieved.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January 1892.—It is hereby notified that the Additional Subordinate Judge of Rungpore will hold his sittings at Jalpaiguri on the following dates during the year 1892:—

February 8th.	June 13th.	August 17th.
April 13th.	July 18th.	November 16th.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January 1892.—Under the provisions of section 7 of the Indian Registration Act, III of 1877, the Lieutenant-Governor sanctions the opening of two offices of Joint Sub-Registrars—one with head-quarters at Koter Hât in thana Hathazari, and the other with head-quarters at Zorwargunge in thana Mirserai, in the district of Chittagong. The Joint Sub-Registrar of Hathazari at Koter Hât, and the Joint Sub-Registrar of Mirserai at Zorwargunge, will have concurrent jurisdictions with the Sub-Registrars of Hathazari and Mirserai respectively.

This notification will take effect on and from the 1st February 1892.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

The 19th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the purpose of Midnapore Central Jail Cholera Camp in mouzah Lodashai, pergunnah Bhunjbhoom, district Midnapore, it is hereby declared that for the above purpose five plots of land measuring, more or less, 5 bighas 3 cottahs and 14 chittacks of standard measurement, bounded as follows, are acquired within the aforesaid mouzah :—

Plot No. 1.—In mouzah Lodashai, pergunnah Bhunjbhoom, district Midnapore, land measuring 18 cottahs and 5 chittacks, bounded on the north by jote land of Buka Maji ; east by jote land of Anand Maji ; south by public road ; west by jote land of Kartic Maji.

Plot No. 2.—In mouzah Lodashai, pergunnah Bhunjbhoom, district Midnapore, land measuring 1 bigha 11 cottahs and 2 chittacks, bounded on the north by jote land of Ananda Maji ; east by jote land of Chota Binanda Maji ; south by public road ; west by jote land of Buka Maji.

Plot No. 3.—In mouzah Lodashai, pergunnah Bhunjbhoom, district Midnapore, land measuring 9 cottahs and 12 chittacks, bounded on the north by jote land of Binanda Maji ; east by jote land of Indra Maji ; south by public road ; west by Ananda Maji's jote land.

Plot No. 4.—In mouzah Lodashai, pergunnah Bhunjbhoom, district Midnapore, land measuring 3 cottahs and 5 chittacks, bounded on the north by jote land of Indra Maji ; east by jote land of Dubraj Maji ; south by public road ; west by jote land of Chota Binanda Maji.

Plot No, 5.—In mouzah Lodashai, pergunnah Bhunjbhoom, district Midnapore, land measuring 2 bighas 1 cottah and 6 chittacks, bounded on the north by jote land of Ananda Maji, Tanu Dolai, and Patit ; east by jote land of Shaym Maji ; south by public road ; west by jote land of Indra Maji.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

COMMUNICATIONS.

The 13th January 1892.

Notification No. 14.—Whereas an application has been duly made to the Local Government of Bengal by the Bengal Provincial Railway Company, "Limited," for the purpose of authorising the construction of a Tramway between Tarkeswar and Mugra, both in the district of Hooghly, and whereas it appears to the Local Government expedient and proper that the said application should be granted, the Local Government, in pursuance of section 5 of the Bengal Tramways Act, 1883, makes the following order :—

The Bengal Provincial Railway Company, "Limited," are empowered to make the said Tramway upon the guage and in the manner described, and in accordance with the provisions contained in the schedule hereunto annexed and marked A, and whereas the Promoters of the said Tramway are not the local authority of the area in which the said Company are empowered to make the said Tramway, the agreement made between the Promoters and the said local authority is set forth in the schedule hereunto annexed and marked B.

SCHEDULE A ABOVE REFERRED TO.

Description of the Tramway.

The following is a description of the undertaking, that is to say—

1. A steam tramway (or light railway), starting from a point about 16 feet north from the edge of the platform of the Tarkeswar station of the Tarkeswar Railway, and running along its own alignment to the Mugra Gunj, near the Mugra station of the East Indian Railway, being a distance of 30¼ miles and entirely within the Hooghly district.

2. From the "zero" or "fixed point" as stated above, the line will run to Gopinagar, about 3 miles, and thence to Dasghara, 5 miles north of Tarkeswar, passing along the ridge to the west of the villages Chowtara and Barna. After Dasghara, near which the Kana Nadi will be crossed with a girder bridge of one 40 feet span resting on masonry abutments, the line will run eastward to the south side of the well-known *hât* of Dhaniakhali at about the 11th mile, and thence to the populous village of Basua, at about the 13th mile, passing through the villages Bunpur and Ghazipur. Near Bunpur the Kana Damoodar will be crossed with a girder bridge of one 40 feet span resting on masonry abutments. From Basua the line will take a north-easterly direction, and will cross the river Ghea at Kanajuli with 3 spans (girder) of 40 feet each, resting on masonry abutments and piers. After crossing the Ghea the line will run in a northerly direction, and after skirting the village Majinan will reach Gopalpur, at 16½ mile, which is the site selected for serving the important village of Bhastara and its neighbourhood. From Gopalpur the line will run eastward, skirting the south side of Dwarbasinee (at 21¼th mile) to Mahanad (at 23¾th mile). From the latter place the line will continue to run eastward over the high waste land known as Jamai Jangal up to the 28th mile, where it will leave the Jangal and taking a north-easterly direction reach the terminal station near the Gunj of Mugra, crossing the East Indian Railway line by an

under-bridge about ¼ mile up from the Mugra station. Permission of the East Indian Railway authorities for crossing their line by this under-bridge has been obtained.

3. The line will be of 2 feet 6 inches guage. Land for borrow-pits will be provided on one side only of the line, which will be fenced with galvanized iron wire on both sides, as provided in the estimates. Provision has, however, been made for enough land for a future double line. Whenever district, village, or any other important roads will be crossed, suitable arrangements for cross traffic, with gates and gate-keepers' lodges or self closing field gates, will be made. For unimportant cross communications turn or foot-styles will be provided.

Whenever during construction of the tramway any district or village road shall have to be crossed, arrangements will be made so as not to endanger, and to impede as little as possible, the traffic along such road.

4. The maximum speed to be maintained on the line will be 12 miles an hour, or such other speed as may from time to time be authorised by the Local Government.

5. There will be at the outset 13 stations, including the two terminal ones, Tarkeswar and Mugra. Arrangements for the running of the trains will be made to suit the times of the East Indian Railway and the Tarkeswar Railway, and the convenience of the passengers of the locality to be served by this line.

6. Flat-bottomed steel rails weighing 25lb. to the yard, and wooden or steel sleepers, spaced 2′ 9″ centres, over 6″ of fine ballast will be used throughout the line. The ruling gradient on the line will be 1 in 500, which will be confined to only one place for about 25 chains. The rest will vary from 1 in 1,000 to 1 in 5,000. The curves will generally have radii of 1910, 2865 and 5730 feet, and at one place only a curve with a radius of 1,432·5 feet has been found unavoidable.

7. The bridging on the line will be throughout of a simple character. Steel plate girders of 40 feet span resting on masonry abutments and piers will be provided for the principal waterways, and rolled steel joists for the less important streams. The waterway provided averages about 18 lineal feet per mile, and more will be added wherever necessary, not only for efficient drainage, but for irrigation also. The two arches of the under-bridge of the East Indian Railway line by which this line is to cross will be dismantled and made into one span of 24 feet clear, to be bridged with iron girders of a suitable design, carrying the East Indian Railway roadway on the bottom booms. This arrangement has been approved of by the East Indian Railway authorities, and the cost has been provided for in the estimates. Twenty level crossings, nine styles, and two subways will be provided along the entire length of the line, and more will be added if found necessary.

Subject to the approval of the local Government the Promoters may hereafter from time to time make all such crossings, passing places, junctions, and other works as may be required, in addition to those particularly specified in their application for this order; and the Promoters bind themselves to provide also at their own cost all level crossings that may be considered necessary by the local authority after the opening of the line.

8. Water-supply for stations and locomotives will be made from wells or tanks dug in the station-yards. At the two terminal and three intermediate watering stations cast-iron tanks of the capacity of about 2,000 gallons each, and resting on masonry structure, will be built for feeding the engines.

9. The line will nowhere run along any of the district roads. The total land to be acquired will be 768 bighas, of which 470 bighas, which will include the station compounds and land for a double line, will be permanent, and 298 bighas of a semi-permanent nature. Where the required land cannot be purchased by private treaty, it will be acquired under the provisions of Act X of 1870.

10. All the buildings will be built of bricks, with terraced, tiled or corrugated iron roofing, according to the designs submitted.

The following is the list of the buildings:—

Miles.	Place.	Description.
0	Tarkeswar ...	1st class station. Engine shed, turn-table, station staff-quarters, latrine, &c.
3	Gopinagar ...	3rd class station.
5½	Dasghara ...	2nd " "
8	Bunpur ...	3rd " "
10½	Dhaniakhali ...	2nd " " Engineer's and station staff-quarters, &c.
12½	Basua ...	2nd class station.
15	Majinan ...	3rd " "
16½	Bhastara (Gopalpur) ..	2nd " "
18	Melkee	3rd " "
21½	Dwarbasini ...	2nd " "
23½	Mahanad ..	3rd " "
27½	Kapastikree (Sultangacha) ...	3rd " "
30½	Mugra ...	1st class station. Engine shed, workshop, station staff-quarters, latrine, turn-table, &c., &c.

11. The motive power to be used on the tramway will be only locomotive engines worked by steam. In the estimates submitted the following description of engines, carriages, and wagons have been provided as types:—

(*a*) *Engines* (Kerr Stuart & Co.'s patterns):—

"Success" type:— With cylinders 8" diameter, copper fire boxes and brass tubes, steel boiler shells, spark-arresting chimney and cowcatcher, complete. Main dimensions:— Cylinders 8" diameter × 12" stroke, wheels 2' 6" diameter, wheel base 8' 6", heating surface 172 sq. ft., grate area 4½ sq. ft. Capacity of tank 350 gallons. Weight of engine loaded, 10½ tons. Tender 5 tons. Working pressure 140 lb per sq. inch. Tractive power 2,432 lb.

"Pioneer" type:—With copper fire boxes and brass tubes and of the following dimensions:—Cylinders 8" diameter × 12" stroke, wheels driving 2' 3" diameter, rigid wheel base 3' 6", total bearing surface 176 sq. inches, grate area 4½ sq. ft. Tank capacity 161 gallons. Weight of engine loaded 11 tons. Working pressure 141 lb per sq. inch. Tractive power 2,701 lb.

(*b*) *Carriages*:—

First and second class composite carriages, four-wheeled, of 15' × 6' × 7' dimensions, ½ first class, ½ second class, to carry four 1st class and eight 2nd class passengers. These will have under-frames of iron and bodies of wood with wooden roofing and sides protected by both glass and wooden shutters. Second class will be furnished with cane seats and backs, and first class with cushions. Closets will be provided for both first and second classes.

Four-wheeled third class carriages of 15½' × 6' × 7' dimensions, to carry 24 passengers each. Also third class carriages with bogie wheels of 26' × 6' × 7' dimensions, to carry 40 passengers. The frame-work of all the third class carriages will be the same as for the first and second class ones, but the third class carriages will have only wooden shutters on the sides, and will be fitted with ordinary bench seats.

Female compartments will be provided in each train.

Brakevans fitted for luggage and parcels.

(*c*) *Wagons*:—

Low-sided wagons 12' × 6' × 1'. High-sided wagons 10' × 6' × 3'. Low-sided goods wagons 12' × 6' × 1½'. Covered goods wagons, bogie wheels, 20' × 6' × 5'.

Four-wheeled covered goods wagons 12' × 6' × 5'. Bogie platform wagons 20' × 6'. Bogie covered goods wagons 15' × 6' × 5'.

Besides the engines, carriages and wagons described above, the Promotors shall have option to use other suitable patterns of engines, carriages, and wagons, provided that no patterns of engines or vehicles shall be introduced on the line, or any improvements or alterations made in them, without the previous sanction of the Local Government.

12. The dimensions of ordinary four-wheeled carriages of all classes will be limited in length between 12 and 18 feet; in breadth between 5 and 6½ feet; and in depth between 6½ and 7½ feet. The dimensions of the four-wheeled bogie carriages will respectively be between 20 and 35 feet in length, between 5 and 6½ feet in breadth, and between 6½ and 7½ feet in depth. Lengths of ordinary four-wheeled goods trucks and wagons of all kinds will be limited between 10 and 15 feet, and in case of bogies between 20 and 25 feet; the breadth in both cases will be between 5 and 6½ feet; the depths of low-sided wagons will be between 1 and 2 feet, of high-sided wagons between 2 and 3 feet, and of covered wagons between 5 and 6½ feet. The dimensions of guard's brake-van, and of brake-van and luggage-van combined, will be between 12 and 18 feet long, between 5 and 6½ feet broad, and between 6½ and 7 feet deep.

No vehicle used on the tramway shall project outwards beyond the inside edge of the rail more than two feet on each side.

13. At the outset it is proposed to fix the maximum rates of fares and tariff for goods as follows:—

(*a*) *Passengers*:—

Passengers will be divided into three classes:—

Third class passenger fare—4½ pies per mile.

Second class passenger fare—1 anna and 1½ pies per mile.

First class passenger fare—2 annas and 3 pies per mile.

To avoid transactions in pies, a whole *pice* (or 3 pies) will be charged for all fractions thereof.

(*b*) *Goods*:—

Adopting the East Indian Railway classification of goods it is proposed to fix the following scale of freights as the maximum:—

DESCRIPTION.	Per 100 mds. per mile.	Minimum charge.
		Rs. A. P.
1st class	8 annas ...	1 8 0
2nd „	10 „ ...	1 12 0
3rd „	12 „ ...	2 0 0
4th „	14 „ ...	2 8 0
5th „	16 „ ...	3 0 0

(c) *Parcels* :—

Not exceeding 5 seers and 1 c. ft. Re. 1,
" " 10 seers and 2 " Rs. 2,

and Re. 1 for each additional 10 seers and 2 c. ft. or part thereof for any distance.

(d) *Passengers' Luggage* :—

A free allowance of luggage will be made to each passenger as follows :—

1st class, 30 seers.
2nd " 20 "
3rd " 15 "

Excess will be charged at the rate of two annas per maund per mile, with a minimum charge of eight annas.

14. Electric telegraphic communication will be constructed, maintained, and worked under conditions that maybe proposed by Government.

Maintenance and Working of the Tramway.

15. In the event of any necessity arising in the carrying out of local works, in or on land occupied by the tramway, for which interference with the tramway may be considered necessary by the local Government or the local authority, the said Government or local authority may, by notice in writing, call upon the Promoters to show cause why such portion of the tramway should not be closed for traffic as may enable the said works to be carried out in safety. After considering the necessity for closing such portion of the tramway as well as any objections or suggestions that may be made by the Promoters, the local Government or the local authority may direct that the Promoters shall close the said portion of the tramway for such a period of time and under such other conditions as in the circumstances of the case may appear necessary.

The Promoters shall be bound to comply with such directions and allow the work referred to therein to be carried out, provided that, unless otherwise directed, any portion of the tramway which it may be necessary to remove in order to the carrying out of such work, shall be removed and reinstated by, or at the expense of, the said Government or local authority, or by the person or persons at whose instance the work is carried out.

In the event of the Promoters desiring that any drain, water-course, telegraph-line or other thing whatsoever, in or on the land occupied or to be occupied by the tramway, should be interfered with, or that the position of any one of them should be altered, the Promoters shall give notice in writing to the local authority and to the person or persons in charge of or interested in the things to be interfered with or altered, and shall also submit an application to the local Government; and after considering the application of the Promoters, as well as any objections or suggestions that may be made with reference to such application, the local Government may grant the application if it think proper under such conditions as in the circumstances of the case may appear fit.

16. The Promoters shall at all times maintain and keep in good condition and repair, to the satisfaction of the local Government, and so as not to be a danger or annoyance to the public and passengers using it, the permanent-way, rolling-stock, and all other belongings of the tramway.

17. All permanent and crossing stations of the tramway shall be provided with both Home and Distant signals of 20 feet in height, the Home signals being located in the platform, and the Distant signals 400 yards from the facing points at both ends of the station. The trial stations will have only the Platform signal provided with arms and lamps. The three positions of an arm by day and three colours of a lamp by night, and both by twilight, will constitute principally the warning signals. In thick, foggy or tempestuous weather detonators shall be used in addition to the regular day and night signals. Between sunset and sunrise, and during foggy weather, every train shall exhibit a red tail light and two red side lights in rear of the train, and every engine running alone shall exhibit at least one red tail light.

18. All wagons used on the tramway shall be provided with lever brakes working wood-blocks on the wheels, and all engines and brakevans with screw brakes acting on all the wheels. There shall be at least one brakevan with a person in charge of it to each train, and more shall be attached whenever found necessary.

19. If in the opinion of the Consulting Engineer or other officer duly appointed by the Government any engine or vehicle shall not appear save for use, he may prohibit the running of such engine or vehicle on the tramway. Any such prohibition shall hold good until the same is either confirmed, modified or set aside by the Local Government, and the Promoters shall be bound by whatever order may be passed by the Local Government respecting such engine or vehicle.

20. The undertaking and all works, stock and appliances appertaining thereto, shall at all times be open to the inspection and examination of any person or persons whom the Local Government may appoint for that purpose, and the Promoters shall afford all reasonable facilities for the inspection or examination to the officer making it.

21. When after inspection of the tramway or portion of the tramway or any rolling stock used thereon, the officer making the inspection under clause 20 of this schedule (A) reports to the Local Government that in his opinion the use of the tramway, or portion thereof

or of any specified rolling-stock, will be attended with danger to the public using it, the Local Government may direct that the tramway or portion thereof be closed for the public conveyance of passengers, or that the rolling-stock so specified shall no longer be used, as the case may be.

22. When the tramway or any portion of the tramway has been closed under clause 21 of this schedule (A), it shall not be re-opened for the public conveyance of passengers unless and until it has been inspected and its opening sanctioned by the Local Government.

23. When the Local Government has under clause 21 of this schedule (A) prohibited the use of any rolling-stock, the said rolling-stock shall not be used unless and until the officer named in clause 20 of this schedule (A) reports that it is fit for use, and the Local Government sanctions its use.

24. When from accident or flood, or by reason of the execution of local works under the provision contained in clause 15 of this schedule (A), or from any other reason, it is in the opinion of the Local Government necessary or expedient to remove or discontinue the use of the tramway, or any part thereof, the Promoters, subject to such conditions and in accordance, in all respects, with such regulations as the Local Government may make from time to time, may construct and maintain, so long as occasion may require, a temporary tramway in lieu of the tramway or part of the tramway removed or discontinued.

25. The tramway may be used for the purpose of conveying passengers, passengers' luggage, animals, goods, minerals and parcels. But the Promoters shall have the liberty to refuse to carry any person or any animal suffering from any infectious or contagious disorder and articles that may be declared dangerous or offensive by their bye-laws to be framed under section 27 of the Bengal Tramways Act, 1883.

26. In the event of it being necessary for any railway line to cross the tramway, under the authority of the Government, on the level or otherwise, the Promoters shall not be competent to raise any objection, provided that the expenses incurred by the Promoters on account of any interference with their line that may be necessary for such crossing shall be borne by the administration of the railway authorised to cross.

27. The Promoters shall not have power to transfer the undertaking without previous sanction of the Local Government, otherwise than as provided in clause 5 of schedule B to this order.

Liabilities and penalties.

28. In the case of accidents and offences the Promoters agree to bind themselves by the requirements, conditions, and penalties provided in Chapters VIII, IX, and X of the Indian Railways Act, 1890 (Act IX of 1890).

29. The Local Government may hereafter from time to time apply in the case of this tramway such other provisions of the Indian Railways Act, 1890, as may appear to it necessary and expedient.

30. The Promoters shall, within three months from the date of this order, commence the construction of the said Tramway. In the event of the said Promoters failing so to commence the construction of the said Tramway, the Local Government shall be at liberty to revoke this order, and the local authority shall be at liberty to enter into any arrangement with any other person or persons for the construction of a tramway from Tarkeswar to Mugra.

31. The Promoters shall complete in every respect (ready for opening and working for traffic) the said Tramway now to be constructed, and all necessary plant, buildings, stores, live-stock and rolling-stock within two years from the date of this order. In the event of the said Promoters failing so to complete the work, the Local Government shall be at liberty to revoke this order, and the local authority shall be at liberty to enter into any arrangements with any other person or persons for the construction of a tramway from Tarkeswar to Mugra.

32. If the Promoters fail in any respect to comply with any of the provisions of the said Act III of 1883, especially sections 14, 15, 16, 17, 20, and 22, and the local authority shall find it necessary or desirable to do anything or incur any expense to remedy any such failure on the part of the said Promoters, all expenses so incurred shall be on demand repaid to the local authority by the said Promoters, and the certificate of the chief officer of the authority shall be conclusive evidence that all expenses referred to in such certificate were so incurred, and the said Promoters shall not be at liberty to dispute the same.

33. If the Promoters fail to observe the conditions or directions contained in or made under this order, they shall for such violation be liable to a penalty which may extend to two hundred rupees, and in the case of a continuing violation, to a further penalty which may extend to fifty rupees for each day after the first during which the violation continues.

SCHEDULE B ABOVE REFERRED TO.

Agreement between the Promoters and the Local Authority.

AN Agreement made this 16th day of October 1890 between the District Board of Hooghly, incorporated under the Bengal Local Self-Government Act of 1885 (and hereinafter called "the Board"), *of the one part*, and Peary Mohan Mookerjee of Uttarparah, Nundo Lall Gossain of Serampore, Ahmed Bux of Dhaniakhali, Chandi Lal Sinha of Calcutta, Sriram Chandra Bose and Annada Prosad Roy of thana Dhaniakhali, and Amrita Lal Roy of Calcutta, (and hereinafter called "the Promoters"), *of the other part*: Whereas the Promoters are desirous to promote the construction of a Tramway to be worked by steam power from Tarkeswar to Mugra, skirting or passing through such villages as Dasghara,

Dhaniakhali, Bhastara, Dwarbasini, Mahanad, and Sultangacha, and have applied to the said Board for a concession to the Promoters of the right to construct and work such Tramway within the jurisdiction of the Board, and the said Board have granted such concession (provisional on the same being sanctioned by the Government of Bengal) upon the terms and conditions hereinafter set forth—

Now these presents witness that it is hereby mutually agreed as follows:—

1. That for the purpose of making the proposed line, the Promoters shall not ask the Board for free grant of land.

2. That no portion of the proposed line shall be laid along any road under the control of the Board.

3. That the Promoters shall see that the construction of the Tramway is finished within a period of two years from the date of publication in the Government Gazette of the order authorising them to proceed with the works.

4. That the Promoters shall take care, in the event of their constructing the Tramway, to place the necessary level-crossings wherever the line crosses any of the roads belonging to the Board.

5. That in the event of the Board wishing to purchase the Tramway of its proprietors at the end of 21 years, under the provisions of section 41 of the Bengal Tramways Act, 1883, the Promoters bind themselves to make it over at a price two-fifths in excess of the original outlay of capital.

6. That the Promoters shall pay no rent to the Board for the crossings, and they shall not ask the Board to give them any guarantee of interest or other pecuniary aid.

As witness the hands of the parties the day and year aforesaid.

F. J. JOHNSTONE,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 18th January 1892.

No. 5 Marine—In exercise of the powers conferred upon him by section 6 of Act X of 1889 (the Indian Ports Act), the Lieutenant-Governor is pleased to make the following rules under sub-section (1), clause (P) of that section, for regulating the action to be taken by a master when there is disease or sickness or a dead body on board his vessel in the port of Chittagong:—

Rules.

1. On the occurrence of a case of cholera, small-pox or other dangerously communicable disease on board any ship lying in the port, the master shall, as early as possible, send the affected person to hospital, and shall cause the flag R to be hoisted at the fore as a signal to the Health Officer of the Port, and such signal shall not be lowered until the Health Officer has visited the ship.

2. The master shall afford such information in regard to the occurrence of the disease as the Health Officer may require, and shall carry out such reasonable instructions regarding the cleansing and disinfection of the vessel, and the disposal of polluted clothing, bedding, &c., as that officer may consider it necessary to give.

3. If by reason of the prevalence of any dangerously communicable disease on board any ship, the Health Officer considers it absolutely necessary for the safety of the crews of other vessels that such vessel should be segregated, the Health Officer shall furnish the master with a certificate to that effect. The master shall, on receipt of such certificate, forthwith give notice accordingly to the Harbour Master, and the vessel shall be removed to such place as the Port Commissioners may direct.

4. On the occurrence of a death on board the master shall, without delay, inform the River Police, whose permission shall be obtained before the corpse is removed.

J. M. MCNEILE, *Col.*, R. E.,
Secretary to the Government of Bengal.

The 19th January 1892.

No 6 Marine.—Under the powers conferred upon him by section 29 of the Inland Steam-vessels Act, 1884 (as amended by subsequent enactments), the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following rules in supersession of those made under that section and published in the appendix to the *Calcutta Gazette* of the 15th October 1890, to regulate the granting of certificates of service to Masters, Engineers and first class Engine-drivers of inland steam-vessels.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

1. A certificate of service will be granted to any person who has served as a master or as an engineer, or as an engine-driver of an inland steam-vessel before the first day of April 1890, and who, in the opinion of the Local Government, is qualified for the duties which such certificate will entitle him to perform.

2. Applications for certificates of service must be made upon the appropriate form [Certificate of Service 1], and must be submitted to the Port Officer of Calcutta, together with the applicants' testimonials and any other evidence which they may have to offer in respect of their qualifications.

3 A fee according to the following scale shall be paid for each certificate of service:—

	Rs.
First class master	10
Second ditto	5
Engineer	10
First class engine-driver	5

4. Certificates of service shall be made and issued in the forms hereunto annexed.

5. Every certificate of service shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded by the Port Officer of Calcutta.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 6th January 1892.—Babu Jadab Krishna Das, Fifth Master of the Hindu School (Class VI), was absent on leave from the 14th to the 20th December 1891, both days inclusive, under Article 369 of the Civil Service Regulations.

The 11th January 1892.—Mr J. D'Silva, Assistant, Office of the Director of Public Instruction (Class VI), is allowed leave of absence for two months, under Article 291 of the Civil Service Regulations, with effect from the 4th January 1892.

The 13th January 1892.—Babu Adhar Chandra Mookerjea, Assistant, Office of the Director of Public Instruction (Class V), is allowed leave of absence for one month, under Article 291 of the Civil Service Regulations, with effect from the 5th January 1892.

Babu Ramdhani Pande, Head Master of the Darjeeling Zillah School (Class VI), is allowed leave of absence for one month, under Article 306(*b*) of the Civil Service Regulations, with effect from the 15th December 1891, or any subsequent date on which he may have availed himself of it.

Babu Abinash Chandra Sen, B.A., Second Master of the Darjeeling Zillah School, is appointed to act as Head Master of the same institution and in Class VI, during the absence, on leave, of Babu Ramdhani Pande, or until further orders.

Babu Ambika Charan Bose, Head Assistant, Office of the Director of Public Instruction (Class II), was absent on leave for eight days, under Article 291 of the Civil Service Regulations, in extension of that granted to him under orders of this office dated the 27th October 1891.

Mir Sujjad Ali, Third Master of the Chupra Zillah School (Class VI), under orders of transfer as Third Master of the Monghyr Zillah School, is appointed to act on probation as Deputy Inspector of Schools, Maldah, on the pay of his own grade, with effect from the 1st January 1892, or any subsequent date on which he may join his new appointment, *vice* Babu Raj Krishna Rai Chaudhuri, retired.

The orders of this office, dated the 12th November 1891, appointing Babu Mohendro Nath Ghosh, Third Master of the Monghyr Zillah School (class VI), to be Third Master of the Chupra Zillah School, on the pay of his own grade, with effect from the 27th December, *vice* Mir Sujjad Ali, is cancelled.

The 14th January 1892.—Babu Jadab Krishna Das, Fifth Master of the Hindu School (class VI), having returned to duty on the forenoon of the 18th December 1891, the unexpired portion of the leave granted to him under this office order, dated the 6th January 1892, is cancelled.

The 16th January 1892.—Babu Baikuntah Nath Ray, B.A., Second Master of the Dacca Collegiate School (class IV), having returned to duty on the forenoon of the 19th December 1891, the unexpired portion of the leave granted to him under this office orders, dated the 2nd December 1891, is cancelled.

The 18th January 1892.—Babu Raghunath Ghosh, Departmental Sub-Inspector of Schools, Cuttack (substantively *pro tempore* in class VI), acted in class V for the period during which he officiated as Deputy Inspector of Schools in that district, viz., from the 24th July to the 11th November 1891, both days inclusive.

In supersession of the orders of the 23rd November 1891, Babu Parma Nand, Second Master of the Patna Training School (class V), is allowed leave of absence for fifteen days, under Article 309 of the Civil Service Regulations, with effect from the date on which he may have availed himself of it.

Babu Saligram Tewari, Third Master of the Patna Training School, is appointed from that date to act as Second Master of the same Institution, and to act in class V, *vice* Babu Parma Nand, on leave, or until further orders.

A. CROFT, *Director of Public Instruction.*

Examination of Candidates for Pleadership and Mookhtarship in Mofussil Courts subordinate to the High Court.

THE next examination of candidates for Pleadership will be held on the 22nd, 23rd and 24th February next in the Senate House of the Calcutta University.

The next examination of candidates for Mookhtarship will be held at Calcutta, Patna, Dacca, Cuttack, Gauhatty and Sylhet on same days; the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership candidates will be examined *viva voce* only on the 22nd February, commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 23rd and 24th February. Two papers will be set for the Mookhtarship candidates on the 22nd February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 23rd and 24th February commencing at 10 A.M. each day.

Under no circumstances will any candidate be admitted to the examination-room after these hours.

The candidates will be required to produce at the examination extracts from the register which will be furnished to them by the District Judge through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination-room with any memoranda or loose papers of any description (with the exception of the extracts abovementioned).

All writing materials will be provided, with the exception of pens, which the candidates must bring with them.

HENRY T. HYDE,
Secy. to the Board of Examiners for Pleadership and Mookhtarship.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1793B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1889 90, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 1st February 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.

NOTIFICATION.

The 16th January 1892.—It is hereby notified for general information that, under section 138 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to amend Rule 54 of the Rules made under clause (*a*) of the said section for the election of members of District Boards, as follows:—

Rule 54.—Within one month of the publication of the notification referred to in clause (*a*) of the preceding rule, or the notification referred to in clause (*b*) of the same, whichever be later, the Local Board shall at a meeting elect the requisite number of members for the District Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board present at such meeting. If any Local Board fail to elect members of the District Board within the appointed time, the Lieutenant-Governor shall appoint the requisite number of such members.

H. H. RISLEY,
Offg. Secy to the Govt. of Bengal.

NOTIFICATION.

The 18th January 1892.—It is hereby notified that, under section 19, Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to appoint Babu Anund Gopal Mukherjee to be a member of the Uluberia Local Board in the district of Howrah, *vice* Babu Narendra Narain Kur, deceased.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th January 1892.—It is hereby notified that, under sections 10 and 19 of Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to appoint Babu Shyama Kumed Mookerjee to be a member of the Sudder Local Board in the district of Burdwan, *vice* Babu Annada Prosad Mookerjee.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th January 1892.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr. G. Sam to be a Commissioner of the Sahebgunge Municipality in the district of the Sonthal Pergunnahs, *vice* Mr. W. Macpherson, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th January 1892.—Whereas a notification, dated the 7th September 1891, was published at page 208, Part IB of the *Calcutta Gazette* of the 9th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of section 332 of Act III (B. C.) of 1884 to Bazarparah in Ward No. VI, and of the whole of Part IX to Ward No. XII of the North Barrackpore Municipality, in the district of the 24-Pergunnahs, and whereas no valid objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the North Barrackpore Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the Municipality.

H. H RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January 1892.—It is hereby notified for general information that, under section 6, clause (*c*) of Act I (B.C.) of 1885, the Lieutenant-Governor is pleased to establish a public ferry over the Telkupi Khal, in the village of Bhangabaria, in the district of Pubna.

H. H. RISLEY,
Offg Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January 1892.—It is hereby notified that the Lieutenant-Governor is pleased, in the exercise of the power conferred on him by section 35 of the Bengal Ferries Act I (B.C.) of 1885, to direct that the Telkupi ferry over the Telkupi khal, in the village of Bhangabaria, in the district of Pubna, shall be managed by the District Board of Pubna and that all the proceeds of the said ferry, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the district fund with effect from the date of this notification.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January 1892.—It is hereby notified that, under section 59 of Act III (B.C.) of 1884, the Lieutenant-Governor approves the election, under section 27 of the Act, by the Commissioners of the Serajgunge Municipality in the district of Pubna, of Babu Amrita Lal Mozumdar, Assistant Surgeon, to be their Chairman, *vice* Mr. J. C. Robertson, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th January 1892.—It is hereby notified that, under section 27, Act III (B. C.) of 1884, the Lieutenant-Governor is pleased to appoint Lieutenant-Colonel H. Boileau, Deputy Commissioner, to be the Chairman of the Julpigore Municipality, *vice* Mr. J. H. E. Garrett.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 16th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Krishnagar Municipality for a public purpose, viz., for the establishment of a cattle-pound in the town of Krishnagar, pergunnah Ukhra, zillah Nuddea, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 cottahs and 5 chittacks, is required. The land is bounded on the north by the tank attached to the Kotwali police station; on the east by the brick wall of Baushi constable's house and by fallow land plot No. 2; on the south by the footpath joining the house of Baushi constable with the High Street; and on the west by the High Street.

This declaration is made, under the provision of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 16th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Ghatal Municipality for a public purpose, viz., for the extension of the compound of the Ghatal Charitable Hospital in the *Pati* Alumgunge in mouzah Nischintipur, pergunnah Borda, town Ghatal, zillah Midnapur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah and 10 chittacks of standard measurement, is required. The land is bounded on the north by Gobinda Poddar's house; on the south by a lane leading to the Assistant Surgeon's quarters and the Municipal hospital; on the east by the residence of the Assistant Surgeon in charge of the Dispensary, and on the west by the Gambhirnagore road and its drain.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 16th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Bankoora Municipality for a public purpose, viz., for extending the Hospital Assistant's quarters in the village of Bankoora, pergunnah Chatna, zillah Bankoora, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah and 5 gandas of standard measurement, is required. The land is bounded on the north, west and south by lands claimed by Digambar Pal and others under a *mokrari* title, and on the east by houses forming the major portion of the Hospital Assistant's quarters.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

Falakata Fair.

NOTICE.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on February 3rd, 1892 (A D.), corresponding with 21st Magh 1298 (B.S.), and will continue up to February 18th, 1892. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri-horns, yak-tails, musk, honey, wax, lax, ponies, and various other articles from Bhootan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojnai very conveniently for river traffic from East Bengal, viz. Dacca, Goalundo, Serajgunge, Manikgunge, &c., and within easy reach of Jalpaiguri and Cooch Behar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shop-keepers and special police arrangements for safety of property and goods exist. Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE,
Sub-Divisional Officer, Alipur Duars.

Alipur Duars, the 19th December 1891.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal *from* Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta eries is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

Calcutta Series	2	0	0	2	0	0
Each of the Madras, Bombay and Allahabad Series ..	1	0	0	1	0	0

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be applied, or advertisement, notice, &c., inserted in either of the Gazettes

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK AND CO., Government Place, Calcutta.

Notice.

The 29th March 1886.—The subscription to, and postage *for*, the *Calcutta Gazette* will henceforth be at the following rates, payable in advance:—

Half ,, ,,	...	...	,, 10

Casual advertisements, 4 annas per line.

Notice.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month

Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

List of Books for sale at the Library of the Asiatic Society of Bengal, No. 57, Park Street, Calcutta, and obtainable from the Society's London Agents, Messrs. Trubner and Company, 57 and 59, Ludgate Hill, London, E. C.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, JANUARY 20, 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 9.

[First Publication.]

AUSTRALIA—TORRES STRAIT—INNER ROUTE.

Existence of a reef on the north-east coast of Queensland.

THE Portmaster, Brisbane, has given notice (No. 38 of 1891) that a reef which dries 3 feet in places at low water spring tides extends about three quarters of a mile N. E. by N. from Tern Island.

The outer extreme lies in the following position :—

Shadwell Peak, S. 65°W. ... ... $1\frac{9}{10}$ miles.
X Reef Beacon, N. 10°W. ... ... $5\frac{7}{10}$ „

By keeping the point marked on Chart No 2354, "Remarkable Red Cliffs," near Left Hill, just open of No. II point S. by E., a vessel will pass nearly half a mile outside this danger.

Bearings are magnetic.

Chart affected, No. 2354.

CHARLES S MILLS,
for Port Officer of Calcutta.

Published for general information.

W. B. BESTIC,
Under-Secretary, Marine Department.

CALCUTTA, *the 11th January* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 10.

[First Publication.]

AUSTRALIA, EAST COAST—INNER ROUTE.

Decreased depth on Khandalla shoal.

THE British Admiralty has given notice (No. 601 of 1891) that a rock, with 13 feet over it at low water spring tides, has been found on the western edge of Khandalla shoal. Two fathoms has therefore been substituted for the 3 fathoms heretofore shown on the Admiralty Charts, as the least depth on the danger.

Approximate position, lat. 13° 25′ 55″ S., long. 143° 40′ 25″ E.

CHARLES S MILLS,
for Port Officer of Calcutta.

JAPAN—YEZO ISLAND.

Fixed lights on Daikoku sima and at Urakawa; and fixed red light at Horo izumi.

The British Admiralty has given notice (No. 602 of 1891), that on 1st November 1891 a light (named *Moro ran*) would be exhibited from a lighthouse erected on Daikoku sima, at the entrance to Sinmororan or Endermo harbour:—

Moro ran light is a *fixed white* light, visible through an arc of 304°, or from the bearing of N. 5° W., through east, to N. 61° W.; a sector of *red* light is shown from S. 45° E. to S. 31° E., covering the sunken rock at the entrance to the harbour, bearing S. 38° E., distant about 7 cables from the light, and on which there is a depth of 3½ fathoms at low water spring tides, not 5 fathoms as heretofore charted. The light is elevated 134 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of wood and hexagonal in shape, is painted white, with a black horizontal band round the middle part of it.

Approximate position, lat. 42° 20′ 55″ N., long. 140° 55′ 45″ E.

Fixed light at Urakawa.

Also, that on 1st November 1891, a light would be exhibited from a lighthouse erected at Urakawa, eastern shore of Urakawa bay:—

Urakawa light is a *fixed white* light, visible through an arc of 153°, or from the bearing of N. 40° W., through east, to S. 67° E. It is elevated 128 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of wood and square in shape, is painted white, with a black horizontal band round the middle part of it.

Approximate position, lat. 42° 11′ N., long. 142° 45′ E.

Fixed red light at Horo izumi.

Also, that on 1st November 1891, a light would be exhibited from a lighthouse erected at Horo izumi, situated about 6 miles north-west from cape Yerimo:—

Horo izumi light is a *fixed red* light, visible through an arc of 140°, or from the bearing of N. 11° W., through east, to S. 51° E. It is elevated 72 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, is a square wooden tower, painted white.

Approximate position, lat. 42° 1′ N., long. 143° 11′ E.

JAPAN—SOUTH COAST—BUNGO CHANNEL.

Particulars of sunken rocks near Okinoso and Jinoso.

THE British Admiralty has given the following particulars (No. 607 of 1891) relative to the two undermentioned sunken rocks lying respectively near Okinoso and Jinoso, on the eastern shore of Bungo channel—the result of recent examination of the locality:—

1. With reference to Notice to Mariners, No. 485 of 1890:—The sunken rock, originally reported as lying about 4 cables in a S.S.W. direction from Okinoso, is about one cable in extent, with a least depth of 6 feet on it at low water, and is situated with Okinoso bearing N. ¼ E. distant 3 cables, and the south end of Jinoso E.N.E.

Approximate position: lat. 32° 53′ N.; long. 132° 27′ 20″ E.

2. A sunken rock, with 4 fathoms on it at low water, lies with the south end of Jinoso bearing E. by S. ½ S., distant 2½ cables, and Oji sima summit N.W. ¾ N.

Approximate position: lat. 32° 53′ 30″ N.; long. 132° 28′ 20″ E.

BURMA COAST—GULF OF MARTABAN.

Position of the "Sultan Secunder"—water-logged and abandoned.

CAUTION.—A telegraphic communication has been received from the Port Officer, Rangoon, giving notice, that the British brig *Sultan Secunder*, timber laden and water logged, has been abandoned in about latitude 15° 40′ north; longitude 96° 7′ east. Her deck and masts are above water. Navigators are warned accordingly, and a good look-out should be kept, as the derelict is drifted with the tides with topsails and foresail set.

EASTERN ARCHIPELAGO

BANDA SEA—KE ISLANDS.

Reef northward of Rumadan island.

THE British Admiralty has given notice (No. 619 of 1891) that the Commander of H. N. M. S. *Van Speijk* reports the existence of a reef lying about 5 miles northward of Rumadan island, Ké islands:—

The reef northward of Rumadan island, about 3 cables long in a south-east and north-west direction, has probably less than 2 fathoms water on it, and is visible from discolouration of the water and rippling of the tide.

Approximate position, lat. 5° 23′ 10″ S., long. 132° 43′ 40″ E.

AUSTRALIA—North-West coast.

Non-existence of certain reefs; and particulars of Baleine Bank and Walker rock.

The following Notice to Mariners (No. 624 of 1891) issued by the British Admiralty is republished :—

The following information has been received from Commander W. U Moore, H. M. Surveying vessel *Penguin*, dated October 1891—the result of recent examination of the several localities on the north-west coast of Australia :—

(1) *Non-existence of reef in lat.* 13° 35′ *S., long.* 125° 13′ *E.*

Search was made during three days, under favourable conditions of sea, for the reef charted as lying in about lat. 13° 35′ S., long. 125° 13′ E., and marked as "not seen in *Cushie Doe*, 1831;" an area extending about 10 miles around this position was sounded over, but no trace of shoal water was observed. The depths obtained were 30 to 45 fathoms, over an even bottom, consisting generally of coral, sand, and shells.

Consequent on this unsuccessful search, the reef has been removed from the Admiralty Charts.

(2) *Non-existence of Expedition Island.*

Expedition island, originally reported by the Commander of the barque *Tien Tsin* in 1865, and charted as lying (the centre) in approximately lat. 15° 34′ S., long. 123° 46′ E. The *Penguin*, drawing 17 feet water, was anchored in the above position in 32 fathoms water; an examination for a radius of 3 to 5 miles showed that the bottom was uneven, and there were indications of shoal water 3 miles to the west and north-west of the vessel, but no land or sandbank was visible from aloft at low water neap tides. The *Penguin* approached the reported island on the bearing S. by W. distant 8 miles, and left it bearing N. by E. distant 30 miles, without seeing any danger. The description given of this island agrees fairly well with that of Adèle island lying in the same parallel of latitude, but about 33 miles westward.

Consequent on this examination, Expedition island has been removed from the Admiralty Charts.

Note.—Shoal water extends farther south of Adèle island than has heretofore been charted. The *Penguin* found very uneven bottom in lat. 15° 45½′ S., long. 123° 17′ E., the least depth being 8 fathoms over coral. Nothing, however, was seen to indicate danger, but the locality should be navigated with caution.

(3) *Particulars of Baleine Bank and Walker rock.*

1. Baleine bank, marked P. D. The western point of this bank lies in lat. 16° 46′ S, long. 121° 49′ E.; thence it was examined for a distance of 5 miles eastward, the general depths being 24 feet over coral, and the least water 18 feet. The bank appeared to extend some miles farther eastward.

Note.—The locality around the 7 fathoms struck in 1890, in lat. 16° 43′ S., long. 121° 37′ E., has been examined, but no danger was found; depths of 12 to 18 fathoms over coral exist between it and Baleine bank; the sea was much discoloured with patches of mud and lime, having the appearance of sunken rocks, but none were discovered.

2. Walker rock, a small coral patch with 24 feet water on it, is situated in lat. 16° 52½′ S., long. 121° 48½′ E.

Note.—The tides in the neighbourhood of Baleine bank are rotatory, with a velocity of one to 2½ knots an hour; the flood stream at first makes South, and works round eastward; at half flood it sets East; and at high water North; the ebb stream at first sets North, and works round westward; at half ebb its direction is West, and at low water South.

AUSTRALIA—EAST COAST—KEPPEL BAY.

Amended position of sunken rock eastward of Great Keppel island, and sunken rock eastward of Bald rock.

WITH reference to Notice to Mariners, No. 164, dated the 31st August last, issued by this office, the British Admiralty has given further notice (No. 590 of 1891) that from an examination made by the Harbour Master of Rockhampton, it is found that the sunken rock (*Hannah rock*) lying eastward of Great Keppel or Wapparaburra island, and originally reported by Mr. Hannah, Coast Pilot, has about 9 feet water over it, and lies with the south-east extreme of Humpy island bearing S.W. ½ W., distant $1\frac{9}{10}$ miles, and Bald rock N.W. by N. ½ N.

Approximate position: lat. 23° 12′ 15″ S.; long. 151° 1′ 35″ E.

Also, that Captain Sykes has reported the existence of a pinnacle rock (*Sykes rock*), with about 6 feet water over it, lying with Bald rock bearing about W. by N., distant 5 cables.

Approximate position: lat. 23° 10′ 35″ S.; long. 151° 1′ 15″ E.

	Narail ...	Nil	
	Bongong ...	Nil	
11	Murshedabad ,, 16, 92	Nil	Weather—seasonable. Harvesting of winter rice almost finished. Prospects of *rabi* crops not favourable. Fodder and water sufficient for cattle. Fifteen head of cattle died of small-pox in Kandi subdivision.
CHITTAGONG DIVN. 12	Chittagong ,, 16, '92	Nil	Weather—seasonable. Harvesting of *aman* still continues. Prospects unchanged. Average outturn estimated at 11 annas. Cold-weather crops doing well. Prices show a tendency to rise. Condition of cattle good. Fodder sufficient.
13	Noakhally ,, 16, '92	Nil	Weather—seasonable. Harvesting of *aman* paddy, completed; outturn 10 annas. State of *rabi* crops good. No cattle-disease. Fodder and water available. Price of common rice in Sudder subdivision 15 seers per rupee and in Feni subdivision 16 seers per rupee.
14	Tipperah ,, 16, '92	Nil	Weather—seasonable. Harvesting of paddy (*aman*) completed. Winter crops promising. General health of cattle good. Fodder sufficient.
15	Chittagong Hill Tracts. ,, 15, '92	Nil	Weather—seasonable. Gathering of plough-paddy over. Winter crops progressing. Cattle-disease continues. Price of common rice 10 seers 10 chittacks per rupee.

No	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
Dacca Divn. 16	Dacca Jan. 16, '92	Nil	Weather—seasonable. Harvesting of *amas* completed. Winter crops are progressing favourably. Fodder available. Common rice selling at from 14 to 17 seers per rupee. Condition of cattle fairly good.
17	Furreedpore „ 16, '92	Nil	Weather—seasonable. State of *rabi* crops fair, but rain wanted. Sowing of *jali* paddy in progress. Rice selling at 15, 16, and 13 seers per rupee at Sudder, Madaripore, and Goalundo respectively. Condition of cattle good, and fodder-supply sufficient.
	Goalundo ...	Nil	
	Madaripore ...	Nil	
18	Backergunge „ 16, '92	Nil	Weather—foggy in the morning. Prospects of crops good. Common rice selling at from 10 to 16 seers per rupee. Supply of fodder and water sufficient.
19	Mymensingh „ 16, '92	Nil	Weather—cold with foggy mornings. Prospects of crops fair. Common rice sells at 15 seers per rupee. Condition of cattle good. Supply of water and fodder on the whole sufficient.
Rajshahye Divn. 20	Dinagepore „ 16, '92	Nil	Weather—cool. Harvesting of winter rice almost over. Outturn estimated to be 6 annas, taking 16 annas to represent the average outturn. Mustard estimated to be 12 annas. Sugarcane being pressed. Cultivation of lands for *bhadoi* and jute in progress. Price of rice both at Sudder and Thakurgaon stationary. Condition of cattle good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	Nil	
21	Rajshahye „ 16, '92	Nil	Weather—cool and seasonable. Harvesting of winter rice crop almost over; average outturn expected to be 8 annas. Price of common rice varied from 13 to 17 seers per rupee. Condition of cattle good except that some disease reported from Nowgong. Fodder plentiful. Drinking water sufficient.
	Nattore ..	Nil	
	Nowgong ...	Nil	
22	Rungpore „ 16, '92	Nil	Weather—cold and cloudy. Harvesting of *amas* nearly finished. Harvesting of mustard, &c., commenced. Prospects as before. Cold-weather crops promise a fair yield. Ploughing for *aus* going on. Price of common rice has risen in Kurigram to 9 seers a rupee. In Gaibanda it is 14 to 18 seers, in Sudder 10 to 12 seers, and in Nilphamari 13 seers a rupee. Fodder sufficient.
	Gaibanda ...	Nil	
	Nilphamari ...	Nil	
	Kurigram ...	Nil	
23	Bogra „ 16, '92	Nil	Weather—seasonable. *Amas* harvest over; an average outturn of 8 annas expected. All *rabi* crops good. Price of common rice 13½ seers per rupee. Fodder and water sufficient.
	Sherpur ...	Nil	
	Nowkhilla ...	Nil	
24	Pubna „ 16, '92	Nil	Weather—cool and clear. *Amas* paddy still being reaped, as also sugarcane. Sugarcane may yield 12 annas and mustard 10 annas. Other crops fair. Price of common rice 13 to 14 seers per rupee. Water-supply and fodder sufficient.
25	Darjeeling „ 16, '92	Nil	Weather—cold. Winter paddy nearly harvested. Sugarcane, mustard, wheat, barley, and *jafar* doing well. Fodder and water-supply sufficient. No disease among cattle. Prices of common rice:—

	Srs.

Phansidewa	11½	
Nazalbari	12	
Kurseong	10	

26	Jalpaiguree „ 16, '92	Nil	Weather—seasonable. Harvesting of *haimanti* paddy nearly completed; outturn very poor. *Rabi* crops promising, but rain wanted. Price of common rice still shows a tendency to rise. No cattle-disease. Fodder and water-supply sufficient.
BEHAR.			
Bhagulpore Divn. 27	Monghyr „ 16, '92	Nil	Weather—not so cold as usual at this time of year. Strong west winds for the last two days. Prospects of *rabi* unchanged and not very favourable. Estimate of winter rice crop in the Jamui subdivision now put at 4 annas. Supply of fodder and water at present sufficient. Some cattle-disease reported from Jamui. Coarse rice selling at from 12 to 15 seers per rupee.
	Begusarai ...	Nil	
	Jamui ...	Nil	
28	Bhagulpore „ 16, '92	Nil	Weather—cold with strong north-west wind. Harvesting of *aghani* nearly finished; outturn in South Bhagulpore about 10 annas and in North Bhagulpore about 4 annas. Wheat wants rain badly; expected outturn between 4 and 6 annas. Price of common rice—old 11 seers 6 chittacks, new 12 seers per rupee.
29	Purneah „ 16, '92	Nil	There has been a strong drying west wind for three days. *Aghani* harvest nearly finished, with 4 to 6 annas outturn over all parts of the district. Rape nearly gathered; about 8 to 10 annas crop. Other *rabi* crops suffering for want of rain and not likely to do so well. Plenty of fodder, but water level low. No cattle-disease. Prices stationary.
	Kishengunge ...	Nil	
	Arrarvah ...	Nil	
30	Maldah „ 16, '92	Nil	Weather—seasonable. Except in one or two places, harvesting of winter rice finished with an outturn of from 6 to 12 annas. Gathering of *kalai* and mustard still going on. Transplantation of *boro* paddy commenced. Wheat and other *rabi* crops doing fairly well. Cattle-pox reported from Rajmahal and Shibgunge. Fodder and water-supply sufficient. Common rice selling at from 11 to 15 seers per rupee.
	Chanchal ...	Nil	
	Shibgunge ...	Nil	
	Gajole ...	Nil	
31	Santhal Pergnas. „ 16, '92	Nil	Weather—dry with high westerly winds. Harvesting of rice crop nearly completed. *Rabi* crops suffering for want of rain. Price of rice 12 to 18 seers per rupee.

No.	District and date of return.	Rainfall at Sudder station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—*concld.*			
PATNA DIVISION. 32	Patna, Jan. 16, '92	Nil	Weather—cold with west wind. Harvesting and threshing of paddy still in progress. Early poppy flowering. Mustard being harvested. Sugarcane being pressed. Other *rabi* crops doing well, but rain urgently wanted. Prices showing a tendency to rise.
	Barh ...	Nil	
	Behar ...	Nil	
	Dinapore ...	Nil	
33	Gya, ,, 16, '92	Nil	Weather—cold and clear with high west wind in the latter part of the week. Harvesting of paddy almost finished. Prospects of *rabi* crops not bad as yet, but the current high west winds, if continued for a few days more, will do them harm. Prices of food-grains rising. Supply of fodder and water sufficient.
	Jehanabad ...	Nil	
	Aurungabad ...	Nil	
	Nawada ...	Nil	
34	Shahabad ,, 16, '92	Nil	Weather—warm in beginning of week; latter half of week cold with strong west winds which have begun earlier than usual. *Rabi* crops in Sudder subdivision excellent; in other subdivisions they are reported to be doing well where irrigation is possible. Rain much wanted, and without it unirrigated crops will be very poor. Insufficiency of water for cattle reported from Bhabuah. Prices rising.
	Buxar ...	Nil	
	Bhabuah ...	Nil	
	Sasseram ...	Nil	
35	Durbhunga ,, 16, '92	Nil	Weather—unseasonably warm in the day time. Strong west winds set in at close of week. *Rabi* reported to be doing well in Samastipur and Madhubani notwithstanding the absence of rain, which was much wanted; outturn, however, cannot be more than 8 annas, if so much. Prices of common rice:— Madhubani ... ... 14 to 16 Srs. Samastipur ... ... 12 to 13 Srs. Sudder ... ... 14 Srs. per rupee. Fodder and water for cattle sufficient.
36	Muzaffarpore ,, 16, '92	Nil	Weather—cold with high west wind during latter part of week. *Rabi* on high lands still in want of rain; on low lands where there is moisture and where irrigated doing fairly. Fodder and water-supply for cattle sufficient. Prices as follow:— Sudder: Common rice 13 Srs., Wheat 12 Srs., Barley 20 Srs., Makai 21 Srs., Marua ... Srs. Sitamarhi: Common rice 14½ Srs., Wheat 13 Srs., Barley 22½ Srs., Makai 23 Srs., Marua 24 Srs. Hajipore: Common rice 14 Srs., Wheat 13 Srs., Barley 24 Srs., Makai 21½ Srs., Marua ... Srs.
	Hajipore ...	Nil	
	Sitamarhi ...	Nil	
37	Saran ,, 16, '92	Nil	Weather—earlier part of week cloudy, and a few drops of rain here and there. Now cold with strong west winds. *Rabi* doing fairly, but would be benefited by rain. Fodder and water for cattle sufficient. Condition of poppy good on the whole. Prices of common rice:— Chupra ... ... 13 Srs. 2 Ch. Sewan ... ... 14 Srs. 8 Ch. Gopalgunge ... ... 14 Srs. 4 Ch. per rupee.
38	Champaran ,, 16, '92	Nil	Weather—cold; high west wind prevailing. *Rabi* being weeded. Crops suffering for want of rain. Fodder and water sufficient. Prices rising.
ORISSA.			
ORISSA DIVS. 39	Cuttack ,, 16, '92	Nil	Weather—warm but still seasonable. *Sarad* rice being harvested. Tobacco being transplanted in some places, and those sown early growing well. Mustard ripening. Black and grey *mung* both doing well, but rain wanted for *rabi* crops generally. Price of rice stationary. Fodder-supply sufficient.
40	Pooree ,, 14, '92	Nil	Weather—cool. Harvesting of *sarad* going on. *Dalua* plants growing. Miscellaneous crops doing well. Common rice sells at from 12½ to 22 seers per rupee. Cattle-disease reported from Banchas, Khoorda, Bampur, and Dandimal.
41	Balasore ,, 16, '92	Nil	Weather—seasonable. Harvesting of winter rice almost over. *Biri*, *mung*, and mustard maturing and estimated at 14 annas. Rice selling at 17 seers per rupee at Balasore and 19 seers at Bhadrak.
CHOTA NAGPORE.			
South-West Frontier Agency.			
CHOTA NAGPORE DIVS. 42	Hazaribagh Jan. 16, '92	Nil	Weather—seasonable. Prospects of *rabi* and poppy crops not favourable for want of rain. Scarcity of water is felt in some parts of the district. Common rice sells at from 13 to 16 seers per rupee. Fodder-supply sufficient.
	Giridih ...	Nil	
43	Lohardugga ,, 16, '92	Nil	Weather—seasonable. Rain badly wanted for *rabi* crops and for ploughing land for up land paddy. Common rice selling at 14 seers per rupee. Fodder and water plentiful.
44	Palamow ,, 12, '92	Nil	Weather—seasonable. Nights occasionally cloudy. Rain very badly wanted for the development of *rabi*. Even the low wheat fields have now begun to lose moisture. Rice selling at 14 to 15 seers per rupee. Fodder and water-supply is yet sufficient.
45	Singbhoom ,, 16, '92	Nil	Weather—warm for the season. Standing winter crops doing well. Sugarcane, oilseeds, and pulses being harvested with good outturns. Fodder-supply ample, except at Chybassa where it is diminishing.
46	Manbhoom ,, 16, '92	Nil	Weather—rather warm than seasonable. *Rabi* being gathered. Rice selling at 17 seers per rupee. Fodder and water-supply yet not deficient.
	Govindpore ...	Nil

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF DECEMBER 1891.

THE most important features in the meteorology of December have been—

1. There has been a complete absence of the cold-weather storms originating in or coming from North-West India, and which in most years pass through Bengal in December, particularly in the second half of the month. Fine weather with almost cloudless skies has therefore prevailed in Bengal practically throughout the month.

2. There has also been a complete absence of anything like cyclonic storms such as frequently occur in December in the southern half of the Bay of Bengal. Though no actual storms have formed, weather has on several occasions been disturbed in the south of the Bay, and a barometric depression was formed off the South Madras coast on the 8th, which afterwards passed over the south of the peninsula. Another feeble depression formed in the south-west of the Bay about the 12th, which after existing for three or four days filled up, giving heavy rain to the stations on the Madras coast, but disturbed conditions also continued to exist in the centre and south of the Bay up to the 19th or 20th of the month.

3 These disturbed conditions in the Bay were at no time sufficiently influential to materially affect the weather in Bengal, beyond on one or two occasions giving rather cloudy weather at some of the southern stations in the province.

4. Owing to the absence of storms of either kind which could affect Bengal, rainfall has been absent from the entire province almost throughout the month, and the only showers of rain recorded were one or two in the Chittagong district on the 15th to the 17th and again on the 21st of the month. Rainfall has therefore been in defect of the normal in all districts.

5. The mean pressure for the month has been unusually high, and at all stations excess pressures have been recorded, the excess in Bengal ranging from 0·03″ to 0·04″ in the south-western districts to 0·06″ to 0·08″ in Behar. In Assam, also, there has been an excess pressure of 0·036.″

6. Temperature has also been in excess of the normal, the excess in all the seven meteorological divisions in Bengal ranging from 1° to 2°, but in Assam the excess has been rather less than 1°.

7. Humidity has been slightly in excess of the normal at almost all stations in the province, the excess being largest at the western stations.

8. Cloud proportion has also been generally slightly higher than usual, the excess being largest at the south-western stations.

The meteorological changes during the month, therefore, do not call for any lengthened review, for throughout the month fine weather has obtained with only slight oscillations of temperature and pressure, and slight alterations with regard to the amount of humidity, cloud proportion, etc. For the first few days pressure was rather largely in excess of the normal, the excess ranging from 0·04″ to 0·06″. The mean temperature for this period was from about 2° to nearly 5° in excess of the normal, the excess for the province averaging 3°. For the week ending the 12th the excess pressure had slightly increased and had become about 0·05″ to 0·06″, but the excess temperature had slightly decreased, and only averaged 1·5°. For the week ending the 19th the pressure changes were generally in a slightly downward direction, and the excess pressure had become reduced to a few thousandths of an inch at many stations, whilst at the stations in the northern half of the province the excess only equalled about 0·02″ to 0·03″. During this week there were rather considerable variations of temperature, for it rose for the first four or five days of the week, and then fell rapidly, and for the whole province the mean of the week was again 1·5° in excess of the normal. For the fourth week ending the 26th, pressure again rose considerably, and at many stations in Behar the excess averaged more than a tenth of an inch, while the excess pressure of the province generally equalled from 0·07″ to 0·08″. From about the 24th of December, however, a decidedly rapid fall of temperature set in, and though for the week ending the 26th there was still an excess temperature over the province equalling 1·3°, yet for the remainder of the month temperature became fairly normal, though quite at its close temperature commenced to rise owing to the influence of a very feeble barometric depression which had formed in Northern India, and which on the 31st appeared to have a centre near Lucknow. The depression, however, beyond causing temperature and humidity in Bengal to rise and pressure to fall slowly at the close of the month, had no other practical effect on the weather, and for the last four days of the month the pressure registered in the province of Bengal was almost absolutely normal.

Pressure.—The mean pressure for the month has been in excess of the normal at all stations in the province of Bengal, the excess ranging from 0·031″ at False Point to 0·084″ at Chupra. The usual excess has equalled from 0·03″ to 0·05″ in Orissa and South-West Bengal, from about 0·04″ to 0·06″ in East and North Bengal, and from about 0·05″ to 0·08″ in North and South Behar and Chutia Nagpur. In Assam the excess has ranged from 0·024″ at Dhubri to 0·042″ at Sibsagar and Silchar.

Temperature.—The mean temperature for the month in all the seven meteorological divisions of Bengal has averaged from 1·3° to 1·7° in excess of the normal, the largest excess being shown in East and North Bengal and South Behar. The extreme variations at any station have been an excess of 2·9 at Beauleah and one of 2·7° at Chittagong to the small excess of 0·3° at Purneah and 0·5° at Cuttack. In Assam, Sibsagar has registered a normal temperature, Dhubri an excess of 0·3°, and Silchar an excess of 2°.

The general variation of temperature from the normal of the month is best shown by the following table, which gives the variation of the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province, week by week, throughout the month:—

Stations.	Week ending 5th December 1891.			Week ending 12th December 1891.			Week ending 19th December 1891.			Week ending 26th December 1891.			Week ending 2nd January 1892.

Rainfall—Has been practically absent throughout the entire month and over almost the whole province except in the Chittagong district, which has received a few showers of rain; but even here the falls only average 0·20 inch of rain, and in the Noakhally district, where a few drops of rain have fallen, averaging 0·03 inch.

The following table gives in a condensed form the summary of the rainfall information in Bengal for the whole year. It gives a comparison between the actual monthly and total rainfall of the year, with the normal values in each of the seven meteorological divisions of Bengal, the actual falls being expressed as percentages of the normal amounts. From these figures it will be seen that all the districts, except Orissa, have received largely defective falls during the year, and that in North Behar and North Bengal the defects exceed 20 per cent. :—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December	Actual rainfall of the year 1891 expressed as a percentage of the normal fall for the period.

* Mean of 5 days. | † Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the [illegible]. The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past thirteen in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 16th of January 1892.

Average humidity at 9 A.M.	Average cloud amount at 9 A.M. for week.	Rainfall of week at observing stations.	Of week.		District observations. Rainfall. Since 1st of month.			Since 16th October 1891.			Of week.		Representative station.	District.	Meteorological Division.
			Mean for district.	Normal mean.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.	Average number of rainy days.	Normal number of rainy days.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 19th January* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 16TH OF JANUARY 1892.

On the 9th of January or the last day of the previous week, there were indications of the formation of a feeble barometric depression over North-Western India. On the morning of the 10th a distinct but feeble depression existed, the centre of which was probably to the south of Allahabad, and on this day pressure had fallen in Bengal by about a twentieth of an inch, and had become generally from about 0·1″ to 0·15″ below the normal. At the same time, also, temperature had risen moderately and had become from 2° or 3° to about 6° in excess of the normal. The depression on this day had however scarcely affected the winds blowing in Bengal. On the 11th the feeble depression had passed in an easterly direction and was lying over Western Bengal and Chutia Nagpur, but the fall of pressure in connection with it was slight and did not exceed a twentieth of an inch. Winds, however, had changed entirely, and southerly winds were blowing in East, South, and Central Bengal, though they were more or less northerly in the northern districts. With this change of wind, temperature again increased rapidly and became from 4° or 5° to 10° above the normal except at the northern stations, where the excess amounts were smaller. At the same time, also, humidity increased very rapidly, and the air became exceptionally moist for the time of year. On the 12th pressure commenced to rise moderately to rapidly and the depression partially filled up, but the abnormal conditions of winds, temperature and humidity continued. On the 13th pressure fell briskly, and again the depression over Bengal became more marked and, as before, very abnormal conditions of temperature, humidity and wind direction obtained. A further rather rapid fall of pressure had occurred on the 14th, the fall being largest at Berhampore, and pressure was largely below the normal, the defect ranging from about 0·15″ to a fifth of an inch at Berhampore, and on this day a very distinct barometric depression existed over Bengal with a centre near Berhampore, and which depression was accompanied by a distinct cyclonic circulation of winds. Conditions continued as before very abnormal and they were decidedly disturbed though the sky remained very free from cloud and no rain fell. On the 15th pressure rose rapidly over the southern half of the province and rose moderately over the northern half, and the depression thus commenced to fill up. Winds also on the 15th became more northerly, while temperature and humidity began to fall, though even on this day the mean temperature was from 3° to 9° or 10° in excess. On the 16th the rather rapid rise of pressure continued, and the depression had practically entirely disappeared, though there was still a general defect of about 0·03″ to 0·05″ over the province. Winds had also become generally northerly and had driven back the moist southerly winds which had previously obtained, while temperature had commenced to fall rapidly and had even become below the normal at some of the northern stations in the province, though there was still a moderate excess elsewhere. On the last day of the week, therefore, conditions were rapidly reverting to their normal cold weather character, though during the greater part of the period under review weather conditions have been very decidedly abnormal.

Pressure—Has been rather largely below the normal for the greater part of the week, and at many stations in the province the defect exceeds a tenth of an inch. The largest defects have been 0·126″ at Dinagepore and 0·118″ at Berhampore, while, on the other hand, defects of only about 0·06″ or 0·07″ have occurred at Gopalpore, Chittagong, Comilla, and Chyebassa.

Temperature.—The mean temperature of the whole province for the week has averaged nearly four degrees in excess of the normal. The excess in Chutia Nagpur and South Behar has equalled from five to five and-a-half degrees, and in East and South-West Bengal from four to four and-a-half.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in the province are compared with the normal values for the same period. It will be seen that both day and night temperatures have been largely in excess:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 16th January 1892.

	Normal mean maximum temperature for the week ending 16th January.	Actual mean maximum temperature for the week ending 16th January 1892.	Variation of actual mean from the normal. Rainfall.—Except for a few drops of rain at Kalimpong on the 11th, the whole province has been rainless throughout the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 16th of January 1892 :—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1891.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew , fog.

N B.—In the weekly report from 20th to 26th December 1891, read "30·125" for "30·25" as mean pressure barometer at 32 Fahr. on the 20th December 1891.

C. LITTLE,

For Meteorological Reporter to the Govt. of India

METEOROLOGICAL OFFICE, GOVT. OF INDIA;

Calcutta, the 18th January 1892.

MEMORANDUM.

Report on the Monthly Statistics of Deaths registered in forty-five districts of Bengal for the month of October 1891.

THE total number of deaths registered in forty-five districts of Bengal during the month of October 1891 amounted to 149,140, against 130,294 in October 1890 and an average of 139,989 in the corresponding month of the previous five years, 1886—90. These figures represent an annual death-rate of 27·12, 23·64 and 25·44 per 1,000, respectively, of the aggregate population of those districts, which is 65,859,534. In the following table these results are compared with those of past periods therein specified :—

	October 1886.	October 1887.	October 1888.	October 1889.	October 1890.	Monthly average of five years, 1886—90.	October 1891.
Number of deaths	138,012	134,400	148,569	148,610	130,294	139,949	149,140
Ratio per mille per annum	25 08	24·43	27·00	27·00	23 64	25 44	27 12

The death-rate of October 1891, as will be seen from the above table, is 1·68 higher than the mean rate of the corresponding month of the past five years 1886—90, and is also higher than the rate of the corresponding period of any of the past five years with which comparison is made. In the following statement the mortality of October 1891, as compared with that of the past months of the year, stands as shown below :—

Months.	*Number of deaths.*	*Ratio per mille per annum.*
January	143,402	26·04
February	137,553	24·96
March	168,185	30·60
April	161,980	29·52
May	125,975	22 92
June	140,594	25·56
July	121,977	22 20
August	142,154	25·80
September	149,431	27 12
October	149,140	27·12

The relative proportions in which the deaths occurred among the different sexes and several classes of the community during October 1891 is shown in the following table :—

	Sex.			Class.				
	Male.	Female.	Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population.	Christians.	Hindus.	Mahomedans.	Buddhists.	Other classes.
Number of deaths	77,571	71,569	...	181	92,984	52,763	100	3,053
Ratio per mille per annum ..	25 44	25·80	110	22 33	26·04	29·04	24 00	21·96

Taking the province as a whole, the mortality was greater among males than among females. Individually considered, this was also the case except in the six districts of Khulna, Dinajpur, Rajshahye, Darjeeling, Julpiguri, and Purneah, where the mortality was greater among the female population than among the male. Of the several classes of the community, it will be seen that in proportion to population, the death-rate among the Mahomedans was the greatest, next among the Hindus, then among the Buddhists, Christians, and other classes.

The following table shows, in order of sequence, the death-rates during the month of October 1891, above 30 per mille per annum. The rates of October 1890 are also given for purposes of comparison :—

Districts.	Ratio per *mille* during—		*Districts.*	Ratio per *mille* during—	
	Oct. 1891.	Oct. 1890.		Oct. 1891.	Oct. 1890.
Maldah	67·32	28·60	Dinajpore	38·88	29·28
Nuddea	53·16	25·32	Julpaiguri	35 64	28·56
Jessore	44 52	35·16	Monghyr	34·20	29 64
Rajshahye	42·36	28 32	Rungpore	30 84	20·88
Darjeeling	41·76	35 52	Howrah	30 72	22·44
Murshedabad	41·52	52·92	Hughli	30 60	22 92
Serampore	40·20	30 00			

The high death-rate in Maldah is mainly due to an excessive mortality from fever, viz.' 3,459 deaths out of a total of 3,990. In thirteen districts the death-rate varied between 67·32 and 30·60; in twenty-three they were below 30 and above 20 per mille; and in the remaining nine they ranged between 19·92 and 15· per mille.

In the following table is exhibited the mortality from the several registered death-causes during October 1891 compared with the mortality from the same causes in the corre ponding month of 1890 and the average of the previous five years 1886—90:—

	Ratio per *mille* during—		
	October 1891.	October 1890.	Monthly average of five years 1886—90.
Cholera	1·08	·84	·84
Small-pox	·08	·04	·02
Fever	21·24	17·88	19 56
Dysentery and diarrhœa	·60	·60	·72
Injury	·36	·48	·48
Other causes	3·48	3·60	3·60

It will be seen that, compared with the figures of both the past periods, there was a considerable increase of fever in October 1891. The highest rate (58·32) was returned from Maldah, Nuddea suffered next severely (46·08), then Jessore (40·80), Rajshahye (36·72), Dinajpur (36·48), Moorshedabad (36·12), Julpaiguri (34·20), Darjeeling (31·08), Rungpore and Purneah (29·04 each), and Monghyr (27·24). There was also a noticeable increase of mortality from cholera. Serampore seems to have suffered the most, the death-rate being 6·36 per mille per annum; then Maldah 6·, Howrah 5·16, Pubna 5·04, Bogra 4·68, Rajshahye 2·88, Shahabad 2·28, and 24-Perguunahs 2·04. In four districts, viz., Birbhum, Darjeeling, Noakhali, and Singbhum, the disease was entirely absent.

According to *age*, infants under one year of age, as usual, perished in the largest numbers, viz., 189·48 per mille per annum; next came old persons (60 years and upwards) with a death-rate of 68·28 per mille. The lowest death-rate occurred among persons between 10 and 15 years of age, viz., 12·84 per 1,000 per annum.

Detailed information regarding the mortuary statistics of the forty-five districts of Bengal during the month under review will be found in the statement appended.

W. H. Gregg, *Dip. Publ. Health, Camb.*,

The 16th January 1892. *Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Deaths in the Districts in Bengal for the month of October 1891.

Increase.

	Tons.
Coal	296

Due to decrease in last month.

Decrease.

	Tons.
Cotton piece-goods—	
(1) European	17
Imported by steamer plying between Jiagunj and Calcutta.	
Grains—	
(2) Rice	160
There being no export this year owing to short crops.	
(3) Gram	17
Exported by steamer running between Jiagunj and Calcutta.	
(4) Others	83
Due to falling off in import of barbutty, roher, and khasari owing to less demand.	
Jute—	
(1) Raw	72
Exported by boat.	
Railway plant and rolling-stock	46
Due to less renewals.	
Salt	15
Due to less import in to the intermediate stations.	
Sugar—	
(2) Undrained	30
Less imported owing to dull market.	
Timber	9
There being no demand for building purposes this year.	

R. G. Mookerjee,

Manager, Nalhati State Railway.

Government of Bengal.

JUDICIAL DEPARTMENT.

THE following Notification by the Government of India is republished for general information.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Chief Secretary to the Govt. of Bengal.

HOME DEPARTMENT.

NOTIFICATION.

PUBLIC.

No. 117.

Calcutta, the 20th January 1892.

IN continuation of Home Department Notification published in the Gazette Extraordinary of the 18th instant, the Governor-General in Council now directs as follows:—

It is expected that all persons will remain in mourning for three weeks from the date of the death of His Royal Highness the Duke of Clarence and Avondale, or until February 5th, that being the duration of the general mourning which has been proclaimed for Great Britain and Ireland.

Officers of Her Majesty's Civil, Military and Marine Services will remain in mourning for six weeks, or until February 26th, that being the duration of the official mourning which has been proclaimed for Great Britain and Ireland.

By order of the Governor-General in Council,

C. J. LYALL,

Secretary to the Government of India.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 109A.

GENERAL.—*The 21st January* 1892.—Babu Trailokya Nath Sen, Deputy Collector, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in the Dinagepore district.

Babu Trailokya Nath Sen, Deputy Magistrate and Deputy Collector, Dinagepore, is vested with the powers of a Collector under Act X of 1870 in that district, *vice* Babu Peary Mohan Banerjee, on leave.

The 22nd January 1892.—Mr. G. W. Place, Joint-Magistrate and Deputy Collector, Patna, is allowed furlough for 20 months under article 340 (*b*) of the Civil Service Regulations, with effect from the 10th March 1892, or such subsequent date as he may avail himself of it.

The 23rd January 1892.—Mr. C. A. S. Bedford, Officiating Deputy Commissioner, Manbhoom, is appointed to act, until further orders, in the second grade of Deputy Commissioners, with effect from the 16th instant, *vice* Lieutenant-Colonel A. E. Gordon, on privilege leave.

The 25th January 1892.—Mr. E. B. Harris, Officiating Magistrate and Collector, Bogra, is appointed to act as Magistrate and Collector of Patna, during the absence, on deputation, of Mr. J. A. Hopkins, or until further orders.

The 26th January 1892.—Mr. W. R. Bright, Joint-Magistrate and Deputy Collector, Monghyr, is appointed to act as Deputy Commissioner of Palamow, during the absence, on leave, of Lieutenant-Colonel A. E. Gordon, or until further orders.

Mr. J. G. Charles, District and Sessions Judge, Shahabad, is allowed furlough for ten months, under article 340 (*b*) of the Civil Service Regulations, with effect from the 29th March 1892.

Babu Mohini Mohan Chakravarti, Deputy Magistrate and Deputy Collector, Chittagong, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Babu Umes Chandra Banerjea, Deputy Magistrate and Deputy Collector, Mymensingh, is vested with powers under section 87 of Act VII (B. C.) of 1876.

POLICE.—*The 25th January* 1892.—Mr. T. C. Orr, District Superintendent of Police, Mymensingh, is allowed furlough for one day, under article 371 of the Civil Service Regulations, in extension of the furlough granted to him under the orders of the 10th March and 16th December 1891.

Mr. C. E. Briscoe, Officiating Assistant Superintendent of Police, is appointed to the third grade of Assistant Superintendents of Police, with effect from the 17th September 1891, and to act in the second grade.

The following confirmations and promotions are sanctioned in the Police Department:—

With effect from the 17th November 1891, consequent on the retirement of Babu Mohendra Nath Hazra, District Superintendent of Police, fourth grade—

Mr J. T. Rivett-Carnac, Officiating District Superintendent of Police, 4th grade, to be confirmed in that grade.

Mr. F. H. Tucker, Officiating District Superintendent of Police, fifth grade, to be confirmed in that grade.

Mr. F. A. Fullerton, Officiating Assistant Superintendent of Police, first grade, to be confirmed in that grade.

Mr. F. C. Daly, Assistant Superintendent of Police, third grade, to be promoted to the second grade.

Mr. St. Quintin Byrne, Officiating Assistant Superintendent of Police, to be appointed to the third grade of Assistant Superintendents and to act in the second grade.

REGISTRATION.—*The 23rd January* 1892.—Babu Upendranath Sen is appointed to be Rural Sub-Registrar of Madaripur, in the district of Furridpur, *vice* Babu Dwarkanath Sen, resigned.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23*rd January* 1892.—In continuation of the Notification dated 3rd December 1888, the Lieutenant-Governor, under the powers vested in him by Section 3, Act V (B.C.) of 1875, is pleased to order that a survey shall be made of all lands within the sub-division of Cox's Bazar, and that the boundaries of estates, tenures, mouzahs and fields therein be demarcated.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23*rd January* 1892.—Under section 4 of the Bengal Survey Act, 1875, the Lieutenant-Governor of Bengal appoints the following officers to carry out the survey ordered in Bengal Government Notification of this date, and vests each of them with the following powers:—

Mr. F. Grant, Officiating Deputy Superintendent of Survey.	to be Superintendent of Survey.
Mr. W. J. O'Sullivan, Surveyor ...	to be Assistant Superintendent of Survey.
Mr. T. M. McHatton, Surveyor ...	Ditto ditto.
Mr. C. G. Lee, Assistant Surveyor.	Ditto ditto.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 26th January 1892.—Babu Sita Nath Mukerji, Sub-Deputy Collector, Pubna, is hereby appointed to be a Settlement Officer under Rule 1, Chapter VI of the Rules under the Bengal Tenancy Act, for the purpose of making a survey and preparing the record of rights in estate No. 1780, island chur Dadapur, and No. 1713, chur Betcandi, in the district of Pubna, and is vested with the powers of a Revenue Officer under Chapter X of the Act

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

Rules under the Land Improvement Loans Act (XIX of 1883).

IN exercise of the power conferred by section 11, proviso (1), of the Land Improvement Loans Act (XIX of 1883), and with the approval of the Governor-General in Council, the Lieutenant-Governor is pleased to frame the following rules, to have effect in temporarily settled estates:—

1. *Reclamation of waste land.*—When land is reclaimed from waste, with the aid of a loan granted under Act XIX of 1883, and is brought under cultivation, the increase in value derived from the improvement shall not be taken into account in revising the assessment of land revenue on the land until after the expiration of a period of three years reckoned from the beginning of the harvest first reaped after such reclamation was effected.

2. *Improvement by irrigation.*—When land assessed at unirrigated rates is improved by irrigation with the aid of a loan granted under Act XIX of 1883, the increase in value derived from the improvement shall not be taken into account in revising the assessment of land revenue on the land—

(*a*) if the irrigation is provided by the construction of a new masonry well, until after the expiration of twenty years, reckoned from the beginning of the harvest first reaped after such improvement was effected;

(*b*) if the irrigation is provided by the construction of a distributary from a canal, until after the expiration of a period of five years, reckoned as in clause (*a*) of this rule directed; or

(*c*) if the irrigation is provided by any means other than those hereinbefore in clauses (*a*) and (*b*) specified, until after the expiration of a period of ten years, reckoned as in clause (*a*) of this rule directed.

3. Nothing in these rules shall be deemed to affect the powers of the Board of Revenue or of the Local Government to grant in special cases loans under the Act on other terms than are herein provided, or to affect the terms of any special agreement under which any loan under the Act has been or shall be granted, or of any unexpired settlement.

C. E. BUCKLAND,
The 26th January 1892. *Secretary to the Govt. of Bengal.*

NOTIFICATION.

The 26th January 1892.—With the previous sanction of the Governor-General in Council the following amendments are made in the rules framed under sections 5 and 13 of the Opium Act I of 1878:—

Add to rule 9 (2)—"Foreign opium may also be imported by sea into the Lower Provinces of Bengal for medical purposes."

Substitute the following for the last sentence of Rule 42 (2)—"If declared to be unfit for use, and the quantity confiscated does not exceed one seer, the opium shall be immediately destroyed; but in cases in which the opium seized exceeds that quantity, it shall not be destroyed without further examination by the Superintendent of the Opium Factory at Bankipore."

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, *viz.* for the Government Central Distillery at Pakour, in the village of Pakour, pergunnah Ambar, zilla Sonthal Pergunnahs, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 bighas of standard measurement, bounded on the *North* by Brahmattar dhan land of Gour Chandra Panday in jote of Sadananda Panday of Pakour; on the *East* by the Purti Brahmattar land of Kuran Rai of Pakour; on the *South* by the public road leading from Hiranpur to Pakour (Harindanga); on the *West* by the Purti land previously in jote of Bansi Panday now of Babu Sitesh Chandra Panday, zemindar of Pakour, is required within the aforesaid village of Pakour.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

MEDICAL DEPARTMENT.

The 19th January 1892.—Dr. J. L. Hendley, Medical Officer, Chittagong Hill Tracts, on deputation to the Cooch Behar State, is appointed to be Civil Medical Officer of Maldah.

The 19th January 1892.—Apothecary James Kelly, Officiating Civil Medical Officer of Maldah, is appointed to the medical charge of the civil station of Nya Dumka in the Sonthal Pergunnahs.

The 19th January 1892.—Honorary Surgeon W. F. Browne, in temporary medical charge of the civil station of Nya Dumka in the Sonthal Pergunnahs, is appointed temporarily to be Civil Medical Officer of Bogra.

The 19th January 1892.—Surgeon R. R. H. Whitwell, Civil Surgeon of Durbhunga, is appointed to officiate as Civil Surgeon of Monghyr.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 110A.

The 12th January 1892.—Mr. B. G. Geidt, Joint-Magistrate and Deputy Collector, Mozufferpore, is vested with the powers of a Magistrate of the first class, and with those under sections 110, 133, 143, 144, 174, 191 and 524 of the Code of Criminal Procedure.

Mr. Geidt is also vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

The 21st January 1892.—Babu Kedar Nath Chatterjee, Subordinate Judge, Beerbhoom, is allowed leave for thirty days, under article 306 (*b*) of the Civil Service Regulations, in extension of the leave granted to him under the order of the 24th November 1891.

HIGH COURT NOTICES.

NOTIFICATION.

THE following rule passed by the High Court of Judicature at Fort William in Bengal, is published for general information.

By order of the High Court,

HIGH COURT, *the 25th January* 1892. H. W. C. CARNDUFF, *Registrar.*

BY virtue of the powers vested in the High Court of Judicature at Fort William in Bengal by section 37 of the Letters Patent of 1865, and section 652 of the Code of Civil Procedure, Act XIV of 1882, it is hereby ordered—

(1) that the time for the service, in the districts of (1) Furreedpore, (2) Noakhally, and (3) Pubna and Bogra, of notices of appeals preferred to this Court, shall be as follows, namely, in Furreedpore 32 days, in Noakhally 39 days, and in Pubna and Bogra 31 days; and

(2) that the time-table prescribed by Rule XV, Part II, Chapter VIII, page 36 of the Rules of the High Court, Appellate Side, published at page 505 of Part I of the *Calcutta Gazette* of the 20th of May 1891, be amended accordingly.

The 6th January 1892.

SMALL CAUSE COURT NOTICE.

Is hereby given, under section 7 of Act IX of 1887, that the Judge of Small Cause Courts of Dacca and Munshigunge will hold sittings in the Small Cause Court at Munshigunge from 19th to 29th February next, and the rest of the days of the month in the Small Cause Court at Dacca, Sundays and holidays excepted.

GOPAL CHANDRA BANERJEE, *Offg. Judge, Small Cause Courts*

DACCA SMALL CAUSE COURT, *the 19th January* 1892.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1793B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 1st February 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

Offg. Secretary to the Govt. of India.

The Calcutta Gazette.

WEDNESDAY, JANUARY 27, 1892.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 20th January 1892.—Whereas a notification, dated the 11th September 1891, declaring the Lieutenant-Governor's intention to revise the boundaries of the Comillah Municipality, in the district of Tipperah, was published at page 210, Part IB of the *Calcutta Gazette* of the 16th idem, and whereas no objections have been raised to the proposal, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by sections 9 and 11, Act III (B.C) of 1884, and in accordance with the recommendation of the Commissioners of the Comillah Municipality made at a meeting, the Lieutenant-Governor has been pleased to revise the existing boundaries of the Municipality so as to unite to the Municipality a strip of river and land (portion of the river Gumti, and portions of the villages Chandpur and Subhapur), the description of which is given below:—

Description.

A strip of river and land to the north of the present municipal area, laying between the Gumti right bank embankment on the north, and the left bank of the Gumti on the south bounded at the east extremity by a line drawn from Akram Ali's house to the Tekar chur burning ghât, and at the west extremity by a line drawn from Mendi Mea's house to the cutchery latrine.

The boundaries of the Comillah Municipality, after its being united with the strip of river and land described above, will be as follows:—

On the North.—The river Gumti from Kadamtala to the cutchery latrine in Captain Bazar; thence crossing the river to the right bank embankment at Mendi Mea Khandakar's house; thence along the right bank embankment to the corner of the house of Akram Ali (opposite to Tikar chur burning ghât); thence crossing the river to the Tikar chur burning ghât; thence along the left bank of the river to the road leading from the left bank embankment to Karam Ali Baba's house.

On the East.—The road leading from Karam Ali Baba's house to its junction with the Bibir Bazar road; thence in a straight line to the head of the Chittagong Trunk road near the pound on the Goodir tank: thence to the south by the eastern border of Nurpur village to the Pilgrim road.

On the South—The Pilgrim road or Derjangal.

On the West.—From the river Gumti near Kadamtala in a straight line to the western corner of Sheker tank in Kaliajuri; thence in a straight line to the junction of the old Telegraph office road with the Chittagong Trunk road; thence along the old Telegraph office road to its junction with the Kandirpara road; thence to the south by the western border of the Gobindpur village to the Pilgrim road.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 20th January 1892.—It is hereby notified that, under sections 16 and 27 of Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Babu Narain Chandra Sen to be a Commissioner of the Cuttack Municipality, *vice* Babu Madhu Sudan Das, who has ceased to be a Commissioner under section 20 of the Act.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st January 1892.—It is hereby notified that, under section 19, Act III (B.C) of 1885, the following gentleman has been elected to be a member of the Hooghly Local Board, *vice* Babu Bam Deb Dutta, deceased:—

Thana for which elected.	Name of member.
Pandua.	Babu Chundra Kumar Mookerjee.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

ERRATUM.

The 21st January 1892.—In the list of villages at foot of notification dated the 20th August 1891, published at page 198, Part I B. of the *Calcutta Gazette* of the 26th idem, the village of Sibpur has been shown under thana Assensole, whereas it should be shown under thana Ranigange, within the jurisdiction of which it lies.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 22nd January 1892.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Babu Hari Narain Missra to be the Chairman of the Chattra Municipality in the district of Hazaribagh, *vice* Babu Chandra Kumar Roy, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOITFICATION.

The 22nd January 1892.—It is hereby notified for general information that, under section 6, clause (*c*), Act I (B C) of 1885, the Lieutenant-Governor is pleased to establish the two public ferries named in the margin in the district of Pubna.

1. Panchil ferry on Arundah to Kodla road, being the second section of the Ranisbund road over the Panchil Khal.
2. Kumrul Chakipara ferry on Arundah to Kodla road, being the second section of the Ranisbund road over the Panchil Khal.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 22nd January 1892.—It is hereby notified that the Lieutenant-Governor is pleased, in the exercise of the power conferred on him by section 35 of the Bengal Ferries Act I (B.C) of 1885, to direct that the ferries named in the margin, which are situated in the district of Pubna, shall be managed by the District Board of Pubna, and that all the proceeds of the ferries, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the District Fund with effect from the date of this notification.

1. Panchil ferry on Arundah to Kodla road, being the second section of the Ranisbund road over the Panchil Khal.
2. Kumrul Chakipara ferry on Arundah to Kodla road, being the second section of the Ranisbund road over the Panchil Khal.

H. H. RISLEY,
Offg Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd January 1892.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Nuddea Municipality, in the district of Nuddea, made at a meeting, to extend the provisions of Part X of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd January 1892.—It is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Nuddea Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the provisions of section 261, and clauses 2 and 3 of section 273 of the Act to the said Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 23rd January 1892.—It is hereby notified for general information that, under the power vested in the Local Government by clause 2, section 30 of Act III (B.C) of 1884, the Lieutenant-Governor is pleased to exclude, from the operation of the said Act, the portions of the roads specified in the margin, which lie within the limits of the Jamalpore Municipality in the district of Mymensingh. The Lieutenant-Governor is also pleased to authorise their transfer to the charge of the District Board of Mymensingh.

Mymensingh to Jamalpore road—3 miles 15 feet, excluding the metalled portion which will continue to remain in charge of the Municipality.
Jamalpore to Dewangunge road—2½ miles.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 25th January 1892.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Dr. D. M. Moir, Civil Surgeon, to be a Commissioner of the Chittagong Municipality, *vice* Dr. W. Flood Murray.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 22nd January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz., for widening the north facing of Asak Jamadar's lane in the town of Dacca, pergunnah Jahangirnagar, zillah Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5½ chittacks of standard measurement, is required. The land is bounded on the North by a drain; on the South and East by Asak Jamadar's lane; and on the West by Chand Khansama's house.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 22nd January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Mymensingh District Board for a public purpose, viz., for the manufacture of bricks for the repairs of metalled roads within pergunnah Alapsing, zillah Mymensingh, it is hereby declared that for the above purpose the undermentioned 3 pieces of land measuring, more or less, 21 bighas 3 cottahs and 10 chittacks of standard measurement, are required. The lands are bounded as follows:—

Mymensingh to Subornakhali road.

1st Plot.—(100 × 200) on the 5th mile of the road, measuring 6 bighas 11 cottahs and 2 chittacks, is situated within the Kishmat village brickfield, and is bounded on the North by the public road; on the West by a ditch and land of Joharali Sardar, 90 feet distant from the masonry culvert; on the South by the field of Golap Sheik, Jabani Sheik and Sadoolah Sheikh; and on the East by the field of Karim Sheik and Jaboni Sheikh.

2nd Plot.—(500 × 225) on the 9th and 10th mile, measuring 7 bighas 16 cottahs and 4 chittacks, is situated within the Gandharvapore village brickfield, and is bounded on the South by the public road; on the North by the lands of Gheta Tapoo and Rakmon Sheikh; and on the West by the land of Gheta Sheikh.

Mymensingh to Phulbaria road.

3rd Plot.—(500 × 225) measuring 7 bighas 16 cottahs and 4 chittacks, is situated within the villages of Barera and Akuah, thana Katuali, zillah Mymensingh, and is bounded on the North by the public road; on the East by the land of Babu Kishori Mohan Baksi and beel starting 14 feet from the masonry culvert; on the South by the lands of Abdul Jahad and Babu Janoki Nath Ghattak and others; and on the West by the lands of Babu Janoki Nath Ghattak and others.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for the extension of a public bathing platform at Lall Bagan Bastee, it is hereby declared that for the above purpose a piece of land No. 161, Upper Chitpore Road, in the Town of Calcutta, district 24-Pergunnahs, measuring, more or less, 11 chittacks and 17 square feet only, is required. The boundaries of the land are as follows:—On the North and East, portion of No. 161, Upper Chitpore road; on the South, Sir Rajah Radhakanto Deb's 2nd Bye-lane; and on the West, public bathing platform.

The plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for the extension of the bathing platform at No. 84, Machooabazar road, it is hereby declared that for the above purpose a piece of land No. 84, Machooabazar road in the Town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah and 30 square feet only, is required. The boundaries of the land are as follows:—On the North and East, portions of No. 84, Machooabazar road; on the South, Machooabazar road; and on the West, a public bathing platform.

A plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for the extension of a public bathing platform at No. 31-1, Lower Chitpore Road, it is hereby declared that for the above purpose a piece of land No. 31, Lower Chitpore Road, in the town of Calcutta, district 24-Pergunnahs, measuring more or less 1 cottah 7 chittacks and 5 square feet only, is required.

The boundaries of the land are as follows:—On the North and West, portion of No. 31, Lower Chitpore Road; on the South, a public bathing platform and a road; and on the East, portion of No. 31, Lower Chitpore Road, and a public bathing platform.

Plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of Section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for widening Shib Sunker Mullick's Lane, it is hereby declared that for the above purpose a piece of land No. 8-1, Shampooker Street, in the town of Calcutta, district 24-Pergunnahs, measuring more or less 2 cottahs and 10 chittacks only, is required.

The boundaries of the land are as follows:—On the North, Shampooker Street; on the South, portion of No. 8-1, Shampooker Street, and a public bathing platform; on the East, Shib Sunker Mullick's Lane; and on the West, portion of No. 8-1, Shampooker Street.

A plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of Section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for the construction of a bathing platform, it is hereby declared that for the above purpose a piece of land No. 75, Manicktola Street, in the town of Calcutta, district 24-Pergunnahs, measuring more or less 1 cottah and 8 chittacks, is required.

The boundaries of the land are as follows:—On the North and West, premises No. 75, Manicktola Street; on the East, Nos. 9 to 9-2, Benode Behary Shaw's Lane; and on the South, Nundo Coomar Chowdhry's 2nd Lane.

Plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of Section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for the extension of the bathing platform at Patwar Bagan Bustee, it is hereby declared that for the above purpose a piece of land No. 69, Upper Circular Road, in the Town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah 1 chittack and 4 square feet only, is required. The boundaries of the land are as follows—On the North, a passage; on the South and West, portions of No. 69, Upper Circular Road; and on the East, a public bathing platform.

Plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for the extension of a public bathing platform at No. 61-1, Champatolla Lane, it is hereby declared that for the above purpose a piece of land No. 61-1, Champatolla Lane, in the Town of Calcutta, district 24-Pergunnahs, measuring, more or less, 11 chittacks and 22 square feet only, is required. The boundaries of the land are as follows:—On the North and East, portion of No. 61-1, Champatolla Lane; on the South, a public bathing platform, Champatolla Lane, and portion of No. 61-1, Champatolla Lane; and on the West, portion of No. 61-1, Champatolla Lane, and a public bathing platform.

Plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

SURVEY OF INDIA DEPARTMENT.

MAP RECORD AND ISSUE OFFICE.

Maps published at the Head-Quarter Offices, Calcutta and Dehra Dun, for the quarter ending 31st December 1891.

Agents for sale of Maps:

CALCUTTA.—No Agent. Maps can be obtained from the Office, 13, Wood Street.
ALLAHABAD.—Curator, Government Books, North-Western Provinces.
NAGPUR.—Curator, Government Books, Central Provinces.
LAHORE.—Munshi Gulab Sing, Government Publishers and Booksellers.
MADRAS.—Messrs. Higginbotham & Co.
POONA.—Supdt., Government Photo-zincographic Dept.
RANGOON.—Supdt., American Baptist Mission Press.
MANDALAY.—The Manager, Mandalay Herald Press.
RAJKOT.—Mr. Narainjee Sunderjee, for maps of Kathiawar only.
AHMEDABAD.—The Huzoor Deputy Collector, for maps of Gujarat only.
LONDON.—Mr. Edward Stanford, 26 and 27, Cockspur Street, Charing Cross, London, S. W.
SIMLA.—Mrs. E. Corstorphan, Simla Fancy Repository.
MUSSOORIE.—The Secretary, Mussooree Book Society, Baring Institute, Mussooree.

All published maps are sold at the Survey of India Office, Calcutta, for cash prepaid.

N.B.—Maps are issued on the Public Service from the Calcutta Office, and also by the above-mentioned agents. The *cost of mounting maps, packing, and postage of parcels must be borne by applicants themselves.* Lists of newly-published maps are periodically notified in the Gazettes of India and of Local Governments.

The cost of supplies which exceeds Rs. 50 is adjusted by book-debit for Government Departments by this Office in communication with the Comptroller of India Treasuries, when Invoices are issued in triplicate with maps supplied.

When the cost does not exceed Rs. 50, agents are authorized to sell to Civil only, and not to Military and P. W. D. officials. Payment must be made in cash in all cases, *vide* Note XI (2), Rule 22, Chapter V, of the Civil Account Code.

Cash payments to this Office include payment by Remittance Transfer Receipt or by Money Order. When Treasury Receipts or Challans and Stamps are forwarded in payment, they are returned as inadmissible.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8 „ „ „ „ 8-8.
¼ „ „ „ 4 „ „ „ „ 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Lost in transmission by Post.

THE upper halves of the Government Promissory Notes Nos. 206028 and 239875 of the four per cent. loan of 1865 for Rs. 500 and Rs. 1,500, respectively, standing in the name of the Agra Bank, Limited, and Bubonesh Chakravarti, and last endorsed to Mrs. Louisa Woodward, the proprietress, by whom they were never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is to be made for accrued interest, and for the issue of duplicates in favour of the proprietor after two years from the date of last advertisement.

J. A. TOOMEY, Manager, National Bank of India, Limited, Calcutta, Attorney for Louisa Woodward. (933—3)

Lost or Stolen.

Falakata Fair.

NOTICE.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on February 3rd, 1892 (A.D.), corresponding with 21st Magh 1298 (B.S.), and will continue up to February 18th, 1892. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri-horns, yak-tails, musk, honey, wax, lac, ponies, and various other articles from Bhootan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojnai very conveniently for river traffic from East Bengal, viz. Dacca, Goalundo, Serajgunge, Manikgunge, &c., and within easy reach of Jalpaiguri and Cooch Behar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shop-keepers and special police arrangements for safety of property and goods exist, Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE,

Sub-Divisional Officer, Alipur Duars.

Alipur Duars, the 19th December 1891.

(996—1)

Soom ea Company, Limited.

NOTICE is hereby given that the Ordinary General Meeting of Shareholders of the above Company will be held at the registered office, No. 4, Mangoe Lane, Calcutta, on Tuesday, the 23rd February next, at 10-15 o'clock A.M., for the purpose of receiving the Director's Report, passing the accounts for the year ended 31st December 1891, declaring a dividend, and transacting such other business as may be brought before the meeting.

The transfer books of the Company will be closed from 10th to 23rd February inclusive.

By order of the Board.

WILLIAMSON, MAGOR & Co., Secretaries.

Calcutta, 22nd January 1892. (997 2)

TO be peremptorily sold by the Registrar of the Calcutta High Court, Original Jurisdiction, in his sale-room in the Court-house on Saturday, the 20th February next, at 12 o'clock noon, pursuant to a decree and order made in suit No. 110 of 1890 (Richard Erasmus Twidale *versus* Brojonath Bysack and Horendro Lall Roy) and dated respectively 21st August 1890 and 7th August 1891, the whole of the property constituting lot 2 belonging to the defendant Brojonath Bysack and his undivided equal half part or share in the property constituting lots Nos. 1 and 3.

Lot No 1.—No. 1, Royd Street, in the town of Calcutta, being an upper-roomed brick built messuage, tenement or dwelling-house, together with the piece or parcel of land thereunto belonging and on part whereof the same is erected and built, containing eight bighas fourteen cottahs seven chittacks and sixteen and one quarter feet, be the same a little more or less. This property is bounded on the north by the Royd Street; on the west by the premises No. 4—1, Park Street, and No. 1, Free School Street (in the occupation of the Doveton College); on the south by Park Street; and on the east partly by the premises No. 2, Royd Street, and partly by the premises No. 40, Park Street.

Lot No. 2.—No. 98, No 98—1, No. 98—2, No. 98—3, Upper Chitpore Road, in the town of Calcutta, being a two-storied brick-built tenanted house, containing by estimation five and a half cottahs, more or less. This property is bounded on the north by a passage; on the south by the dwelling house of Baney Madhub Bose; on the west by Upper Chitpore Road; and on the east by the dwelling house of Baney Madhub Bose.

Lot No. 3.—No. 125, Machoobazar Street, in the town of Calcutta, being tenanted land including a portion of the tank and land called Bysack's tank, containing by estimation four bighas ten and half cottahs and five and a half chittacks, and bounded on the north by the tenanted land of Hurro Soondery Dassee and others; on the south by Machoobazar street; on the east by a passage formed by a filled up municipal drain; and on the west by the other portion of the said Bysack's tank, less the land taken over by the Government under the Land Acquisition Act.

The abstract of title and conditions of sale may be seen at the Office of the Registrar, High Court, Original Jurisdiction, or at the Office of Messrs. Wilson and Chatterjee, Attorneys for the plaintiff, and Babu Kamini Coomar Goho, Attorney for the defendant Hurendro Lall Roy, on any day before the sale and will be produced at the sale.

R BELCHAMBERS, Registrar.

Wilson & Chatterjee, plaintiff's Attorneys, 7, Old Post Office Street.

Calcutta, High Court, Original jurisdiction, the 9th day of December 1891. (986—1)

C. E. LIVESAY, C.E.,
Exe. Engr., Nuddea Rivers Division.

Berhampore, the 25th January 1892.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st - Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, i.e. from about May 15th to November 15th, or thereabouts. Price Rs 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 18.

[First Publication.]

BAY OF BENGAL—BURMA COAST.

Intended alteration of the character of Oyster Island light.

IT is intended, on or about the 20th May 1892, to exhibit the Oyster Island light from the new tower recently erected.

The light will be an occulting dioptric, of the first order, obscured two seconds once in every half minute, illuminating a *white* arc of 345° and a *red* arc of 15°, between the bearings of N. 35° W. and N. 50° W. (magnetic).

The light is elevated 130 feet above the level of the sea, and is visible in clear weather 17½ miles.

The light-house is built of iron, and will be painted in alternate bands of black and white.

The existing light-house will be removed, and the blue light discontinued, from the date of exhibition of the new light.

Approximate position: lat. 20° 12′ 30″ N.; long. 92° 33′ E.

EATON W. PETLEY,

NOTICE TO MARINERS—No. 19.

[First Publication.]

AUSTRALIA, NORTH COAST—PORT DARWIN.

Regarding the White beacon on Point Charles.

THE Acting President, Marine Board, Port Adelaide, has given notice (No. 8 of 1891) that the White beacon, Point Charles (referred to in Notice to Mariners, No. 6 of 1882), has fallen down, and that only the *debris* remain to mark the site.

The locality, which may be easily distinguished by its being the highest land in the vicinity, should not be approached within a distance of three (3) miles.

As a light house is shortly to be erected near the same site (as already notified), it is not proposed to replace the beacon.

EATON W. PETLEY,
Port Officer of Calcutta.

AUSTRALIA—TORRES STRAIT—INNER ROUTE.

Beacons on reefs off Princess Charlotte Bay.

THE Portmaster, Brisbane, has given notice (No. 39 of 1891) that on or before 31st March 1892, the following alterations will be made, viz.—

Black Beacon on *g* reef will be discontinued.
Red Beacon on *e* reef will be altered to a black square beacon.
Red Beacon on *f* reef will be altered to a black square beacon.

The route recommended passes between *c* reef and *d* reef, to the southward of *e* reef, and to the westward of *f* reef.

NOTICE TO MARINERS—No. 9.

[Second Publication.]

AUSTRALIA—TORRES STRAIT—INNER ROUTE.

Existence of a reef on the north-east coast of Queensland.

THE Portmaster, Brisbane, has given notice (No. 38 of 1891) that a reef which dries 3 feet in places at low water spring tides extends about three quarters of a mile N. E. by N. from Tern Island.

The outer extreme lies in the following position :—

Shadwell Peak, S. 65°W. ... ... $1\frac{9}{10}$ miles.
X Reef Beacon, N. 10°W. ... ... $5\frac{7}{10}$ „

By keeping the point marked on Chart No. 2354, "Remarkable Red Cliffs," near Left Hill, just open of No. 11 point S. by E., a vessel will pass nearly half a mile outside this danger.

Bearings are magnetic.
Chart affected, No. 2354.

[Second Publication.]

AUSTRALIA, EAST COAST—INNER ROUTE.

Decreased depth on Khandalla shoal.

THE British Admiralty has given notice (No. 601 of 1891) that a rock, with 13 feet over it at low water spring tides, has been found on the western edge of Khandalla shoal. Two fathoms has therefore been substituted for the 3 fathoms heretofore shown on the Admiralty Charts, as the least depth on the danger.

Approximate position, lat. 13° 25′ 55″ S., long. 143° 40′ 25″ E.

JAPAN—YEZO ISLAND.

Fixed lights on Daikoku sima and at Urakawa; and fixed red light at Horo izumi.

The British Admiralty has given notice (No. 602 of 1891), that on 1st November 1891 a light (named *Moro ran*) would be exhibited from a lighthouse erected on Daikoku sima, at the entrance to Sinmororan or Endermo harbour:—

Moro ran light is a *fixed white* light, visible through an arc of 304°, or from the bearing of N. 5° W., through east, to N. 61° W.; a sector of *red* light is shown from S. 45° E. to S. 31° E., covering the sunken rock at the entrance to the harbour, bearing S. 38° E., distant about 7 cables from the light, and on which there is a depth of 8½ fathoms at low water spring tides, not 5 fathoms as heretofore charted. The light is elevated 134 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of wood and hexagonal in shape, is painted white, with a black horizontal band round the middle part of it.

Approximate position, lat. 42° 20′ 55″ N., long. 140° 55′ 45″ E.

Fixed light at Urakawa.

Also, that on 1st November 1891, a light would be exhibited from a lighthouse erected at Urakawa, eastern shore of Urakawa bay:—

Urakawa light is a *fixed white* light, visible through an arc of 153°, or from the bearing of N. 40° W., through east, to S. 67° E. It is elevated 128 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, constructed of wood and square in shape, is painted white, with a black horizontal band round the middle part of it.

Approximate position, lat. 42° 11′ N., long. 142° 45′ E.

Fixed red light at Horo izumi.

Also, that on 1st November 1891, a light would be exhibited from a lighthouse erected at Horo izumi, situated about 6 miles north-west from cape Yerimo:—

Horo izumi light is a *fixed red* light, visible through an arc of 140°, or from the bearing of N. 11° W., through east, to S. 51° E. It is elevated 72 feet above the sea, and should be seen in clear weather from a distance of 6 miles.

The lighthouse, 16 feet high, is a square wooden tower, painted white.

Approximate position, lat. 42° 1′ N., long. 143° 11′ E.

JAPAN—SOUTH COAST—BUNGO CHANNEL.

Particulars of sunken rocks near Okinoso and Jinoso.

THE British Admiralty has given the following particulars (No. 607 of 1891) relative to the two undermentioned sunken rocks lying respectively near Okinoso and Jinoso, on the eastern shore of Bungo channel—the result of recent examination of the locality:—

1. With reference to Notice to Mariners, No. 485 of 1890:—The sunken rock, originally reported as lying about 4 cables in a S.S.W. direction from Okinoso, is about one cable in extent, with a least depth of 6 feet on it at low water, and is situated with Okinoso bearing N. ¼ E. distant 3 cables, and the south end of Jinoso E.N.E.

Approximate position: lat 32° 53′ N; long. 132° 27′ 20″ E.

2. A sunken rock, with 4 fathoms on it at low water, lies with the south end of Jinoso bearing E. by S. ½ S., distant 2½ cables and Oji sima summit N.W. ¾ N.

Approximate position: lat. 32° 53′ 30″ N.; long. 132° 28′ 20″ E.

AUSTRALIA—WEST COAST—HOUTMAN ROCKS, EASTER GROUP.

Reef reported westward of Rat isle.

THE British Admiralty has given notice (No. 608 of 1891) that Mr. Isles, commanding the barque *County of Ayr*, reports that on 24th October 1891, after leaving Rat isle anchorage, Easter group, a W. by N. course was steered for about 6 or 7 miles, when the vessel touched on, and passed over, a sunken reef.

Position to be considered doubtful: lat. 28° 42½′ S.; long. 113° 29½′ E.

BURMA COAST—GULF OF MARTABAN.

Position of the "Sultan Secunder"—water-logged and abandoned.

CAUTION.—A telegraphic communication has been received from the Port Officer, Rangoon, giving notice, that the British brig *Sultan Secunder*, timber laden and water-logged, has been abandoned in about latitude 15° 40′ north; longitude 96° 7′ east. Her deck and masts are above water. Navigators are warned accordingly, and a good look-out should be kept, as the derelict is drifted with the tides with topsails and foresail set.

EASTERN ARCHIPELAGO

BANDA SEA—KE ISLANDS.

Reef northward of Rumadan island.

THE British Admiralty has given notice (No. 619 of 1891) that the Commander of H. N. M. S. *Van Speijk* reports the existence of a reef lying about 5 miles northward of Rumadan island, Ké islands:—

The reef northward of Rumadan island, about 3 cables long in a south-east and north-west direction, has probably less than 2 fathoms water on it, and is visible from discolouration of the water and rippling of the tide.

Approximate position, lat. 5° 23′ 10″ S., long. 132° 43′ 40″ E.

AUSTRALIA—North-West coast.

Non-existence of certain reefs; and particulars of Baleine Bank and Walker rock.

The following Notice to Mariners (No. 624 of 1891) issued by the British Admiralty is republished :—

The following information has been received from Commander W. U Moore, H. M. Surveying vessel *Penguin*, dated October 1891—the result of recent examination of the several localities on the north-west coast of Australia :—

(1) *Non-existence of reef in lat.* 13° 35′ *S., long.* 125° 13′ *E.*

Search was made during three days, under favourable conditions of sea, for the reef charted as lying in about lat. 13° 35′ S., long. 125° 13′ E., and marked as "not seen in *Cushie Doe*, 1881;" an area extending about 10 miles around this position was sounded over, but no trace of shoal water was observed. The depths obtained were 30 to 45 fathoms, over an even bottom, consisting generally of coral, sand, and shells.

Consequent on this unsuccessful search, the reef has been removed from the Admiralty Charts.

(2) *Non-existence of Expedition Island.*

Expedition island, originally reported by the Commander of the barque *Tien Tsin* in 1865, and charted as lying (the centre) in approximately lat. 15° 34′ S., long. 123° 46′ E. The *Penguin*, drawing 17 feet water, was anchored in the above position in 32 fathoms water; an examination for a radius of 3 to 5 miles showed that the bottom was uneven, and there were indications of shoal water 3 miles to the west and north-west of the vessel, but no land or sandbank was visible from aloft at low water neap tides. The *Penguin* approached the reported island on the bearing S. by W. distant 8 miles, and left it bearing N. by E. distant 30 miles, without seeing any danger. The description given of this island agrees fairly well with that of Adèle island lying in the same parallel of latitude, but about 33 miles westward.

Consequent on this examination, Expedition island has been removed from the Admiralty Charts.

Note.—Shoal water extends farther south of Adèle island than has heretofore been charted. The *Penguin* found very uneven bottom in lat. 15° 45½′ S., long. 123° 17′ E., the least depth being 8 fathoms over coral. Nothing, however, was seen to indicate danger, but the locality should be navigated with caution.

(3) *Particulars of Baleine Bank and Walker rock.*

1. Baleine bank, marked P. D. The western point of this bank lies in lat. 16° 46′ S, long. 121° 49′ E.; thence it was examined for a distance of 5 miles eastward, the general depths being 24 feet over coral, and the least water 18 feet. The bank appeared to extend some miles farther eastward.

Note.—The locality around the 7 fathoms struck in 1890, in lat. 16° 43′ S., long. 121° 37′ E., has been examined, but no danger was found; depths of 12 to 18 fathoms over coral exist between it and Baleine bank; the sea was much discoloured with patches of mud and lime, having the appearance of sunken rocks, but none were discovered.

2. Walker rock, a small coral patch with 24 feet water on it, is situated in lat. 16° 52½′ S., long. 121° 48½′ E.

Note.—The tides in the neighbourhood of Baleine bank are rotatory, with a velocity of one to 2½ knots an hour; the flood stream at first makes South, and works round eastward; at half flood it sets East; and at high water North; the ebb stream at first sets North, and works round westward; at half ebb its direction is West, and at low water South.

LIBERALITY OF BABU UPENDRA NATH SEN, ZEMINDAR OF BASONDAH IN THE BACKERGUNGE DISTRICT.

No. 239Med., dated Calcutta, the 24th January 1892.

From—H. H. RISLEY, Esq., Offg. Secy. to the Govt. of Bengal,
To—The Commissioner of the Dacca Division.

I AM directed to acknowledge the receipt of your memorandum No. 55J., dated 7th January 1892, and enclosure, from the Magistrate of Backergunge, bringing to notice that Babu Upendra Nath Sen, Zemindar of Basondah in that district, has placed in his hands the sum of Rs. 2,000 for the construction of a cholera ward for the Barisal Charitable Dispensary, to be called the "Chandra Nath Cholera Ward," after the name of his deceased uncle.

2. In reply, I am directed to say that the Lieutenant-Governor is pleased to accept the offer made by Babu Upendra Nath Sen, and to request that you will convey His Honour's thanks to the donor for this proof of his liberality and public spirit. This letter will be published in the *Calcutta Gazette*.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 23rd January 1892.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN.			
1	Burdwan Jan. 23, '92	Nil	Weather—fairly cool. *Rabi* and sugarcane prospects fair. Price of rice rising at Sudder. Prices of common rice:—
	Culna ...	Nil	
	Cutwa ...	Nil	
	Ranegunge ...	Nil	
			Srs.
			Sudder ... ... 12 }
			Culna ... ... 14 } per rupee.
			Cutwa ... ... 14 }
			Ranegunge ... ... 15 }
2	Bankoora ,, 23, '92	Nil	Weather—seasonable with patches of clouds in the sky. *Rabi* nearly ripe for cutting. Pressing of sugarcane commenced. Condition of cattle fair. Supply of fodder and water hardly sufficient. Common rice selling at 17½ seers per rupee at Bishenpore and 17 seers at Bankura.
3	Birbhum ,, 23, '92	Nil	Weather—seasonable. Prospects of cold-weather crops not very good for continued want of rain. Fodder and water-supply plentiful. Cattle-pox reported from some places in thana Suri. Common rice selling at from 15 to 17 seers per rupee.
	Rampore Haut ...	Nil	
4	Midnapore ,, 23, '92	Nil	Weather—fair and seasonable. Rice crop finally gathered. Indigo doing well. Prospects of *rabi* crop still not good. Increasing scarcity of water in parts. Prices of common rice:—
			Srs.
			Sudder ... ... 16 }
			Contai ... ... 18 } per rupee.
			Tumluk ... ... 13½ }
			Ghatal ... ... nearly 16 }
5	Hooghly .. 23, '92	Nil	Weather—seasonable. Threshing of paddy nearly completed. Pressing of sugarcane going on in many places: also reaping of *kalai*, *mung*, &c., commenced. Rain wanted for later *rabi* crops. No difficulty in obtaining water and fodder-supply. Prices of common rice:—
	Serampore ...	Nil	
	Jehanabad ...	Nil	
			Srs.
			Sudder ... ... 12 }
			Serampore ... ... 13 } per rupee.
			Jehanabad ... ... 15 }
6	Howrah ,, 23, '92	Nil	Weather—seasonable. Average outturn of *aman* crop about 15 annas. Prospects of *rabi* crops not very good. Condition of cattle good. Fodder and water-supply sufficient. Price of common rice from 14 to 15 seers per rupee.
	Uluberia ...	Nil	
PRESIDENCY DIVN.			
7	24-Pergns. ,, 23, '92	Nil	Weather—cold with heavy nightly dews. Harvesting of winter rice finished. Cold weather crops need rain. Sugarcane is still being pressed. No complaints about fodder or water. No cattle-disease prevalent. Prices stationary.
8	Nuddea ,, 23, '92	Nil	Weather—seasonable. Prospects of winter crops unsatisfactory. Condition of cattle good and supply of fodder and water sufficient. Common rice sells at from 11 seers 7 chittacks to 13 seers 8 chittacks per rupee.
	Kushtea ...	Nil	
	Meherpore ...	Nil	
	Chuadanga ...	Nil	
	Kanaghat ...	Nil	
9	Khoolna ,, 23, '92	Nil	Weather—clear and very cold. Harvesting of *aman* going on. Prospects fair. Transplantation of *boro* still going on. Price of common rice varies from 14 to 17 seers per rupee. Fodder and water sufficient.
	Bagirhat ...	Nil	
	Satkhira ...	Nil	
10	Jessore ,, 23, '92	Nil	Weather—seasonable. *Aman* harvest going on. Mustard is being gathered. *Rabi* crops moderate from want of rain. Fodder and water-supply sufficient. Price of rice rather high.
	Jhenidah ...	Nil	
	Magurah ...	Nil	
	Narail ...	Nil	
	Bongong ...	Nil	
11	Murshedabad ,, 26, '92	Nil	Weather—seasonable. Harvesting of winter rice finished in Kandi subdivision; outturn there estimated to be 9 annas. *Rabi* crops doing well in Lalbagh subdivision. Fodder and water sufficient. Seven head of cattle died of small-pox in Kandi subdivision.
CHITTAGONG DIVN.			
12	Chittagong ,, 26, '92	Nil	Weather—seasonable. *Rabi* crops doing well. Prices steady. Condition of cattle good. Fodder sufficient.
13	Noakhally ,, 23, '92	Nil	Weather—seasonable. *Rabi* crops suffering from drought. No cattle-disease. Fodder and water available. Common rice is sold at 14½ seers per rupee in Sudder subdivision and 16 seers per rupee in Feuny subdivision.
14	Tipperah ,, 23, '92	Nil	Weather—seasonable. Winter crops thriving well. Transplantation of *boro* paddy going on. Fodder sufficient.
15	Chittagong Hill Tracts. ,, 21, '92	Nil	Weather—seasonable with dense fogs in the morning. Mustard ripening. Tobacco, chillies, and other vegetables progressing. Sugarcane is being pressed. No cattle-disease reported. Price of common rice 10 seers 8 chittacks a rupee.

No	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN. 16	Dacca Jan. 23,'92	Nil	Weather—seasonable. Harvesting of *aman* completed. Lands are being ploughed for *til* and *kaon*. Prospects of winter crops good. Rain wanted. Fodder is available. Common rice selling at from 15 to 17 seers per rupee. Condition of cattle fairly good.
17	Furreedpore ,, 23, '92	Nil	Weather—seasonable. Mornings occasionally foggy. State of *rabi* crops, namely, wheat, linseed, and barley, fair. Cultivation of *boro* and *jali* paddy in progress. Common rice selling at 16, 13, and 16 seers per rupee at Sudder, Goalundo, and Madaripore respectively. Condition of cattle good. Fodder available.
	Goalundo ...	Nil	
	Madaripore ...	Nil	
18	Backergunge ,, 23, '92	Nil	Weather—seasonable. State and prospects of crops good. Common rice selling at from 11 to 16 seers per rupee. Supply of fodder and water sufficient.
19	Mymensingh ,, 23, '92	Nil	Weather—cold. Prospects of crops fair. Common rice sells at 14 seers per rupee. Condition of cattle good. Supply of water and fodder sufficient.
RAJSHAHYE DIVN. 20	Dinagepore ,, 23, '92	Nil	Weather—cool. Sugarcane being pressed. Standing crops reported to be doing well in Thakurgaon subdivision. Land being prepared for *bhadoi* and jute. Price of rice has a tendency to rise at Thakurgaon. It is selling at 12 seers per rupee at Sudder. Condition of cattle good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	Nil	
21	Rajshahye ,, 23, '92	Nil	Weather—cool and seasonable. Reaping of *aman* almost finished. Harvesting of *ganja* going on. Prospects of sugarcane, ginger, and pulses good. Prospects of *rabi* crops good. Rice selling at from 12 to 16 seers per rupee. No cattle-disease reported. Fodder plentiful; drinking water sufficient.
	Nattore .	Nil	
	Nowgong ...	Nil	
22	Rungpore ,, 23, '92	Nil	Weather—cold and cloudy. Prospects of standing crops unchanged. Rain much wanted. Prices of common rice stationary as follows:—
	Nilphamari ...	Nil	
	Gaibanda ...	Nil	
	Kurigram ...	Nil	

	Srs.	
Sudder	10 to 12	per rupee.
Kurigram	10 to 11	
Gaibanda	13 to 17	
Nilphamari	13	

No cattle-disease, and fodder is plentiful.

23	Bogra ,, 23, '92	Nil	Weather—seasonable. Prospects of *rabi* good. Lands commencing to be cultivated for *aus* and jute in some places. Fodder insufficient in the north-east of Adamdighi thana. Common rice 13¾ seers average per rupee.
	Sherpur ...	Nil	
	Nowkhilla ...	Nil	
24	Pubna ,, 23, '92	Nil	Weather—fine and cold. Reaping of *aman* paddy finished. Sugarcane is being reaped and yielding 12 annas outturn. Rain wanted for standing crops, the condition of which is still fair. Common rice selling at 14 seers per rupee. Fodder and water-supply sufficient.
25	Darjeeling ,, 23, '92	Nil	Weather—cold. Winter rice and *kalai* have been harvested. Sugarcane, mustard, wheat, and barley progressing favourably. Fodder and water-supply sufficient generally, but in some parts of Terai the grass for want of rain is not springing up. No disease among cattle.
26	Julpigoree ,, 23, '92	Nil	Weather—cloudy in the latter part of the week. Harvesting of winter rice over; average outturn about 7 annas. *Rabi* crops still doing well, but rain wanted. Price of rice stationary. No cattle-disease. Fodder and water-supply abundant.
BEHAR.			
BHAGULPORE DIVN. 27	Monghyr ,, 23, '92	Nil	Weather—cloudy, seasonable. Prospects of *rabi* up to this time in Jamui estimated at 6 annas. Cattle-disease still continues in some villages in Jamui subdivision. Supply of fodder and water good. Common rice sells at from 11 to 13 seers per rupee.
	Begusarai ...	Nil	
	Jamui ..	Nil	
28	Bhagulpore ,, 23, '92	Nil	Weather—seasonable. Winter rice harvesting about to be completed. *Rabi* crops suffering from want of rain. Expected outturn of wheat is only a little above 4 annas on the whole. Fodder sufficient.
29	Purneah ,, 23, '92	Nil	Weather—at times cloudy, but no immediate prospect of rain. Mustard still being harvested. Other *rabi* crops suffering from want of rain. Prices of common rice:—
	Kishengunge ...	Nil	
	Arrareah ...	Nil	

	Srs.	
Sudder	11 to 13	per rupee.
Kishengunge	11	

No want of fodder or water at present.

30	Maldah ,, 23, '92	Nil	Weather—cold; mornings foggy. Gathering of *kalai* and mustard not quite finished. Transplantation of *boro* paddy going on. *Rabi* crops suffering for want of rain. Fodder and water-supply sufficient. Common rice selling at an average of 12½ seers per rupee.
	Chanchal ...	Nil	
	Shibgunge ...	Nil	
	Gajole ...	Nil	
31	Santhal Pergha. ,, 23, 92	Nil	Weather cloudy during the past two days. Sugarcane is being cut. Rain wanted for *rabi*. Fodder-supply sufficient, but tanks are dry. Common rice selling at Rajmahal 10½ seers, and in other subdivisions from 14 to 16 seers per rupee.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—*concld.*			
PATNA DIVISION. 32	Patna, Jan. 23, '92	Nil	Weather—cold and cloudy in the latter part of the week. Harvesting of paddy nearly completed. Poppy flowering. Early mustard is being harvested. Peas, gram, wheat and barley in ear. Sky overclouded since yesterday (22nd), and it is somewhat drizzling to-day (23rd). A fall of rain at this season will do good to the crops that are not yet in flower, but those that are still in flower will be damaged to some extent.
	Behar ...	Nil	
	Dinapore ...	Nil	
33	Gya, ,, 23, '92	Nil	Weather—cold and cloudy at the end of the week. Paddy harvesting almost finished. *Rabi* not yet in bad condition. Rain still wanted. Peas, *rahar* and gram, &c., in flower. Poppy commenced to flower. Prices of food-grains rising. Supply of fodder and water sufficient.
	Jehanabad ...	Nil	
	Nawada ...	Nil	
	Aurungabad ...	Nil	
34	Shahabad, ,, 23, '92	Nil	Weather—cold; west winds at beginning of week, east winds with increasing clouds since 21st. Slight drizzle to-day (23rd) at Arrah and sky cloudy. Threshing of paddy nearly over. *Rabi* doing well in irrigated areas, but is a poor crop in unirrigated areas. Rain wanted. All crops in Sudder subdivision good. Sugarcane being pressed. Early wheat, barley, and peas in ear and some have already been harvested near Nasrigunj with a result of 8 annas. Common rice at Arrah 13 seers per rupee.
	Buxar ...	Nil	
	Sasseram ...	Nil	
35	Durbhunga, ,, 23, '92	Nil	Weather—cloudy and looks like rain. A few drops of rain fell to-day (23rd), but not enough to be of use. West winds changing to east during latter part of week. *Rabi* doing as well as can be expected. *Rahar* and tobacco good. Prices slightly rising. Fodder and water plentiful.
36	Muzaffarpore, ,, 23, '92	Nil	Weather—cold; last two days cloudy. *Rabi* suffering everywhere for want of rain. The only good crop is *rahar*, and mustard is doing well in places. Other crops will, it is feared, generally fail. Prices showing a tendency to rise. Poppy suffering from want of rain, and the wells for its irrigation are beginning to give out. Cattle in good condition.
	Hajipore ...	Nil	
	Sitamarhi ...	Nil	
37	Saran, ,, 23, '92	Nil	Weather—cloudy and threatening during the last two days. *Rabi* fair. Sugarcane is being pressed. Condition and prospects of poppy good. Water and fodder for cattle sufficient. Prices of common rice:— Chupra ... ... 13 Sewan ... ... 13½ Gopalgunge ... ... 14½ } per rupee. Srs.
38	Champaran, ,, 23, '92	Nil	Weather—cold and cloudy. Rain urgently wanted for *rabi* crops. Outturn of *rabi* estimated at about 8 annas. Poppy is being irrigated and doing well. Prices have slightly risen. Fodder and water for cattle sufficient.
ORISSA.			
ORISSA DIVN. 39	Cuttack, ,, 23, '92	Nil	Weather—seasonable. *Sarad* paddy is being harvested. *Rabi* and mustard are being gathered. *Dalua* paddy progressing well. Condition of cattle good. Fodder-supply ample. Price of common rice stationary.
40	Pooree, ,, 21, '92	Nil	Weather—cool. Harvesting of *sarad* going on. *Dalua* paddy growing well. Miscellaneous crops thriving. Common rice sells at from 12½ to 21 seers per rupee.
41	Balasore, ,, 23, '92	Nil	Weather—days warmer, nights still cold. Harvesting of winter rice completed. Rice selling at 15 to 16 seers a rupee at Balasore.
CHOTA NAGPORE.			
South-West Frontier Agency.			
CHOTA NAGPORE DIVN. 42	Hazaribagh, Jan. 23, '92	Nil	Weather—seasonable and cloudy at intervals. If it does not rain shortly the prospects of standing crops will be affected. Prospects of poppy reported to be unfavourable. Common rice selling at from 11 to 16 seers per rupee. Water and fodder-supply sufficient. Cattle-disease reported from certain parts of the district.
	Giridih ...	Nil	
43	Lohardugga, ,, 23, '92	Nil	Weather—mornings a little cloudy. Rain badly wanted for *rabi* crops and for ploughing land for upland paddy. Common rice selling at 14 seers per rupee. Fodder and water plentiful.
44	Palamow, ,, 20, '92	Nil	Weather—often cloudy. Standing *rabi* crops suffering much for want of rain. A slight shower of rain will do immense good to wheat and barley. Sugarcane being pressed everywhere. Fodder and water-supply continues to be sufficient.
45	Singbhoom, ,, 23, '92	Nil	Weather—seasonable. *Rabi* crops doing well and being harvested. Outturn on the average 12 annas. Rice selling at from 16 to 24 seers per rupee. Fodder and water still sufficient.
46	Manbhoom, ,, 23, '92	Nil	Weather—seasonable. Some rain is wanted. Rice selling at 16 seers per rupee. Fodder and water-supply getting less.
	Govindpore ...	Nil

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew =, fog.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible] years. The mean state of the atmosphere is expressed at percentage, saturated air being presumed by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number of rainy days is the mean or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past [illegible] stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

or the week ending Saturday, the 23rd of January 1892.

Average humidity at 6 A.M.	Average cloud amount at 6 A.M. for week.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	District observations. Rainfall. ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.
denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of rainfall the normals mean
ten years. The means of the district are the numerical average of the rainfall return received in the district, *i.e.*, from total rainfall at the subdivisions

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the stations are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 26th January* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 23RD OF JANUARY 1892.

FOR a part of the previous week a barometric depression had existed over Bengal, but at its close the depression had filled up, and conditions were rapidly becoming normal for the cold weather. On the 17th, or the first day of the present week, pressure continued to rise moderately in Bengal, and it became almost absolutely normal for the day. A rapid fall of temperature took place and the mean temperature of the province became decidedly below the normal; humidity also fell and the sky was almost absolutely cloudless. Winds also were generally westerly and north-westerly, and fine settled weather obtained over the whole province. Conditions generally remained almost unchanged on the 18th, except that temperature continued to fall, while on the 19th there was a very decided increase both of temperature and pressure, though on the 20th the changes were a little variable. On the 20th also there were indications of the advance of a barometric depression over North-Western India, and on the 21st a very distinct depression existed with a centre near Deesa. In Bengal, on the 21st, the general conditions were quite unaffected by the depression, but on the 22nd the depression had advanced in an easterly or south-easterly direction, and had reached the Central Provinces, when weather in Bengal was immediately changed. Winds became more or less easterly at the majority of stations, perhaps forming part of a general cyclonic circulation round the depression. Temperature and humidity also rose, while pressure began to fall at the stations in the extreme west of the province, though it was still rising elsewhere. Cloud proportion also increased rapidly, particularly in South Behar, and on the morning of the 23rd a few rain showers were reported from the Shahabad, Mozufferpore and Dinapore districts, but the amounts were in no case large. The depression had, however, to a great extent filled up and disappeared on the 23rd, though pressure was falling in Bengal and humidity and temperature were rising, and in the case of the mean temperature it had become from about 1° to 7° above the normal. Winds also were generally more or less easterly, and the sky remained decidedly clouded over, particularly in the western districts. Thus for the last two days of the week conditions in Bengal were decidedly disturbed, and abnormally high temperature and humidity generally obtained.

Pressure.—The mean pressure for the week has been from 0·05 inch to 0·08 inch in excess of the normal. This excess has been fairly equally distributed over the whole province.

Temperature.—Was in very considerable defect of the normal at the beginning of the week, and in equally large excess at its close. For the whole week, therefore, the mean temperature has not varied very largely from the normal, there being only an excess of about half a degree. The excess has, however, been mainly confined to Chutia Nagpur and South Behar, where it has equalled about two degrees. In the districts of South-West and North Bengal and in North Behar, the variation from the normal has been very small.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in the province are compared with the normal values for the same period. It will be seen that there has been an excess generally in the day temperatures, but that at five out of the nine stations the night or minimum temperatures have been in defect.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 23rd January 1892.

	Normal mean maximum temperature for the week ending 23rd January.	Actual mean maximum temperature for the week ending 23rd January 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 23rd January.	Actual mean minimum temperature for the week ending 23rd January 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 23rd January.	Actual mean daily temperature for the week ending 23rd January 1892.	Variation of actual mean from the normal.
Cuttack	84·9	85·3	+0·4	60·1	63·0	+1·9	72·5	73·7	+1·3

Darjeeling	44·4	43·5	−0·9	34·3	34·9	+0·6	39·4	39·2	−0·2

Rainfall.—As stated above, a few stations in South Behar reported rainfall on the last day of the week, but the falls have been small and mainly confined to the Shahabad district. The falls in excess of a tenth of an inch have been Bhubooah 0·25, Bussawan 0·25 inch, and Mohaniah 0·21 inch, and falls of less than a tenth of an inch are reported at Mohua, Arrah, and Dinapore.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 23rd of January 1892 :—

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 28th January 1892.—Under the power conferred upon him by section 101 (2) of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made, and a record of rights prepared, in respect of all lands included within the boundaries of the following Government Estates in the district of Tipperah:—

1. Taluk Abhiram Dutt
2. Bhagyamanta Ghose
3. Bhagyamanta Roy and others
4. Samsaraddi Jamsir
5. Ashakmati
6. Mangal Sarfaraz and others
7. Durga Churn Das.

The particulars to be recorded in the survey and record of rights shall be the following:—

The name of each tenant.

The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

The situation, quantity and boundaries of the land held by him.
The name of his landlord.
The rent payable.
The mode in which the rent has been fixed, whether by contract, by order of a court, or otherwise.
If the rent is a gradually increasing rent, the time at which and the steps by which it increases.
The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 29th January 1892.—Under the powers conferred upon him by section 101, sub-section 2 of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made, and a record of rights prepared, in respect of all the lands included in the resumed estate Chur Pechakhola, No. 1702, in pergunnah Ishapshye in the district of Pubna.

The particulars to be recorded shall be the following:—

(*a*) The name of each tenant.
(*b*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.
(*c*) The situation, quantity, and boundaries of the land held by him.
(*d*) The name of his landlord.
(*e*) The rent payable.
(*f*) The mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise.
(*g*) If the rent is a gradually increasing rent, the time at which and the steps by which it increases.
(*h*) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

DECLARATION.

The 28th January 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for compensating Mohesh Chowkidar, successor of Iswar Chowkidar, of Mohunpore, thana Jamalpore, a part of whose service land was taken up for a canal from Benodnagore to Soojeepore in the village of Mohunpore, pergunnah Havelli, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha 8 cottahs and 8 chittacks of standard measurement, bounded on the—

Plots 1 *and* 2—*North by*—Nibarun and Madhab Ghose's weeds and Mohesh Chowkidar's chakran lands.
East by—Shubadar Sheik, Bunka Behari and Lolit Rai's lands.
South by—Lolit Rai and Kirtibash Ghose's lands.
West by—Lolit Rai's lands and Mohesh Chowkidar's chakran lands.
Plot 3—*North by*—Nituram and Madhub Ghose's lands.
East by—Mohesh Chowkidar's chakran lands and Nituram and Madhub Ghose's lands.
South by—Kirtibash Ghose's lands.
West by—Mohesh Chowkidar's lands.

is required within the aforesaid village of Mohunpore.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

MEDICAL DEPARTMENT.

The 28th January 1892.—Assistant Apothecary G. S. O'Neal is appointed to be Medical Officer at the Sandheads with effect from the date on which he joined that appointment. This cancels the notification, dated 3rd December 1891, appointing Assistant Apothecary G. S. O'Neal to act as Medical Officer of the Sandheads.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 112A.

The 5th January 1892.—Mr. A. F. Steinberg, Officiating Joint Magistrate and Deputy Collector, Rungpore, is vested with the powers of a Magistrate of the first class, and with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

Mr. Steinberg is appointed, under the provisions of section 22, Act X of 1882, to act as a Justice of the Peace within the territories under the Lieutenant-Governor's control.

The 30th January 1892.—Babu Sudam Charan Naik, Assistant to the Superintendent of the Tributary Mehals in Orissa, is vested with the powers of a Magistrate of the third class.

Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Jnanendra Nath Chowdhuri, Probationary Deputy Magistrate of Jessore, to take down evidence in criminal cases in the English language.

Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Promotho Nath Dutt, Probationary Deputy Magistrate, Noakholly, to take down evidence in criminal cases in the English language.

Babu Shoshi Bhuson Rai, Honorary Magistrate of the Independent Bench at Balla, in the district of Dacca, is vested with the powers of a Magistrate of the second class.

Prince Mirza Mohammad Jogee Bahadur is appointed to be an Honorary Magistrate of the Independent Bench at Alipore, in the district of the 24-Pergunnahs, and is vested with the powers of a Magistrate of the third class.

The undermentioned Honorary Magistrates of the Independent Bench at the Sudder station of the district of Rungpore are vested with the powers of a Magistrate of the second class:—

Rajah Janoki Bullub Sen.	Moulvi Syed Abdool Hayat.
Baboo Annada Prasad Sen.	,, Choudury Abdool Mazid.

The 1st February 1892.—Babu Nogendra Nath Chatterjee, B L., is appointed to act as a Munsif in the district of Chittagong, to be ordinarily stationed at Anwara, during the absence, on leave, of Babu Jogendra Nath Mookerjee, or until further orders.

Babu Gouri Prosad Misra is appointed to act as a Munsif in the district of Patna, to be ordinarily stationed at Behar, during the absence, on leave, of Babu Gobind Chandra Bysack, or until further orders.

Babu Upendra Chandra Chatterjee, Officiating Munsif of Cox's Bazar, in the district of Chittagong, is vested with the functions of a District Court under section 26 of Act VII of 1889 within the local limits of his jurisdiction.

Mr. William Sinclair, an Honorary Magistrate of the Bench at the Sudder station of the Darjeeling district, is vested with the powers of a Magistrate of the second class.

Babu Parbutty Coomar Mitter, Subordinate Judge of Dacca, is appointed to be Subordinate Judge and Small Cause Court Judge of Monghyr.

Babu Jagat Durlub Mozumdar, Subordinate Judge and Small Cause Court Judge of Monghyr, on leave, is appointed to be a Subordinate Judge of Dacca, but to be deputed temporarily as an Additional Subordinate Judge of Manbhoom.

Babu Jagat Durlub Mozumdar is vested with the powers of a Munsif for the trial of cases cognizable by a Court of first instance up to the value of Rs. 1,000 within thanas Jhalda and Purulia which comprised the abolished Purulia Munsifi.

Baboo Kristo Mohun Mukerjee, Small Cause Court Judge of Dacca and Moonsheegunge, is vested temporarily with the powers of a Subordinate Judge, during the absence, on deputation, of Babu Jagat Durlub Mozumdar, or until further orders.

Babu Krishna Chunder Chatterjee, Subordinate Judge of Dacca, is vested with the powers of a Court under section 3(*b*) of the Land Acquisition Act X of 1870.

The 2nd February 1892.—Mr. C. P. Caspersz, Joint-Magistrate and Deputy Collector, Chittagong, is vested, under section 407 of the Code of Criminal Procedure, with power to hear appeals from convictions by Magistrates of the second and third classes.

Babu Jogesh Chunder Bagchi is appointed to be an Honorary Magistrate of the Mudehpoora Bench, in the district of Bhagulpur, and is vested with the powers of a Magistrate of the third class.

Babu Suchchida Nanda Mukerjee, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Furreedpore, is vested with the powers of a Magistrate of the first class.

Babu Joya Prosad Pande, B.L., is appointed to act as a Munsif in the district of Chota Nagpore, to be ordinarily stationed at Palamow, during the absence, on leave, of Babu Amar Chandra Mukerjee, or until further orders.

Mr. F. S. Hamilton, Officiating Joint-Magistrate and Deputy Collector, Chittagong, is vested with powers under sections 110 and 133 of the Code of Criminal Procedure.

Babu Hira Lal Sen, Sub-Deputy Collector in the district of Dinagepore, is vested with the powers of a Magistrate of the third class.

Babu Preo Sankar Ghosh is appointed to be an Honorary Magistrate of the Independent Bench at the Sudder station of the district of Jessore, and is vested with the powers of a Magistrate of the third class.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd February 1892.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Moulvi Amir Hossein, authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the jurisdiction of thanas Diamond Harbour, Bankipur, Debipur, Kalpi and Mathurapur, in the district of the 24-Pergunnahs.

H. J. S COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd February 1892.—Under section 2, Act XII of 1880 (an Act for the appointment of persons as Qazis), the Lieutenant-Governor has been pleased to grant a sanad (license) to Moulvi Amir Hossein, appointing him Qazi of thanas Diamond Harbour, Bankipur, Debipur, Kalpi and Mathurapur, in the district of the 24-Pergunnahs, for the celebration of marriages and the performance of other rites and ceremonies when application is made to him to perform any such functions.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT—BENGAL.

IRRIGATION.

The 2nd February 1892.

No. 42.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for drainage channel from Purnagur to Ganjrajpur, it is hereby declared that for the above purpose a piece of land 3 miles 1 furlong long and averaging in width 46 feet, measuring 17 acres 2 roods and 34 poles, more or less, of standard measurement, commencing from mouza Odisogur, pergunnah Deogan, passing through mouzas Khairang, Asarampatna, Chadaigan, Tumba, Haldia, Agar, Agarpatna, Kortol, Sainto, and terminating at mouza Mahira, pergunnah Deogan, in the district of Cuttack, is required within the aforesaid villages.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

ESTABLISHMENT.

The 2nd February 1892.

No. 43.—The following notification, issued by the Government of India in the Public Works Department, is republished for information:—

No. 34, *dated the 28th January* 1892.—Mr. H. E. Pellereau, Assistant Engineer, 1st grade, Bengal, is transferred permanently to the Engineer Establishment, Punjab.

IRRIGATION.

The 2nd February 1892.

No. 44.—*Notification.*—The Assasoonee khal of the Eastern Canals will be closed for silt clearance for about two months and twenty-three days, commencing from the 7th February 1892.

During the closure boats coming to Calcutta must take the outer route by the Culputtoca and Golgussaea rivers to the Coxalee khall.

ESTABLISHMENT.

The 2nd February 1892.

No. 49.—Mr. F. A. Cowley, Assistant Engineer, Dehree Workshops Division, is transferred, in the interests of the public service, to the Arrah Division, which he joined on the forenoon of the 19th January 1892.

No. 50.—Mr. A. Hayes, Executive Engineer, Balasore Division, having returned on the 31st December 1891, from the furlough granted to him, the unexpired portion of that leave, viz., the 31st December 1891 and 1st January 1892, is hereby cancelled.

J. M. MCNEILL, *Col.*, R.E.,
Secretary to the Government of Bengal.

ESTABLISHMENT.

The 1st February 1892.

No. 41.—The following notification, issued by the Government of India in the Public Works Department, is republished for information:—

No. 31, *dated the 27th January* 1892.—Lalla Rulia Ram, Accountant, first grade, and Honorary Assistant Examiner, officiating as Deputy Examiner in the Office of the Examiner of Accounts, Eastern Bengal State Railway, is appointed Assistant Examiner, first grade, but will continue to officiate as Deputy Examiner.

RAILWAY.

The 2nd February 1892.

No. 45.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose viz., for construction of Permanent Way Inspector's bungalow in the village of Amlajora pergunnah Silampore, zillah Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 bighas 9 cottahs and 4½ chittacks of standard measurement is required, bounded as follows :—

On the north by Kunja Behary Sircar's land and East Indian Railway land.
On the east, south, and west by Kunja Behary Sircar's land.

This declaration is made, under the provision of section 6 of Act X of 1870, to all whom it may concern.

No. 46.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up at the public expense for a public purpose, viz., for the construction of Executive Engineer's and subordinate's quarters on the East Coast State Railway in the district of Pooree, it is hereby declared that for the above purpose two plots of land, each measuring two acres and 11 poles, more or less, situated respectively in the villages of Taldihi and Nuagarh, in the Government Estate of Khorda, are required.

Plans of the lands are filed in the office of the Special Deputy Collector for land acquisition at Khorda.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

CIVIL BUILDINGS.

The 2nd February 1892.

No. 47.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a latrine for the use of the public and others frequenting the new Police Court in Lall Bazar in the town of Calcutta, Tiretta Bazar, pergunnah Khaspur, district 24-Pergunnahs, it is hereby declared that for the above purpose the site of premises No. 3, Chattawalla Gully, measuring, more or less, 5 cottahs of standard measurement, bounded on the north by Chattawalla Gully and part of premises No. 4, Chattawalla Gully, belonging to Preo Nath Ghose, on the south by premises No. 307, Bow Bazar Street, belonging to Myer Brothers, on the east by a part of premises No. 4, Chattawalla Gully, belonging to Preo Nath Ghose, and premises No. 300, Bow Bazar Street, in charge of the Official Trustee, and on the west by the premises Nos. 1 and 2 belonging to Nobin Chundro Neogy, is required within the aforesaid town of Calcutta.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COMMUNICATIONS.

The 2nd February 1892.

No 48.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a diversion of the Hazaribagh and Ranchi Road in the village of Kherabera, pergunnah Ormanjhi, zillah Lohardugga, it is hereby declared that for the above purpose a piece of land measuring, more or less, 64 bighas and 3 chittacks of standard measurement, bounded on the north by Ghurka, on the south by Chutupaloo, and on the east and west by village lands, is required within the aforesaid village of Kherabera.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

The declaration No. 448, published at page 1087, Part I of the *Calcutta Gazette* of the 23rd December last, is hereby cancelled.

F. J. JOHNSTONE,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

The 1st February 1892.

No. 9 *Marine.*—In exercise of the powers conferred upon him by section 10 of Act I 1859, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following alteration in the Rules to regulate the granting of local Certificates of Competency to Masters and Mates in the Mercantile Marine :—

Regulations relating to the examination of Masters and Mates for local certificates in the Mercantile Marine under Act I of 1859.

The following clause of Rule 57 of the Rules is cancelled :—

"For the renewal of any certificate, Rs. 5."

J. M. MCNEILL, *Col.*, R.E.,
Secretary to the Govt. of Bengal.

The 1st February 1892.

No. 10*Marine*.—In exercise of the powers conferred upon him by the Indian Steam-Ships Act, 1884, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following alteration in the rules to regulate the granting of certificates of competency to Engineers of sea-going steam-ships:—

Regulations relating to the examination of Engineers for Colonial Certificates of Competency under Act VII of 1884.

The following clause of Rule 38 of the Rules is cancelled:—

"Renewal of any certificate ... ... Rs 5"

J. M. McNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

NOTIFICATION.

The 1st February 1892.

No. 11*Marine*.—The following draft of Rules which it is proposed to issue under section 29 of the Inland Steam-Vessels Act, 1884, as amended by subsequent enactments, to regulate the granting of certificates of competency to Masters of Inland Steam-Vessels, is published for general information. The draft will be taken into consideration on the expiry of a month from the date of its publication in the *Calcutta Gazette*, and the Lieutenant-Governor will receive and give due attention to any objections or suggestions which may be made by any person within that period:—

REGULATIONS RELATING TO THE EXAMINATION OF MASTERS OF INLAND STEAM-VESSELS.

Certificates granted to persons who pass examinations.

1. *Certificates of Competency* will be granted to those persons who pass the requisite examinations, and otherwise comply with the requisite conditions. For this purpose arrangements have been made for holding examinations periodically at the Port of Calcutta.

Examinations continued till all the candidates are examined.

2. The examinations will be held by the Port Officer and one or more other examiners to be appointed by the Government from time to time. They will commence early in the forenoon, and will be continued from day to day until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

3. Candidates for examination must make their application upon the appropriate form (Exn. 2*b*), which must be filled up at the Port Office. The Exn. 2*b* properly filled in, together with the candidates' testimonials and discharges, must be lodged with the Port Officer not later than the day before the day of examination.

Testimonials of character, conduct, and ability required.

4. Testimonials of character, and of sobriety, experience, ability, and good conduct on board ship for at least the twelve months of service immediately preceding the date of application to be examined, will be required of all applicants, and without producing them no person will be examined. As such testimonials and discharges may have to be verified before the candidate can be examined, it is desirable that they should be handed in, together with the Form Exn. 2*b*, as early as possible.

Testimonials of Foreigners.

5. The testimonials of servitude of Foreigners and of British seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country; or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

Certificates as to age.

6. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English.

7. Foreigners must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel. In the case of natives of India who may not be able to speak English, their certificates shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

Colour Tests.

8. The Government have made the following arrangements for the examination of persons as to their ability to distinguish colours:—

9. Examinations in colour are open to any person serving or about to serve in the Mercantile Marine.

10. Any persons including the holders of Certificates of Competency, or persons about to apply for Certificates of Competency, if desirous of being examined *in Colours only*, must make application to the Port Officer on Form Exn. 2*a*, and pay a fee of one rupee.

11. He must on the appointed day attend for Examination at the Examiner's Office; and if he passes he will receive a certificate to that effect.

12. If he fails, it will be open to him to be examined again in Colours as often as he pleases on payment of the fee of one rupee at each fresh attempt.

13. The application of a *candidate who is presenting himself for examination for a Master's Certificate* must be made on Form Exn. 2*b*. Such examination will commence with the colour test; and if the candidate does not, at the time of making application, hold a Certificate of Competency of any grade, and should fail to distinguish correctly any one of the colours used in the test, he will not be allowed to proceed with the examination.

14. The fee he has paid for examination for a Certificate of Competency will include the fee for the Colour test, and, with the exception of one rupee, will in such event be returned to him.

15. A candidate for examination for a Certificate of Competency who, at the time of making application, does not possess a certificate, and who fails to pass the colour test, may not be re-examined until after the lapse of three months from the date of his first failure. If he fails a second time, he will be allowed a third trial at the expiration of another three months from the date of his second failure. A fresh fee must be paid at each succeeding examination.

16. It is therefore obviously to the advantage of Candidates for Certificates of Competency to apply in the first instance to be examined in *Colours only* on Form Exn. 2*a*.

17. A candidate who holds a Certificate of Competency, and who, on presenting himself for examination for a certificate of a higher grade, is unable to pass the Colour test, will notwithstanding be permitted to proceed with the examination for the certificate of the higher grade.

18. Should he pass this examination, the following statement will be written on the face of the higher certificate which may be granted to him, viz.—"This Officer has failed to pass the examination in Colours."

19. Should he ultimately fail to pass the examination, a like statement, relating to his being colour blind, will be made by the Port Officer on his existing certificate before it is returned to him.

20. Holders of certificates which bear the statement of their having failed to pass in Colours, and who may desire to have the statement removed from their certificates, must obtain the special permission of the Government.

Qualifications for Certificates of Competency as First Class Masters.

21. *Examination in Colours.*—All candidates for certificates of competency must first be examined in colours.

22. A candidate for a certificate as first class master of inland steam-vessels must be not less than twenty-four years of age, and must have served as second class master in charge of a steam-vessel for not less than three years, or he must be not less than twenty-two years of age, hold a certificate of competency as second mate granted under Act I of 1859 (for the amendment of the law relating to Merchant Seamen), or the Merchant Shipping Acts, 1854 to 1883, or a certificate to which the provisions of any such Act have been made applicable under the Merchant Shipping (Colonial) Act, 1869, and have served as mate of an inland steam-vessel or master of a river flat for not less than one year; or he must be not less than twenty-four years of age, and must have served either not less than three years at sea and three years as mate of a river-steamer or master of a river flat, or not less than six years as mate of a river steamer or master of a river flat.

23. Each candidate will be examined apart, and *viva voce*, in each and all of the following subjects:—.

(1)—The rules of the road.
(2)—The management of river steamers under all contingencies.
(3)—The tide table.
(4)—Storm signals.
(5)—The provisions of Act VI of 1884, and the rules framed under sections 21, 29, 50 and 51 of the Act.

Qualifications for Certificates of Competency as Second Class Masters.

Examination in Colours.—All candidates for Certificates of Competency must first be examined in Colours.

A candidate for a certificate as second class master of an inland steam-vessel must not be less than twenty-one years of age and must produce satisfactory certificates of sobriety and intelligence, and that he has served three years as Mate of a small steam-vessel or as chief helmsman of a steam-vessel of over 80 horse-power, and shall be examined *viva voce* as to his knowledge in the following subjects:—

(1)—The rules of the road.
(2)—The management of small river steamers.
(3)—Storm signals.

Failure.

25. If a candidate fails, he will not be re-examined *until after a lapse* of three months from the date of such failure.

Re-examination in case of failure.

Certificate of lower grade.

26. If a candidate has failed in his examination, but the subjects in which he has failed are not included in the subjects required for a certificate of a lower grade, he may, if he desires it, receive a certificate of such lower grade.

27. No part, however, of the fee he has paid will be returned to him, and on presenting himself, when entitled so to do, for re-examination for the higher grade of certificate, he will be required to pay again the full fee.

Fees.

28. Candidates for examination, in making their application on Form Exn. 2*b*, will be required to pay the examination fee before any step is taken, whether by enquiring into their services or testing their qualifications, &c. Should it be found that their service is not sufficient to entitle them to be examined, or should their testimonials be unsatisfactory, or should they from any other cause not be examined, no part of the fee will be returned to them, but when they have filfilled the requisite service, or are able to produce satisfactory testimonials, as the case may be, they will be allowed to again present themselves for examination for a certificate of the same grade without paying any further fee.

29. The fee for examination must be paid to the Port Officer. In any case in which a candidate offers money to any other officer, and in any place but in the Port Office, the candidate so offering money will be regarded as having committed an act of misconduct, and will be rejected and not allowed to be again examined for twelve months.

Fees to be paid by applicants for examination.

30. If a candidate fails in his examination, *no part of the fee will be returned to him.*

31. If the candidate satisfy the examiners as to his knowledge of the prescribed subjects, and generally as to his competency to command an inland river steamer, they shall certify the same to the Government, which will then grant a certificate to the candidate.

32. The fees are as follows:—

	Rs.
First Class Master	16
Second Class Master	6

General.

33. Certificates of competency of first and second class masters shall be made and issued in the forms hereunto annexed.

34. Every certificate of competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded by the Port Officer of Calcutta.

NOTIFICATION.

The 1st February 1892.

No. 12*Marine.*—The following draft of rules which it is proposed to issue under section 29 of the Inland Steam-Vessels Act, 1884, as amended by subsequent enactments, to regulate the granting of certificates of competency to Engineers and first class Engine-drivers of Inland Steam-Vessels, is published for general information. The draft will be taken into consideration on the expiry of a month from the date of its publication in the *Calcutta Gazette*, and the Lieutenant-Governor will receive and give due attention to any objections or suggestions which may be made by any person within that period :—

REGULATIONS RELATING TO THE EXAMINATION OF ENGINEERS AND FIRST CLASS ENGINE-DRIVERS OF INLAND STEAM-VESSELS.

Certificates of competency granted to persons who pass requisite examinations.

1. Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose examiners have been appointed and arrangements have been made for holding the examinations periodically at the port of Calcutta.

Examinations continued till all the candidates are examined.

2. The examinations will commence early in the forenoon, and will be continued from day to day until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

Application how to be made.

3. Candidates for examination must make their application upon Form Exn. 3*b*, which must be filled up at the Port Office. The Exn. 3*b*, properly filled in, together with the candidate's testimonials, must be lodged with the Port Officer not later than the day before the day of examination.

Testimonials required.

4. Testimonials of character and of sobriety, experience, ability, and good conduct, for at least the 12 months immediately preceding the date of application to be examined, will be required of all applicants, and without producing them no person will be examined. If the service has been on shore, the testimonial must be signed by an employer; if at sea, by either the master, managing owner, chief or superintending engineer.

5. As such testimonials and discharges may have to be verified before the candidates can be examined, it is desirable that they should be handed in, together with the Form Exn. 3*b*, as early as possible.

Testimonials of Foreigners.

6. The testimonials of servitude of Foreigners and of British seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognised official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

Certificate as to age.

7. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English.

8. Foreigners must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

Verification of services, &c., by Articles.

9. Services which cannot be verified by proper entries in the articles of the ships in which the candidates have served cannot be counted.

Qualifications for certificates of competency as Engineers.

Qualification of candidate for Inland Engineer's Certificate.

10. A candidate must be not less than twenty-two years of age :—

(*a*) He must have served an apprenticeship to an engineer of three years in England or five years in India, and must prove that during the period of his apprenticeship he has been employed on the making and repairing of engines. Or, if he has not served an apprenticeship, he must prove that for not less than three years in England or five years in India he has been employed as a journeyman or masterhand in some factory or workshop on the making or repairing of engines. In either case he must also have served two years thereafter in the engine-room of a steamer of over 80 horse-power, or as a certificated engine-driver in a steamer of less than 80 horse-power.

Or, failing the above service, he must have served as a certificated engine-driver in charge of a steamer for not less than four years.

(*b*) He must be able to give a description of boilers and the methods of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

(*c*) He must understand how to correct defects from accident, decay or other causes, and the means of repairing such defects.

(*d*) He must understand the use of the barometer, thermometer, and salinometer, and the principles on which they are constructed.

(*e*) He must state the causes, effects, and usual remedies for incrustation and corrosion.

(*f*) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery, or total breakdown.

(*g*) He must write a legible hand, and understand the first five rules of arithmetic and decimals, and their application to questions about consumption of stores, and full capacities of tanks and bunkers, the duty of pumps, and the direct strains in engines and boilers.

(*h*) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use; as to the details of the different working parts, external and internal, and the use of each part.

Qualifications for certificates of competency as first class Engine-drivers.

11. Candidates for examination must make their application upon the appropriate Form (Exn. 3*b*.), which must be filled up at the Port Office.

12. A candidate for a certificate of competency as first class engine-driver must have attained the age of twenty-two years.

He must have served an apprenticeship of at least four years if in India, or three years in the United Kingdom, and have served as assistant engineer for one year on a steamer of not less than 80 horse-power.

Or he must have been three years principal serang or tindal in the engine-room of a steamer, or have been for three years in charge of the engine of a factory or mill under a European manager or engineer, as well as one year principal serang or tindal or assistant engineer in the engine-room of a steamer under a certificated engineer.

13. He must have the testimonial shown in Appendix B filled up by the engineer with whom he has last served, or his other testimonials must contain all the particulars therein required.

14. He must pass a *vivâ voce* examination before the Board of Examiners as to the working of an engine and the use of its different parts.

15. He must be able, if required, to show his practical qualifications by one week's trial in a steamer after fulfilling the other tests to which he will be subjected.

General Rules as to Examinations.

Candidates not to take books, &c., into examination room.

16. All books necessary for the use of candidates under examination will be provided by the Government, and applicants will not be permitted to take into the examination room any book, paper, document, or memoranda of any description whatever; and, subject to the provisions referred to hereafter, they will also not be allowed to work out their problems on a slate or on waste paper.

17. Candidates will be allowed in the time allotted to cancel any part of their work, and, when required, additional papers will be supplied by the Examiners. These additional sheets must be attached to, and form part of, the examination papers.

Punishment for breaking rules.

18. In the event of any candidate being discovered copying from another, or affording any assistance or giving any information to another, or communicating in any way with another during the time of examination, he will be regarded as having failed in his examination, and will be turned back for three months, in the same manner as if he had failed in the practical part of the examination; and no part of the fees he may have paid for examination will be returned to him.

Leaving examination room.

19. If a candidate leaves the room before answering any question which has been given to him, he cannot afterwards be permitted to answer it, but the examiners may substitute other data or another question.

Questions from Form Exn. 15*a*.

20. All applicants presenting themselves for examination for certificates of competency as engineers will be required to give written answers to eight out of a list of ten questions selected from Form Exn. 15*a*, "Elementary Questions for the first examinations of Engineers for certificates of competency." These questions are intended to furnish a record to some extent of the candidate's knowledge at the time of his examination, and also to induce the candidates to pay more attention to their handwriting and spelling.

21. The Form Exn. 15*b*., on which these answers will be written, contains also some questions as to the experience of the applicant, to be answered by him in writing.

22. Examiners may add to their *vivâ voce* questions on the practical management of steam-engines and boilers any of those contained in Exn. 15*a*.

23. If at the expiration of the time allowed the candidate has worked out correctly the whole of the questions set to him, and given satisfactory answers in the *vivâ voce* examination, he will be declared to have passed.

24. If at the expiration of the time allowed he has not worked out the whole of the questions set to him, but if the result of the *vivâ voce* examination, taken in connection with the answers to such of the questions as he has worked out, is sufficient to satisfy the Examiner

that the applicant is competent to take charge of engines, he will be declared to have passed.

25. In other cases he will be declared to have failed.

(Exn. 15.)

26. A report of the examination, and the examination papers, will be forwarded to the Government on the Form Exn. 15.

Notification of having passed will be given to successful candidates (Exn. 16).

27. If the candidate passes, he will receive the Form Exn. 16 upon which the Government will issue the certificate to the candidate, whose testimonials, &c., will be returned at the same time. It is therefore important that the port of destination of the certificate should be the same on both the Form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the examiners should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

Fees.

Fees to be paid by applicants for examination.

28. Candidates for examination, in making their application on Form Exn. 3*b*, will be required to pay the examination fees before any step is taken, whether by inquiring into their services or testing their qualifications, &c. No part of the fee will under any circumstances be returned to them; but should it be found that their service is not sufficient to entitle them to be examined, or that their testimonials are unsatisfactory, they will be allowed to present themselves for examination without paying any further fee, when they have fulfilled the requisite service, or are able to produce satisfactory testimonials, as the case may be.

29. The fee for examination must be paid to the Port Officer. In any case in which a candidate offers money to any other officer, and in any place but in the Port Office, the candidate so offering money will be regarded as having committed an act of misconduct, and will be rejected and not allowed to be examined for twelve months.

30. If a candidate fails in his examinations, *no part of the fee he has paid will be returned to him.*

31. The fees are as follow:—

	Rs.
Engineers	12
First class engine-drivers	10

Failure.

32. If the applicant fails in the *vivâ voce* or practical part of the examination, he may not present himself for re-examination until he can produce proofs of three months' further service afloat. If he fails in arithmetic or drawing only, he may come up again at any time. Engine-drivers may be examined *de novo* after six months, if the past examination showed that they might reasonably be expected to qualify.

General.

33. Certificates of competency of engineers and first class engine-drivers shall be made out and issued in the forms hereunto annexed.

34. Every certificate of competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded by the Port Officer of Calcutta.

APPENDIX B.

TESTIMONIAL.

I hereby certify that has served with me in the engine-room of as principal serang or tindal for a period of , during which time he has discharged his duties to my entire satisfaction.

I consider that he fully understands the working of an engine, and has sufficient tact, presence of mind, and energy to look after and manage the working of the engines of a river steamer having engines of thirty nominal horse-power or upwards, but of less than 80 nominal horse-power.

Date *Signed.*

No. and description of Certificate.

ANY Engineer giving a testimonial in this form should be very careful in doing so, as the document may materially influence the applicant's eligibility as a candidate.

Secretary to the Government of Bengal.

* If not known exactly, must be stated on the best information or evidence available.

The 1st February 1892.

No. 13*Marine.*—In exercise of the powers conferred by section 11 of the Petroleum Act, 1886, the Lieutenant-Governor of Bengal is pleased, with the previous sanction of the Governor-General in Council, to make the following rule to regulate the transport of petroleum :—

Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipore.

NOTE—This rule shall not be read as prohibiting the conveyance by water, between Garden House and Cossipore, of petroleum which is brought under a license from beyond the limits of Calcutta or Howrah and is not intended to be landed within those limits.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Govt. of Bengal.

The 2nd February 1892.

No. 14*Marine.*—In accordance with the provisions of section 126, clause (4) of the Calcutta Port Act, 1890, the Lieutenant-Governor directs the publication of the following bye-laws for regulating, landing and shipping of goods on inland vessels' wharves, which have been proposed by the Commissioners of the Port of Calcutta :—

Landing and Shipping on Inland Wharves.

BYE-LAWS.

Goods to be landed at authorised wharves only.

1. With the exceptions hereinafter noted, no vessels, not being sea-going vessels, shall land or ship any goods at any wharf on the east bank of the river Hooghly between the northern boundary of the port and the Government Dockyard at Kidderpore, except at the wharves duly notified by the Commissioners under section 97 of Act III (B.C.) of 1890.

Exceptions.

2. The foregoing rule shall not apply to inland steamers or flats, or to boats laden with vegetables, fruits, meat, and market produce; such goods can be landed at the public ghats under any rules or restrictions at present or hereafter in force thereat.

Definition of market "produce."

3. By the term "market produce" shall be meant such perishable commodities as are imported for the bazars for immediate and daily consumption, but on such vegetables as potatoes, red gourds, or pumpkins, and the like, which are imported and stored, the toll shall be levied.

Goods not to be landed or shipped until toll has been paid.

4. No goods, liable under Schedule C for payment of toll, on which toll has not been paid, shall be either landed from, or shipped into, boats or vessels using the inland vessels' wharves.

Goods landed or shipped without payment of toll to be detained.

5. Goods landed from, or shipped into, boats or vessels without payment of the toll, shall be detained by the Commissioners, at the risk and expense of the consignees, until the toll has been paid.

Re-landing or re-shipping.

6. If goods shipped have to be re-landed, or goods landed have to be re-shipped, such goods having already paid toll for shipping or landing, shall be exempted from further payment for re-landing or re-shipping, provided such re-landing or re-shipping takes place on the same day as the landing or shipping.

Steam-ferries and passenger-boats not to take goods unprotected by pass.

7. Persons in charge of steam-ferries or passenger-boats plying from any public ghat, shall not permit the landing or shipping from, or upon, their vessels of any goods liable under Schedule C for payment of toll, unless such goods are protected by passes.

Goods not to be stacked on the wharves.

8. Except for the purpose of enabling masters of vessels to take measurements or weighments of goods to be shipped on board their vessels, no goods shall be permitted to be stacked on the wharves beyond the time actually necessary to convey them away.

Goods awaiting shipment to be under control.

9. During the time it is actually necessary for goods in course of landing or shipping, to remain on the wharves, such goods shall be piled in places assigned for the purpose by the Superintendents of the wharves, or their subordinates.

Boats not to moor or anchor for purposes of sale or barter.

10. Boats shall not be moored or anchored at the wharves, in order that the owners of the goods brought in them may sell or barter.

Empty boats to lie in the stream.

11. Empty boats waiting to be hired, or having discharged goods, shall anchor in the stream, at least 150 feet off the wharves.

Timber not to be floated to detriment of the wharves.

12. No person shall float timber, rafts, or any obstructive articles in the stream within 150 feet of the bank, so as to impede the movement of boats and vessels at the inland vessels' wharves.

Commissioners' servants at liberty to board boats or vessels.

13. No person shall prevent the Superintendents of the wharves, or other persons deputed by them, from boarding any boat or vessel within 150 feet of the wharves, for the purpose of examining or ascertaining the quantities of the goods in them, or of detaining them for payment of tolls or other charges, or of giving effect to any of the bye-laws and rules passed by the Commissioners.

14. The hours for landing and shipping goods at the inland vessels' wharves shall be from 6 A.M. to 6 P.M. on all days, except Sundays and holidays authorized by the Commissioners; and no business shall be transacted on the wharves during the hours intervening between 6 P.M. and 6 A.M., nor on such Sundays and authorized holidays, except on payment of overtime or extra fees respectively.

Hours for landing and shipping goods.

15. When goods are to be landed or shipped inward or outward, authenticated challans showing the descriptions and exact quantities of the goods, shall be tendered to the cashier by applicants for the passes. On the data furnished in these challans the passes will be drawn up and the tolls levied. In the absence of such challans, or where reasonable doubts exist with regard to their genuineness or correctness, the calculation for levying the toll shall be based on the registered tonnage of the boats or vessels from which the goods are to be landed, or on which they are to be shipped.

Challans to be filled up.

16. Any person committing an infringement of any of the foregoing bye-laws shall be liable for the first offence to a fine not exceeding Rs. 100, and for a continuance of that offence, after notice shall have been given him by the Commissioners of his having committed the offence, to a further fine of Rs. 50 per diem.

Penalty for non-observance of bye-laws.

J. M. McNAIRN, *Col.*, R.E.,
Secretary to the Govt. of Bengal.

The 2nd February 1892.

No. 15*Marine.*—The subjoined draft of rules which the Local Government proposes to make under section 8 of the Petroleum Act, 1886, is published for general information, and it is hereby notified that the draft will be taken into consideration on the expiry of one month from this date.

Preliminary.

1. All words and expressions used in these rules, and defined in the Act, shall in these rules have the meanings respectively assigned to them by the Act.

Importation at Calcutta.

2. The master of every ship bound for Calcutta and carrying petroleum shall, before reaching Budge-Budge, declare in writing to the pilot,* if there is one on board,—

(*a*) what quantity of petroleum the ship is carrying,

(*b*) whether any, and if so what, part of the petroleum is dangerous petroleum.

If there is no pilot on board, the master of such ship shall, before reaching Budge-Budge, despatch a similar declaration to the address of the Vice-Chairman of the Port Commissioners.

3. A ship having petroleum on board may proceed to any mooring in the port and there discharge the petroleum—

(*a*) if the petroleum has come from a port in British India as part of a general cargo, and has been certified not to be dangerous under section 9 of the Act, and does not exceed five thousand gallons in quantity, or

(*b*) if the petroleum is dangerous petroleum not exceeding forty gallons in quantity, or

(*c*) if the petroleum is petroleum which is ordinarily used for lubricating or jute-batching purposes, and which has a flashing-point above 150° of Fahrenheit's thermometer:

Provided that the Commissioner of Police shall be entitled at any time to obtain a sample of any petroleum referred to in clause (*a*) or (*c*) for the purpose of having it tested.

4. Every other ship having petroleum on board shall not proceed upwards further than Budge-Budge, and such petroleum, whether landed at the petroleum wharf or otherwise discharged, shall be detained there pending the grant of an import license under section 5 of the Act, or the issue of a certificate under section 9 of the Act, or the issue by the Local Government of directions regarding it.

5. (1) When a ship is stopped at Budge-Budge under rule 4, the Superintendent of the Petroleum Wharf shall, as soon as possible, not exceeding forty-eight hours from the time of the petroleum being landed or discharged into boats, obtain samples of all the petroleum landed or discharged, or intended to be landed or discharged. The master shall deliver to the Superintendent without charge such samples as he shall take.

(2) Every different quality of petroleum shall be separately sampled, and when petroleum is represented to be of uniform quality, a sample shall be taken from one case in every ten thousand cases. When petroleum is imported in bulk, a sample shall be taken from each separate compartment of the ship.

(3) The Superintendent shall forthwith seal the receptacles containing the samples, and having labelled them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary, shall forward them to the Testing-officer appointed under section 9 of the Act for report.

---

* The pilot should deliver this declaration to the Harbour Master or his Assistant, when the latter comes on board, for transmission to the Vice-Chairman of the Port Commissioners.

6. The Testing-officer shall, as soon as practicable, and ordinarily within twenty-four hours after the receipt of the samples, sign a report certifying that they are, or are not, dangerous petroleum (as the case may be), and shall forward such report to the office of the Port Commissioners, sending also a copy of the same to the Commissioner of Police. The Vice-Chairman of the Port Commissioners shall, on receipt of such report, forthwith forward a copy of the same to the master of the ship in which the petroleum was imported.

7. Unless with the written permission of the Port Commissioners, no petroleum shall be discharged or landed within the Port of Calcutta, except between daylight and dark, and at the wharves expressly set apart for the landing of petroleum.

8. No smoking, fire or light of any description shall be allowed in any shed reserved for the storage of petroleum at the Budge-Budge wharf, or used by the Port Commissioners for the temporary storage of petroleum brought into the port under rule 3, and no receptacle containing petroleum shall be opened, or the contents drawn off, within the embankments enclosing the sheds constructed for the storage of petroleum, except in such special place or places in the depôt as may be set apart by the Port Commissioners for that purpose.

Importation at Chittagong.

9. The master of every ship bound for Chittagong and carrying petroleum shall, before reaching Jooldia, declare in writing to the pilot,* if there is one on board,—

(*a*) what quantity of petroleum the ship is carrying,

(*b*) whether any, and if so what, part of the petroleum is dangerous petroleum.

If there is no pilot on board, the master of such ship shall, at the first opportunity, despatch a similar declaration to the address of the Harbour Master.

10. A ship having petroleum on board may proceed to any mooring in the port and there discharge the petroleum—

(*a*) if the petroleum has come from a port in British India as part of a general cargo, and has been certified not to be dangerous under section 9 of the Act, and does not exceed five thousand gallons in quantity, or

(*b*) if the petroleum is dangerous or uncertificated petroleum not exceeding forty gallons in quantity, or

(*c*) if the petroleum is petroleum which is ordinarily used for lubricating or jute-batching purposes, and which has a flashing-point above 150° of Fahrenheit's thermometer:

Provided that the Collector of Customs shall be entitled at any time to obtain a sample of any petroleum referred to in clause (*a*) or (*c*) for the purpose of having it tested.

11. Every other ship having petroleum on board shall not proceed upwards further than Jooldia, and such petroleum shall be detained there pending the grant of an import license under section 5 of the Act, or the issue of a certificate under section 9 of the Act, or the issue by the Local Government of directions regarding it.

12. (1). When a ship is stopped at Jooldia under rule 11, the Collector of Customs shall, as soon as possible, not exceeding forty-eight hours from the time of the stoppage of the ship, obtain samples of all the petroleum landed or discharged, or intended to be landed or discharged. The master shall deliver to the Collector without charge such samples as he shall take.

(2). Every different quality of petroleum shall be separately sampled, and when petroleum is represented to be of uniform quality, a sample shall be taken from one case in every ten thousand cases. When petroleum is imported in bulk, a sample shall be taken from each separate compartment of the ship.

(3). The Collector shall forthwith seal the receptacles containing the samples, and having labelled them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary, shall forward them to the Testing-officer appointed under section 9 of the Act for report.

13. The Testing-officer shall, as soon as practicable, and ordinarily within twenty-four hours after the receipt of the samples, sign a report certifying that they are, or are not, dangerous petroleum (as the case may be), and shall forward such report to the office of the Port Commissioners, sending also a copy of the same to the Collector of Customs. The Vice-Chairman of the Port Commissioners shall, on receipt of such report, forthwith forward a copy of the same to the master of the ship in which the petroleum was imported.

14. Unless with the written permission of the Port Commissioners, no petroleum shall be discharged or landed within the Port of Chittagong, except between daylight and dark, and at the wharves expressly set apart for the landing of petroleum.

Importation at other Ports.

15. The master of every ship carrying petroleum shall, on entering a port in the Lower Provinces of Bengal, other than the Ports of Calcutta and Chittagong, give information of the quantity and description of the petroleum to the District Magistrate, and shall not allow any dangerous petroleum to be removed from the ship for delivery to any one person, except,

(*a*) if the petroleum exceeds forty gallons in quantity, upon the production by the consignee or his agent of a license under section 5 of the Act for the importation of the same, or

* The pilot should deliver this declaration to the Harbour Master or his Assistant when the latter comes on board.

(*b*) if the petroleum does not exceed forty gallons in quantity, upon the production by the consignee or his agent of a license under section 6 for the transport or possession of the same, or

(*c*) if the petroleum does not exceed 3 gallons in quantity, in accordance with the conditions of the proviso to section 6 of the Act as to the vessels in which petroleum of that quantity when kept or transported without a license must be contained.

General.

16. The fee for sampling and testing petroleum shall be five rupees for each sample tested.

17. When the results of the testing of samples raise a doubt as to the uniformity of the quality of the petroleum in any consignment stated to be of one uniform quality, the Testing-officer, if he thinks further tests necessary to satisfy him that none of the petroleum is dangerous petroleum, shall inform, in Calcutta, the Superintendent of the Petroleum Wharf; in Chittagong, the Collector of Customs; or, in places other than Calcutta and Chittagong, the District Magistrate.

The District Magistrate, or, in Calcutta, the Superintendent of the Petroleum Wharf, or, in Chittagong, the Collector of Customs, or any police officer of, or above, the rank of head-constable appointed by him in writing for the purpose, shall thereupon cause the petroleum in question to be landed and stacked in lots of one thousand cases each, or to be discharged into boats each containing five hundred cases; and he shall select and deliver to the Testing-officer one sample from each lot. The result of the testing of each of these samples shall determine the quality of the lot which such sample represents.

If the petroleum has been already landed and stored, it shall be divided into lots, and samples of each lot shall be selected as already stated.

18. Nothing in the foregoing rules applies to petroleum other than dangerous petroleum comprised in a ship's stores, and manifested as such, provided it is not of unreasonably large amount. If any question arises as to whether any petroleum, manifested as ship's stores, is of an unreasonably large amount, the decision thereon of the Port Commissioners in Calcutta or Chittagong, and of the District Magistrate elsewhere, shall be final.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

The 2nd February 1892.

No. 16*Marine.*—The subjoined draft of rules which the Local Government proposes to make under section 11 of the Petroleum Act, 1886, is published for general information, and it is hereby notified that the draft will be taken into consideration on the expiry of one month from this date.

Preliminary.

1. THESE following rules shall extend, so far as they apply to dangerous petroleum, to all the territories administered by the Lieutenant-Governor, and, so far as they apply to other petroleum, only to those local areas to which the rest of the Act has, for the time being, been extended by a notification of the Local Government under section 1, sub-section (3), of the Act.

2. In these rules, including the forms annexed thereto,—

(1) all words and expressions defined in the Act shall have the meanings respectively assigned to them in the Act;

(2) "the town of Calcutta" means all places within the local limits of the original civil jurisdiction of the High Court of Judicature at Fort William in Bengal: and

(3) "the municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Consolidation Act, 1888.

Possession of Petroleum.

3. Licenses for the possession of petroleum within the town of Calcutta shall be granted only when (1) the quantity of petroleum to be kept in one place does not exceed 50,000 gallons, and (2) the place intended to be used for the keeping of the petroleum fulfils the following conditions, namely:—(*a*) if the quantity of petroleum to be kept in the place does not exceed 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than two feet above the level of the road or street, or the floor shall be sunk at least two feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire; (*b*) if the quantity of petroleum to be kept in the place exceeds 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than three feet above the level of the road or street, or the floor shall be sunk at least three feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire, and there shall be a clear open space of at least twenty feet round the building.

4. Licenses for the possession of petroleum outside the town of Calcutta shall, if the quantity of petroleum to be kept in the place does not exceed 50,000 gallons, be granted on the same terms as those granted in the town of Calcutta for the possession in one place of not more than 5,000 gallons. If a license for the possession in one place of a larger quantity than 50,000 gallons be required, the license shall be granted on the same conditions as those granted in the town of Calcutta for the possession in one place of petroleum exceeding in quantity 5,000 gallons: provided that, if the place in which the petroleum is to be kept is situated within one hundred yards of the river Hooghly or Tolly's Nullah, or the Circular Canal, the building shall further be surrounded by a wall or earthen embankment not less than four feet high with a trench close to, and completely surrounding, the building, of sufficient capacity to hold all the petroleum stored, and to prevent its escape beyond the limits of the trench in case of fire.

5. Notwithstanding anything in the foregoing rules numbered 3 and 4, respectively, the Local Government may in its discretion, and subject to such conditions as it may prescribe, grant a license for the possession of any stated quantity of petroleum in a place specially prepared for the storage of petroleum in bulk in accordance with plans and specifications approved by the Local Government.

6. The District Magistrate, or in the town of Calcutta the Commissioner of Police, or any police officer of, or above, the rank of head-constable appointed by him in writing for this purpose, may enter any place in respect of which a license for the possession of petroleum has been granted, for the purpose of inspecting the same at any time after sunrise and before sunset.

7. The District Magistrate, Commissioner of Police, or any police officer as aforesaid, may require a sample to be delivered to him from any receptacle containing petroleum stored in any licensed premises. The procedure prescribed in sections 12 and 13 of the Act shall apply to any demand for samples made under this rule and to the testing of such samples.

8. The following fees shall be charged for licenses for the possession of petroleum under the Act in places situated within the municipalities of Calcutta and Howrah, respectively:—

	Rs.	
Licenses for the possession of dangerous petroleum—		
When the quantity to be stored exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons	5	
When the quantity to be stored does not exceed 40 gallons (section 6)	3	
Licenses for the possession of other petroleum—		
When the quantity to be stored exceeds 500, but does not exceed 1,000 gallons	12	
When the quantity to be stored exceeds 1,000 gallons but does not exceed 5,000 gallons	2	extra for each 1,000 gallons or part of 1,000 gallons in excess of 1,000 gallons.
When the quantity to be stored exceeds 5,000 gallons	4	for every (additional) 1,000 gallons or part of 1,000 gallons, in excess of 5,000 gallons.

9. The fees for licenses for the possession of petroleum in places situated beyond the limits of the municipalities of Calcutta and Howrah shall be half those prescribed in rule 7.

10. Every license for the possession of petroleum in any place shall specify the maximum quantity of petroleum which may be stored in that place.

11. Licenses for the possession of petroleum shall be in force for one year from the date of the grant of the license: provided that the licensing officer or the Local Government may at any time, for good and sufficient reason, cancel a license.

12. Any sheds on the land belonging to the Commissioners of the Port of Calcutta and appertaining to the Budge-Budge petroleum depôt, and any sheds used by the Port Commissioners for the temporary storage of petroleum brought into the port of Calcutta under rule 3 of the rules made by the Lieutenant-Governor of Bengal under section 8 of the Act, shall be deemed to be places in respect to which licenses for the possession of petroleum have been granted under these rules.

13. Any tank or other receptacle for the storage of petroleum in bulk that may be erected on the land belonging to the Commissioners of the Port of Calcutta, and appertaining to the Budge-Budge petroleum depôt, shall be deemed to be a place in respect of which a license for the possession of petroleum has been granted under these rules.

Transport of petroleum.

14. (1) Licenses for the transport of petroleum other than dangerous petroleum in quantities exceeding 500 gallons may be either general or special. Licenses for the transport of dangerous petroleum shall be special only.

(2) Licenses for the transport of petroleum other than "in bulk" shall only be granted if the petroleum to be transported is packed in air-tight tins or other vessels not easily broken, or is contained in bottles securely stopped and carefully packed so as to avoid risk of breakage.

(3) Licenses for the transport of petroleum in bulk by railway may be granted if the petroleum is contained in waggons approved by the Railway Administration over whose line it is proposed to transport it.

(4) Licenses for the transport of petroleum in bulk by steamer or barge may be granted if the vessel is certified to be fit for the service by an officer appointed by the Local Government in this behalf.

15. General licenses for a period of twelve months shall be issued for transport by cart only. Such licenses shall authorise the holders to transport by cart any petroleum *bond fide* their own property without restriction as to destination or quantity.

16. The holder of a general license shall with each consignment of petroleum conveyed under cover of his license issue a pass in Form F appended to these rules, specifying the places from and to which the petroleum is to be conveyed, and the quantity of petroleum covered by it. Each pass shall be numbered, and the number of the general license shall be legibly marked on a conspicuous part of the last case on the cart.

17. Special licenses for the transport of petroleum shall be in force for such period not exceeding six months from the date of the grant of the license as may be specified in the license.

18. (1) Every special license for the transport of petroleum shall specify the places from and to which respectively the petroleum is to be conveyed, the quantity of petroleum covered by the license and the time for which the license is in force.

* (2) Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipore.

* NOTE.—This rule shall not be read as prohibiting the conveyance by water between Garden House and Cossipore of petroleum which is brought under a license from beyond the limits of Calcutta or Howrah, and is not intended to be landed within those limits.

19. Applications for special licenses for the transport of petroleum by rail, by cart, by boat or by steamer, or by two or more of these modes of conveyance, shall specify the description and quality of petroleum to be transported, and the places from and to which respectively the petroleum is to be conveyed, and shall describe the receptacles in which it is to be contained. In the case of applications for licenses for the transport of dangerous petroleum under section 5 of the Act, the application shall also contain the particulars required by sub-section (2) of that section.

20. When a license has been granted under these rules for the transport of petroleum, the District Magistrate, or, in the town of Calcutta, the Commissioner of Police, or any police officer of, or above, the rank of head-constable, appointed by him in writing for this purpose, may, at any time after sunrise and before sunset, and on or before the arrival of the petroleum at its place of destination, board any steamer or boat, or detain any cart, used for such transport, for the purpose of inspecting the license and seeing whether its provisions are being complied with.

21. The following fees shall be charged for licenses for the transport of petroleum under the Act:—

	Rs.
Licenses for the transport of dangerous petroleum—	
When the quantity to be transported exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons ...	4
When the quantity to be transported exceeds 3 gallons, but does not exceed 40 gallons (section 6)	2
Special license for the transport of other petroleum—	
When the quantity to be transported exceeds 500, but does not exceeds 5,000 gallons	1
For every additional 5,000 gallons or a part of 5,000 gallons ...	1
General license for the transport of petroleum by cart for twelve months	100

General.

22. Licenses for the possession or transport of dangerous petroleum in quantities exceeding 40 gallons will be granted, subject to the provisions of section 5 of the Act, under the signature of an Under-Secretary to the Government of Bengal, on the recommendation of the Commissioner of Police if the application for the license is made in the town of Calcutta, or of the Commissioner of the Division if the application is made elsewhere.

Applications for such licenses should be made through the Commissioner of Police, Calcutta, or the Divisional Commissioner, as the case may be.

23. Licenses for the possession or transport of dangerous petroleum in quantities not exceeding 40 gallons, and licenses for the possession or transport of other petroleum, will be granted in the town of Calcutta by the Commissioner of Police or Deputy Commissioner of Police, at Budge-Budge by the Superintendent of the Petroleum wharf, and elsewhere by the District Magistrate or by such other officer as the Local Government may from time to time, by an order in writing, appoint in this behalf.

24. Subject to the restrictions contained in section 5 of the Act and rules 3 and 4 of these rules, the licensing officer may, in his discretion, grant a license for the possession or transport of such quantity of petroleum as he thinks fit.

25. Licenses granted under these rules shall be in the forms and shall have endorsed on them the rules and conditions respectively prescribed for them in the schedule hereto annexed. Every such license shall, on the breach of any such condition, be liable to be forfeited.

26. Every application for the renewal of a license shall be made in the same manner as an application for an original license. Every such application shall be made at a date not less than fifteen days before the date on which the original license expires. The same fee shall be charged for the renewal of a license as for a new license.

SCHEDULE.

FORM A.

License to possess dangerous Petroleum to be granted under Section 5 or Section 6 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby granted to for the storage, in the place described below, of gallons of dangerous petroleum, subject to the rules and conditions on the back of this license.

Description of place above referred to.

Under-Secretary to the Government of Bengal.

Commissioner or Deputy Commissioner of Police, or District Magistrate, or Superintendent of the Petroleum Wharf at Budge-Budge ... } When the amount of petroleum does not exceed 40 gallons.

ENDORSEMENT ON FORM A.

Rules.

[Here enter rules 1 to 13 (inclusive) and 22 to 26 (inclusive) under section 11 of the Act.]

Conditions.

1. All petroleum in the licensed place shall be contained in vessels labelled in accordance with section 7 of the Act.

2. No goods of a combustible nature shall be stored in the licensed place.

3. No cask or other receptacle containing petroleum shall be opened, or the oil drawn off, within the building in which the petroleum is stored.

4. No smoking, light or fire in any form shall be permitted at any time within such building.

5. The license-holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or 6 of the Act, or any less quantity of such petroleum, except in accordance with the conditions of the proviso to section 6 of the Act as to the vessels in which the petroleum must be contained.

FORM B.

License to possess Petroleum other than dangerous Petroleum to be granted under Section 10 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby granted to for the storage, in the place described below, of cases containing gallons of petroleum, subject to the rules and conditions on the back of this license.

Description of the place above referred to.

The 189 . *Commissioner or Deputy Commissioner of Police.*
District Magistrate.
Superintendent of Petroleum Wharf at Budge-Budge.

ENDORSEMENT ON FORM B.

Rules.

[Here enter rules 1 to 13 (inclusive) and 22 to 26 (inclusive) under section 11 of the Act.]

Conditions.

1. No goods of a combustible nature shall be stored in the licensed place.

2. No cask or other receptacle containing petroleum shall be opened, or the oil drawn off, within the building in which the petroleum is stored.

3. No smoking, light or fire in any form shall be permitted at any time within such building.

FORM B1.

License to possess Petroleum other than dangerous Petroleum to be granted under Section 10 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby granted to for the storage, in the place described below, of gallons of petroleum, subject to the rules and conditions on the back of this license.

Description of the place above referred to.

The 189 . *Under-Secretary to the Government of Bengal.*

ENDORSEMENT ON FORM B1.

Rules.

[Here enter rules 1 to 13 (inclusive) and 22 to 26 (inclusive) under section 11 of the Act.]

Conditions.

(Here enter such conditions as the Local Government has prescribed under rule 5.)

FORM C.

Special License to transport dangerous Petroleum granted under Section 5 or Section 6 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby given to of to transport cases containing in all gallons of dangerous petroleum from to , subject to the rules and conditions on the back of this license, and by the following route, namely—

The amount of petroleum in each case is stated below.

This license shall continue in force till the day of 189 .

Under-Secretary to the Government of Bengal.

Commissioner or Deputy Commissioner of Police.
District Magistrate.
Superintendent of the Petroleum Wharf at Budge-Budge.

} In the case of the transport of dangerous petroleum in amount not exceeding 40 gallons.

ENDORSEMENT ON FORM C.

Rules.

[Here enter rules 1, 2, and 14 to 26 (inclusive) under section 11 of the Act.]

Conditions.

1. The petroleum shall be contained in vessels labelled in accordance with section 7 of the Act.

2. The petroleum shall be carried (here describe mode or modes of conveyance).

3. When the petroleum is carried by steamer, it shall be stowed in such part of the steamer and in such manner as may be approved by the licensing officer, or any officer appointed by him in writing in this behalf.

4. When the petroleum is carried by rail, it shall be subject to all the regulations which may, from time to time, be prescribed generally or specially in that behalf by the Railway authorities of the line or lines over which it may be conveyed.

5. When the petroleum is being carried by boat, no smoking, fire or light of any description shall be allowed in the boat so long as it is within the limits of the port of Calcutta or of the municipalities of Calcutta and Howrah. The boat conveying the petroleum should also, from sunrise to sunset, show at its stern a red flag, 18 inches long and 12 inches broad, having the words "Petroleum Boat" marked on it in black letters.

6. When the petroleum is carried by cart, the cart conveying the petroleum shall not move after sunset or before sunrise, or carry any light.

7. The license-holder is prohibited from delivering any quantity exceeding three gallons to any one who has not a license under section 5 or 6 of the Act, or any less quantity of petroleum, except in accordance with the conditions of the proviso to section 6 of the Act as to the vessels in which the petroleum must be contained.

III.—Other Holidays.

The second day following Christmas Day ..... 27th December.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 28th January 1892.

The following Rule, amending the rules as to the qualification, admission and certificates, &c., of Pleaders and Mukhtyars in Courts subordinate to the High Court, having been framed by the High Court of Judicature at Fort William in Bengal under section 6 of the Legal Practitioners' Act (XVIII of 1879), is published for general information.

H. W. C. CARNDUFF, *Registrar.*

(CIVIL.)

Rule No. , dated January 1892.

To Rule 21, Chapter VII, Part II, at page 384 of the General Rules and Circular Orders (Civil), *add* the following:—

Should a candidate be refused admission to the examination for reasons for which he is held by the Board not to blame, the fee paid by him will be refunded on a written application accompanied by a certificate from the Secretary to the Board to that effect.

NOTIFICATION.

The 28th January 1892.

The accompanying Circular Order, prescribing an additional column for certain of the Registers which are maintained in Civil Courts in Bengal and Assam, having been drawn up by the High Court of Judicature at Fort William in Bengal under section 15 of the Statute 24 and 25 Vic., Chap. 104, and sanctioned by the Governor-General in Council, is published for general information.

H. W. C. CARNDUFF, *Registrar.*

(CIVIL.)

No. , *dated* *January* 1892.

To Primary Registers Nos. 1 and 2 [*vide* Chapter VI, page 231 of the Rules and Orders (Civil), 1891], *add* a column headed as follows:—

	REMANDS.	
	Date or dates, if any, on which the case was remanded.	
	27	

At the foot of each of the Primary Registers Nos. 3 to 17 [*vide* Chapter VI, pages 232 and 245 of the Rules and Orders (Civil), 1891], *add* the following foot-note:—

Note.—In the column for remarks shall also be entered the date of each remand granted.

NOTIFICATION.

The 2nd February 1892.

THE accompanying Circular Order on the subject of the preparation of the periodical returns of Subordinate Civil Courts in Bengal and Assam, having been framed by the High Court of Judicature at Fort William in Bengal, under section 15 of Statute 24 and 25 Vic., Chapter 104, and sanctioned by the Governor-General in Council, is published for general information.

H. W. C. CARNDUFF, *Registrar.*

CIVIL.

No. , *dated* *February* 1892.

After Rule 2, clause (y), Chapter VI, at page 295 of the General Rules and Circular Orders (Civil), *insert* the following:—

(z) In compiling the various statements giving details of pending suits, applications, appeals, etc., the calculation should in all cases be made from the date of institution. If a case has been transferred from one Court to another, advantage should be taken of the column in the return for "Explanations and Remarks," to show the extent to which the particular Court immediately concerned is responsible for any delay which, under the rules, requires explanations.

Dates of Criminal Sessions for the year 1892.

Number of sessions.	Day of the week.	Date.
First Sessions	Monday	22nd February.
Second ,, ...	,, ...	2nd May.
Third ,, ...	,, ...	11th July.

Dates of the fourth and fifth Sessions will be notified hereafter.

By order,

J. G. APCAR, *Clerk of the Crown.*

HIGH COURT, CROWN OFFICE, *the 28th January* 1892.

TREASURY NOTICE.

DEPUTY COLLECTOR MOULAVIE SYED MOHAMED has been placed in charge of the Rajshahye Treasury from 21st January 1892, and authorised to draw bills on other treasuries.

By order.

HARIMOHAN CHANDRA, *Personal Assistant.*

COMMR's OFFICE, RAJSHAHYE DIVN, JULPIGOREE, *the 29th January* 1892.

EDUCATION DEPARTMENT, BENGAL.

Text-Books in Middle Schools.

THE Central Text-Book Committee are now about to revise the list of text-books authorised for use in Middle Schools, which was published in the *Calcutta Gazette* of the 15th July, 1891. As objections have been raised in different quarters to some of the books in this list, all persons interested in the subject are invited to communicate with the Text-Book Committee, stating what books they consider open to objection, and specifying the particular passages or portions to which they object. Criticisms of different books should be written on separate pieces of paper, so that all the notices of each book derived from different sources may be filed together. The edition of the book criticised should be stated.

Authors and publishers of books on the authorised list are invited to send to the Committee five copies of the latest edition of their works, if recent alterations or improvements render such a course in their opinion desirable.

All communications should be addressed to the Secretary, Central Text-Book Committee, 4, Dalhousie Square, Calcutta, and should reach him by the 7th April, 1892.

A. CROFT,

Director of Public Instruction.

The 29th January, 1892.

Subordinate Educational Service.

The 21st January 1892.—Babu Nava Kumar Chakravarti, Temporary Teacher in the Civil Engineering College, Seebpore, is appointed temporarily to be Teacher of Engineering in the Apprentice Department of the same institution, and substantively *pro tempore* to class V, during the absence, on leave, of Babu Surendra Kumar Bose, or until further orders.

The 23rd January 1892.—Mr. E. A. Lefeuvre, B.A., Head Master of the Monghyr Zillah School (class IV), was absent on leave for ten days, under article 369 of the Civil Service Regulations, with effect from the 21st September 1891.

The 26th January 1892.—Babu Rajkrishna Mitra, First Assistant in the Physical Laboratory of the Presidency College (class V), is allowed leave of absence for four months, under article 369 of the Civil Service Regulations, with effect from the 5th January 1892.

The 28th January 1892.—Babu Bindu Lal Banerjea, B.A., Second Master of the Monghyr Zillah School (class VI), is allowed leave of absence for one month, under article 369 of the Civil Service Regulations, in extension of that granted to him under the orders of the 2nd October 1891.

The 29th January 1892.—Babu Priya Nath Roy, B.A., Second Master of the Khoolna Zillah School, is appointed to be Head Master of the Chaibassa Zillah School, and to class VI, with effect from the 1st January 1892, or any subsequent date not later than the 1st of February next, *vice* Babu Purna Chandra Ghosh, deceased.

The 30th January 1892.—Babu Sadhu Charan Sil, Fourth Master of the Dacca Collegiate School, class VI, acted in class V from the 25th September to the 18th December 1891, both days inclusive, *vice* Babu Rajani Kanta Ghosh, promoted.

Babu Dwarka Nath Bose, Sixth Master of the Dacca Collegiate School, acted in class VI from the 25th September to the 18th December 1891, both days inclusive, *vice* Babu Sadhu Charan Sil, promoted.

The 1st February 1892.—The services of Babu Ishan Chandra Ghosh, M.A., Deputy Inspector of Schools, Calcutta (Class V), were placed at the disposal of this office on special duty from the 3rd November to the 2nd December 1891, both days inclusive.

Babu Kiran Chandra Banerjea, B.A., Sub-Inspector of Schools, Calcutta, acted as Deputy Inspector of Schools, Calcutta, and in class VI, from the 3rd November to the 2nd December 1891, both days inclusive, during the absence, on deputation, of Babu Ishan Chandra Ghosh.

The 2nd February 1892.—Babu Jagadis Chandra Sen, M.A., Lecturer in the Dacca College (Class V), is allowed leave of absence for three months under article 372 of the Civil Service Regulations in extension of that granted to him under the orders of the 2nd December last.

A. CROFT, *Director of Public Instruction.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 112B.

NOTICE is hereby given that the Third Sale of Opium, the Provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 2nd March 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 28th January 1892.

No. 156.—The Governor-General in Council is pleased to direct that the following rule shall be substituted for Rule 5 of the rules published in Home Department Resolution No. 1817, dated the 3rd July 1888, for the regulation of appointments in the Secretariat Clerical Service of the Government of India and attached Offices:—

5. Every candidate for an appointment in the Upper or Lower Division must send a written application for permission to appear at the examination to the Secretary to the Board of Examiners between the date of issue of the notification announcing the number of vacancies to be competed for, to which reference is made in Rule 7 of the rules, and the 15th December (inclusive).

ESTABLISHMENT.

The 26th January 1892.

No. 65.—The services of Mr. A. F. Steinberg, Indian Civil Service, Assistant Commissioner, Assam, are placed at the disposal of the Government of Bengal with effect from the date of the expiration of his furlough.

JUDICIAL.

The 27th January 1892.

No. 122.—In exercise of the power conferred by section 5 of the Indian Factories Act (XV of 1881), as amended by Act XI of 1891, the Governor-General in Council is pleased to prescribe a fee of 4 annas as the fee payable to a certifying Surgeon by a person employed, or desirous of being employed, in a Factory for examining him and granting him a certificate in accordance with the provisions of that section.

J. P. HEWETT,
Offg. Secretary to the Govt. of India.

The following order, issued by the Government of India in the Military Department, is republished for general information.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

Fort William, the 29th January 1892.

RETIREMENT.

No. 104.—Colonel William Hopkinson, General List, Infantry, Cantonment Magistrate, first class, Bengal, has been permitted to retire from the service with effect from the 30th January 1892, subject to Her Majesty's approval.

E. H. H. COLLEN,
Secretary to the Government of India.

The Calcutta Gazette.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 27th January 1892.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr. M. H. Arnott and Babu Luchmee Narayan Jugdeb, to be Commissioners of the Kendraparah Municipality in the district of Cuttack, *vice* Babu Jadunath Sen, retired, and Babu Jogendro Nath Mukherjea who has ceased to be a Commissioner under section 20 of the Act.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 28th January 1892.—It is hereby notified that the Lieutenant-Governor is pleased, in the exercise of the power conferred on him by section 35 of the Bengal Ferries Act I (B.C.) of 1885, to direct that the ferry named in the margin, which is situated in the district of Rungpore, shall be managed by the District Board of Rungpore, and that all the proceeds of such ferry, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the district fund with effect from the date of the establishment of the ferry.

Ferry at Chitolia on the river Dudkumar between Jatrapore and Jhunkarchar.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th January 1892.—Whereas a notification, dated the 29th October 1891, was published at page 305, Part IB of the *Calcutta Gazette* of the 4th November 1891, declaring the Lieutenant-Governor's intention to sanction, under section 86 of the Bengal Municipal Act III (B.C.) of 1884, the levy, by the Commissioners of the Madhubani Municipality in the district of Durbhunga, of a fee, under section 143, on the registration of carts kept or habitually used within the Municipality, and whereas no reasons have been shown to the contrary, it is notified for general information that the Lieutenant-Governor hereby sanctions the levy, by the Commissioners of the Madhubani Municipality, of the fee on the registration of carts at the rates not exceeding those mentioned in section 143.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th January 1892.—It is hereby notified that the Commissioners of the Arrah Municipality, in the district of Shahabad, having at a meeting requested the Local Government to appoint a Chairman, the Lieutenant-Governor is pleased to appoint, under sections 23 and 27 of Act III (B.C.) of 1884, Mr. J. H. Bernard to be the Chairman of that Municipality, *vice* Babu Siv Saran Lal, B.A., B.L., resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd February 1892.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Colonel C. H. Garbett to be the Chairman of the Hazaribagh Municipality, *vice* Mr. C. J. S. Faulder, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd February 1892.—It is hereby notified that, in the exercise of the powers vested in him by section II of Act XXXVI of 1858, the Lieutenant-Governor has been pleased to direct that the words "when exercising powers of the first class" be inserted after the words "Cantonment Magistrate" in rule 13 of the Rules for the control and management of Lunatic Asylums in Bengal.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd February 1892.—It is hereby notified that, under sections 23 and 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr. H. A. Boyd, Sub-divisional Officer, to be the Chairman of the Kendraparah Municipality in the district of Cuttack, *vice* Mr. H. H. Heard, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd February 1892.—It is hereby notified that, under section 2, Act IV (B.C.) of 1871 (the Pooree Lodging-House Act), as amended by Act II (B.C.) of 1879, the Lieutenant-Governor is pleased to appoint Assistant Surgeon Abinash Chander Chatterjee to be Health Officer under the said Act at Sitakund, in the district of Chittagong.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

Falakata Fair.

NOTICE.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on February 3rd, 1892 (A.D.), corresponding with 21st Magh 1298 (B.S.), and will continue up to February 18th, 1892. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri-horns, yak-tails, musk, honey, wax, lax, ponies, and various other articles from Bhootan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojnai very conveniently for river traffic from East Bengal, viz. Dacca, Goalundo, Serajgunge, Manikgunge, &c., and within easy reach of Jalpaiguri and Cooch Behar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shop-keepers and special police arrangements for safety of property and goods exist. Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE,
Sub-Divisional Officer, Alipur Duars.

Each of the Madras, Bombay and Allahabad Series ...	1	0	0	1	0	0

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically

according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

The Shargi Architecture of Jaunpur, with Note on Zafarabad, Sahet-Mahet, and other places in the N.W. P. and Oudh. By A. FUHRER, Ph. D. with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1)
